## Foreword

### Foreword from Dr D. Gray, Deputy Director of Public Health

Neighbourhoods are complicated places and no two are the same, in looks, feel or atmosphere. It is difficult to catch the true character of an area in numbers, but there are some indicators that can at least start to paint a picture.

Now in its seventh year, the Social Atlas collates and monitors a wide range of these social and economic indicators to provide a broad brush picture for each estate and settlement in the borough.

This annual snap-shot of the situation in terms of education, income, community safety and health and disability can start to help us understand better the rich tapestry of different communities that exist in Milton Keynes.

The information in this Social Atlas will be of interest and use to every agency and organisation that works with communities in Milton Keynes, as well as to the communities themselves.

I trust you will find the 2008 Social Atlas of Milton Keynes a useful resource and tool.

**Dr Diane Gray**  
**Deputy Director of Public Health**

## Executive Summary

Milton Keynes as a whole is relatively affluent and most people enjoy a good quality of life but significant numbers of residents experience disadvantage in one or more categories. In the Social Atlas these are divided into indicators around income; children & education; older people; community factors and health & disability.

- **Income**

On average 197 out of 1,000 population in Milton Keynes get housing or council tax benefit, a means tested benefit. The highest rate is 561 out of 1,000 in Beanhill.

- **Children & Education**

There are seven indicators in this category covering a diverse range of topics affecting children. They include family referrals to Children's Social Care where the data could not be updated from last year. Numbers of children getting free school meals is a traditional indicator of disadvantage that shows a large variation across estates. The average is 11% of pupils with the highest, 40%, in Granby.

As educational attainment has a strong association with future disadvantage, the remaining 3 indicators focus on this. To try to estimate the proportion of young people not going into higher education we look at the proportion of 18-24 year olds not getting student awards. The average across Milton Keynes is 86% but the highest can be found in Netherfield where 98% of young people are not in receipt of student awards. The remaining indicators look at educational attainment in schools. Firstly, the proportion attaining below level 4 in Key Stage 2 English. Milton Keynes average is 235 per 1,000 pupils, with great variation across estates. The English average is 200 per 1,000. Performance has improved since introduction of the tests. In 1997, nationally 37% of pupils were failing to reach level 4, and 41% of pupils in Milton Keynes. The second of these indicators assesses the proportion of pupils gaining less than 5 GCSEs at grade A\*-C, for the first time including Mathematics and English. The Milton Keynes average is 610 per 1,000 pupils, the highest is 1,000 in 5 estates. The English average is 532 per 1,000 pupils.

- **Older People**

On average 78 out of 1,000 pensioners are clients of Older People's Services.

- **Community Factors**

Community factors include those affecting how people feel about their home environment. There are several different factors in this category including domestic fires; categories of recorded crime; tenure; neighbour complaints and a measure of community involvement.

Domestic fires have been found to correlate strongly with disadvantage. Looking over a rolling 5-year period, on average there were 10 fires per 1,000 dwellings in Milton Keynes from 2002 to 2007. The highest was 70 per 1,000 dwellings in Granby. Crime data has been included for violent crime, burglaries and criminal damage. The highest rates of both violent crime and criminal damage occur in Central Milton Keynes because of the high visitor population.

Considering neighbour complaints to Environmental Health: on average there were 18 complaints per 1,000 dwellings, the highest rate was in Peartree Bridge with 57 complaints per 1,000.

- **Health & Disability**

There are 6 health and disability indicators listed in the grid profiles, although only 4 of these are used in the calculation of the overall rankings. Teenage conceptions: on average there were 52 conceptions per 1,000 girls aged 15 to 19. The numbers are small so a 2-year average time period is considered. Disabled concessionary fares and clients of disabled services are included as pointers towards areas where the population has a greater need for support. Some of the variations in these factors are explained by the dominant style of dwelling in the estate, for example more bungalows.

The final 3 indicators focus on hospital activity. The emergency admission rate was 96 per 1,000 population per year. Granby has the highest rate of 244 per 1,000. Non-emergency hospital admissions were included for information; this indicator was not included in the overall rankings. Visits to accident and emergency were also included in the estate profiles for the first time this year.

## Introduction

The purpose of this series of documents is to enable people working towards Social Inclusion to identify:

- the most significant social inclusion issues
- geographic concentrations of need
- the relative severity of social exclusion compared with other areas and the national picture
- a snapshot position
- geographic areas and issues where development of services and initiatives might be focused
- measure change

and to prompt discussion on possible causes of inequality and suggestions for actions to achieve improvement.

The data used are primarily locally collected data, intended to highlight areas with a high need for public services. Earlier work included developing a framework to structure information gathering, along the lines of those used by the government in “Opportunity for All” and by bodies such as the Joseph Rowntree Trust. The framework has the following categories:

- income
- children
- young adults
- adults aged 25 to retirement
- older people
- community factors
- health and disability

The indicators included this year are directly comparable, with the only difference being the inability to get family referrals data due to a change in computer systems. This should be resolved by next year.

The ideals restricting choices for indicators are that:

- they should be capable of being collected at ward and/or below ward level
- they should be commonly available across all local authorities
- they should allow for national comparisons
- they should have an acknowledged relationship with disadvantage.

Useful developments since the first document have been:

1. The setting up of the Office for National Statistics website for the Neighbourhood Statistics Service. Extensive amounts of data, from the 2001 census and other administrative data sources, are available at local level at no cost.  
The site can be found at <http://www.statistics.gov.uk/neighbourhood-statistics.asp>
2. The development and updating of the Index of Multiple Deprivation, a multi-dimensional indicator available to lower-super output area level, published in 2000, 2004 and 2007.
3. The development of floor targets as measures of authority-wide moves to narrow the gap between deprived areas and the national average
4. The development of the Milton Keynes Observatory, a web-based data resource to share, map and visualise data. The web site can be found at: [www.mkiobservatory.org.uk](http://www.mkiobservatory.org.uk)

## Local Authority Level Data

### Floor Targets 2008

Floor targets are indicators aimed at helping government and councils to narrow the gap between deprived areas and the national average in terms of health, education, crime, employment and housing. They will also identify areas where progress is not being made. They will enable all those involved in neighbourhood renewal to identify priority areas, monitor progress and compare themselves with others.

The table below outlines how Milton Keynes compares to the national and regional average. Data coloured in red indicates Milton Keynes data is worse than the national average.

Table 1: Floor Targets 2008, Milton Keynes, South East and England

Indicator	Milton Keynes	England	South East
<b>Economic</b>			
Overall employment rate 2007	81.6	74.6	78.6
Employment rate of lone parents 2004/5	65.7	50.2	56.6
Employment rate of ethnic minorities 2004/5	67.9	58.9	68.7
Employment rate of those aged 50 and over (to 69) 2004/5	63.8	54.6	59.4
Employment rate of those with the lowest qualifications 2004/5	57.4	50.1	55.7
Self Employment Rate 2005/6	9.3	12.7	13.5
Enterprise: VAT registrations per 10,000 adults 2006	49.3	38.8	43.1
Measure of productivity 2001/2	19,178	15,585	20,336
<b>Crime</b>			
Burglary: offences per 1,000 households 2006/7	12.8	13.4	9.7
Vehicle crime: offences per 1,000 population 2006/7	18.1	13.0	10.8
Robbery: offences per 1,000 population 2006/7	1.6	1.9	0.8
Overall crime rate (recorded crime BCS Comparator) 2006/7	75.9	61.1	53.6
<b>Education</b>			
% of 16 year olds achieving 5+ GCSEs grades A*-C 2006/7	52	62	62
% of 11 year olds achieving Key Stage 2 Level 4 English 2006/7	77	80	81
% of 14 year olds achieving Key Stage 3 Level 5 English 2006/7	74	74	76
<b>Health</b>			
Male life expectancy at birth 2004-6	77.4	77.3	78.5
Female life expectancy at birth 2004-6	80.9	81.6	82.4
Mortality rate: circulatory diseases 2004-6	84.6	84.2	70.2
Mortality rate: cancer 2004-6	124.6	117.1	109.8
Mortality rate: suicide and undetermined injury 2004-6	5.3	8.3	8
Conception rate: under 18's per 1,000. 2003-5	42.9	41.6	33.6
<b>Transport 2006</b>			
Overall Road accident rate: all casualties (per 1,000 pop)	5.8	4.5	4.6
Road casualty rate: people killed and seriously injured (per 1,000 pop)	0.6	0.5	0.5
Road casualty rate: children killed and seriously injured (per 1,000 pop)	0.2	0.3	0.2
<b>Environment</b>			
% residents satisfied with local parks and open spaces 2003	84	72	76
Abandoned vehicles per 1,000 households 2005	7.6	6.0	5.8

For more information on floor targets, including other comparator geographies and time series analysis please visit [www.fti.communities.gov.uk/fti/](http://www.fti.communities.gov.uk/fti/)

## Summary of Indicator Trends

### Indicator trend key:

- ✓ data shows improving trend since the 2001 Social Atlas (SA)/2007 data
- ✗ data shows worsening trend since the 2001 SA/2007 data
- data broadly constant (within 10%) since the 2001 SA/2007 data
- ⊖ only baseline data available or insufficient data available to determine a trend

	Trend Since	
	2001	2007
<b>Income Indicators</b>		
Housing/Council Tax Benefit claimants	■	■
Free School Meals Uptake	⊖	■
<b>Children Indicators</b>		
Family Referrals*	✓	⊖
Children with Special Educational Needs	■	■
<b>Young Adults Indicator</b>		
18-24 year olds not receiving student awards	■	■
<b>Older people Indicator</b>		
Older People clients of Neighbourhood Services	✗	■
<b>Community Indicators</b>		
Violent Crime	✗	■
Burglary Dwelling	✓	■
Criminal Damage	✗	✓
Domestic Fires	✗	■
Neighbour Complaints	✓	✗
<b>Health and Disability Indicators</b>		
Disabled Concessionary Fares	✓	✓
Disabled Clients of Neighbourhood Services	✗	■
Emergency Hospital Admissions	⊖	■

Table 2: Summary of Indicator Trends

Note: this definition assumes higher uptake of services is worse, in reality the converse could be true in that more eligible persons are being identified. All comparisons are between rates so are unaffected by population growth.

\* Policy changes since the 2001 Social Atlas may have encouraged an increase in the number of Family Referrals.

## The Data at Ward Level

Map 1: Milton Keynes Ward Boundaries

## Borough Profile

There are 23 wards in Milton Keynes, as can be seen in the map opposite. Many datasets are available nationally published at ward level. This often allows for national comparisons of data such as those listed below.

### Income

- Income Support Claimants Aug-06 & Aug-07: Department for Work and Pensions
- Income Support is a means-tested benefit available to certain groups of people on low incomes.

### Children

- Lone Parent Claimants of Income Support Aug-07: Department for Work and Pensions
- Language Needs Indication 2008: MKC Education Department

### Young Adults

- Youth Unemployment April 2008: NOMIS
- Income Support August 2007: Department for Work and Pensions.
- Student Award Claimants Sept 2007: Buckinghamshire County Council

### Older People

- Pensioner Credit Claimants Aug-07: Department for Work and Pensions  
A new benefit for pensioners. Pension Credit has two elements: a 'top up' element to bring pensioners up to a guaranteed income level and a savings credit element which will reward those who have small levels of savings.

### Community

- Neighbour Complaints: MKC 2007-08

### Health and Disability

- Life Expectancy 2003-2007 Average: MKC 2008
- Disability Living Allowance Claimants Aug-07: Department for Work and Pensions  
Disability Living Allowance (DLA) is a benefit for people Under 65 who have an illness or disability. It provides extra money for people who need help with personal care (the care component) and/or help with walking (the mobility component). It is not means-tested and can be claimed both when in work, or when claiming other benefits.
- Incapacity Benefit and Severe Disablement Allowance Aug-07: Department for Work and Pensions  
Incapacity Benefit (IB) is a contributory benefit for people with illnesses or disabilities who are unable to work, and who have made sufficient National Insurance (NI) contributions.

## Index of Multiple Deprivation 2007

### What is it?

The Index of Multiple Deprivation 2007 (IMD 2007) is the governments measure of deprivation. It is used to to analyse patterns of deprivation, identify areas that would benefit from special initiatives or programmes and as a tool to determine eligibility for specific funding streams.

