## FOREWORD

### Developing a thriving neighbourhood: what do the data say about MK?

It has been a challenging year in which to be the lead council member for regeneration and the economy – but also a very heartening year. I have seen at first hand the enthusiasm with which the council, town and parish councils, other agencies and residents are now working in partnership to make ambitious plans for a better future. I strongly believe that local communities know their areas best, and that our job is to enable them to improve life there.

The Social Atlas is produced because we need to start our plans for the future from where we are now. Each of us sees a small part of the picture; the social atlas helps us look at it as a whole. It gives us a snapshot of statistical facts for Milton Keynes and assists us in shedding light on the nature of our communities and some of the issues they face. As well as informing action needed, I hope it will help each community understand itself better; decide what it likes, and what it needs to change.

The success of Milton Keynes will be judged by how well all of our communities thrive. We must ensure that our services and programmes reach those that most need them and that our established communities have the same attention and focus as the newer developing areas. The Social Atlas is an ideal tool in helping us to identify where we need to focus our energy. Every area has its strengths and weaknesses. Hopefully using this document we can focus attention on where our help is needed most and work with partners to improve and enhance life on MK estates.

## EXECUTIVE SUMMARY

Milton Keynes as a whole is relatively affluent and most people enjoy a good quality of life but significant numbers of residents experience disadvantage in one or more categories. Some examples are below:

### Income

On average 237 per 1,000 dwellings in Milton Keynes get housing or council tax benefit, a means tested benefit. This has risen for the second year in succession, probably reflecting the current economic situation. The highest rate is 585 per 1,000 dwellings in Beanhill, a rate which has fallen from last year.

### Children & Education

There are seven indicators in this category covering a diverse range of topics affecting children. Numbers of children getting free school meals is a traditional indicator of disadvantage that shows a large variation across estates. The average is 13% of pupils with the highest, 45%, in Netherfield.

As educational attainment has a strong association with future disadvantage, the following 3 indicators focus on this. To try to estimate the proportion of young people not going into higher education we look at the proportion of 18-24 year olds not getting student awards. The average across Milton Keynes is 89%. The remaining indicators look at educational attainment in schools. Firstly, the proportion attaining below level 4 in Key Stage 2 English. The Milton Keynes average is 21%, with great variation across estates. The English average is 19%. Performance has improved since introduction of the tests. In 1997, nationally 37% of pupils were failing to reach level 4, and 41% of pupils in Milton Keynes. The second of these indicators assesses the proportion of pupils gaining less than 5 GCSEs at grade A\*-C including Mathematics and English. The Milton Keynes average is 52%, the highest is 100% in 7 estates. The English average is 49% of pupils.

### Community Factors

Community factors include those affecting how people feel about their home environment. There are several different factors in this category including domestic fires; recorded crime and neighbour complaints.

Domestic fires have been found to correlate strongly with disadvantage. Looking over a rolling 5-year period, on average there were 8.3 fires per 1,000 dwellings in Milton Keynes from 2004 to 2009. The highest was 36.2 per 1,000 dwellings in Central Milton Keynes. Crime data has been included for violent crime, burglaries and criminal damage. The highest rates of both violent crime and criminal damage occur in Central Milton Keynes because of the high visitor population. Central Milton Keynes also saw the highest rate of neighbour complaints to Environmental Health with 130 complaints per 1,000 dwellings. The Milton Keynes average was 34 per 1,000 dwellings.

### Health & Disability

There are 6 health and disability indicators listed in the grid profiles, although only 4 of these are used in the calculation of the overall rankings. Teenage conceptions: on average there were 62 conceptions per 1,000 girls aged 15 to 19. A 2-year average time period is considered, but the rate has risen substantially. Disabled concessionary fares and clients of disabled services are included as pointers towards areas where the population has a greater need for support. Some of the variations in these factors are explained by the dominant style of dwelling in the estate, for example more bungalows.

The final 3 indicators focus on hospital activity. The emergency admission rate was 101 per 1,000 population per year. Non-emergency hospital admissions were included for information; this indicator was not included in the overall rankings. Visits to accident and emergency were also included in the estate profiles.

# INTRODUCTION

The purpose of this series of documents is to enable people working towards Social Inclusion to identify:

- the most significant social inclusion issues
- geographic concentrations of need
- the relative severity of social exclusion compared with other areas and the national picture
- a snapshot position
- geographic areas and issues where development of services and initiatives might be focused
- to measure change

It also serves to prompt discussion on possible causes of inequality and suggestions for actions to achieve improvement.

