Foreword

What makes a thriving community?

If there is one thing this Social Atlas tells us, it is that there is no single recipe. Prosperity, community spirit, effective inter-connections, space to be individual, well-used facilities and many other elements may make up a good community for you or me - but maybe not for someone else.

Strong communities in Milton Keynes come in many different guises. Most still have issues to resolve - and if they succeed, other issues will no doubt arise. This is because communities are living, growing entities, and the only constant is change.

The Social Atlas gives us a snapshot of some of the statistics that help shed light on the nature of our communities and the issues they face. It is produced because we need to start our plans for the future from where we are now, but each one of us only sees a small part of the picture personally, whereas the Atlas sees the whole. As such, I hope it will be read by many individuals and organisations around the city and borough to help inform their understanding and their actions.

But we need to be careful. Many of the numbers are ambiguous: for instance an increase in disability benefit may reflect worsening health - or it may signify a community beginning to access the resources it needs to improve its life. And there are many other similar examples. We need to read and discuss the Atlas both thoughtfully and thoroughly.

As well as informing action I hope it will help each community understand itself better, and to decide what it likes - and what it wants to change.

Good luck with the journey!

Sam Crooks
Leader of the Council

Executive Summary

Milton Keynes as a whole is relatively affluent and most people enjoy a good quality of life but significant numbers of residents experience disadvantage in one or more categories. In the Social Atlas these are divided into indicators around income; children & education; older people; community factors and health & disability.

- **Income**

On average 222 per 1,000 dwellings in Milton Keynes get housing or council tax benefit, a means tested benefit. This has risen from 197 per 1,000 last year, probably reflecting the current economic situation. The highest rate is 615 out of 1,000 in Beanhill.

- **Children & Education**

There are seven indicators in this category covering a diverse range of topics affecting children. They include family referrals to Children's Social Care where the data are from a new system, so may not compare directly to previous years. Numbers of children getting free school meals is a traditional indicator of disadvantage that shows a large variation across estates. The average is 12% of pupils with the highest, 31%, in Netherfield.

As educational attainment has a strong association with future disadvantage, the following 3 indicators focus on this. To try to estimate the proportion of young people not going into higher education we look at the proportion of 18-24 year olds not getting student awards. The average across Milton Keynes is 84%. The remaining indicators look at educational attainment in schools. Firstly, the proportion attaining below level 4 in Key Stage 2 English. The Milton Keynes average is 202 per 1,000 pupils, with great variation across estates. The English average is 190 per 1,000. Performance has improved since introduction of the tests. In 1997, nationally 37% of pupils were failing to reach level 4, and 41% of pupils in Milton Keynes. The second of these indicators assesses the proportion of pupils gaining less than 5 GCSEs at grade A*-C including Mathematics and English. The Milton Keynes average is 579 per 1,000 pupils, the highest is 1,000 in 6 estates. The English average is 524 per 1,000 pupils.

- **Older People**

On average 72 out of 1,000 pensioners are clients of Older People's Services.

- **Community Factors**

Community factors include those affecting how people feel about their home environment. There are several different factors in this category including domestic fires; categories of recorded crime; tenure; neighbour complaints and a measure of community involvement.

Domestic fires have been found to correlate strongly with disadvantage. Looking over a rolling 5-year period, on average there were 9 fires per 1,000 dwellings in Milton Keynes from 2003 to 2008. The highest was 39 per 1,000 dwellings in Moulsoe. Crime data has been included for violent crime, burglaries and criminal damage. The highest rates of both violent crime and criminal damage occur in Central Milton Keynes because of the high visitor population.

Considering neighbour complaints to Environmental Health: on average there were 30 complaints per 1,000 dwellings, the highest rate was in Fishermead with 97 complaints per 1,000.

- **Health & Disability**

There are 6 health and disability indicators listed in the grid profiles, although only 4 of these are used in the calculation of the overall rankings. Teenage conceptions: on average there were 46 conceptions per 1,000 girls aged 15 to 19. The numbers are small so a 2-year average time period is considered. Disabled concessionary fares and clients of disabled services are included as pointers towards areas where the population has a greater need for support. Some of the variations in these factors are explained by the dominant style of dwelling in the estate, for example more bungalows.

The final 3 indicators focus on hospital activity. The emergency admission rate was 95 per 1,000 population per year. Denbigh East has the highest rate of 177 per 1,000. Non-emergency hospital admissions were included for information; this indicator was not included in the overall rankings. Visits to accident and emergency were also included in the estate profiles.

Introduction

The purpose of this series of documents is to enable people working towards Social Inclusion to identify:

- the most significant social inclusion issues
- geographic concentrations of need
- the relative severity of social exclusion compared with other areas and the national picture
- a snapshot position
- geographic areas and issues where development of services and initiatives might be focused
- to measure change

and to prompt discussion on possible causes of inequality and suggestions for actions to achieve improvement.

The data used are primarily locally collected data, intended to highlight areas with a high need for public services. Earlier work included developing a framework to structure information gathering, along the lines of those used by the government in “Opportunity for All” and by bodies such as the Joseph Rowntree Trust. The framework has the following categories:

- income
- children
- young adults
- adults aged 25 to retirement
- older people
- community factors
- health and disability

The indicators included this year are directly comparable, with the only difference being a change in the computer system used to record family referrals data, which may lead to differences.

The ideals restricting choices for indicators are that:

- they should be capable of being collected at ward and/or below ward level
- they should be commonly available across all local authorities
- they should allow for national comparisons
- they should have an acknowledged relationship with disadvantage.

Useful developments since the first document have been:

1. The setting up of the Office for National Statistics website for the Neighbourhood Statistics Service. Extensive amounts of data, from the 2001 census and other administrative data sources, are available at local level at no cost. The site can be found at <http://neighbourhood.statistics.gov.uk/>
2. The development and updating of the Index of Multiple Deprivation, a multi-dimensional indicator available to lower-super output area level, published in 2000, 2004 and 2007.
3. The development of the Milton Keynes Observatory, a web-based data resource to share, map and visualise data. The web site can be found at: www.mkiobservatory.org.uk

Local Authority Level Data

Floor Targets 2009

Floor targets are indicators aimed at helping government and councils to narrow the gap between deprived areas and the national average in terms of health, education, crime, employment and housing. They will also identify areas where progress is not being made. They will enable all those involved in neighbourhood renewal to identify priority areas, monitor progress and compare themselves with others.

The table below outlines how Milton Keynes compares to the national and regional average. Data coloured in red indicates Milton Keynes data is worse than the national average.

Table 1: Floor Targets 2009, Milton Keynes, South East and England

Indicator	Milton Keynes	England	South East
Economic			
Overall employment rate 2009 (Quarter 1)	80.1	74.4	78.8
Crime			
Burglary: offences per 1,000 households 2008/9	11.2	12.5	8.7
Vehicle crime: offences per 1,000 population 2008/9	13.0	10.0	8.2
Robbery: offences per 1,000 population 2008/9	1.3	1.5	0.7
Overall crime rate (recorded crime BCS Comparator) 2007/8	60.4	49.7	44.3
Sexual Offences: per 1,000 population 2008/9	1.2	0.9	0.9
Violence against the person: per 1000 population 2008/9	26.4	16.5	16.1
Education			
% of 16 year olds achieving 5+ GCSEs grades A*-C 2007/8	62.2	64.5	66
% of 11 year olds achieving Key Stage 2 Level 4 English 2007/8	80	81	82
% of 14 year olds achieving Key Stage 3 Level 5 English 2006/7	74	74	76
Health			
Male life expectancy at birth 2005-7	78	77.6	78.9
Female life expectancy at birth 2005-7	81.5	81.8	82.7
Mortality rate: circulatory diseases 2005-7	81.4	79.1	66.3
Mortality rate: cancer 2005-7	114.2	115.5	108
Mortality rate: suicide and undetermined injury 2005-7	6.8	7.9	7.6
Conception rate: under 18's per 1,000. 2003-5	43.2	41.2	33.3
Transport			
Overall road accident rate: all casualties (per 1,000 pop) 2006	5.8	4.5	4.6
Road casualties: people killed and seriously injured (per 1,000 pop) 2007	0.4	0.5	0.5
Road casualties: children killed and seriously injured (per 1,000 pop) 2007	0.2	0.3	0.2
Environment			
% residents satisfied with local parks and open spaces 2008	82.5	72.6	76

For more information on floor targets, including other comparator geographies and time series analysis please visit www.fti.communities.gov.uk/fti/

Summary of Indicator Trends

Indicator trend key:

- ✓ data shows improving trend since the 2001 Social Atlas (SA)/2008 data
- ✗ data shows worsening trend since the 2001 SA/2008 data
- data broadly constant (within 10%) since the 2001 SA/2008 data
- ⊖ only baseline data available or insufficient data available to determine a trend

	Trend Since	
	2001	2008
Income Indicators		
Housing/Council Tax Benefit claimants	✗	✗
Free School Meals Uptake	⊖	■
Children Indicators		
Family Referrals*	✗	⊖
Children with Special Educational Needs	■	■
Young Adults Indicator		
18-24 year olds not receiving student awards	■	■
Older people Indicator		
Older People clients of Neighbourhood Services	■	■
Community Indicators		
Violent Crime	✗	■
Burglary Dwelling	✓	■
Criminal Damage	✗	■
Domestic Fires	✗	■
Neighbour Complaints	✗	✗
Health and Disability Indicators		
Disabled Concessionary Fares	✗	✗
Disabled Clients of Neighbourhood Services	✗	■
Emergency Hospital Admissions	⊖	■

Table 2: Summary of Indicator Trends

Note: this definition assumes higher uptake of services is worse, in reality the converse could be true in that more eligible persons are being identified. All comparisons are between rates so are unaffected by population growth.

* Policy changes since the 2001 Social Atlas may have encouraged an increase in the number of Family Referrals.

The Data at Ward Level

Map 1: Milton Keynes Ward Boundaries

Borough Profile

There are 23 wards in Milton Keynes, as can be seen in the map opposite. Many datasets are available nationally published at ward level. This often allows for national comparisons of data such as those listed below.

Income

- Income Support Claimants Aug-08: Department for Work and Pensions
- Income Support is a means-tested benefit available to certain groups of people on low incomes.

Children

- Lone Parent Claimants of Income Support Aug-08: Department for Work and Pensions
- Language Needs Indication 2009: MKC Education Department

Young Adults

- Youth Unemployment April 2009: NOMIS
- Income Support August 2008: Department for Work and Pensions.
- Student Award Claimants Sept 2008: Buckinghamshire County Council

Older People

- Pensioner Credit Claimants Aug-08: Department for Work and Pensions
A new benefit for pensioners. Pension Credit has two elements: a 'top up' element to bring pensioners up to a guaranteed income level and a savings credit element which will reward those who have small levels of savings.

Community

- Neighbour Complaints: MKC 2008-09

Health and Disability

- Life Expectancy 2004-2008 Average: MKC 2009
- Disability Living Allowance Claimants Aug-08: Department for Work and Pensions
Disability Living Allowance (DLA) is a benefit for people Under 65 who have an illness or disability. It provides extra money for people who need help with personal care (the care component) and/or help with walking (the mobility component). It is not means-tested and can be claimed both when in work, or when claiming other benefits.
- Incapacity Benefit and Severe Disablement Allowance Aug-08: Department for Work and Pensions
Incapacity Benefit (IB) is a contributory benefit for people with illnesses or disabilities who are unable to work, and who have made sufficient National Insurance (NI) contributions.

Index of Multiple Deprivation 2007

What is it?