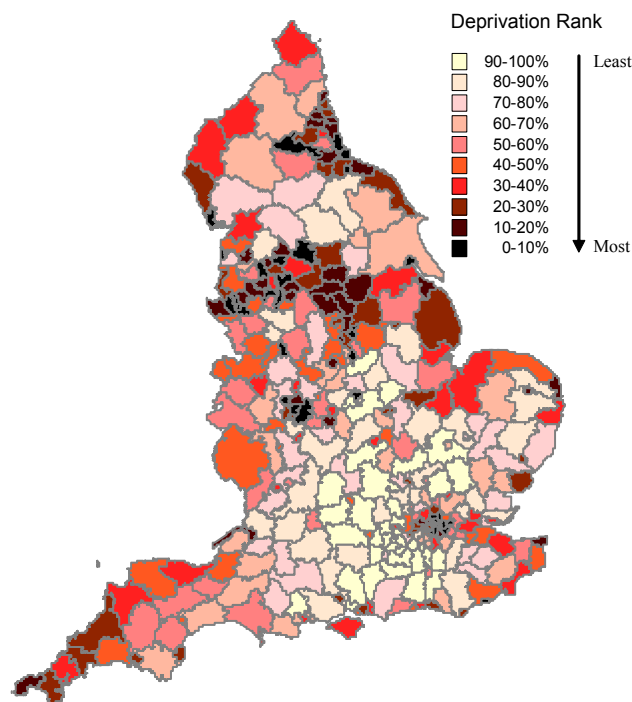

It combines a number of indicators, chosen to cover a range of economic, social and housing issues, into a single deprivation score for each small area in England. This allows each area to be ranked relative to one another according to their level of deprivation. As with the 2004 indices, IMD 2007 has been produced at District Level and at Lower Super Output Area level (LSOA), of which there are 32,482 in the country. There are 139 LSOAs in Milton Keynes.

### Milton Keynes District

The map to the right shows the IMD 2007 mapped for the districts in England. The figures for Milton Keynes show that:

- Milton Keynes is ranked 212 out of 354 Local Authority Districts (with 1 being the most deprived), this is a slight improvement on the 2004 rank of 204.
- Districts ranked closely to Milton Keynes include; Stevenage, Kettering, Worthing and Herefordshire.

Map 2: IMD 2007 Overall Deprivation Rank: England

### Milton Keynes' Lower Super Output Area Analysis

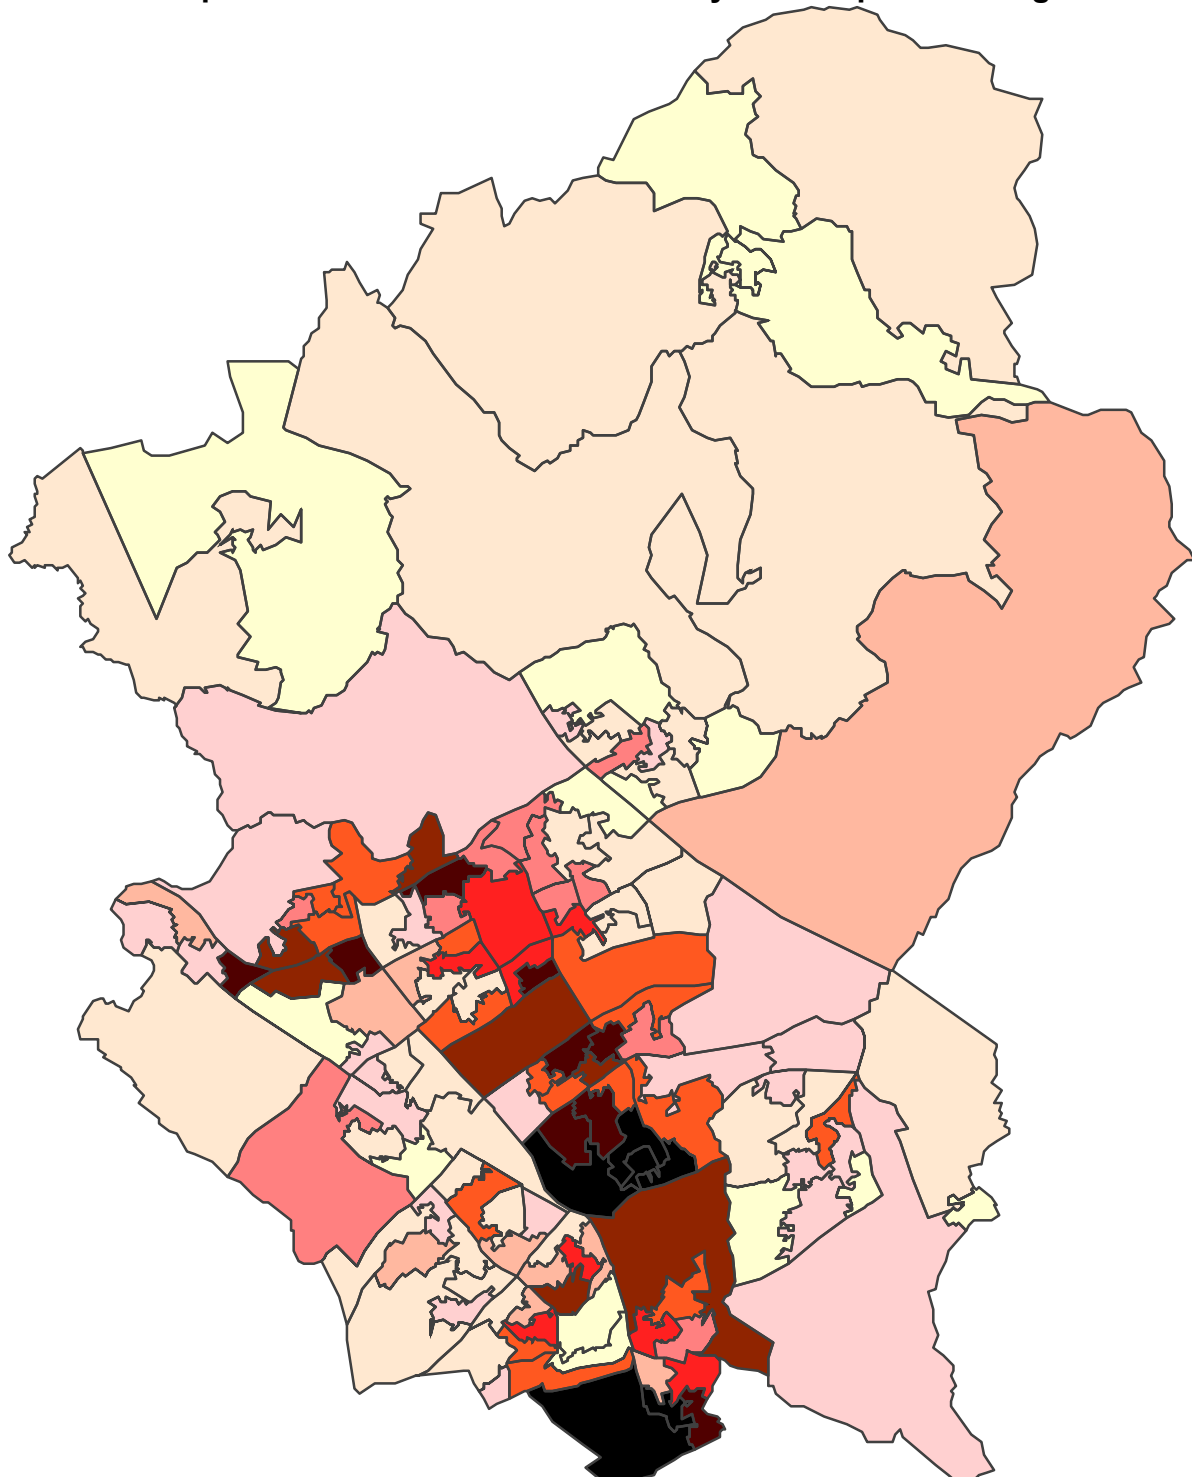

As stated previously IMD 2007 was released at LSOA level. The map on page 13 shows the results for Milton Keynes Super Output Areas.

**Table 3: Number of LSOAs in Milton Keynes within the 30% most and 30% least deprived in England**

	Number of LSOAs	
	2004	2007
<b>Within Most Deprived</b>		
0-10%	5	6
10-20%	8	9
20-30%	9	7
<b>Within Least Deprived</b>		
0-10%	14	14
10-20%	26	35
20-30%	31	23

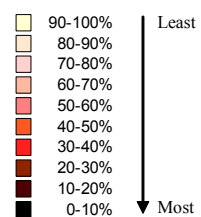

The table to the left shows the number of LSOAs in Milton Keynes within the most/least deprived 10%, 20%, 30% LSOAs in England with a comparison to the 2004 Index. The table shows that of the 139 LSOAs in Milton Keynes there are 6 which are within the 10% most deprived in England. This compares to 5 in 2004. Overall there are 22 LSOAs within the most deprived 30%, the same number as with the 2004 Index. There are 14 LSOAs within the least deprived 10% in England, the same number as in the 2004 Index.