The data used are primarily locally collected data, intended to highlight areas with a high need for public services. Earlier work included developing a framework to structure information gathering, along the lines of those used by the government in “Opportunity for All” and by bodies such as the Joseph Rowntree Trust. The framework has the following categories:

- Income
- Children
- Young adults
- Adults aged 25 to retirement
- Older people
- Community factors
- Health and disability

The indicators included this year are directly comparable, with the only difference being a recent change in the computer system used to record family referrals data, which may lead to differences.

The ideals restricting choices for indicators are that:

- They should be capable of being collected at ward and/or below ward level
- They should be commonly available across all local authorities
- They should ideally allow for national comparisons
- They should have an acknowledged relationship with disadvantage.

Useful developments since the first document have been:

1. The setting up of the Office for National Statistics website for the Neighbourhood Statistics Service. Extensive amounts of data, from the 2001 census and other administrative data sources, are available at local level at no cost. The site can be found at [www.neighbourhood.statistics.gov.uk](http://www.neighbourhood.statistics.gov.uk)
2. The development and updating of the Index of Multiple Deprivation, a multi-dimensional indicator available to lower-super output area level, published in 2000, 2004 and 2007.
3. The development of the MK Observatory, a web-based data resource to share, map and visualise data. The web site can be found at: [www.mkiobservatory.org.uk](http://www.mkiobservatory.org.uk)

## LOCAL AUTHORITY LEVEL DATA

### Floor Targets 2010

Floor targets are indicators aimed at helping government and councils to narrow the gap between deprived areas and the national average in terms of health, education, crime, employment and housing. They will also identify areas where progress is not being made. They will enable all those involved in neighbourhood renewal to identify priority areas, monitor progress and compare themselves with others.

The table below outlines how Milton Keynes compares to the national and regional average. Data coloured in red indicates Milton Keynes data is worse than the national average.

**Table 1: Floor Targets 2010, Milton Keynes, South East and England**

Indicator	Milton Keynes	England	South East
<b>Economic</b>			
Overall employment rate 2009 (Quarter 2)	78.9	73.9	78.3
<b>Crime</b>			
Burglary: offences per 1,000 households 2008/9	11.2	12.5	8.7
Vehicle crime: offences per 1,000 population 2008/9	13.0	10.0	8.2
Robbery: offences per 1,000 population 2008/9	1.3	1.5	0.7
Overall crime rate (recorded crime BCS Comparator) 2008/9	60.4	49.7	44.3
Sexual Offences: per 1,000 population 2008/9	1.2	0.9	0.9
Violence against the person: per 1000 population 2008/9	26.4	16.4	16.1
<b>Education</b>			
% of 16 year olds achieving 5+ GCSEs grades A*-C 2008/9	69.5	70.0	70.2
% of 11 year olds achieving Key Stage 2 Level 4 English 2008/9	79.0	80.0	81.0
% of 14 year olds achieving Key Stage 3 Level 5 English 2006/7	74.0	74.0	76.0
<b>Health</b>			
Male life expectancy at birth 2006-8	78.1	77.9	79.2
Female life expectancy at birth 2006-8	81.8	82.0	83.0
Mortality rate: circulatory diseases 2006-8	77.9	74.8	62.5
Mortality rate: cancer 2006-8	113.2	114.0	106.3
Mortality rate: suicide and undetermined injury 2006-8	7.0	7.8	7.5
Conception rate: under 18's per 1,000. 2006-8	41.5	40.9	33.0
<b>Transport</b>			
Overall road accident rate: all casualties (per 1,000 pop) 2007	5.2	4.3	4.4
Road casualties: people killed and seriously injured (per 1,000 pop) 2007	0.4	0.5	0.5
Road casualties: children killed and seriously injured (per 1,000 pop) 2007	0.2	0.3	0.2
<b>Environment</b>			
% residents satisfied with local parks and open spaces 2008	82.5	72.6	76

For more information on floor targets, including other comparator geographies and time series analysis please visit [www.fti.communities.gov.uk/fti/](http://www.fti.communities.gov.uk/fti/)

## SUMMARY OF INDICATOR TRENDS

Table 2: Summary of Indicator Trends

### Indicator trend key:

- ✓ data shows improving trend since the 2001 Social Atlas (SA)/2009 data
- ✗ data shows worsening trend since the 2001 SA/2009 data
- data broadly constant (within 10%) since the 2001 SA/2009 data
- ⊖ only baseline data available or insufficient data available to determine a trend