The Index of Multiple Deprivation 2007 (IMD 2007) is the government measure of deprivation. It is used to analyse patterns of deprivation, identify areas that would benefit from special initiatives or programmes and as a tool to determine eligibility for specific funding streams.

It combines a number of indicators, chosen to cover a range of economic, social and housing issues, into a single deprivation score for each small area in England. This allows each area to be ranked relative to one another according to their level of deprivation. As with the 2004 indices, IMD 2007 has been produced at District Level and at Lower Super Output Area level (LSOA), of which there are 32,482 in the country. There are 139 LSOAs in Milton Keynes.

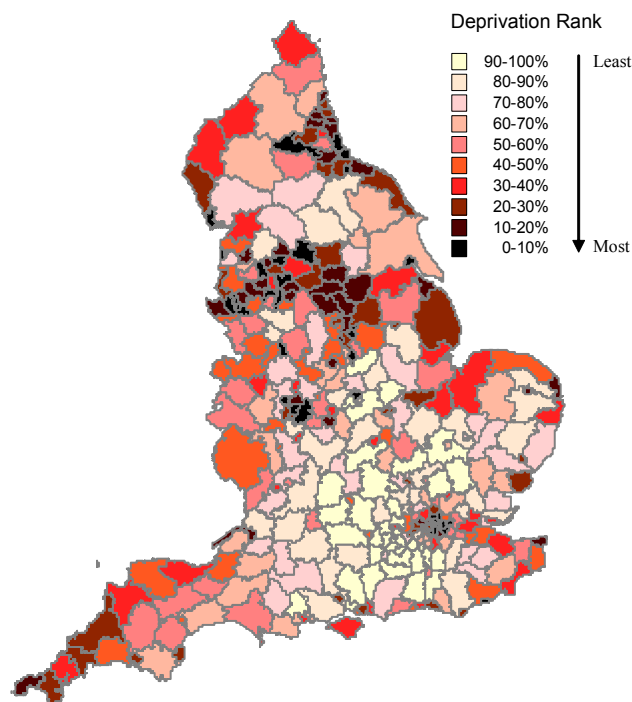

Milton Keynes District

The map to the right shows the IMD 2007 mapped for the districts in England. The figures for Milton Keynes show that:

- Milton Keynes is ranked 212 out of 354 Local Authority Districts (with 1 being the most deprived), this is a slight improvement on the 2004 rank of 204.

- Districts ranked closely to Milton Keynes include; Stevenage, Kettering, Worthing and Herefordshire.

Map 2: IMD 2007 Overall Deprivation Rank: England

Milton Keynes' Lower Super Output Area Analysis

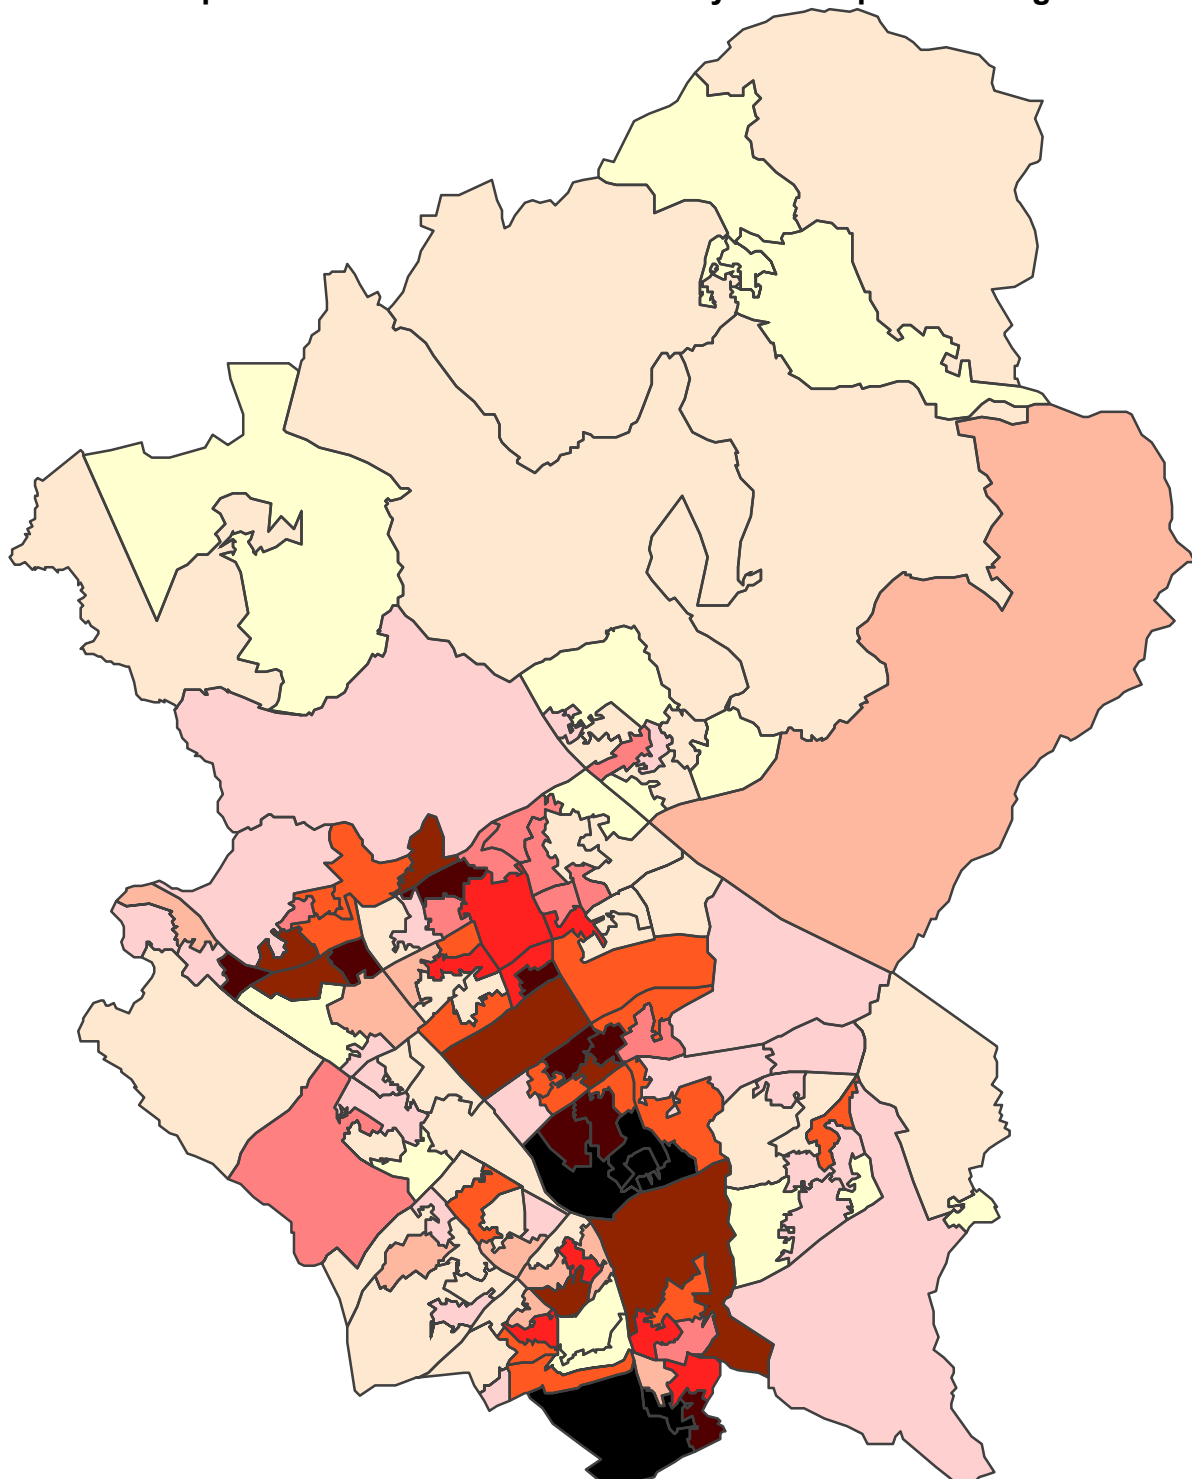

As stated previously IMD 2007 was released at LSOA level. The map on page 13 shows the results for Milton Keynes Super Output Areas.

Table 3: Number of LSOAs in Milton Keynes within the 30% most and 30% least deprived in England

	Number of LSOAs	
	2004	2007
Within Most Deprived		
0-10%	5	6
10-20%	8	9
20-30%	9	7
Within Least Deprived		
0-10%	14	14
10-20%	26	35
20-30%	31	23

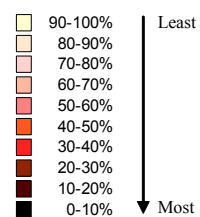

The table to the left shows the number of LSOAs in Milton Keynes within the most/least deprived 10%, 20%, 30% LSOAs in England with a comparison to the 2004 Index. The table shows that of the 139 LSOAs in Milton Keynes there are 6 which are within the 10% most deprived in England. This compares to 5 in 2004. Overall there are 22 LSOAs within the most deprived 30%, the same number as with the 2004 Index. There are 14 LSOAs within the least deprived 10% in England, the same number as in the 2004 Index.