**Map 3: IMD 2007 deciles in Milton Keynes compared to England**

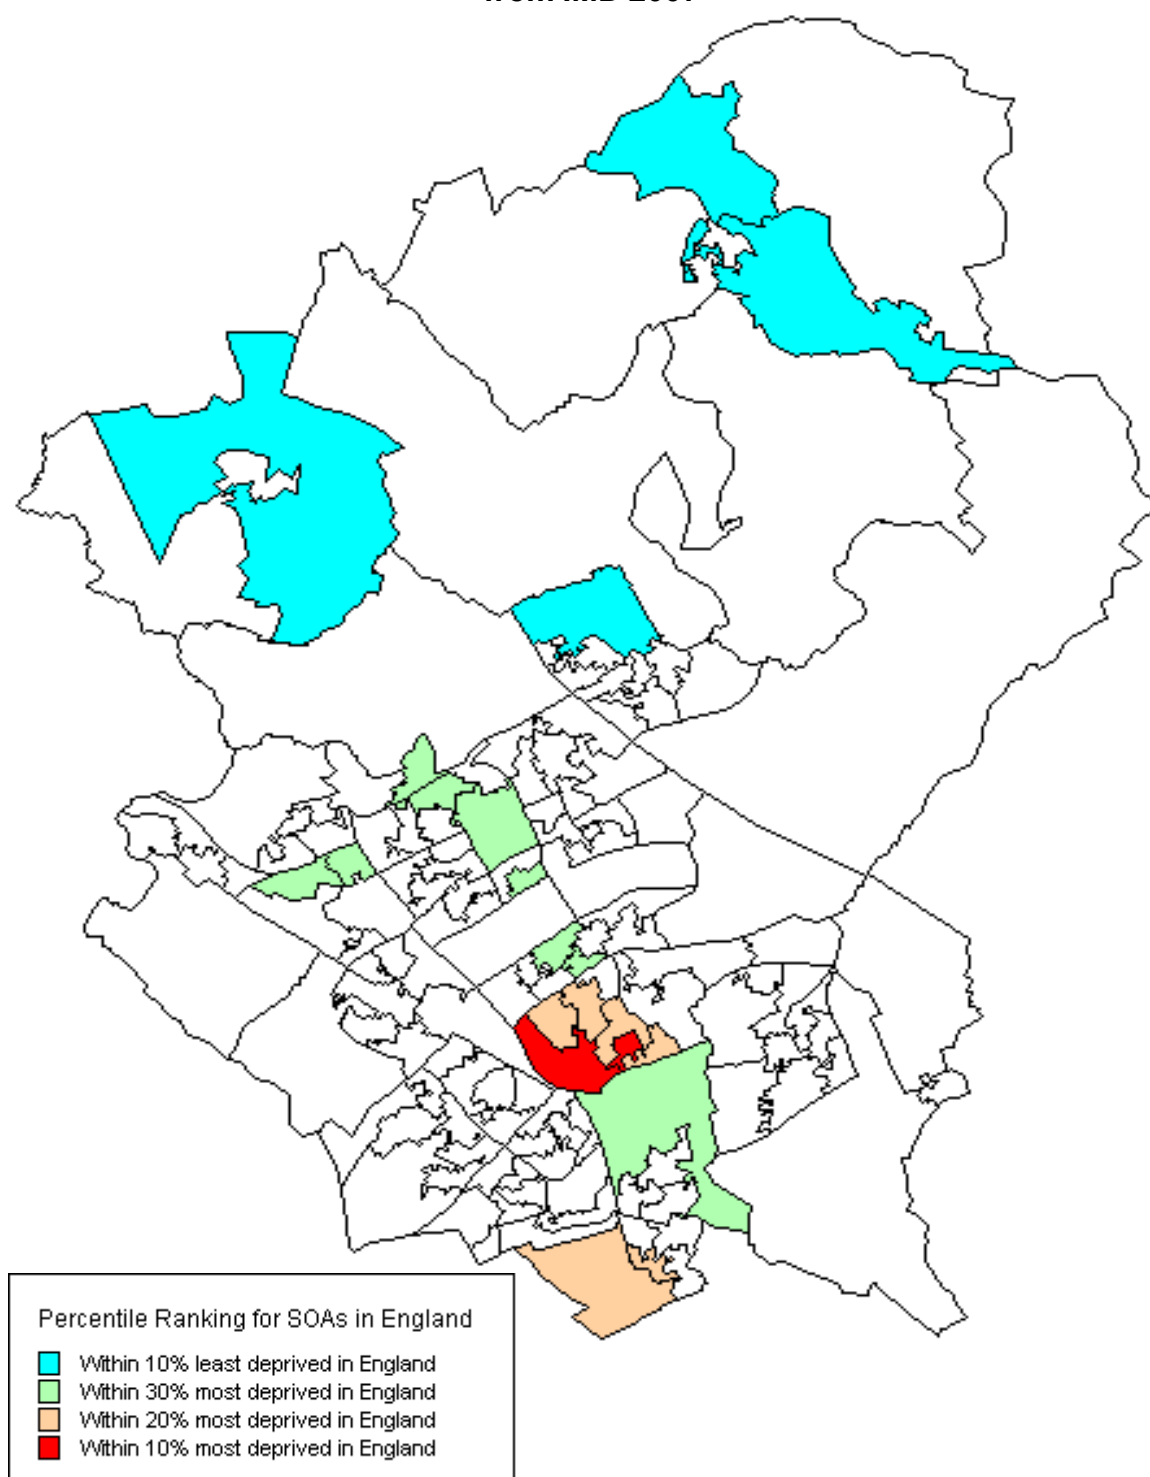

**i** The map outlines that there are 6 LSOAs in MK which are within the most deprived 10% in England. These areas cover a large part of Woughton Ward and part of Eaton Manor Ward. Overall there are 22 LSOAs within the most deprived 30%. There are 14 areas within the least deprived 10% these are in rural areas, Newport Pagnell and some areas in the city.

**Deprivation Rank**

**Map 4: Health Deprivation & Disability Domain  
from IMD 2007**

This domain from the updated Index of Multiple Deprivation 2007 identified small geographic units called Lower Super Output Areas (LSOAs) with relatively high rates of people who die prematurely or whose quality of life is impaired by poor health or disability across the whole population. The indicator is made up of:

- 1) Years of Potential Life Lost (2001 to 2005)
- 2) Comparative Illness and Disability ratio (2005)
- 3) Measures of acute morbidity from Hospital Episode Statistics (2004 to 2005)
- 4) Adults under 60 suffering from mood or anxiety disorders (2004 to 2005)

The map illustrates that Woughton ward has areas with the highest levels of poor health and disability. Areas in Eaton Manor ward also have notable deprivation relating to health and disability.

## Unemployment

In April 2008 there were 3,368 people in Milton Keynes claiming Job Seekers Allowance. As a percentage of the working age population in Milton Keynes this is 2.3%.

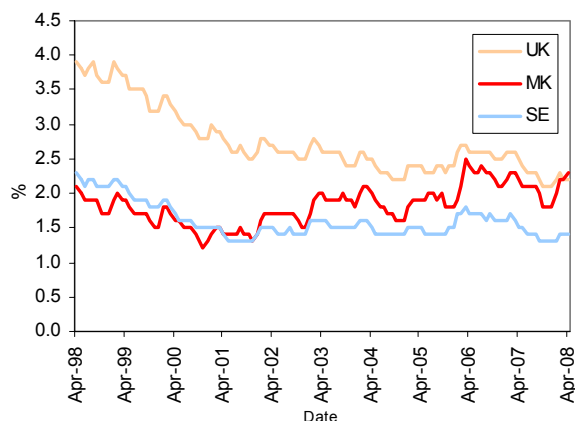

Table 4 to the right shows that Milton Keynes has a lower unemployment rate than some other urban areas in the South Midlands. Milton Keynes has a slightly higher unemployment rate than the national average (2.2%). It has a significantly higher unemployment rate than the South East Region (1.4%).

400 claimants in Milton Keynes had been claiming for more than one year in April 2008, accounting for 12.0% of total claimants. This compares to 10.3% in the South East region and 12.7% in the UK.

Table 4: Unemployment rates for selected areas, April 2008

Region	%
Milton Keynes	2.3
South East Region	1.4
UK	2.2
Bedford	2.1
Luton	2.8
Northampton	2.4
Wellingborough	2.2

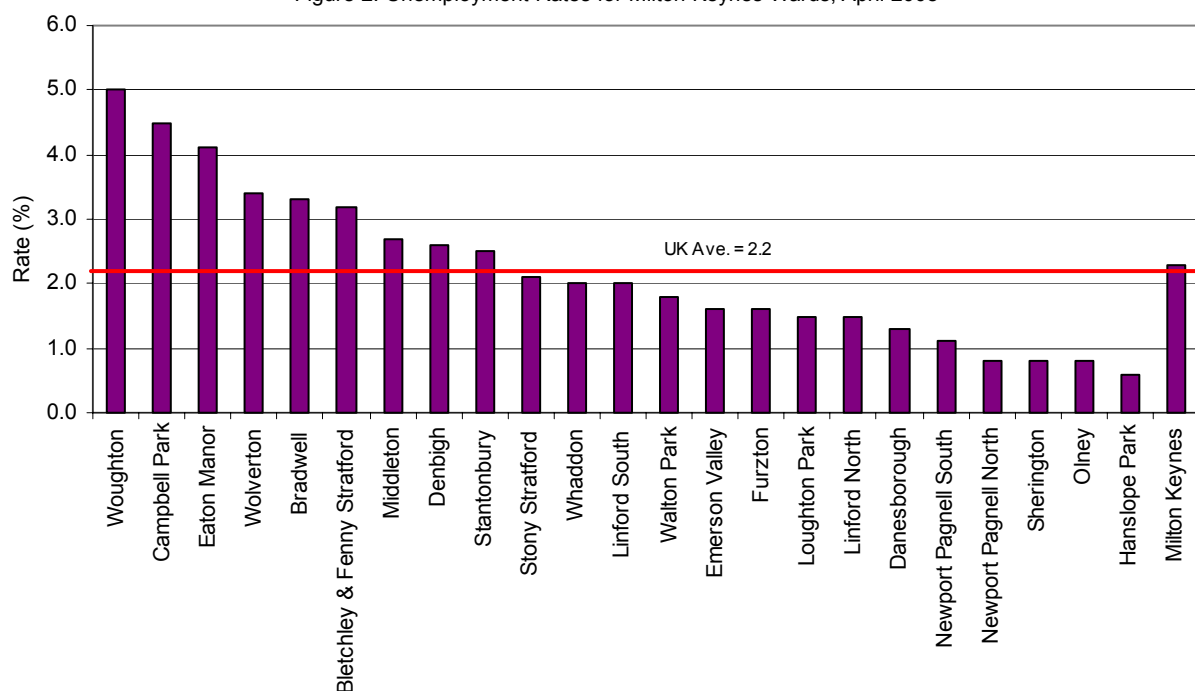

Figure 1: Unemployment Trends, April 1998 - 2008

There were 208 more claimants in Milton Keynes in April 2008 than there were in April 2007. This represents an increase of 6.6%. Milton Keynes unemployment rate in April 2008 is higher than the April 2001 rate of 1.4%. Similar trends for unemployment in the South East and the UK as a whole are demonstrated in figure 1. There is a decline in unemployment until 2002 then a levelling off or gradual increase.

As noted above, Milton Keynes does have relatively low unemployment rates. However, there are wards within Milton Keynes which have significantly higher unemployment rates than the national average. The graph below outlines that there are 9 wards in MK with higher unemployment rates than the UK. Woughton (5.0%) Campbell Park (4.5%) and Eaton Manor (4.1%) have the highest unemployment rates in MK. These wards are within the 10% highest ranked wards in the UK. Hanslope Park Ward is within the 15% lowest unemployment for wards in the UK.

Figure 2: Unemployment Rates for Milton Keynes Wards, April 2008

## Overseas Migrant Workers in Milton Keynes

All European Economic Area (EEA) and Swiss nationals are free to enter and live in the United Kingdom. From 1st May 2004, 8 Eastern European 'accession states' joined the EU (the A8). Residents of these countries have to register with the Worker Registration Scheme when they want to start working for more than one month. Residents of Romania and Bulgaria face more restrictions on working in the UK although they can work under the Seasonal Agricultural Workers Scheme.

Workers from the A8 countries who find employment in the UK are required to register with the Home Office under the Worker Registration Scheme as soon as they find work. They are then issued with a worker registration certificate, issued for a 12-month period. This proves that they can live and work in the UK while they are working in that job. If they change jobs before the 12 months they have to renew their registration. Once 12 months has been completed under the Worker Registration Scheme they can apply for an EEA Residence permit.

Table 5: Origin of Worker Registration Scheme applicants working in Milton Keynes

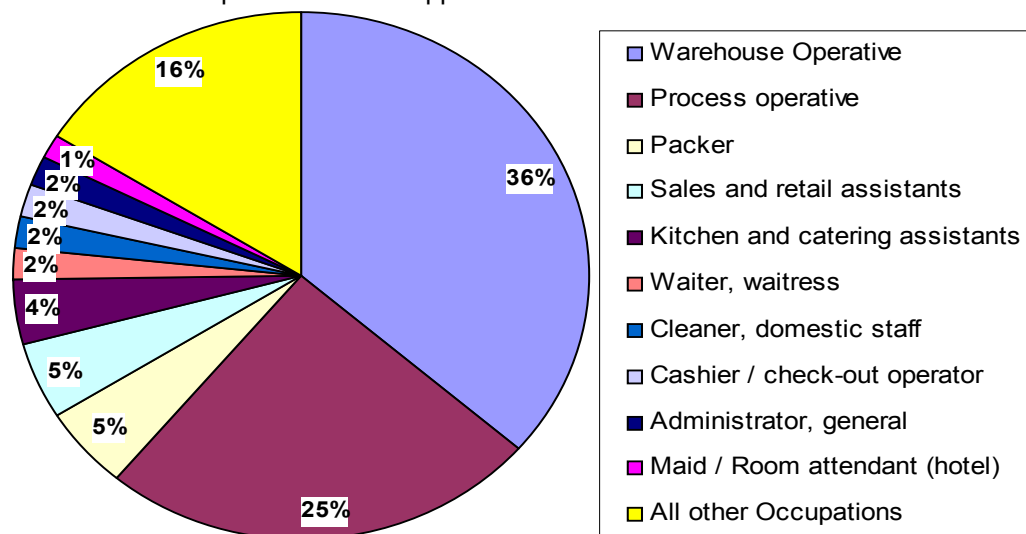

Milton Keynes applications	Country of Origin								Total
	Czech Rep	Estonia	Hungary	Latvia	Lithuania	Poland	Slovakia	Slovenia	
May 04 - Mar 06	55	10	45	30	170	780	70	0	1,160
Percentage	4.7%	0.9%	3.9%	2.6%	14.7%	67.2%	6.0%	0.0%	100.0%
Apr 06 - Mar 07	17	6	20	16	70	795	50	0	960
Percentage	1.8%	0.6%	2.1%	1.7%	7.3%	82.8%	5.2%	0.0%	100.0%
Apr 07 - Mar 08	16	4	25	8	55	635	36	0	770
Percentage	2.1%	0.5%	3.2%	1.0%	7.1%	82.5%	4.7%	0.0%	100.0%
<b>May 04 - Mar 08</b>	<b>88</b>	<b>20</b>	<b>90</b>	<b>54</b>	<b>295</b>	<b>2,210</b>	<b>156</b>	<b>0</b>	<b>2,890</b>
Percentage	3.0%	0.7%	3.1%	1.9%	10.2%	76.5%	5.4%	0.0%	100.0%

As the table above shows, since the accession states joined the EU a total of 2,890 have registered under the scheme for a workplace address in Milton Keynes. This does not imply that there are over 2,000 residents from the accession states. The workers may not live in Milton Keynes, for example. We have no information about how long the workers remained with the employer, or in the country.

