

# 2011 Census Estate and Settlement Profiles

[www.mkiobservatory.org.uk](http://www.mkiobservatory.org.uk)

## Part 1 (Ashland – Lavendon)

## **Introduction**

This document provides a statistical profile of each estate and settlement in Milton Keynes from data released via the 2011 Census. The profiles include data for the estate and a comparison to Milton Keynes Borough figures.

Full 2011 Census tables for estates and settlements in Milton Keynes can be found on the MKi Observatory via the link below:

<http://www.mkiobservatory.org.uk/page.aspx?id=1924&siteID=1026>

## **Methodology**

The 2011 Census data was not released at estate level by the Office for National Statistics. The Research and Intelligence team at Milton Keynes Council therefore added together Output Area (the smallest census geography) data to provide an estimate at estate level. As Output Areas (OAs) boundaries and estate boundaries do not always match, the data for OAs is weighted to estates. The data in the profiles should therefore be seen as estimates based on 2011 Census data rather than actual figures. Full information on the methodology used to estimate the data at estate level can be viewed here:

<http://www.mkiobservatory.org.uk/document.aspx?id=10215&siteID=1026>

Full definitions and information on the methodology of the 2011 Census can be viewed on the Office for National Statistics website:

<http://www.ons.gov.uk/ons/guide-method/census/2011/census-data/2011-census-user-guide/index.html>