Map 3: IMD 2007 deciles in Milton Keynes compared to England

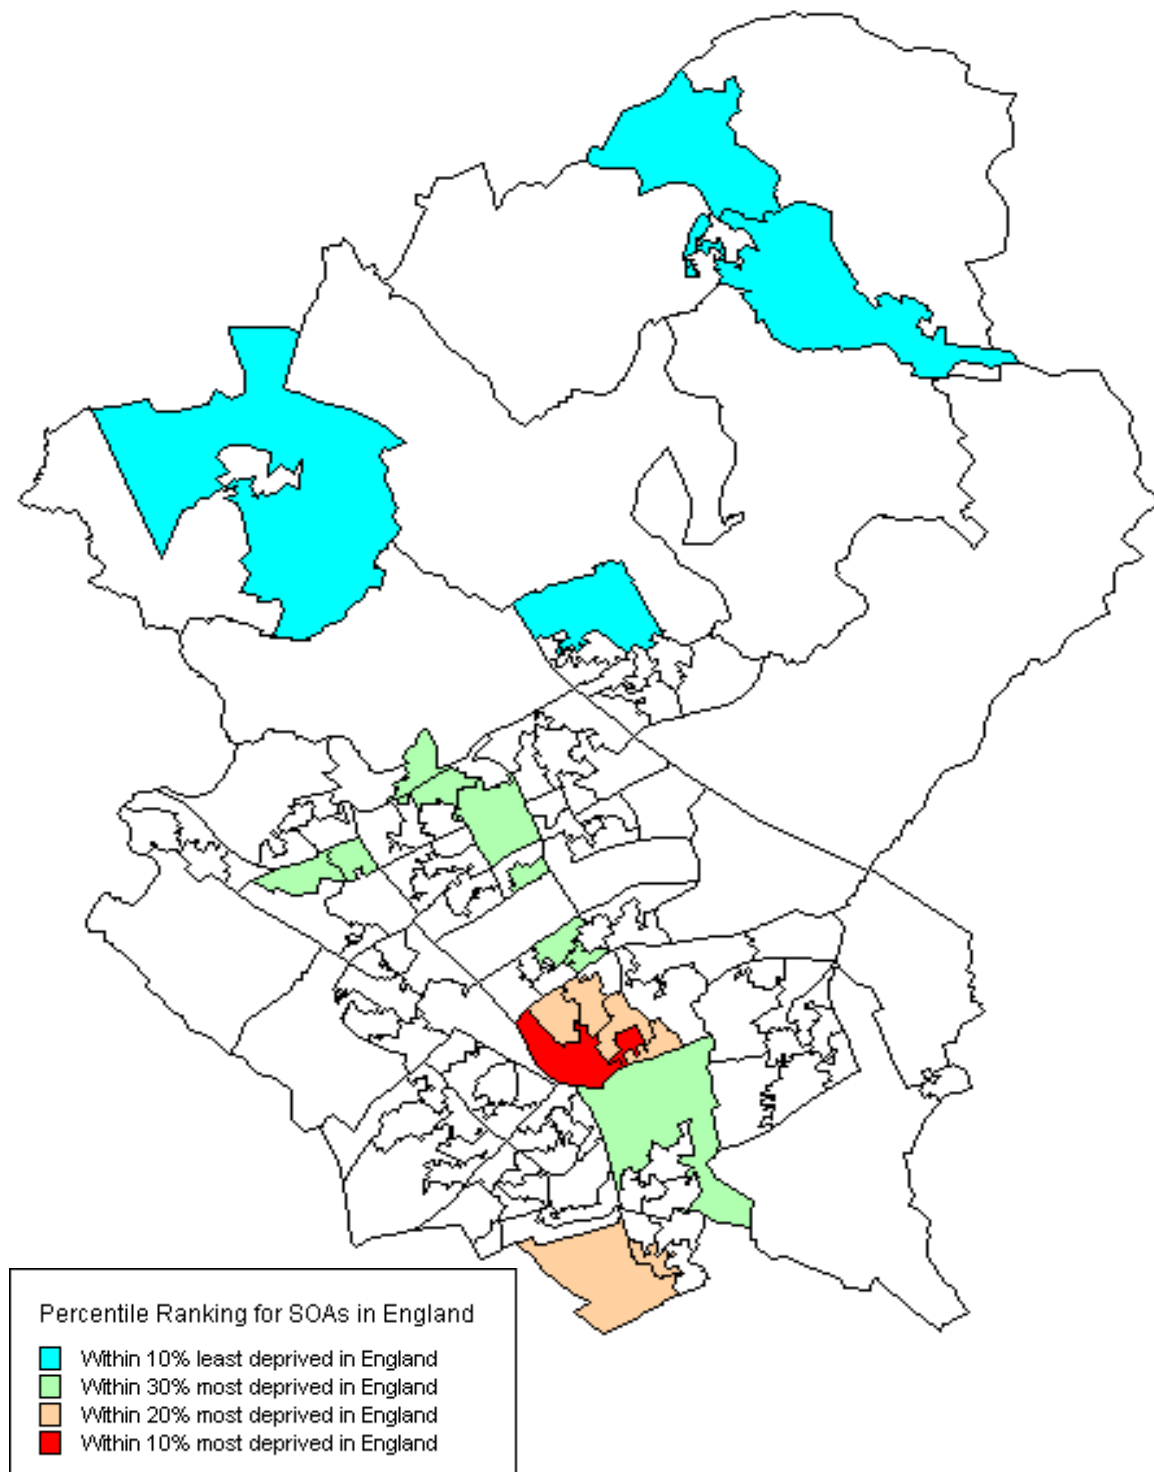

i The map outlines that there are 6 LSOAs in MK which are within the most deprived 10% in England. These areas cover a large part of Woughton Ward and part of Eaton Manor Ward. Overall there are 22 LSOAs within the most deprived 30%. There are 14 areas within the least deprived 10% these are in rural areas, Newport Pagnell and some areas in the city.

Deprivation Rank

**Map 4: Health Deprivation & Disability Domain
from IMD 2007**

This domain from the updated Index of Multiple Deprivation 2007 identified small geographic units called Lower Super Output Areas (LSOAs) with relatively high rates of people who die prematurely or whose quality of life is impaired by poor health or disability across the whole population. The indicator is made up of:

- 1) Years of Potential Life Lost (2001 to 2005)
- 2) Comparative Illness and Disability ratio (2005)
- 3) Measures of acute morbidity from Hospital Episode Statistics (2004 to 2005)
- 4) Adults under 60 suffering from mood or anxiety disorders (2004 to 2005)

The map illustrates that Woughton ward has areas with the highest levels of poor health and disability. Areas in Eaton Manor ward also have notable deprivation relating to health and disability.

Unemployment

In April 2009 there were 7,288 people in Milton Keynes claiming Job Seekers Allowance. As a percentage of the working age population in Milton Keynes this is 4.9%.

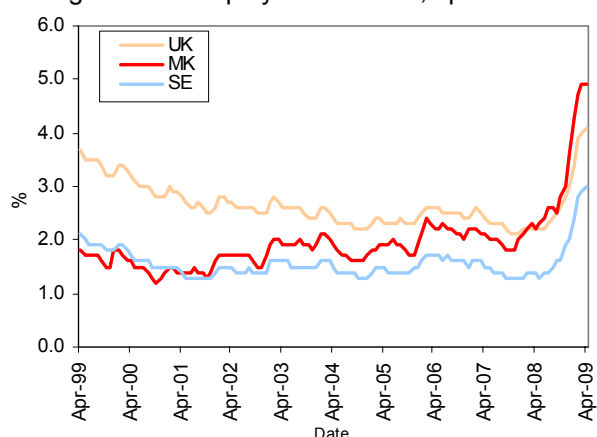

Table 4, to the right, shows that Milton Keynes has a similar unemployment rate to other urban areas in the South Midlands. Milton Keynes has a significantly higher unemployment rate than both the national average (4.1%) and the South East Region (3.0%).

630 claimants in Milton Keynes had been claiming for more than one year in April 2009, accounting for 8.6% of total claimants. This compares to 6.4% in the South East region and 8.3% in the UK.

Table 4: Unemployment rates for selected areas, April 2009

Region	%
Milton Keynes	4.9
South East Region	3.0
UK	4.1
Bedford	4.2
Luton	4.9
Northampton	5.1
Wellingborough	5.1

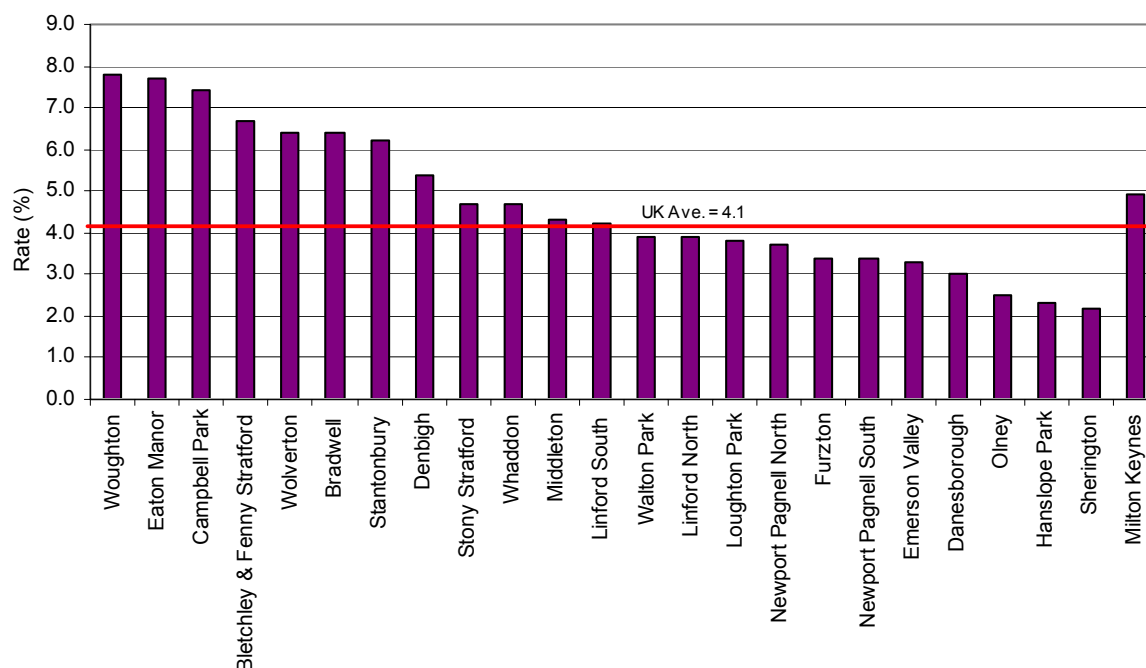

Figure 1: Unemployment Trends, April 1998 - 2009

The number of claimants in Milton Keynes more than doubled (116%) between April 2008 and April 2009. The graph to the right shows the changing unemployment rate for Milton Keynes, the South East and the UK.

The graph below outlines that there are 12 wards in MK with higher unemployment rates than the UK. Woughton (7.8%), Eaton Manor (7.7%), Campbell Park (7.4%) and Bletchley & Fenny Stratford (6.7%) have the highest unemployment rates in MK. These wards are within the 10% highest ranked wards in the UK. Sherington has the lowest unemployment rate in Milton Keynes and is within the 30% lowest unemployment for wards in the UK.

Figure 2: Unemployment Rates for Milton Keynes Wards, April 2009

Overseas Migrant Workers in Milton Keynes

All European Economic Area (EEA) and Swiss nationals are free to enter and live in the United Kingdom. From 1st May 2004, 8 Eastern European 'accession states' joined the EU (the A8). Residents of these countries have to register with the Worker Registration Scheme when they want to start working for more than one month. Residents of Romania and Bulgaria face more restrictions on working in the UK although they can work under the Seasonal Agricultural Workers Scheme.

Workers from the A8 countries who find employment in the UK are required to register with the Home Office under the Worker Registration Scheme as soon as they find work. They are then issued with a worker registration certificate, issued for a 12-month period. This proves that they can live and work in the UK while they are working in that job. If they change jobs before the 12 months they have to renew their registration. Once 12 months has been completed under the Worker Registration Scheme they can apply for an EEA Residence permit.

Table 5: Origin of Worker Registration Scheme applicants working in Milton Keynes

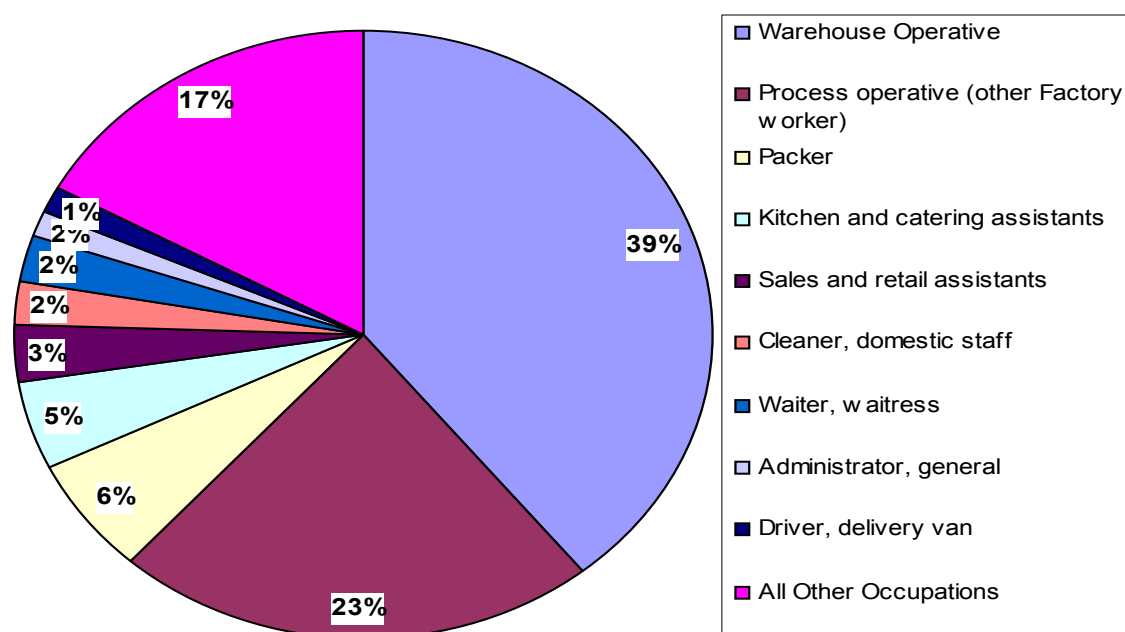

Milton Keynes applications	Country of origin								Total
	Czech Rep	Estonia	Hungary	Latvia	Lithuania	Poland	Slovakia	Slovenia	
May 04 - March 06	55	10	45	30	170	780	70	0	1,160
Percentage	4.7	0.9	3.9	2.6	14.7	67.2	6.0	0.0	100.0
April 06 - March 07	17	6	20	16	70	795	50	0	960
Percentage	1.8	0.6	2.1	1.7	7.3	82.8	5.2	0.0	100.0
April 07 - March 08	16	4	25	8	55	635	36	0	770
Percentage	2.1	0.5	3.2	1.0	7.1	82.5	4.7	0.0	100.0
April 08 - March 09	16	3	20	10	50	375	35	4	515
Percentage	3.1	0.6	3.9	1.9	9.7	72.8	6.8	0.8	100.0
May 04 - March 09	104	23	110	64	345	2,585	191	4	3,405
Percentage	3.1	0.7	3.2	1.9	10.1	75.9	5.6	0.1	100.0