	Trend Since	
	2001	2009
<b>Income Indicators</b>		
Housing/Council Tax Benefit claimants	✗	■
Free School Meals Uptake	⊖	■
<b>Children Indicators</b>		
Family Referrals*	✗	✗
Children with Special Educational Needs	■	■
<b>Young Adults Indicator</b>		
18-24 year olds not receiving student awards	■	■
<b>Older people Indicator</b>		
Older People clients of Neighbourhood Services	■	■
<b>Community Indicators</b>		
Violent Crime	✗	■
Burglary Dwelling	✓	■
Criminal Damage	✓	✓
Domestic Fires	■	■
Neighbour Complaints	✗	✗
<b>Health and Disability Indicators</b>		
Disabled Concessionary Fares	✗	✓
Disabled Clients of Neighbourhood Services	✗	■
Emergency Hospital Admissions	⊖	■

Note: this definition assumes higher uptake of services is worse, in reality the converse could be true in that more eligible persons are being identified. All comparisons are between rates so are unaffected by population growth.

\* Policy changes since the 2001 Social Atlas may have encouraged an increase in the number of Family Referrals.

# THE DATA AT WARD LEVEL

**Map 1: Milton Keynes Ward Boundaries**

## BOROUGH PROFILE

There are 23 wards in Milton Keynes, as can be seen in map 1. Many datasets are available nationally published at ward level. This often allows for national comparison of data such as those listed below.

### Income

- Income Support Claimants August 2009: Department for Work and Pensions (DWP)
- Income Support is a means-tested benefit available to certain groups of people on low incomes.

### Children

- Lone Parent Claimants of Income Support August 2009: DWP.

### Young Adults

- Youth Unemployment April 2010: NOMIS
- Income Support August 2009: DWP.
- Student Award Claimants Sept 2009: Buckinghamshire County Council

### Older People

- Pensioner Credit Claimants August 2009: DWP. A new benefit for pensioners. Pension Credit has two elements: a 'top up' element to bring pensioners up to a guaranteed income level and a savings credit element which will reward those who have small levels of savings.

### Community

- Neighbour Complaints: MKC 2009-10

### Health and Disability

- Life Expectancy 2004-2008 Average: MKC 2009
- Disability Living Allowance (DLA) Claimants August 2009: DWP  
DLA is a benefit for people Under 65 who have an illness or disability. It provides extra money for people who need help with personal care and/or help with walking. It is not means-tested and can be claimed both when in work, or when claiming other benefits.
- Incapacity Benefit (IB) and Severe Disablement Allowance August 2009: DWP  
IB is a contributory benefit for people with illnesses or disabilities who are unable to work, and who have made sufficient National Insurance (NI) contributions.

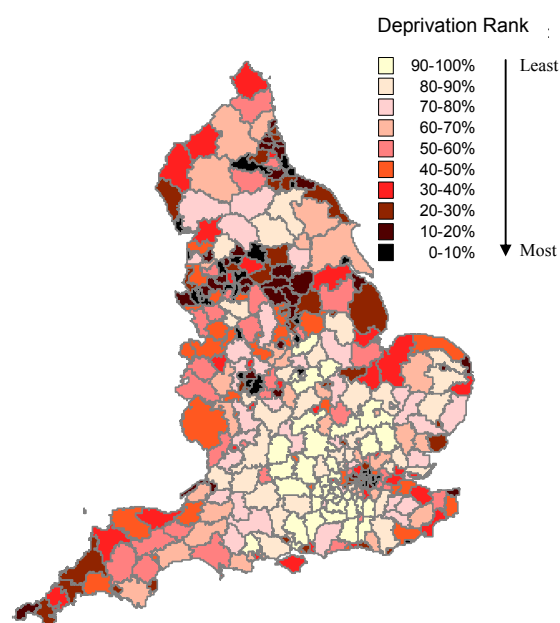

# INDEX OF MULTIPLE DEPRIVATION 2007

## What is it?

The Index of Multiple Deprivation 2007 (IMD 2007) is the government measure of deprivation. It is used to analyse patterns of deprivation, identify areas that would benefit from special initiatives or programmes and as a tool to determine eligibility for specific funding streams.

It combines a number of indicators, chosen to cover a range of economic, social and housing issues, into a single deprivation score for each small area in England. This allows each area to be ranked relative to one another according to their level of deprivation. As with the 2004 indices, IMD 2007 has been produced at District Level and at Lower Super Output Area level (LSOA), of which there are 32,482 in the country. There are 139 LSOAs in Milton Keynes.