It is evident, from the data for 2006/07 and 2007/08 that the flow of workers has reduced, with only 770 registering in the most recent year, compared to 960 in the previous year. Of those who knew how long they intended to be in the UK, the majority planned to be here less than 3 months. Research\* does indicate that migrants frequently stay for a longer time period than they had originally intended. However more recent research\*\* implies that increasing numbers of Polish workers are returning home as a result of factors such as exchange rate changes and an improving economic outlook in their home country.

The vast majority of WRS migrants are from Poland - 67% in the 23 months to the end of March 2006 and 83% from April 2006 to March 2008, almost 77% overall. The most common job that migrants came to do in Milton Keynes is 'warehouse operative'; the occupation stated by 36% of WRS applicants. 25% stated 'process operative', and a further 5% 'packers' so factory work attracts two thirds of these migrants.

Figure 3: Most stated occupations of WRS applicants

\* 'Migrants' lives beyond the workplace: the experiences of Central and East Europeans in the UK' by Sarah Spencer, Martin Ruhs, Bridget Anderson and Ben Rogaly, published by the Joseph Rowntree Foundation, May 2007.

\*\* 'Floodgates of Turnstiles? Post EU enlargement migration flows to (and from) the UK' by Naomi Pollard, Maria Lattore and Dhananjayan Sriskandarajah, published by the ippr, April 2008

## Income

Overall in Milton Keynes a smaller proportion of the population claim income support than for England as a whole. Milton Keynes had a rate of 48.7 per 1,000 population compared to 56.5 per 1,000 in England.

There is significant variation in the rates of income support claimants between the wards in Milton Keynes. Woughton ward still has over two and a half times the national rate for Income Support claimants per 1,000 population. Estates covered by this ward include Beanhill, Coffee Hall, Eaglestone, Leadenhall, Netherfield and Tinkers Bridge. Eaton Manor and Campbell Park Wards are also significantly above national average rate of income support claimants.

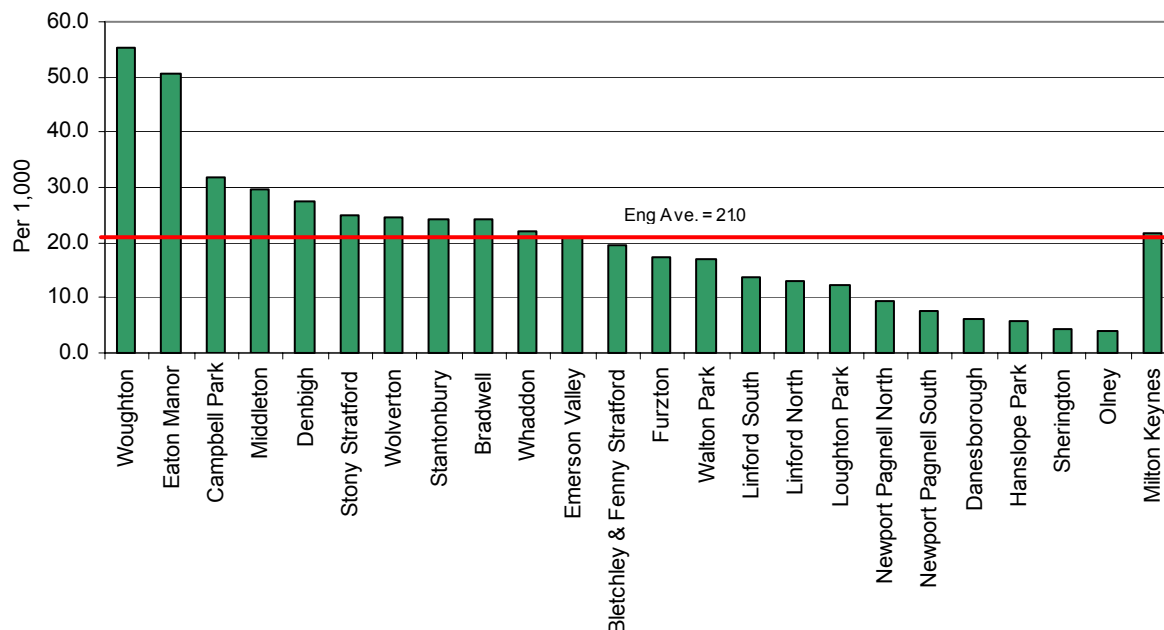

Figure 4: Income Support Claimants for Milton Keynes Wards, August 2006 - 2007

## Children

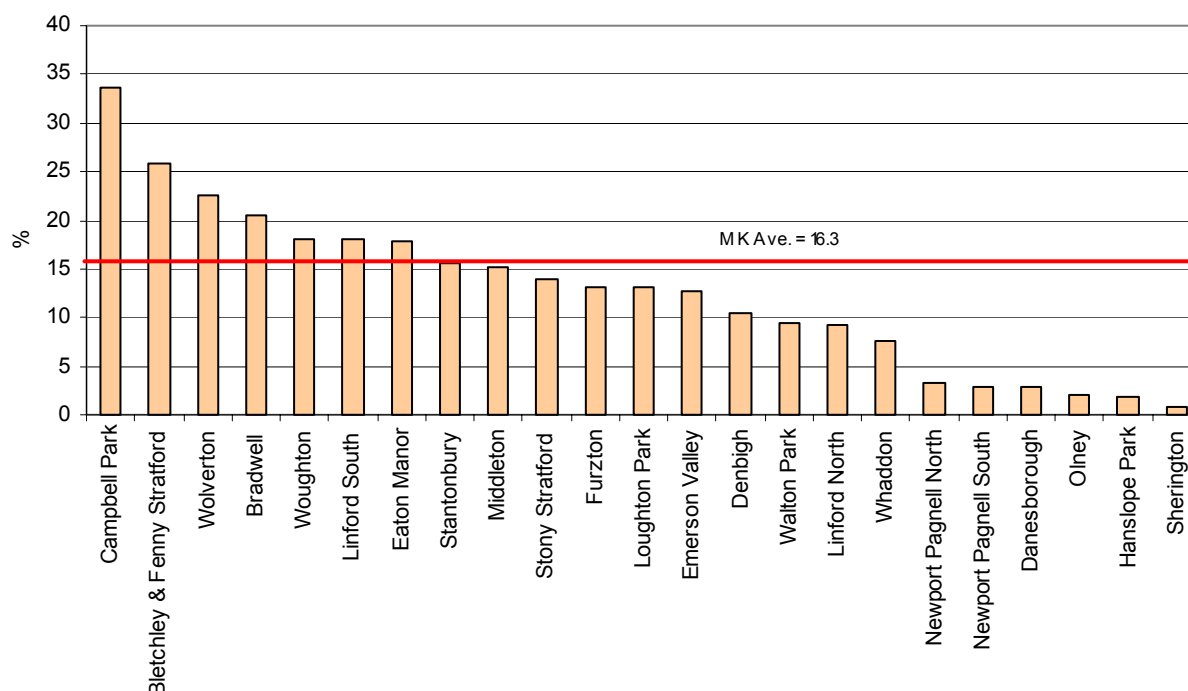

In August 2007, 3,255 Lone Parents families claimed Income Support in Milton Keynes. This is a rate of 21.9 per 1,000 working age population and is slightly higher than that of England as a whole (21.0 per 1,000). There are 11 wards in Milton Keynes which have a higher than the England average of lone parents claiming Income Support. Woughton Ward (55.4 per 1,000) and Eaton Manor (50.7 per 1,000) are more than twice the national average.

Figure 5: Lone Parent Income Support Claimants for Milton Keynes Wards, August 2007

The 2001 Census included data on a 'language needs indicator'. This showed that Bletchley and Fenny Stratford Ward and Campbell Park Ward had the highest proportion of dependent children who live in a household where English may not be the first language. The 2007 Schools Census also collected data on the first language of pupils. Details of this data are shown below and reveal a similar picture.

Figure 6: Language Needs Indication 2008 from Schools Census

The graph above shows that 33% (660) of all pupils living in Campbell Park Ward may have a first language other than English. Bletchley and Fenny Stratford (23.8%) and Wolverton (19.9%) also stand out as having a large proportions of pupils whose first language may not be English. Rural areas on the other hand have very low numbers of pupils whose first language may not be English.

## Young Adults

Table 7 shows the number and percentage of 16-24-year olds claiming Job Seekers Allowance in April 2008 and Income Support in August 2007.

The cells marked in orange mean they are higher than the England rate.

Eaton Manor (6.9%), Woughton (6.1%) and Campbell Park (5.9%) stand out as having the highest proportions of 16-24 years claiming Job Seekers Allowance. This compares to 3.5% in England.

Woughton (9.3%) and Eaton Manor (8.6%) have double the England average (4.2%) of 16-24 year olds claiming Income Support.

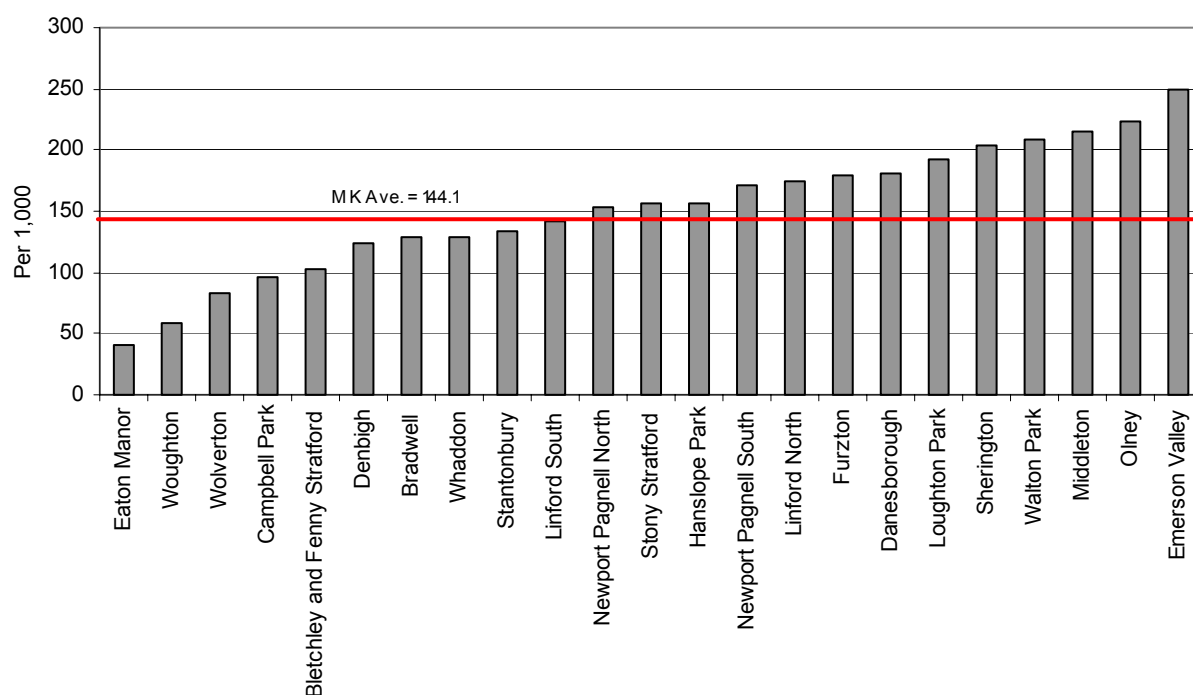

Very low levels of 16-24 years olds claiming Job Seekers Allowance or Income Support occur in the rural areas of Milton Keynes.