As the table above shows, since the accession states joined the EU a total of 3,405 have registered under the scheme for a workplace address in Milton Keynes. This does not imply that there are over 3,000 residents from the accession states. The workers may not live in Milton Keynes, for example. We have no information about how long the workers remained with the employer, or in the country.

It is evident that the flow of workers has reduced, with only 515 registering in the current year, compared to 770 registering in the previous year and 960 in the year before that. Of those who knew how long they intended to be in the UK, the majority planned to be here less than 3 months. Research* does indicate that migrants frequently stay for a longer time period than they had originally intended. However more recent research** implies that increasing numbers of Polish workers are returning home as a result of factors such as exchange rate changes and an improving economic outlook in their home country.

The vast majority of WRS migrants are from Poland - 67% in the 23 months to the end of March 2006 and 80% from April 2006 to March 2009, almost 76% overall. The most common job that migrants came to do in Milton Keynes is 'warehouse operative'; the occupation stated by 39% of WRS applicants. 23% stated 'process operative', and a further 6% 'packers' so factory work attracts two thirds of these migrants.

Figure 3: Most stated occupations of WRS applicants in 2008/9

* 'Migrants' lives beyond the workplace: the experiences of Central and East Europeans in the UK' by Sarah Spencer, Martin Ruhs, Bridget Anderson and Ben Rogaly, published by the Joseph Rowntree Foundation, May 2007.

*** 'Floodgates or Turnstiles? Post EU enlargement migration flows to (and from) the UK' by Naomi Pollard, Maria Lattore and Dhananjayan Sriskandarajah, published by the ippr, April 2008

Income

Overall in Milton Keynes a smaller proportion of the population claim income support than for England as a whole. Milton Keynes had a rate of 48.8 per 1,000 working age population compared to 55.8 per 1,000 in England.

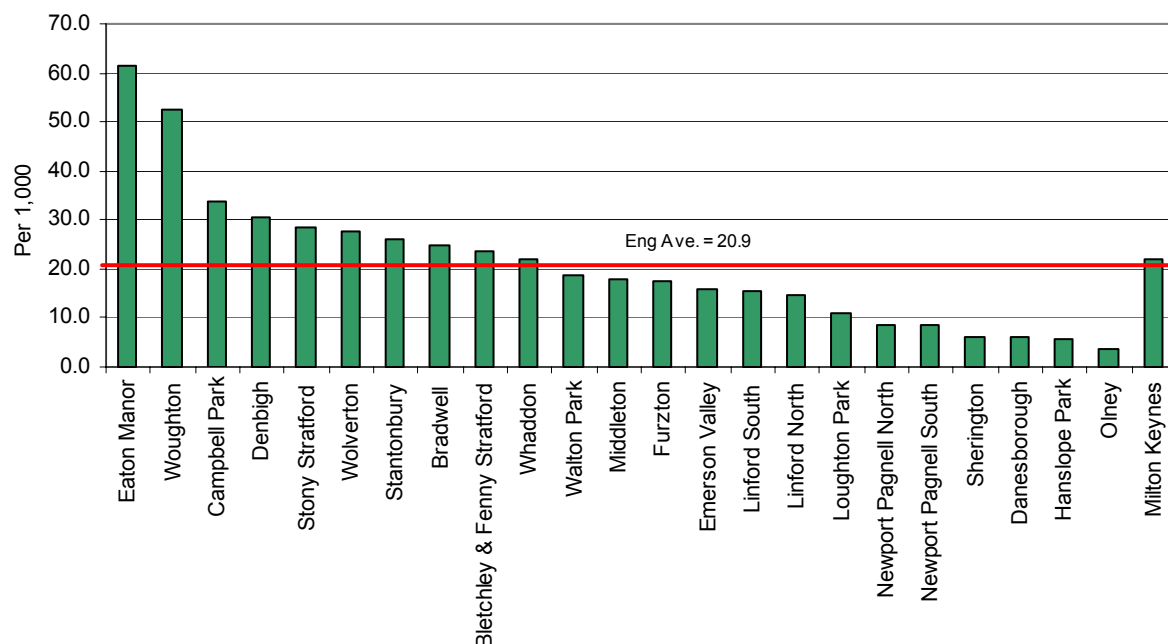

There is significant variation in the rates of income support claimants between the wards in Milton Keynes. Woughton ward has over two and a half times the national rate for Income Support claimants per 1,000 population. Estates covered by this ward include Beanhill, Coffee Hall, Eaglestone, Leadenhall, Netherfield and Tinkers Bridge. Eaton Manor and Campbell Park Wards are also significantly above national average rate of income support claimants.

Figure 4: Income Support Claimants for Milton Keynes Wards, August 2008

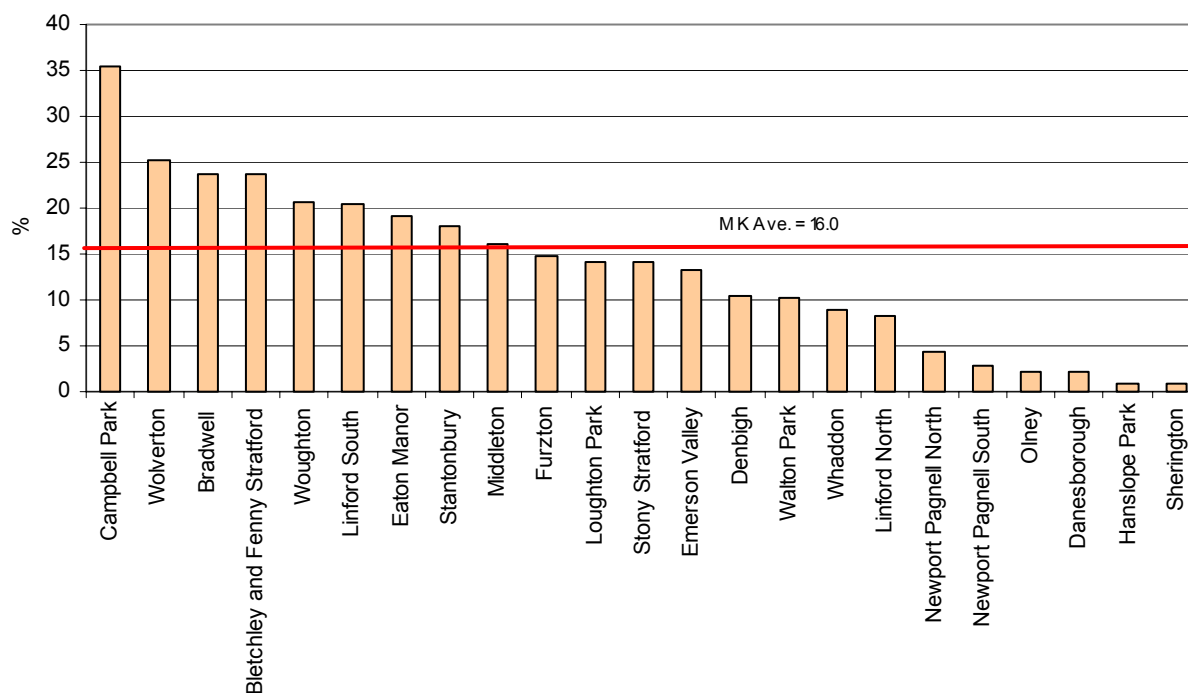

In August 2008, 3,325 Lone Parent families claimed Income Support in Milton Keynes. This is a rate of 22.1 per 1,000 working age population and is slightly higher than that of England as a whole (20.9 per 1,000). There are 10 wards in Milton Keynes which have a higher than the England average of lone parents claiming Income Support. Eaton Manor and Woughton Wards are more than twice the national average.

Figure 5: Lone Parent Income Support Claimants for Milton Keynes Wards, August 2008

The 2001 Census included data on a 'language needs indicator'. This showed that Bletchley and Fenny Stratford Ward and Campbell Park Ward had the highest proportion of dependent children who live in a household where English may not be the first language. The 2009 Schools Census also collected data on the first language of pupils. Details of this data are shown below and reveal a similar picture.

Figure 6: Language Needs Indication 2009 from Schools Census

The graph above shows that 35.5% (841) of all pupils living in Campbell Park Ward may have a first language other than English. Wolverton (25.1%), Bradwell (23.7%) and Bletchley and Fenny Stratford (23.7%) also stand out as having large proportions of pupils whose first language may not be English. Rural areas on the other hand have very low numbers of pupils whose first language may not be English.

Young Adults

Table 6: Youth Unemployment and Income Support Claimant for Wards

Table 6 shows the number and percentage of 16-24-year olds claiming Job Seekers Allowance in April 2009 and Income Support in August 2008.

The cells marked in orange mean they are higher than the England rate.

Middleton (14.7%) and Campbell Park (11.4%) stand out as having the highest proportions of 16-24 years claiming Job Seekers Allowance. This compares to 5.5% in England.