Map 2: IMD 2007 Overall Deprivation Rank

## Milton Keynes District

The map to the right shows the IMD 2007 mapped for the districts in England. The figures for Milton Keynes show that:

- Milton Keynes is ranked 212 out of 354 Local Authority Districts (with 1 being the most deprived), this is a slight improvement on the 2004 rank of 204.
- Districts ranked closely to Milton Keynes include; Solihull, Kettering, Cheltenham and West Dorset.

## Milton Keynes' Lower Super Output Area Analysis

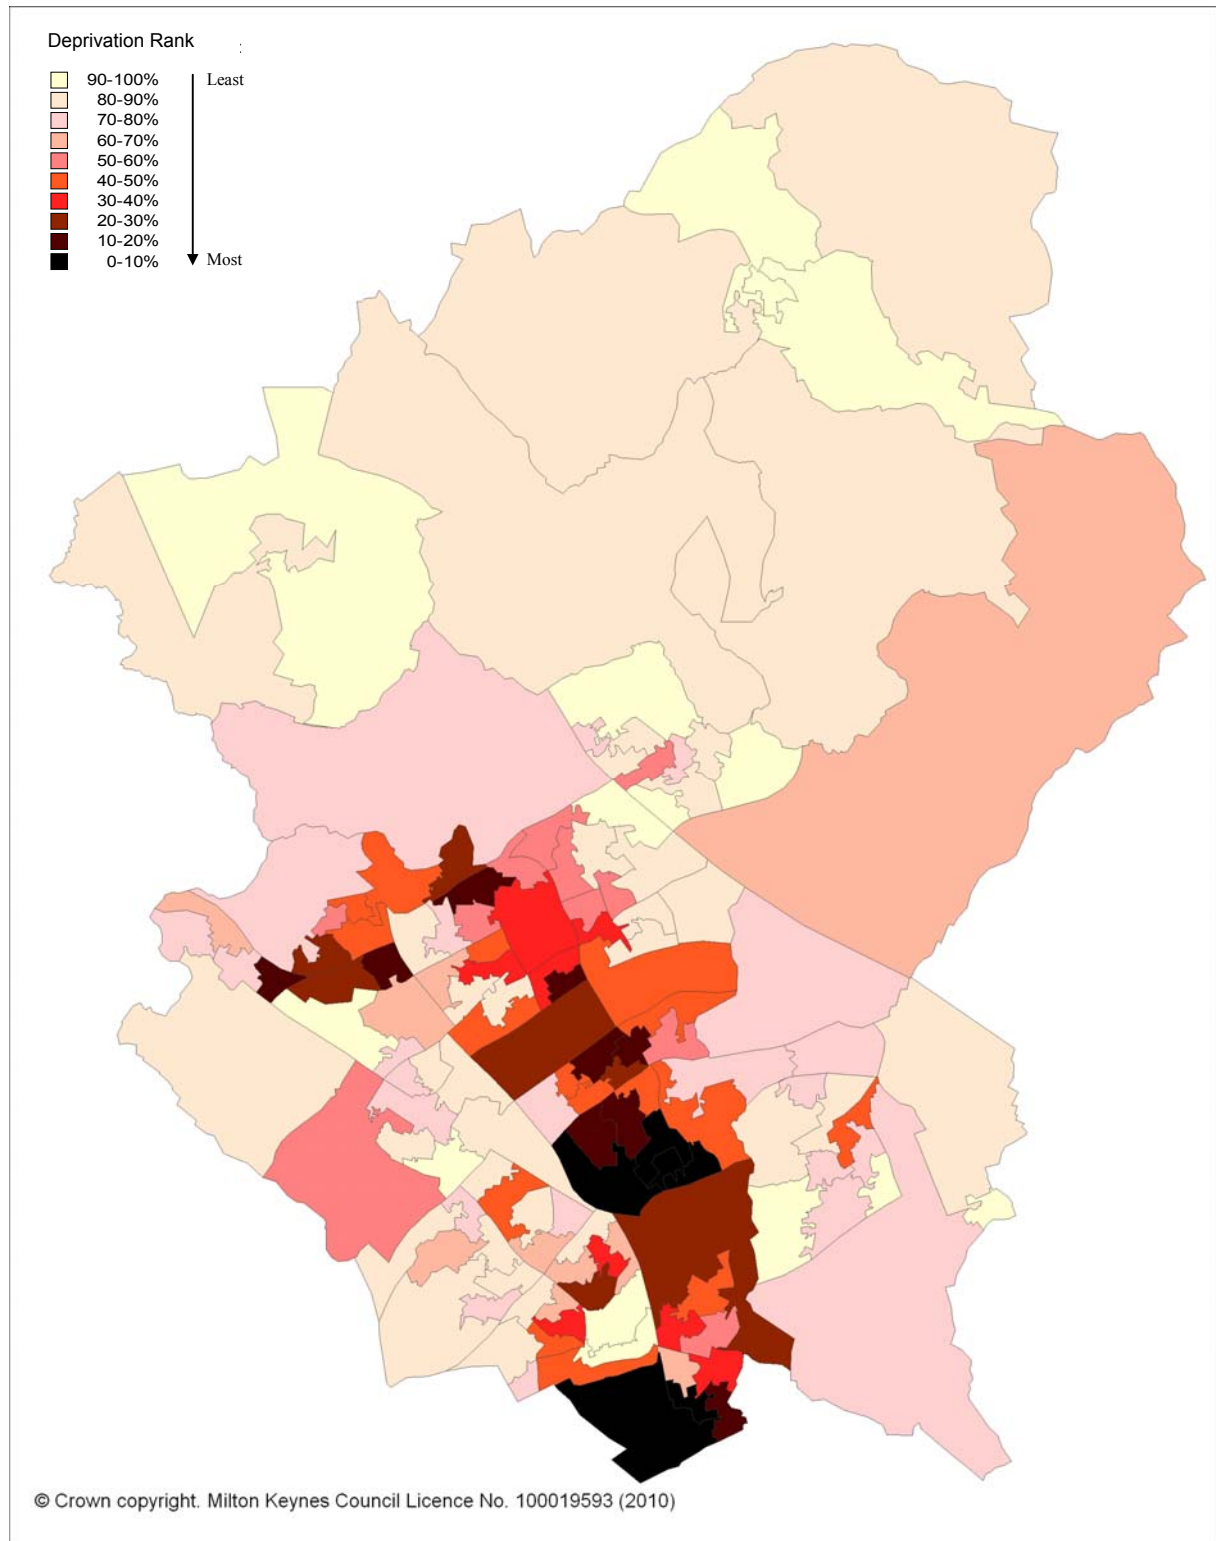

As stated previously IMD 2007 was released at LSOA level. Map 3 overleaf shows the results for Milton Keynes Super Output Areas.

Table 3: LSOAs in MK within the 30% most & 30% least deprived

	Number of LSOAs	
	2004	2007
<b>Within Most Deprived</b>		
0-10%	5	6
10-20%	8	9
20-30%	9	7
<b>Within Least Deprived</b>		
0-10%	14	14
10-20%	26	35
20-30%	31	23