Table 6: Youth Unemployment and Income Support Claimant for Wards

	Unemployment		Income Support	
	16-24	Rate	16-24	Rate
Bletchley & Fenny Stratford	60	4.5	60	4.5
Bradwell	75	4.1	65	3.6

Milton Keynes	920	3.5	1,190	4.5
England	210,540	3.5	250,500	4.2

Figure 7 shows the number of Student Award claimants per 1,000 18-24 years old for wards in Milton Keynes. A significant number of Milton Keynes wards fall beneath the MK average (144.1 per 1,000 18-24 year olds). Wards with particularly low proportions include Eaton Manor (40.4), Woughton (58.6), and Wolverton (82.7). Emerson Valley, Olney and Middleton wards have the highest proportions.

Figure 7: Student Award claimants 2007 per 1,000 18-24 year olds

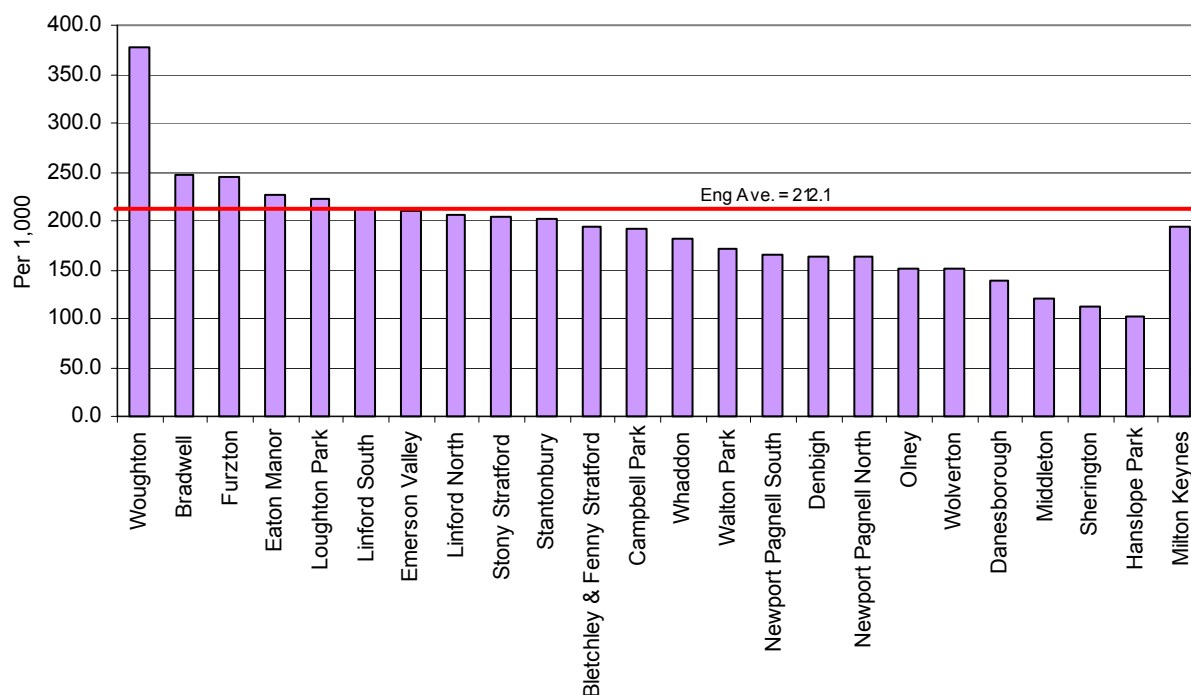

## Older People

6,905 people aged 60 and over were in claiming Pension Credit in August 2007. This is 193.2 per 1,000 population age 60 and over, slightly lower than the England average of 212.1 per 1,000.

6 out of 23 wards in Milton Keynes are above the national average with Woughton (377.1 per 1,000) standing out as significantly higher than the other wards. Bradwell and Furzton Wards also have much higher than average numbers claiming Pension Credit.

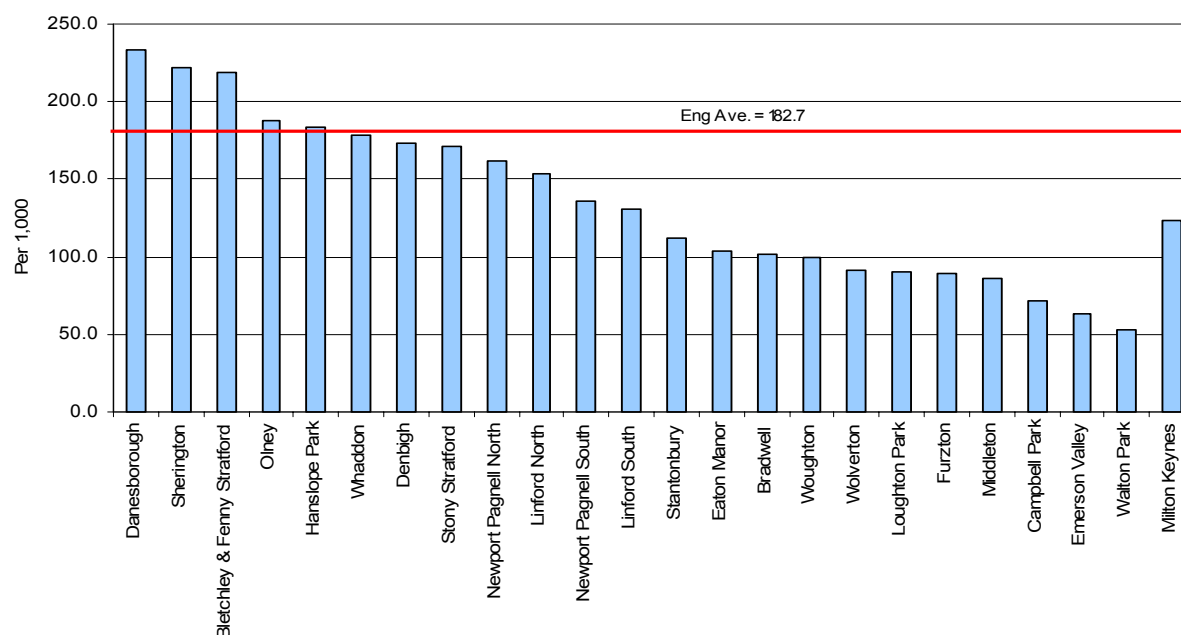

Figure 8: Pension Credit Claimants for Milton Keynes Wards, August 2007

A total of 28,160 people in Milton Keynes claimed a state pension in August 2007. This is 123.6 per 1,000 population, significantly lower than the England average of 182.7 per 1,000, reflecting the young profile of Milton Keynes population.

The graph below shows there are significant variations of levels of people with a state pension within Milton Keynes. Danesborough, Sherington and Bletchley and Fenny Stratford Wards are significantly above the England average. The wards with the lowest state pension claimants are Walton Park (53 per 1,000), Emerson Valley (63.2) and Campbell Park (71.3)

Figure 9: State Pension Claimants for Milton Keynes Wards, August 2007

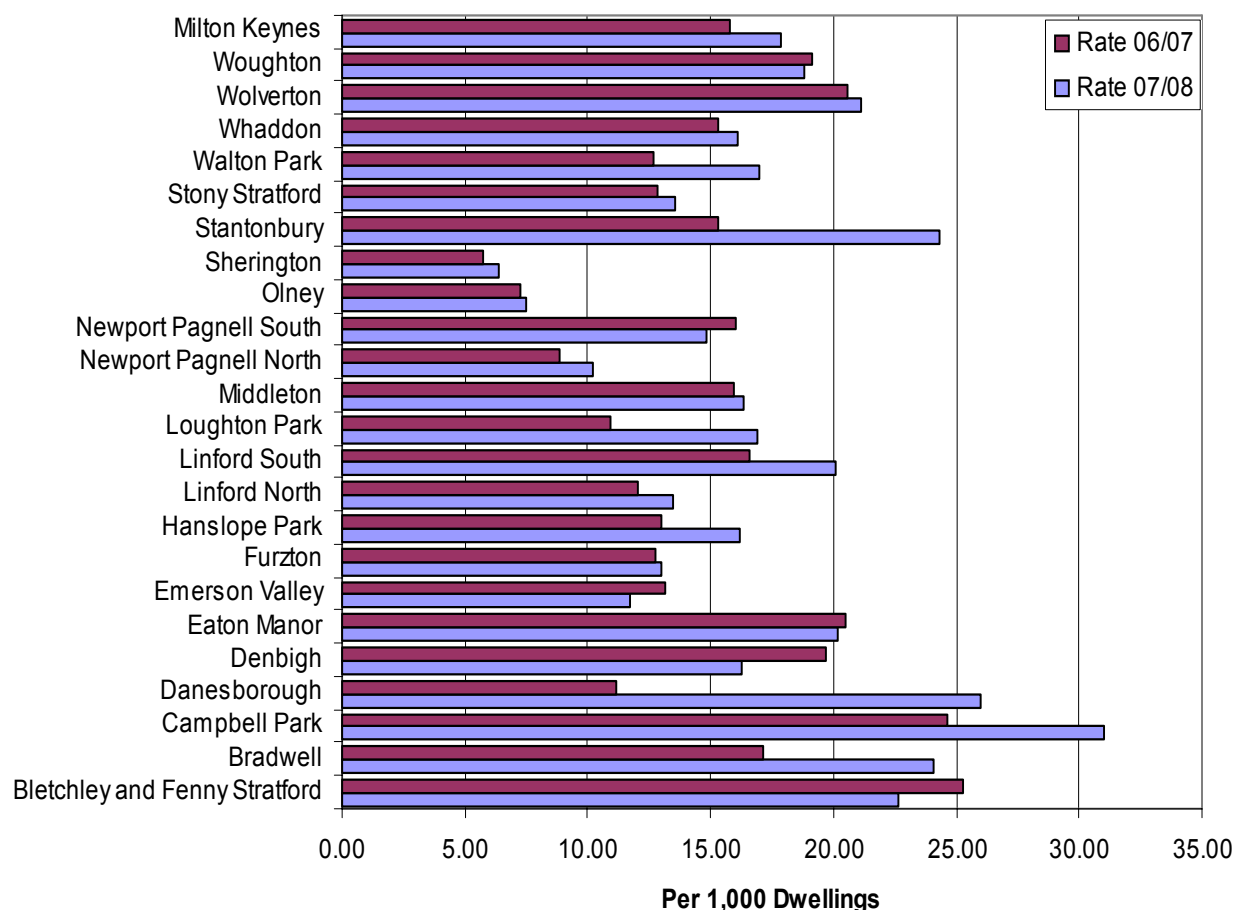

## Neighbour Complaints at Ward Level

Neighbour complaints are an important tool for assessing the quality of life enjoyed in a neighbourhood. These are complaints by residents about their neighbours made to the Environmental Health service. Historically, the greatest numbers of complaints are about excessive and untimely noise. This year has seen complaints about various causes of noise including construction and street works. The rate of neighbour complaints per 1,000 dwellings has risen compared to the previous year, for the second year in succession. Some large differences are apparent when examined at ward level.

The rural areas show generally lower complaints about neighbours, after accounting for the number of dwellings, than the urban areas. Sherington ward has the lowest number of complaints per 1,000 dwellings; nearby Olney is also low but both areas have seen an increase from the previous year. The lower level of complaints could be a result of the lower housing density in these areas. Campbell Park and Eaton Manor are wards with consistently high rates of complaints. Campbell Park has shown a large rise from the previous year. Danesborough, Stantonbury and Bradwell wards have all shown large increases in the rate of complaints compared to the previous year, although Stantonbury ward saw a large reduction in the number of complaints in the previous year. Denbigh ward saw the largest reduction in the rate of complaints, although Woughton and Emerson Valley wards also saw smaller reductions in the rate of complaints.