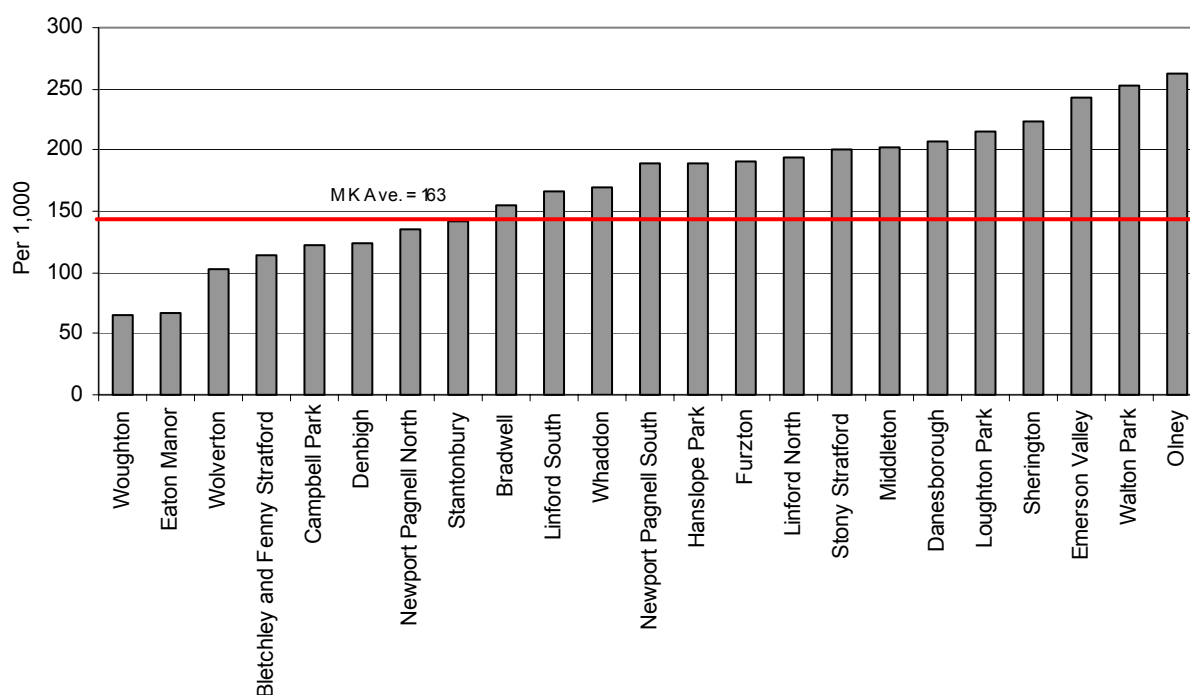

Eaton Manor Ward (9.8%) has double the England average (4.1%) of 16-24 year olds claiming Income Support.

Very low levels of 16-24 years olds claiming Job Seekers Allowance or Income Support occur in the rural areas of Milton Keynes.

	Unemployment		Income Support	
	16-24	Rate	16-24	Rate
Bletchley & Fenny Stratford	115	9.2	90	6.6
Bradwell	145	7.8	80	4.9
Campbell Park	205	11.4	145	8.5
Danesborough	20	4.7	5	1.2

Figure 7 shows the number of Student Award claimants per 1,000 18-24 years old for wards in Milton Keynes. A significant number of Milton Keynes wards fall beneath the MK average (163 per 1,000 18-24 year olds). Wards with particularly low proportions include Woughton (64.5) and Eaton Manor (67.2). Emerson Valley, Walton Park and Olney wards have the highest proportions.

Figure 7: Student Award claimants 2008 per 1,000 18-24 year olds

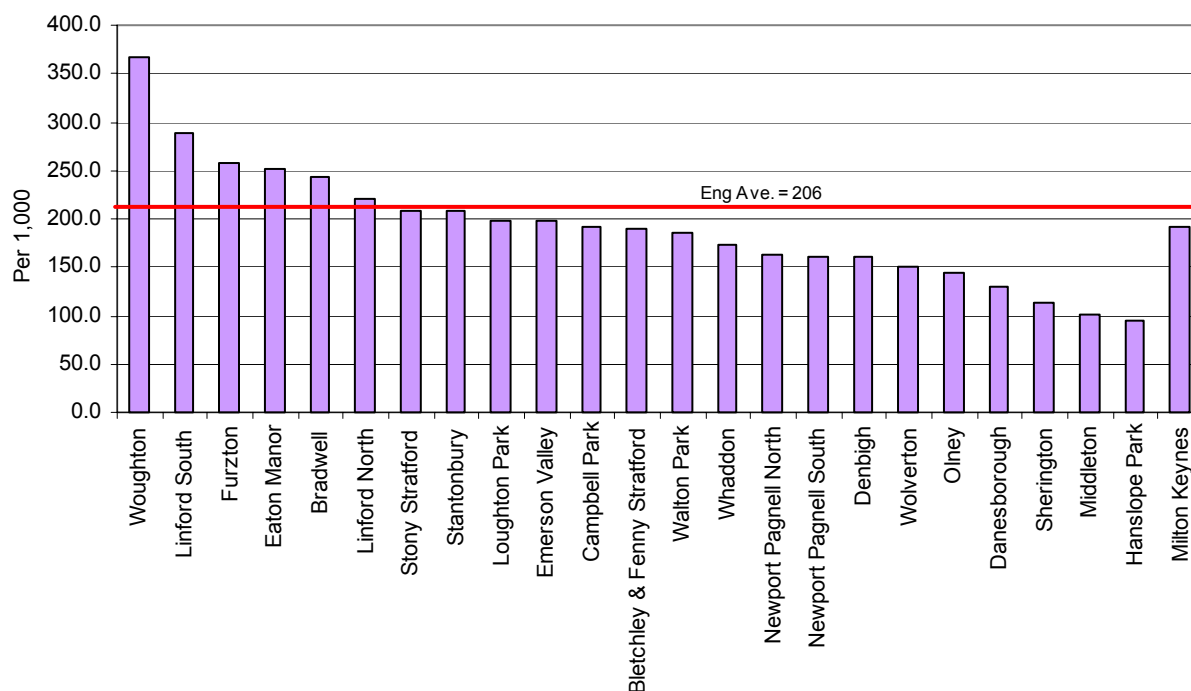

Older People

7,050 people aged 60 and over were in claiming Pension Credit in August 2008. This is 191.8 per 1,000 population age 60 and over, slightly lower than the England average of 206 per 1,000.

6 out of 23 wards in Milton Keynes are above the national average with Woughton (367.1 per 1,000) standing out as significantly higher than the other wards. Linford South, Furzton, Eaton Manor and Bradwell Wards also have much higher than average numbers claiming Pension Credit.

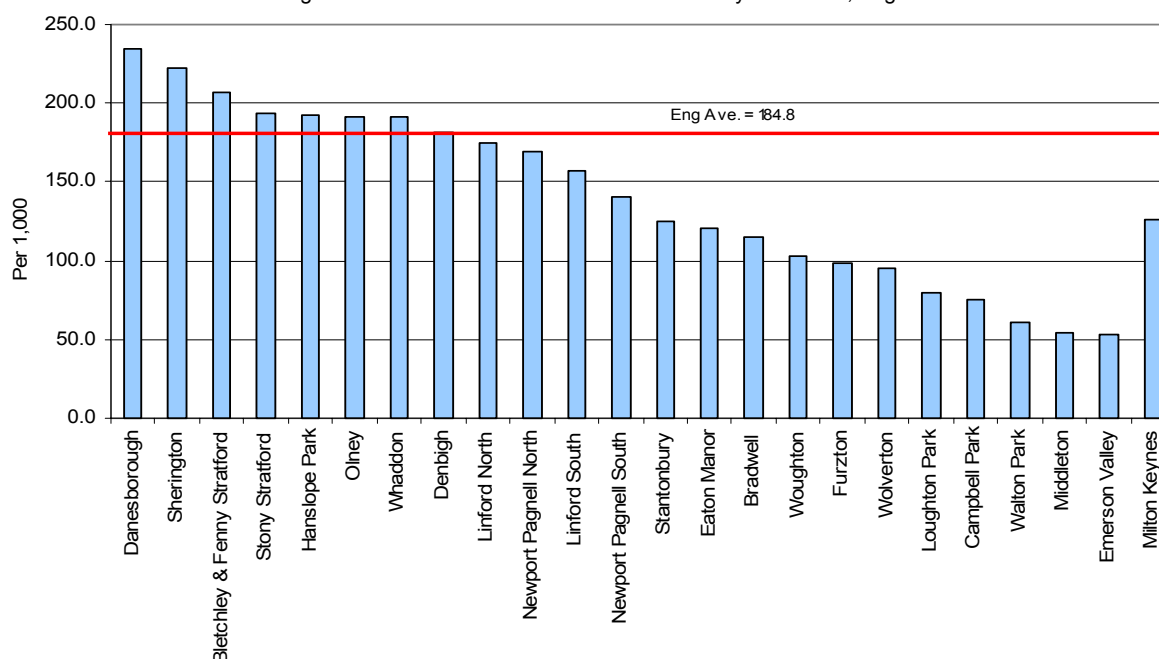

Figure 8: Pension Credit Claimants for Milton Keynes Wards, August 2008

A total of 29,220 people in Milton Keynes claimed a state pension in August 2008. This is 126.2 per 1,000 population, significantly lower than the England average of 184.8 per 1,000, reflecting the young profile of Milton Keynes population.

The graph below shows there are significant variations between the wards in Milton Keynes of the proportion of people claiming a state pension. Danesborough, Sherington and Bletchley and Fenny Stratford Wards are significantly above the England average. The wards with the lowest state pension claimants are Emerson Valley (53.4 per 1,000), Middleton (54.1) and Walton Park (61.2).

Figure 9: State Pension Claimants for Milton Keynes Wards, August 2008

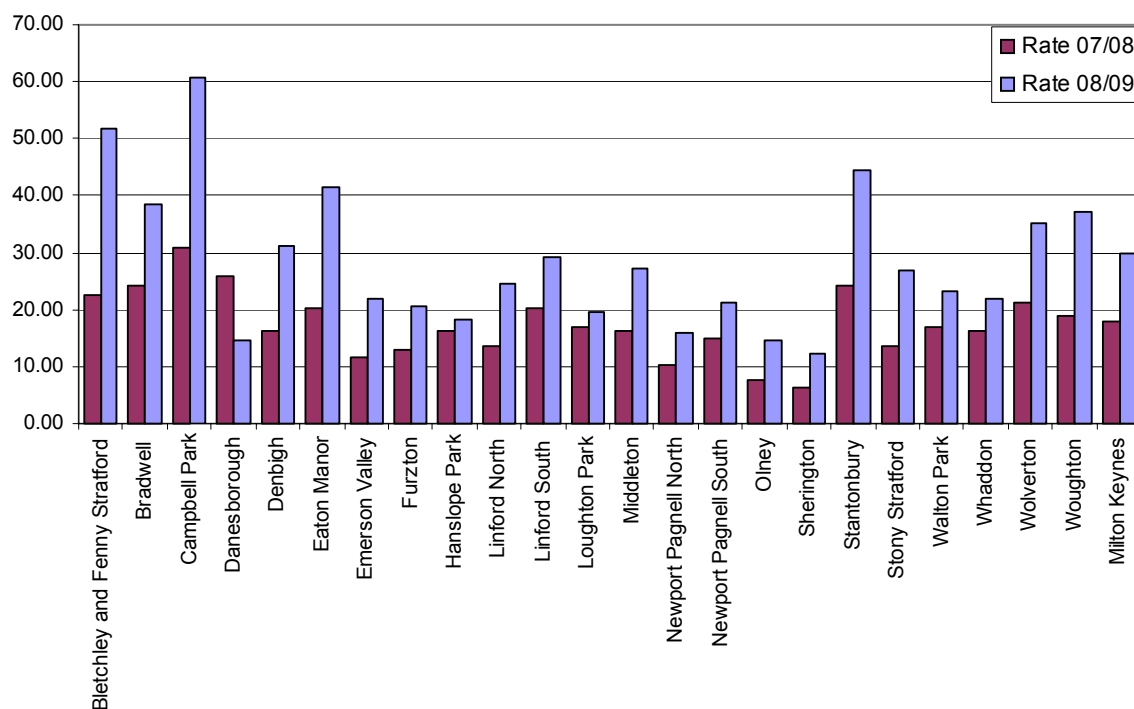

Neighbour Complaints at Ward Level

Neighbour complaints are an important tool for assessing the quality of life enjoyed in a neighbourhood. These are complaints by residents about their neighbours made to the Environmental Health service. Historically, the greatest numbers of complaints are about excessive and untimely noise. This year has seen complaints about various causes of noise including construction and street works. The rate of neighbour complaints per 1,000 dwellings has risen compared to the previous year, for the third year in succession. Some large differences are apparent when examined at ward level, although every ward with the exception of Danesborough has experienced an increase.