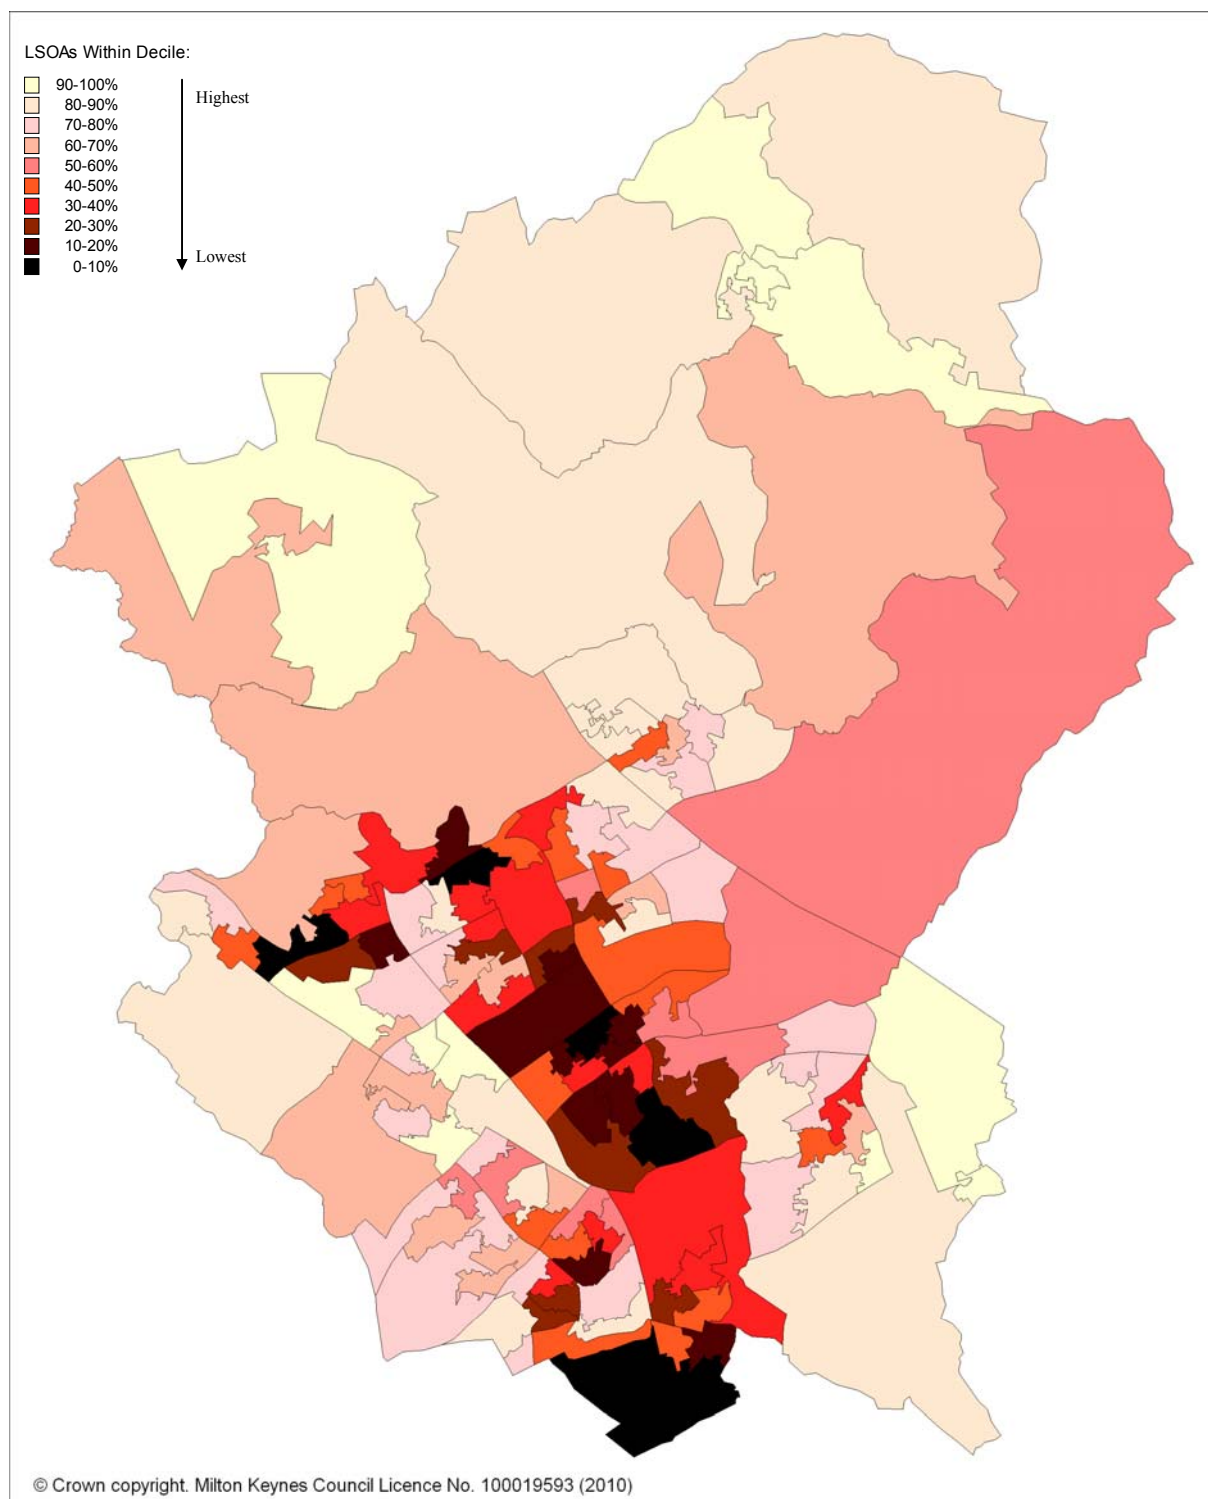

The table to the left shows the number of LSOAs in Milton Keynes within the most/least deprived 10%, 20%, 30% LSOAs in England with a comparison to the 2004 Index. The table shows that of the 139 LSOAs in Milton Keynes there are 6 which are within the 10% most deprived in England. This compares to 5 in 2004. Overall there are 22 LSOAs within the most deprived 30%, the same number as with the 2004 Index. There are 14 LSOAs within the least deprived 10% in England, the same number as in the 2004 Index.

**Map 3: IMD 2007 deciles in Milton Keynes compared to England**

The map outlines that there are 6 LSOAs in MK which are within the most deprived 10% in England. These areas cover a large part of Woughton Ward and part of Eaton Manor Ward. Overall there are 22 LSOAs within the most deprived 30%. There are 14 areas within the least deprived 10%: these are in rural areas, Newport Pagnell and some areas in the city.