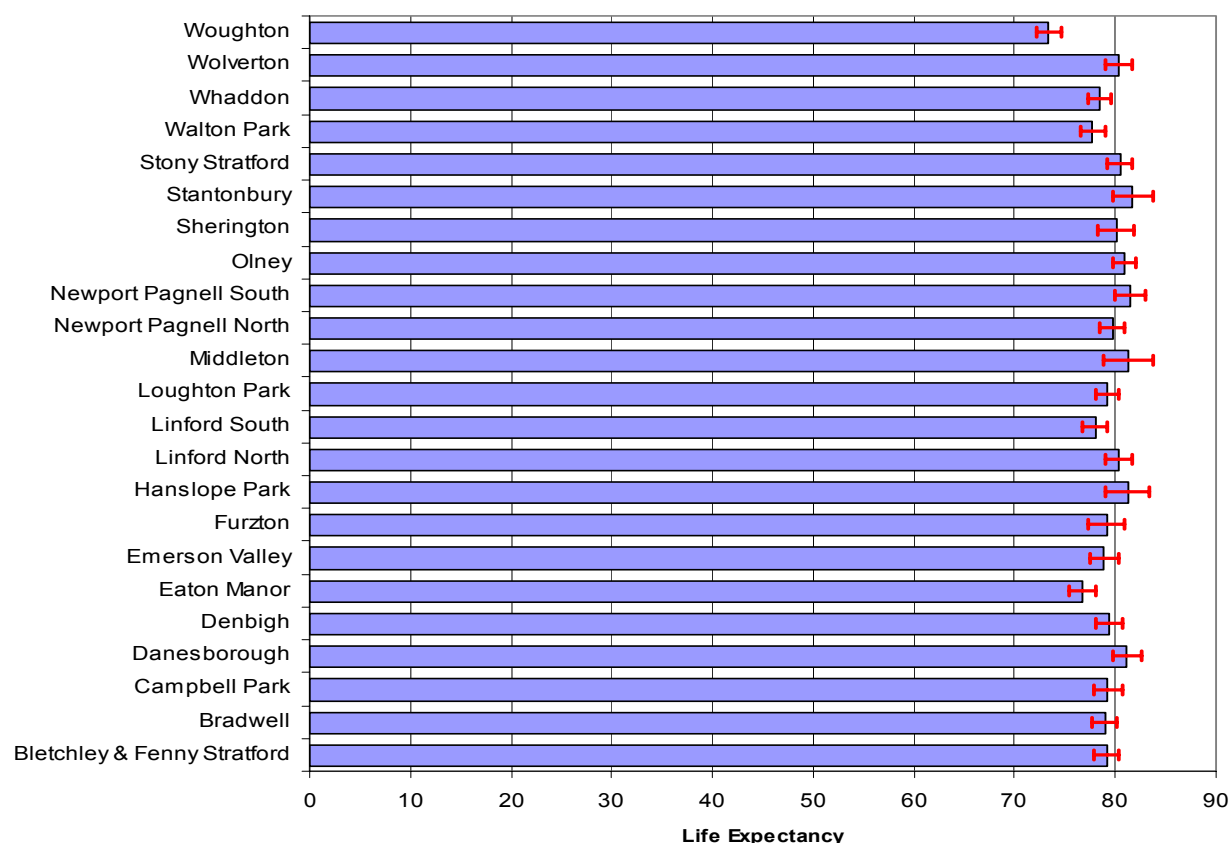

Figure 10: Rate of Neighbour Complaints by Ward per 1,000 Dwellings 2006/7 to 2007/8

## Health and Disability

Life expectancy is a focus of national government targets to reduce inequalities in health outcomes. Life expectancy is linked to social circumstances, and despite improvements the gap is large, and in some areas is widening. Specifically by 2010, the target is to reduce the gap in life expectancy at birth, by area, by 10%. Life expectancy at birth does not reflect the life experience of any individual. Instead, it provides a summary of the mortality experience of the individuals living in a particular area, over a period of time. Gaps in life expectancy can be observed between local authority areas. For example, in 2004/2006 in England & Wales a difference of 10.1 years was observed between areas with the highest life expectancy at birth for boys, and areas with the lowest. The gap when Scotland is included is even higher, at 12.6 years. The gap for girls in England & Wales was 8.9 years. The gaps within these areas can be even wider. The current situation for Milton Keynes can be seen from the chart below.

Figure 11: Persons' Life Expectancy at Birth by Ward, 2003 to 2007 Average

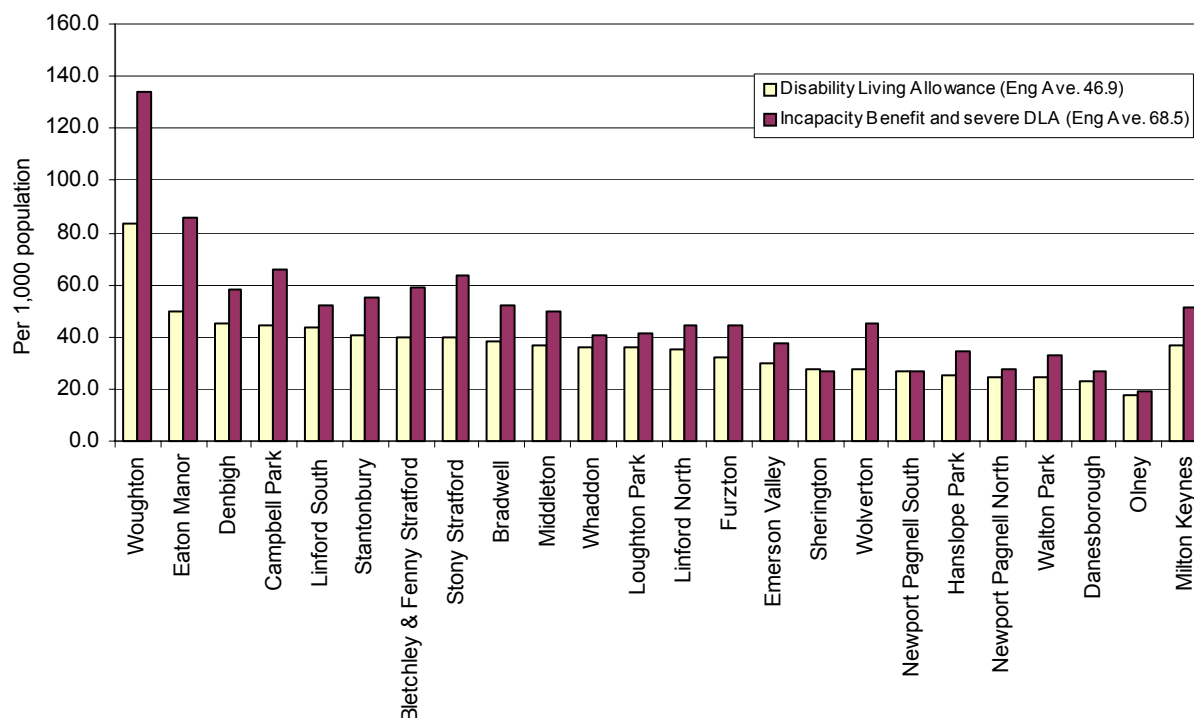

The average life expectancy in Milton Keynes for 2003-2007 was 79.0 years, slightly higher than the previous year although this may be due to statistical fluctuations. The range was 8.4 years, less than the previous set of calculations. This time Stantonbury has the highest life expectancy for persons with a life expectancy at birth of 81.8 years. Woughton has the lowest life expectancy of 73.4 years, but this has risen.

The life expectancy at birth was 77.2 years for males, range 8.6 years. This is higher than previously with a lower range and is equivalent to the 77.2 years average male life expectancy for England & Wales. Sherington had the highest life expectancy for males of 80.3 years. Woughton has the lowest life expectancy for males of 71.7 years.

The life expectancy at birth for females in Milton Keynes has risen slightly to 80.8 years, and the range has risen to 10.9 years. This is significantly below the female life expectancy in England & Wales, 2004/2006 which was 81.5 years although these are not directly comparable because of the different time periods covered. Stantonbury had the highest life expectancy of 85.8 years with Stony Stratford second with 83.8 years. Woughton again had the lowest at 74.9 years, an increase from the previous figure. There is a reasonably high level of consistency over time between the rankings of life expectancy (the relative position of wards) for the calculations. There is some variation due to statistical uncertainty surrounding such small-area calculations which is to be expected.

Nationally available disability benefits data provide us with results at ward level. Milton Keynes has a lower proportion of residents claiming Severe Disability Living Allowance, Incapacity Benefits and Disability Living Allowance than for England as a whole. Woughton ward is consistently higher than the national average for both disability benefits. It has almost twice the average Incapacity Benefit/Severe DLA rate and Disability Living Allowance. Eaton Manor Ward also has higher than the national average in both benefits.