The rural areas show generally lower complaints about neighbours, after accounting for the number of dwellings, than the urban areas. Sherington ward has the lowest number of complaints per 1,000 dwellings; nearby Olney is also low but both areas have seen a substantial increase from the previous year. The lower level of complaints could be a result of the lower housing density in these areas. Campbell Park and Bletchley & Fenny Stratford are the wards with the highest rate of complaints. Campbell Park has shown a large rise from the previous year, and has the highest rate of complaints in the borough. Stantonbury, Eaton Manor and Bradwell wards have all shown large increases in the rate of complaints compared to the previous year.

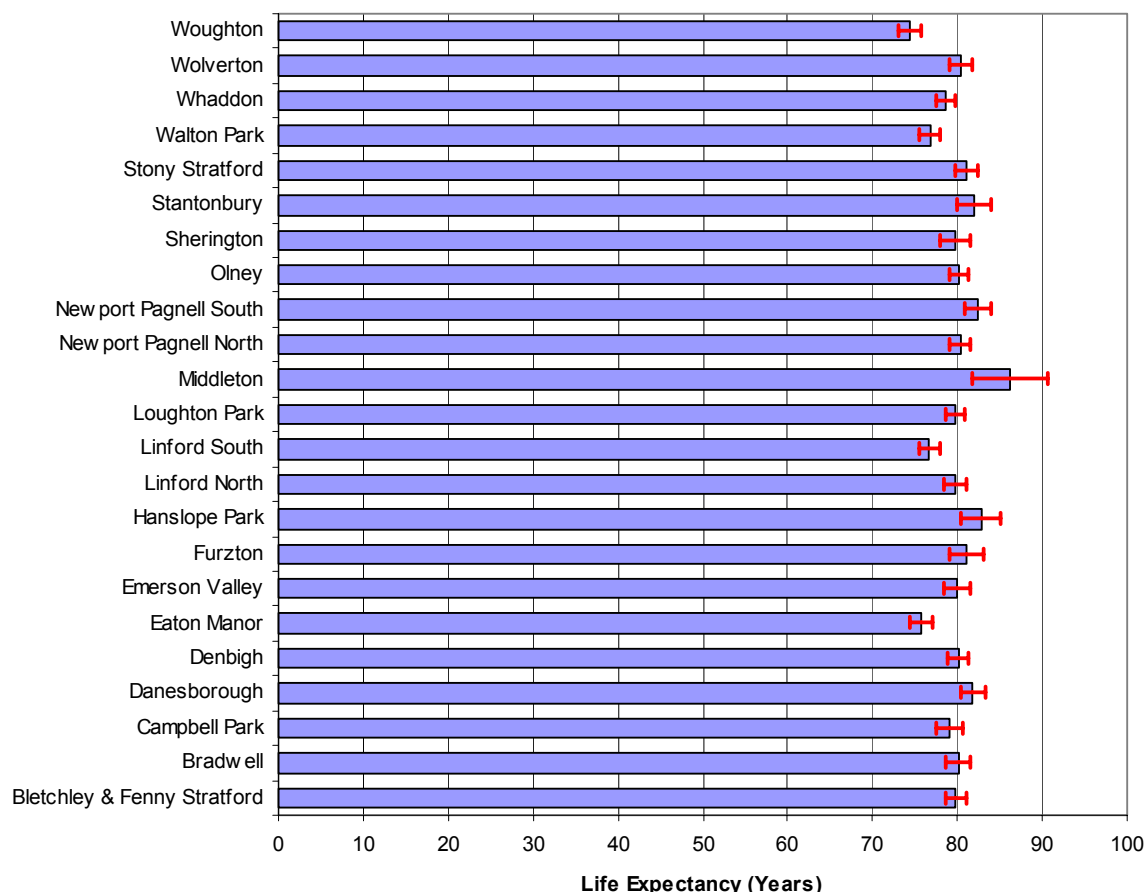

Figure 10: Rate of Neighbour Complaints by Ward per 1,000 Dwellings 2007/8 to 2008/9

Health and Disability

Life expectancy is a focus of national government targets to reduce inequalities in health outcomes. Life expectancy is linked to social circumstances, and despite improvements the gap is large, and in some areas is widening. Specifically by 2010, the target is to reduce the gap in life expectancy at birth, by area, by 10%. Life expectancy at birth does not reflect the life experience of any individual. Instead, it provides a summary of the mortality experience of the individuals living in a particular area, over a period of time. Gaps in life expectancy can be observed between local authority areas. For example, in 2005/2007 in England & Wales a difference of 10.5 years was observed between areas with the highest life expectancy at birth for boys, and areas with the lowest. The gap when Scotland is included is even higher, at 12.9 years. The gap for girls in England & Wales was 9.7 years. The gaps within these areas can be even wider. The current situation for Milton Keynes can be seen from the chart below.

Figure 11: Persons' Life Expectancy at Birth by Ward, 2004 to 2008 Average

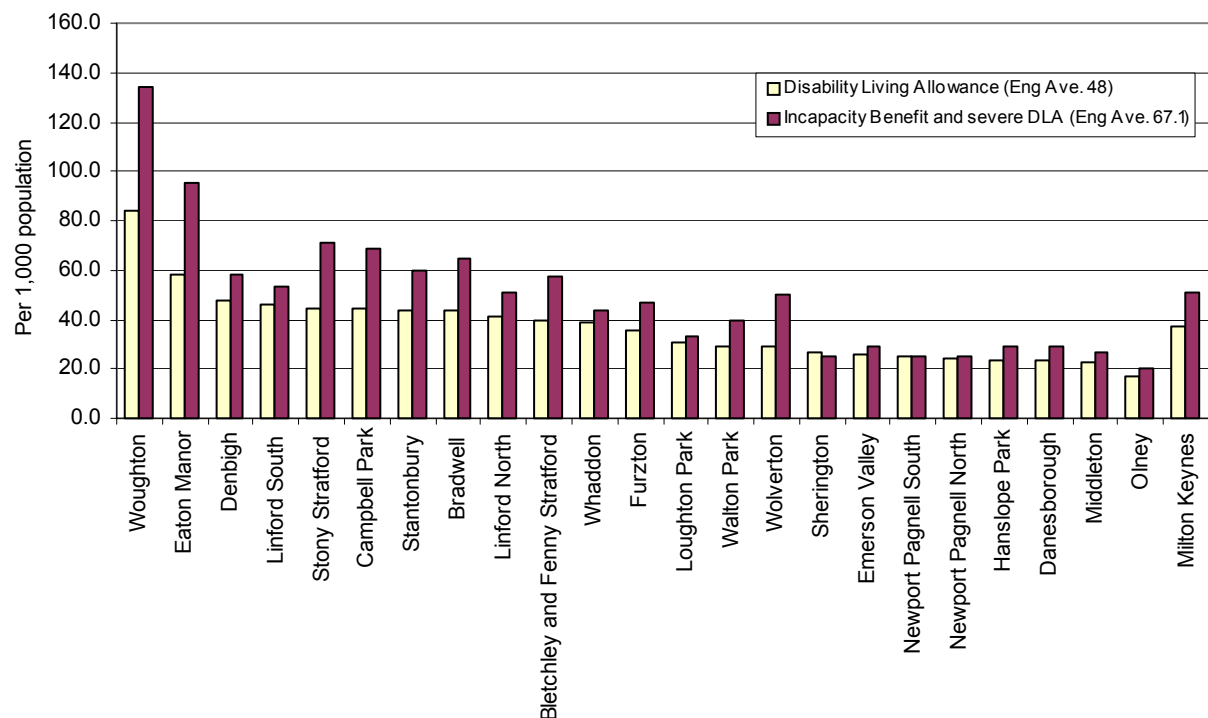

The average life expectancy in Milton Keynes for 2004-2008 was 79.3 years, slightly higher than the previous year although this may be due to statistical fluctuations. The range was almost 12 years, a substantial increase based on a substantially higher life expectancy in one particular ward. This ward is Middleton with a life expectancy at birth of 86.2 years. Woughton has the lowest life expectancy of 74.4 years, but this has risen by around 1 year since the previous calculations.

The life expectancy at birth was 77.3 years for males, range 9.9 years. This is higher than previously although the range has increased. This is equivalent to the 77.27 years average male life expectancy for the UK, but below that for England & Wales of 77.54 years. Middleton had the highest life expectancy for males of 81.9 years. Woughton has the lowest life expectancy for males of 72.1 years.

The life expectancy at birth for females in Milton Keynes has risen to 81.3 years, and the range has risen to 14.1 years. This is below the female life expectancy in England & Wales, 2005/2007 which was 81.74 years although these are not directly comparable because of the different time periods covered. Middleton had the highest life expectancy of 90.6 years with Hanslope Park second with 88.0 years. Woughton again had the lowest at 76.6 years, an increase from the previous figure. There is a reasonably high level of consistency over time between the rankings of life expectancy (the relative position of wards) for the calculations. There is some variation due to statistical uncertainty surrounding such small-area calculations which is to be expected.

Nationally available disability benefits data provide us with results at ward level. Milton Keynes has a lower proportion of residents claiming Severe Disability Living Allowance, Incapacity Benefits and Disability Living Allowance than for England as a whole. Woughton ward is consistently higher than the national average for both disability benefits. It has almost twice the average Incapacity Benefit/Severe DLA rate and Disability Living Allowance. Eaton Manor Ward also has higher than the national average in both benefits.