**Map 4: Child Wellbeing Index 2007**

The Child Well-being Index (CWI) was produced for Communities and Local Government (CLG) by the Social Policy Research Unit and the Social Disadvantage Research Centre at the University of Oxford. It is an index created to estimate child well-being and is made up of seven domains: Material well-being, Health, Education, Crime, Housing, Environment, and Children in need.

## UNEMPLOYMENT

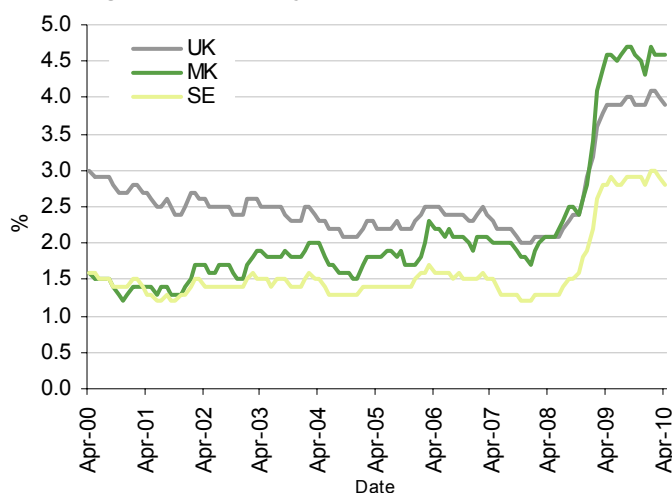

In April 2010 there were 7,306 people in Milton Keynes claiming Job Seekers Allowance. As a percentage of the working age population in Milton Keynes this is 4.6%. Milton Keynes has a similar unemployment rate to other urban areas in the South Midlands. Milton Keynes has a significantly higher unemployment rate than both the national average (3.9%) and the South East Region (2.8%).

1,290 claimants in MK had been claiming for more than one year in April 2010, 17.6% of total claimants. This compares to 15.5% in the South East region and 16.7% in the UK.

**Table 4: Unemployment rates for selected areas, April 2010**

Region	%
Milton Keynes	4.6
South East Region	2.8
UK	3.9
Bedford	4.1
Luton	5.0
Northampton	4.6
Wellingborough	4.2