Figure 12: Disability Benefit Claimants for Milton Keynes Wards, August 2007

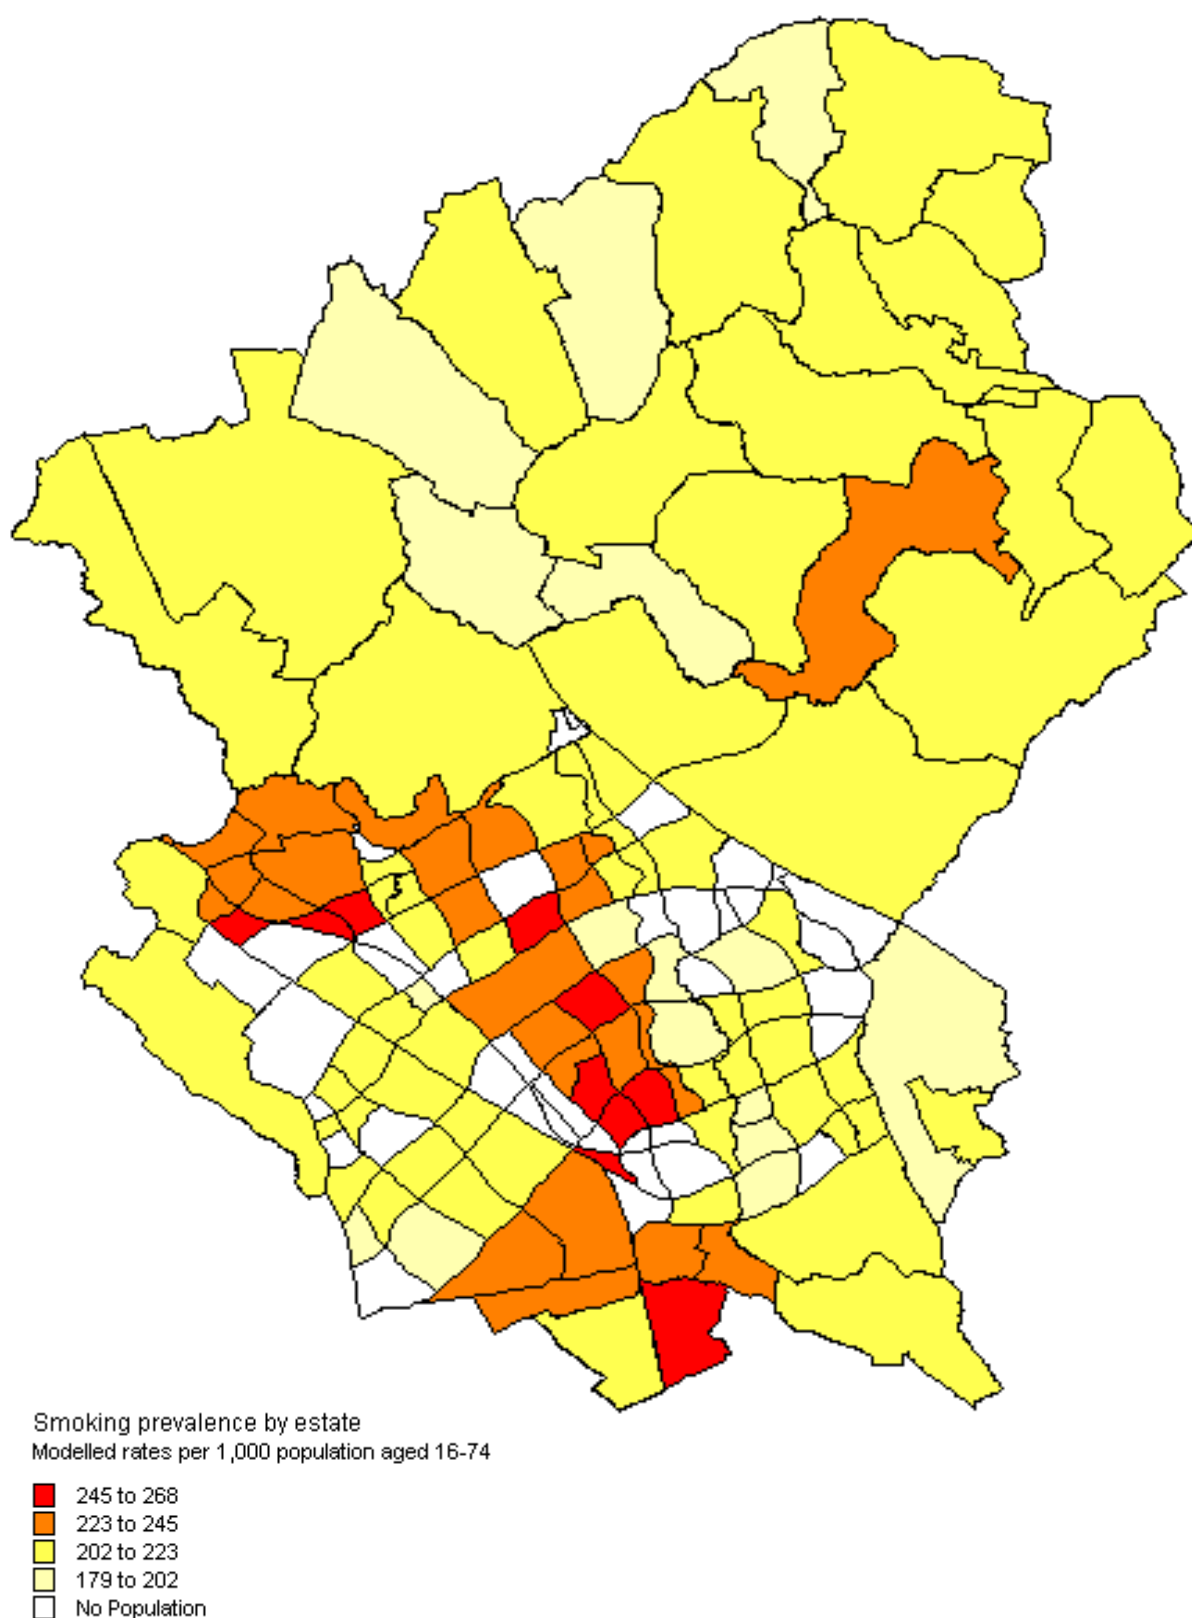

Local **Health and Disability** indicators such as Disabled Concessionary Fares and Clients of Disabled Services at Milton Keynes Council are useful at looking at health and disability. They have been useful in pointing out several areas of need, such as Beanhill, Coffee Hall, Hodge Lea, Stacey Bushes, Willen Park. These can be seen in the estate indicators section.

Maps overleaf show the estimated prevalence of smoking by estate in Milton Keynes. These are estimates derived from national data. The second map illustrates the take up of smoking cessation services provided by the PCT. It illustrates that the highest uptake of services is not always in the areas which are estimated to have the highest prevalence of smokers.