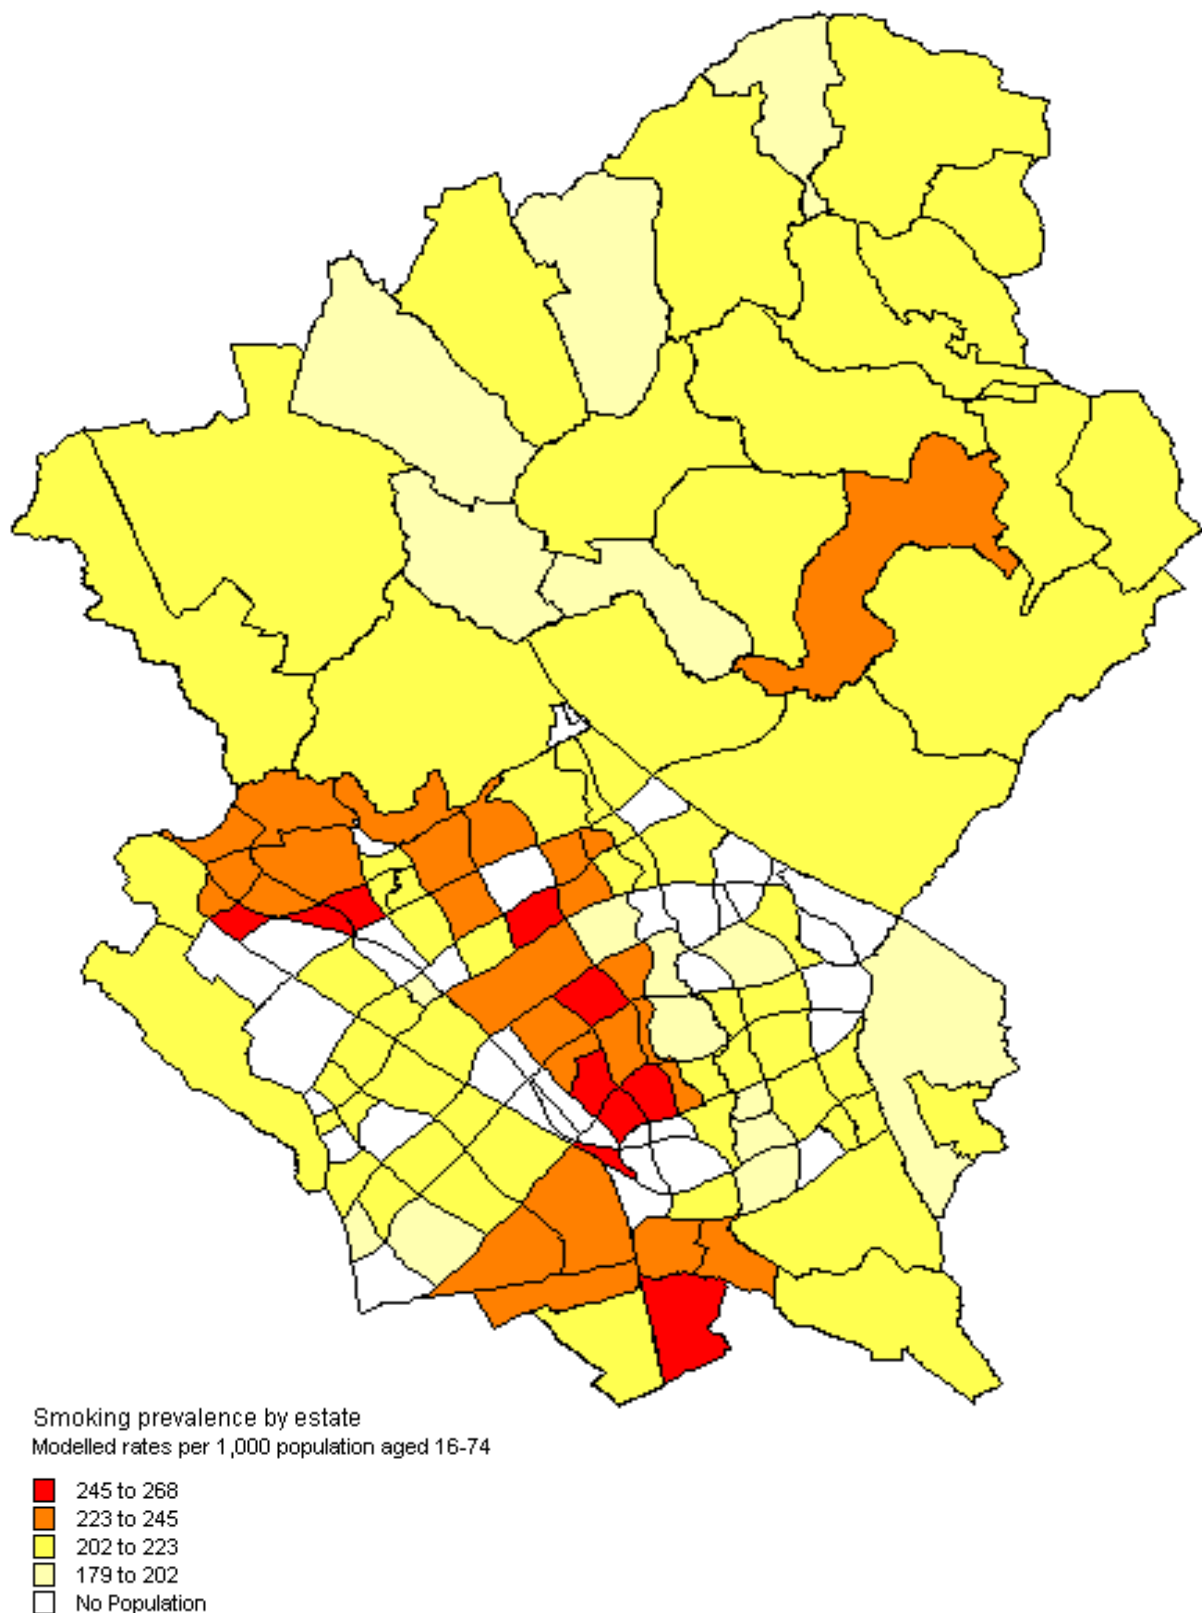

Figure 12: Disability Benefit Claimants for Milton Keynes Wards, August 2008

Local **Health and Disability** indicators such as Disabled Concessionary Fares and Clients of Disabled Services at Milton Keynes Council are useful at looking at health and disability. They have been useful in pointing out several areas of need, such as Beanhill, Coffee Hall, Granby, Stacey Bushes and Willen Park. These can be seen in the estate indicators section.

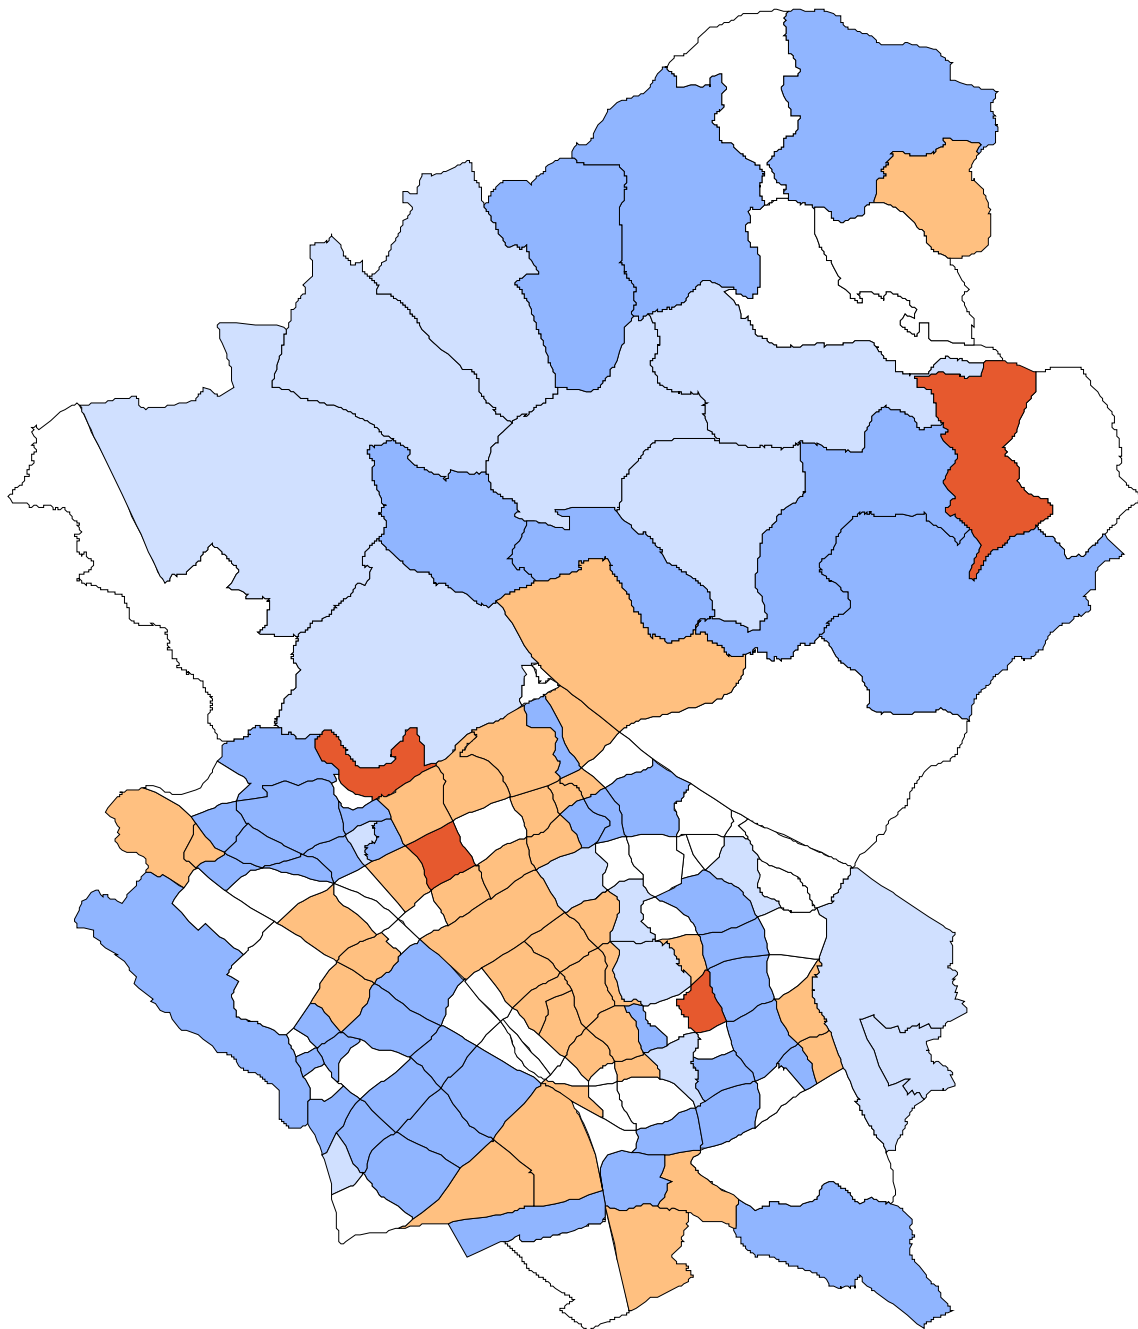

Maps overleaf show the estimated prevalence of smoking by estate in Milton Keynes. These are estimates derived from national data. The second map illustrates the take up of smoking cessation services provided by the PCT. It illustrates that the highest uptake of services is not always in the areas which are estimated to have the highest prevalence of smokers.

Map 5: Smoking Prevalence estimates by Estate per 1,000 population aged 16-74*

* Derived from national data: smoking prevalence estimates were calculated based on General Household Survey 2006 national smoking rates by gender and socio-economic class. These were applied to 2001 census estate level estimates of the socio-economic structure of the population to get an estimate of the numbers of smokers by estate. This was then calculated as a proportion of the total estate population aged 16-74. The proportion of the population in different socio-economic groups is assumed not to have altered significantly since 2001.

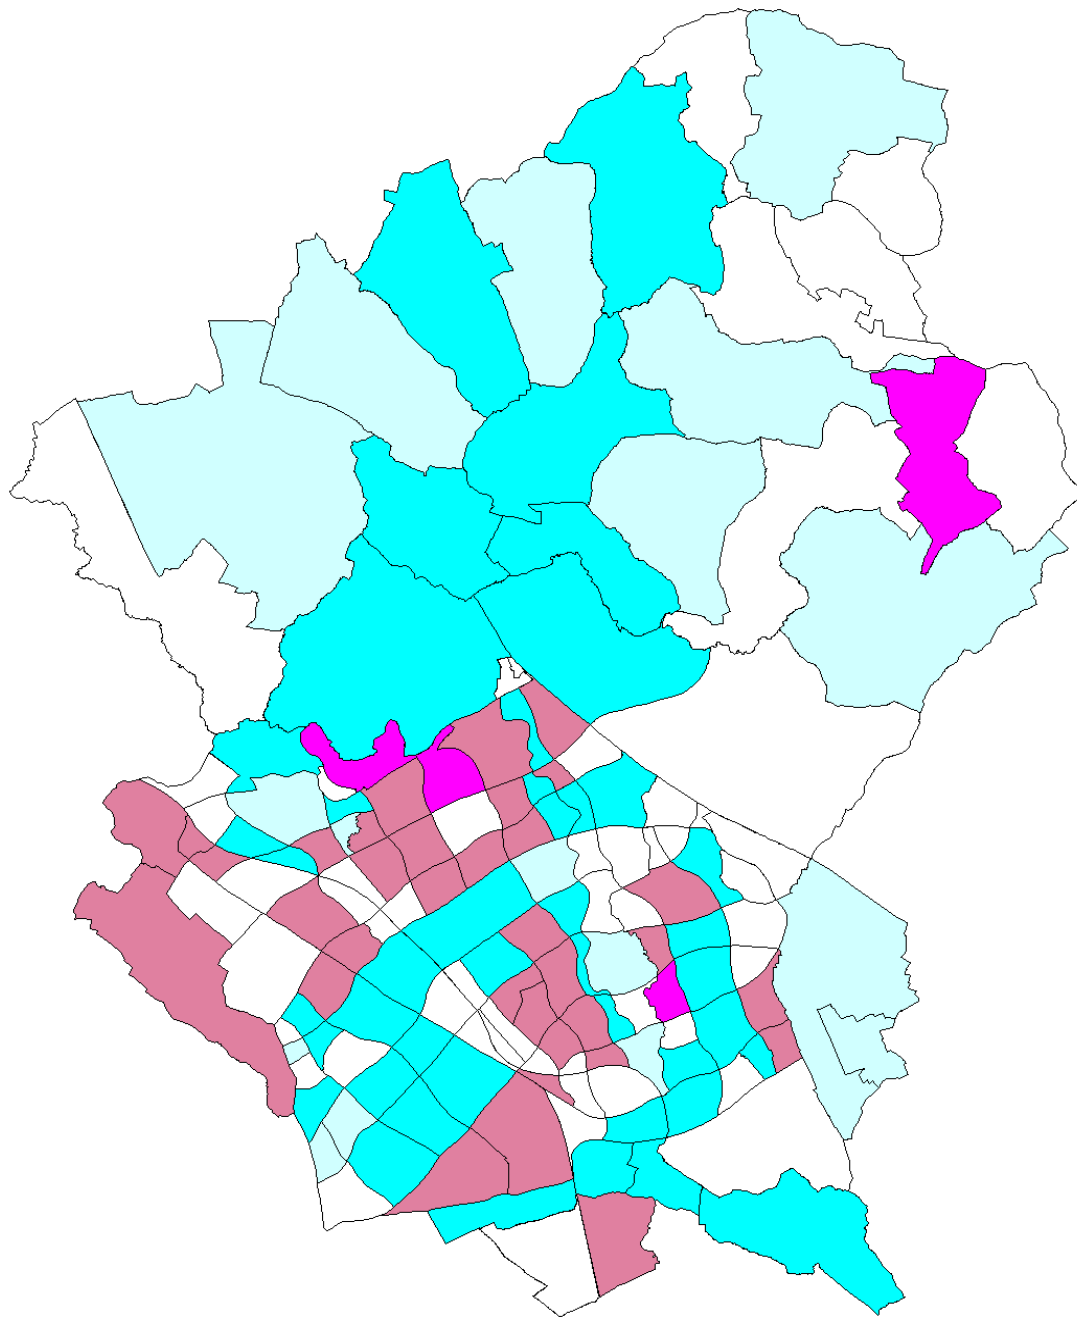

**Map 6: Average annual Smoking Cessation Clients over 3 years,
2006-2008 by Estate per 1,000 population aged 16-74**

The Data at Estate Level

Map 7: Estate and Settlement Boundaries

Overall Estate Rankings

The table below shows the 20 estates with the most difficulties (from a range of indicators) in Milton Keynes.

It is possible to make comparisons with most indicators in the previous document. These include:

- Housing/Council Tax Benefits
- Children with Special Educational Needs
- Teenage Conceptions
- No Student Awards
- Clients of Older People Services
- Domestic Fires
- Violent Crime, Burglary Dwelling, Criminal Damage
- Neighbour Complaints
- Adult Continuing Education
- Educational attainment indicators
- Disabled Clients of Neighbourhood Services
- Hospital Admissions data

It should be remembered that these are relative rankings within Milton Keynes. The number of people requiring a benefit or service may have decreased, but the ranking is determined by the relative position.

Table 7: 20 Estates with the Lowest Overall Ranks from Social Atlas 2009 data

Overall Rank 2008/9 (top 20 of 108)	Estates with Difficulties (Consistently ranked with more difficulties)
1	Netherfield
2	Beanhill
3	Coffee Hall
4	Tinkers Bridge
5	Conniburrow
6	Fullers Slade
7	New Bradwell
8	Stantonbury
9	Water Eaton
10	Fishermead
11	Eaglestone
12	Fenny Stratford
13	Peartree Bridge
14	Hodge Lea
15	Greenleys
16	Neath Hill
17	Granby
18	Bradville
19	Central Milton Keynes
20	Stacey Bushes

Definitions and Methods

Describing the data used in the estate profiles and the source of the data.

Income

Housing/Council Tax Benefit June 2009

Postcoded information on claimants was aggregated to estates/settlements and expressed per 1,000 dwellings. Estates and settlements are then ranked according to this figure. Milton Keynes average = 222.4 per 1,000 dwellings claim benefit.

Children

Family Referrals April 2008 - March 2009

Counts of families referred to Social Services by estate expressed per 1,000 dwellings. Milton Keynes average = 23.4 per 1,000 dwellings.

Note: this data has been derived from a new system, so may not be directly comparable with previous years' data

Nursery Place Non-uptake 2008/09

Count of 3 and 4 year olds not attending a nursery or play school. Milton Keynes average = 248.2 per 1,000 3 and 4 year olds.

Nursery school information comes from the 2009 school census.

Children with Special Educational Needs (4 to 18 year olds) March 2009

Postcoded data on children statemented with special educational needs is aggregated and expressed per 1,000 pupils. Estates and settlements are then ranked according to this figure. Milton Keynes average = 35.2 per 1,000 pupils.

Free School Meals March 2009

Postcoded information was aggregated to estates and settlements and expressed per 1,000 pupils. Estates and settlements are then ranked according to this figure. Milton Keynes average = 116.1 per 1,000 pupils.

Educational attainment 2008

The proportion of eligible pupils attaining BELOW Key Stage 2 level 4+ in English expressed per 1,000. Milton Keynes average: 201.5 per 1,000 pupils.

The proportion of eligible pupils gaining LESS THAN 5 GCSEs at grade A*-C INCLUDING Mathematics and English expressed per 1,000. Milton Keynes average: 578.9 per 1,000 pupils.

Note the difference to the previous data due to a change in Government assessment.

Young Adults

18-24 year olds Not Receiving Student Awards September 2008

Postcoded information is aggregated and expressed per 1,000 18 to 24 year olds. Milton Keynes average = 843.0 per 1,000 18 to 24 year olds.

Older People

Older People Clients of Neighbourhood Services April 2008 - March 2009

Postcoded data on clients is aggregated and expressed per 1,000 pensioners. Estates and settlements are then ranked according to this figure. Milton Keynes average = 71.9 per 1,000 pensioners.

Community Factors

Domestic Fires Data April 2003 to March 2008

Bucks Fire and Rescue Services postcoded data on domestic fires is aggregated to estates and settlements and expressed per 1,000 households. Milton Keynes average = 9.1 per 1,000 households over 5 years.

Violent Crime April 2008 - March 2009

Recorded Violent crime at estate and settlement level is expressed per 1,000 total population. Milton Keynes average = 26.0 per 1,000 people.

Burglary (Dwellings) April 2008 - March 2009

Recorded Burglary from dwellings at estate and settlement level is expressed per 1,000 dwellings. Milton Keynes average = 10.9 per 1,000 dwellings.

Criminal Damage April 2008 - March 2009

Recorded Criminal Damage is expressed per 1,000 population at estate and settlement level. Milton Keynes average = 19.7 per 1,000 people.

Social Rented Housing March 2009

MKC Council and Registered Social Landlord rented stock at estate and settlement is expressed per 1,000 dwellings. Milton Keynes average = 191.2 per 1,000 dwellings

Neighbour Complaints April 2008 - March 2009

Milton Keynes Council Environmental Health postcoded data on domestic nuisance complaints is aggregated to estate and settlement and expressed per 1,000 dwellings. Milton Keynes average = 29.9 per 1,000 dwellings.

Adult Continuing Education April 2008 - March 2009

Postcodes of clients enrolled in Adult Continuing Education courses were aggregated to estate and settlement level and expressed per 1,000 population not enrolled on ACE. Milton Keynes average = 976.1 per 1,000 people.

Health and Disability

Teenage Conceptions (Under 20 year olds) January 2007 - December 2008 annualised.

Births and terminations data for teenage girls aged under 20 are aggregated to estate and settlement and expressed as an annual average per 1,000 15 to 19 year old girls. Estates and settlements are then ranked according to this figure. Milton Keynes average = 45.5 per 1,000 15 to 19 year old girls. Concerns over data volatility mean that extreme caution should be used in the use of this indicator.

Disabled Concessionary Fares March 2009

Postcoded data is aggregated to estate and settlement and expressed per 1,000 population. Milton Keynes average = 13.1 per 1,000 people.

Health and Disability

Disabled Clients of Neighbourhood Services April 2008 - March 2009

Postcoded data from Neighbourhood Services on teams for Learning disability, Physical disability, Mental Health, Duty Team, Joint Elderly and Mental Health, and the Hospital is aggregated to estate and settlement and expressed per 1,000 population. Milton Keynes average = 8.6 per 1,000 people aged 18-64.

Emergency Admissions April 2007 - March 2009

The number of Emergency Admissions into hospital are expressed per year per 1,000 population. Milton Keynes average = 94.9 per 1,000 people.

Non Emergency Admissions April 2007 - March 2009

The number of Non Emergency Admissions into hospital are expressed per year per 1,000 population. Milton Keynes average = 108.9 per 1,000 people.

A&E Attendances April 2007 - March 2009

The number attendances at the accident and emergency (A&E) are expressed per year per 1,000 population. Milton Keynes average = 215.3 per 1,000 people.

Population Denominators - Population figures used in this publication are estimates from the 2008/9 Population Bulletin. Age specific populations are estimates based on postcoded figures from Buckinghamshire Health Authority Patient Registration data from the July 2008 patient register, these figures were then adjusted to match the 2008/9 Population Bulletin figures.

Estate Profiles

The information contained in this atlas is derived from the work done for Milton Keynes Council's Social Inclusion and Health Inequalities Programme. The profiles at estate and settlement level were prepared to highlight the extent of social exclusion in Milton Keynes and its concentration in particular areas, with a view to targeting areas to improve local services and community networks. The intention is to continue to develop using these indicators, so that the effects of any actions tackling the many aspects of social exclusion can be monitored.

The profiles also contain summary demographic information about the estate population, and key results from the 2001 census.

How to interpret a profile

Population

Name of estate or settlement

Rank of population-weighted average IMD deprivation score at estate level: 1 is the most deprived, 108 the least deprived

Overall rank from the Social Atlas: 1 is the most deprived and 108 the least

Its position out of the 108 estates, for that particular indicator.
(1 is 'worst off')

This shading indicates a value higher than 50% above the average value.

This shading indicates a value between the average value and 50% above

Means that it was not ranked for that indicator as it was not applicable

Actual value for the particular indicator

How the value compares with the MK average.

If more than 100 it means more than average. e.g. 297.9 means over twice the average.

If less than 100, it means less than average so it's a 'good' thing.

S = Suppressed due to issues of confidentiality

Social Atlas for Milton Keynes 2008/2009

Ranks of estates are shown for each indicator

1 = Most 'difficulties'

108 = Least 'difficulties'

N/A = Data not available

OR Very small numbers

Top Twenty estates with difficulties are shaded