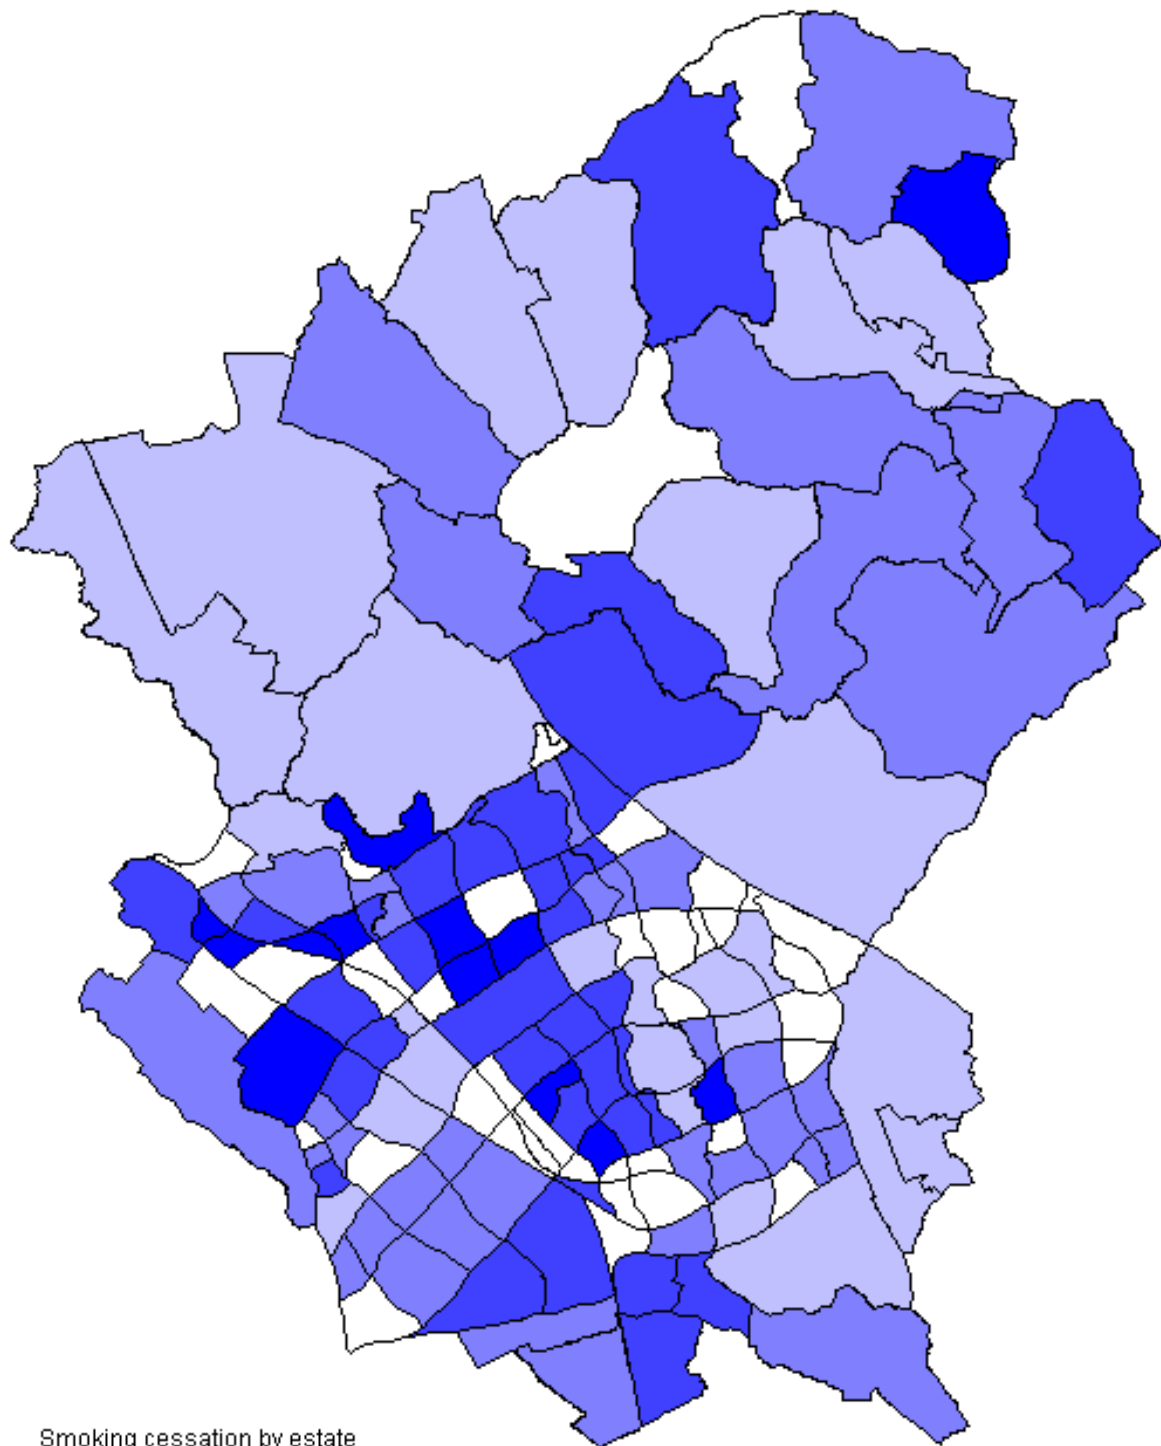

**Map 5: Smoking Prevalence estimates by Estate per 1,000 population aged 16-74\***

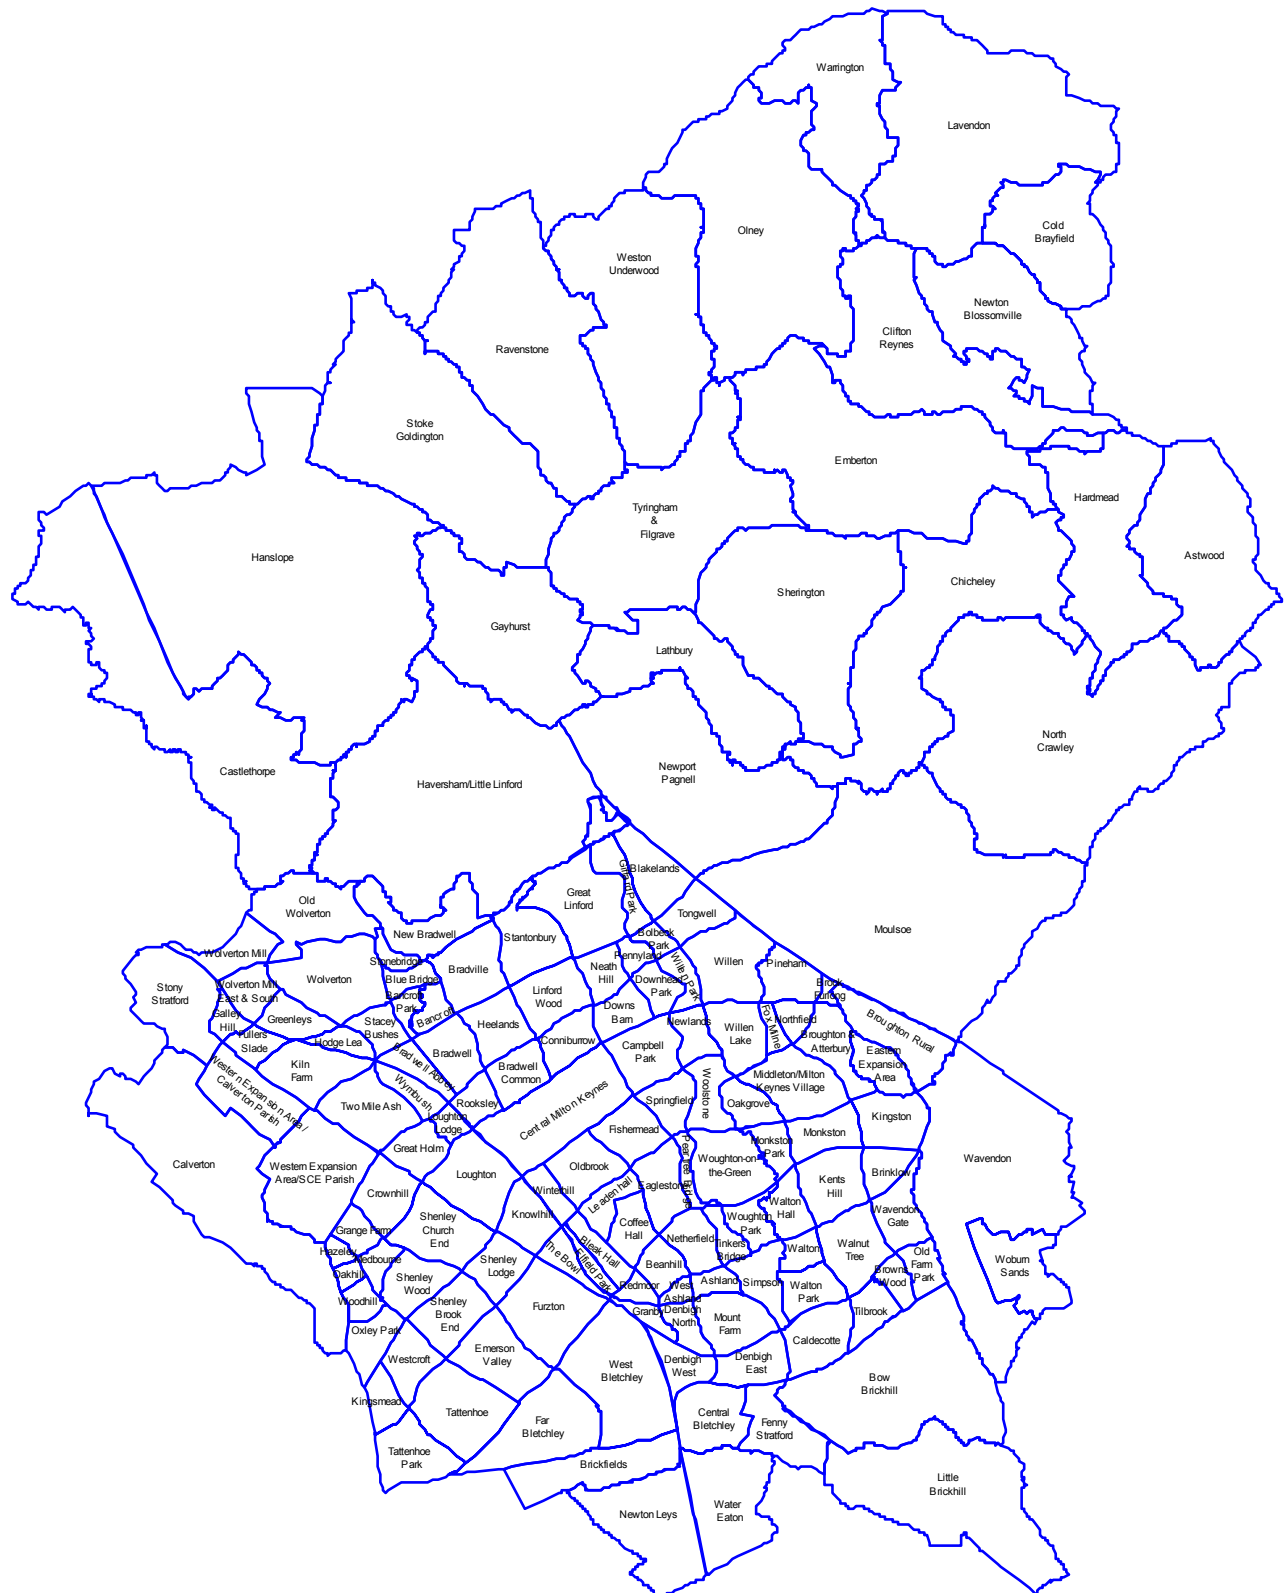

\* Derived from national data: smoking prevalence estimates were calculated based on General Household Survey 2006 national smoking rates by gender and socio-economic class. These were applied to 2001 census estate level estimates of the socio-economic structure of the population to get an estimate of the numbers of smokers by estate. This was then calculated as a proportion of the total estate population aged 16-74. The proportion of the population in different socio-economic groups is assumed not to have altered significantly since 2001.

**Map 6: Average annual Smoking Cessation Clients over 3 years,  
2005-2007 by Estate per 1,000 population aged 16-74**

- 20 to 78.5

- 6 to 11.99
- 0.4 to 6.99
- No clients

## The Data at Estate Level

## Map 7: Estate and Settlement Boundaries

## Overall Estate Rankings

The table below shows the 20 estates with the most difficulties (from a range of indicators) in Milton Keynes.

It is possible to make comparisons with most indicators in the previous document. These include:

- Housing/Council Tax Benefits
- Children with Special Educational Needs
- Teenage Conceptions
- No Student Awards
- Clients of Older People Services
- Domestic Fires
- Violent Crime, Burglary Dwelling, Criminal Damage
- Neighbour Complaints
- Adult Continuing Education
- Educational attainment indicators
- Disabled Clients of Neighbour Services

It should be remembered that these are relative rankings within Milton Keynes. The number of people requiring a benefit or service may have decreased, but the ranking is determined by the relative position.

Table 7: 20 Estates with the Lowest Overall Ranks from Social Atlas 2008 data

<b>Overall Rank 2007/8 (top 20 of 108)</b>	<b>Estates with Difficulties (Consistently ranked with more difficulties)</b>
1	Beanhill
2	Netherfield
3	Fishmead
4	Coffee Hall
5	Water Eaton
5	Hodge Lea
7	Fullers Slade
8	New Bradwell
9	Conniburrow

19	Springfield
20	Far Bletchley

## Definitions and Methods

Describing the data used in the estate profiles and the source of the data.

### Income

#### **Housing/Council Tax Benefit March 2008**

Postcoded information on claimants was aggregated to estates/settlements and expressed per 1,000 dwellings. Estates and settlements are then ranked according to this figure. Milton Keynes average = 196.7 per 1,000 dwellings claim benefit.

### Children

#### **Family Referrals April 2006 - March 2007 NOT UPDATED**

Counts of families referred to Social Services by estate expressed per 1,000 dwellings. Milton Keynes average = 17.7 per 1,000 dwellings.

Note: this data could not be updated due to technical reasons but should be available in future years.

#### **Nursery Place Non-uptake 2007**

Count of 3 and 4 year olds not attending a nursery or play school. Milton Keynes average = 291.4 per 1,000 3 and 4 year olds.

#### **Children with Special Educational Needs (4 to 18 year olds) March 2008**

Postcoded data on children statemented with special educational needs is aggregated and expressed per 1,000 pupils. Estates and settlements are then ranked according to this figure. Milton Keynes average = 32.8 per 1,000 pupils.

#### **Free School Meals March 2008**

Postcoded information was aggregated to estates and settlements and expressed per 1,000 pupils. Estates and settlements are then ranked according to this figure. Milton Keynes average = 110.8 per 1,000 pupils.

#### **Educational attainment 2007**

The proportion of eligible pupils attaining BELOW Key Stage 2 level 4+ in English expressed per 1,000. Milton Keynes average: 235.0 per 1,000 pupils.

The proportion of eligible pupils gaining LESS THAN 5 GCSEs at grade A\*-C INCLUDING Mathematics and English expressed per 1,000. Milton Keynes average: 610.0 per 1,000 pupils.

Note the difference to the previous data due to a change in Government assessment.

### Young Adults

#### **18-24 year olds Not Receiving Student Awards September 2007**

Postcoded information is aggregated and expressed per 1,000 18 to 24 year olds. Milton Keynes average = 854.5 per 1,000 18 to 24 year olds.

### Older People

#### **Older People Clients of Neighbourhood Services April 2007 - March 2008**

Postcoded data on clients is aggregated and expressed per 1,000 pensioners. Estates and settlements are then ranked according to this figure. Milton Keynes average = 77.6 per 1,000 pensioners.

## Community Factors

### **Domestic Fires Data** April 2002 to March 2007

Bucks Fire and Rescue Services postcoded data on domestic fires is aggregated to estates and settlements and expressed per 1,000 households. Milton Keynes average = 9.9 per 1,000 households over 5 years.

### **Violent Crime** April 2007 - March 2008

Recorded Violent crime at estate and settlement level is expressed per 1,000 total population. Milton Keynes average = 28.7 per 1,000 people.

### **Burglary (Dwellings)** April 2007 - March 2008

Recorded Burglary from dwellings at estate and settlement level is expressed per 1,000 dwellings. Milton Keynes average = 10.8 per 1,000 dwellings.

### **Criminal Damage** April 2007 - March 2008

Recorded Criminal Damage is expressed per 1,000 population at estate and settlement level. Milton Keynes average = 21.9 per 1,000 people.

### **Social Rented Housing** March 2008

MKC Council and Registered Social Landlord rented stock at estate and settlement is expressed per 1,000 dwellings. Milton Keynes average = 193.4 per 1,000 dwellings

### **Neighbour Complaints** April 2007 - March 2008

Milton Keynes Council Environmental Health postcoded data on domestic nuisance complaints is aggregated to estate and settlement and expressed per 1,000 dwellings. Milton Keynes average = 18.1 per 1,000 dwellings.

### **Adult Continuing Education** April 2007 - March 2008

Postcodes of clients enrolled in Adult Continuing Education courses were aggregated to estate and settlement level and expressed per 1,000 population not enrolled on ACE. Milton Keynes average = 981.1 per 1,000 people.

## Health and Disability

### **Teenage Conceptions (Under 20 year olds)** January 2006 - December 2007 annualised.

Births and terminations data to teenage girls aged under 20 are aggregated to estate and settlement and expressed as an annual average per 1,000 15 to 19 year old girls. Estates and settlements are then ranked according to this figure. Milton Keynes average = 52.2 per 1,000 15 to 19 year old girls. Concerns over data volatility mean that extreme caution should be used in the use of this indicator.

### **Disabled Concessionary Fares** March 2008

Postcoded data is aggregated to estate and settlement and expressed per 1,000 population. Milton Keynes average = 5.6 per 1,000 people.

## Health and Disability

### **Disabled Clients** of Neighbourhood Services April 2007 - March 2008

Postcoded data from Neighbourhood Services on teams for Learning disability, Physical disability, Mental Health, Duty Team, Joint Elderly and Mental Health, and the Hospital is aggregated to estate and settlement and expressed per 1,000 population. Milton Keynes average = 9.0 per 1,000 people aged 18-64.

### **Emergency Admissions** April 2006 - March 2008

The number of Emergency Admissions into hospital are expressed per year per 1,000 population. Milton Keynes average = 97.6 per 1,000 people.

### **Non Emergency Admissions** April 2006 - March 2008

The number of Non Emergency Admissions into hospital are expressed per year per 1,000 population. Milton Keynes average = 110.0 per 1,000 people.

### **A&E Attendances** April 2005 - March 2008

The number attendances at the accident and emergency (A&E) are expressed per year per 1,000 population. Milton Keynes average = 241.0 per 1,000 people.

**Population Denominators** - Population figures used in this publication are estimates from the 2007/8 Population Bulletin. Age specific populations are estimates based on postcoded figures from Buckinghamshire Health Authority Patient Registration data from the July 2007 patient register, these figures were then adjusted to match the 2007/8 Population Bulletin figures.

## Estate Profiles

The information contained in this atlas is derived from the work done for Milton Keynes Council's Social Inclusion and Health Inequalities Programme. The profiles at estate and settlement level were prepared to highlight the extent of social exclusion in Milton Keynes and its concentration in particular areas, with a view to targeting areas to improve local services and community networks. The intention is to continue to develop using these indicators, so that the effects of any actions tackling the many aspects of social exclusion can be monitored.

The profiles also contain summary demographic information about the estate population, and key results from the 2001 census.

### How to interpret a profile

Population

Name of estate or settlement

Rank of population-weighted average IMD deprivation score at estate level: 1 is the most deprived, 108 the least deprived

Overall rank from the Social Atlas: 1 is the most deprived and 108 the least

Its position out of the 108 estates, for that particular indicator.  
(1 is 'worst off')

This shading indicates a value higher than 50% above the average value.

This shading indicates a value between the average value and 50% above

means that it was not ranked for that indicator as it was not applicable

Actual value for the particular indicator

How the value compares with the MK average.

If more than 100 it means more than average. e.g. 220.5 means over twice the average.

If less than 100, it means less than average so it's a 'good' thing.

S = Suppressed due to issues of confidentiality

# Social Atlas for Milton Keynes 2007/2008

Ranks of estates are shown for each indicator

1 = Most 'difficulties'

108 = Least 'difficulties'

N/A = Data not available

OR Very small numbers

Top Twenty estates with difficulties are shaded

	Housing/Council Tax Benefit	Family Referrals	Free School Meals	Special Educational Needs	Teenage Conceptions	Not Students aged 18-24	Older People Services	Domestic Fires	Neighbour Complaints	Council & Social Rent	Violent Crime	Burglary Dwelling	Criminal Damage	Disabled Concessionary Fares	Disabled Clients	ACE	Emergency Admissions	Pupils not getting 5+ A*-C GCSEs	Pupils not getting KS2 L4+ English	Nursery Uptake