**Figure 1: Unemployment Trends, April 2000 - 2010**

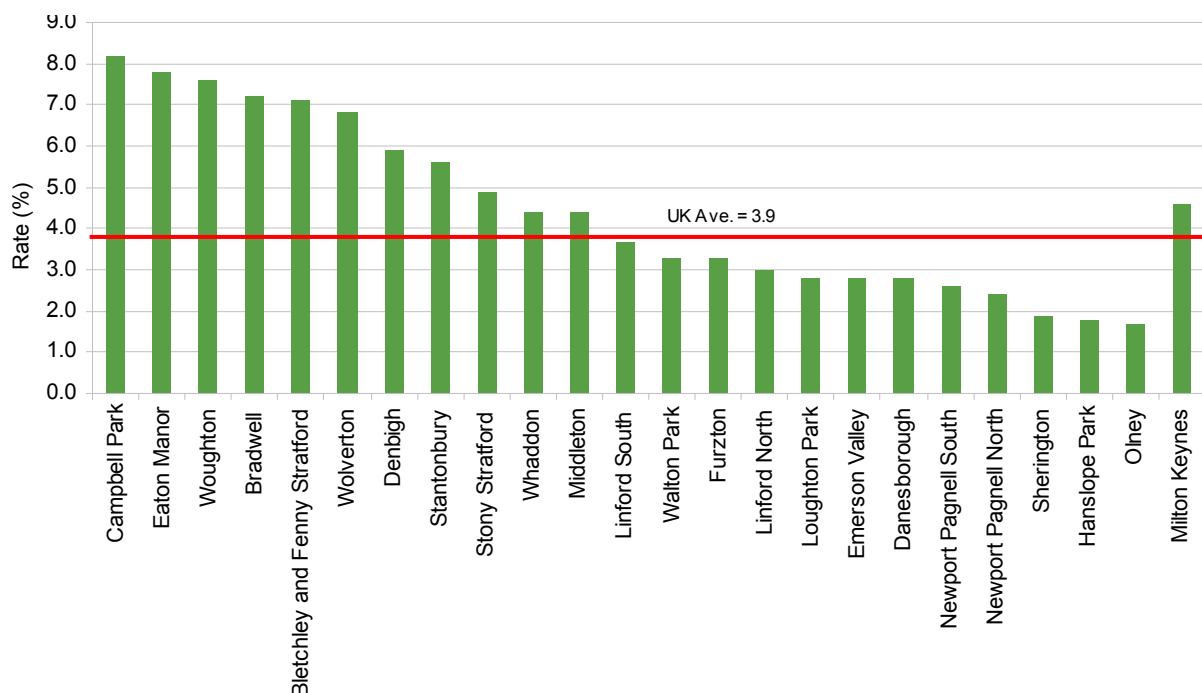

The number of claimants in Milton Keynes remained roughly the same (+0.25%) between April 2009 and April 2010. Figure 1 shows the unemployment rate for Milton Keynes, the South East and the UK.

There are 11 wards in MK with higher unemployment rates than the UK. Campbell Park (8.2%) Eaton Manor (7.8%) and Woughton (7.6%) have the highest unemployment rates in MK. These wards are within the 6% highest ranked wards in the UK. Olney has the lowest unemployment rate in

Milton Keynes and is within the 30% lowest unemployment for wards in the UK.

**Figure 2: Unemployment Rates for Milton Keynes Wards, April 2010**

## OVERSEAS MIGRANT WORKERS IN MILTON KEYNES

All European Economic Area (EEA) and Swiss nationals are free to enter and live in the United Kingdom. From 1st May 2004, 8 Eastern European 'accession states' joined the EU (the A8). Workers from the A8 countries who find employment in the UK are required to register with the Home Office under the Worker Registration Scheme as soon as they find work. They are then issued with a worker registration certificate, issued for a 12-month period. This proves that they can live and work in the UK while they are working in that job. If they change jobs before the 12 months they have to renew their registration. Once 12 months has been completed under the Worker Registration Scheme they can apply for an EEA Residence permit.

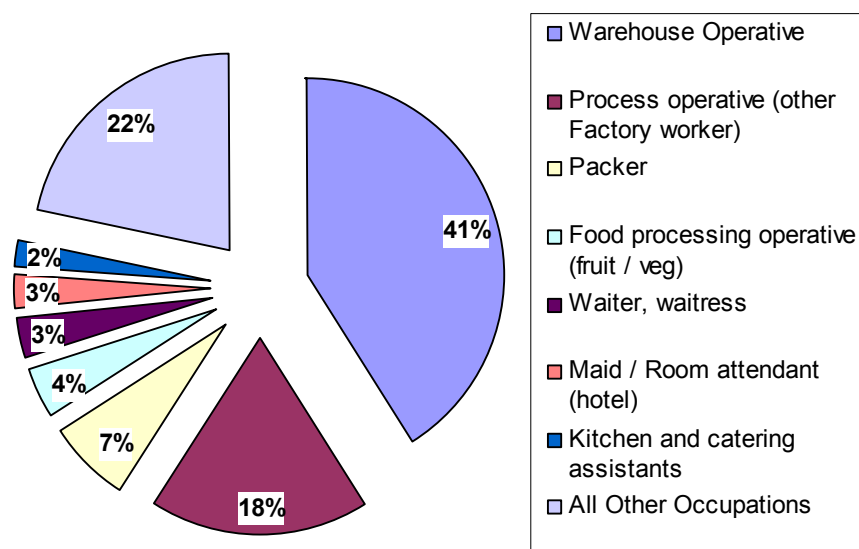

**Table 5: Origin of Worker Registration Scheme applicants working in Milton Keynes**

Milton Keynes applications	Country of origin								Total
	Czech Rep	Estonia	Hungary	Latvia	Lithuania	Poland	Slovakia	Slovenia	
May 04 - March 06	55	10	45	30	170	780	70	0	1,160
Percentage	4.7	0.9	3.9	2.6	14.7	67.2	6.0	0.0	100.0
April 06 - March 07	17	6	20	16	70	795	50	0	960
Percentage	1.8	0.6	2.1	1.7	7.3	82.8	5.2	0.0	100.0
April 07 - March 08	16	4	25	8	55	635	36	0	770
Percentage	2.1	0.5	3.2	1.0	7.1	82.5	4.7	0.0	100.0
April 08 - March 09	16	3	20	10	50	375	35	4	515
Percentage	3.1	0.6	3.9	1.9	9.7	72.8	6.8	0.8	100.0
April 09 - March 10	8	9	17	55	75	200	9	1	365
Percentage	2.2	2.5	4.7	15.1	20.5	54.8	2.5	0.3	100.0
May 04 - March 10	112	32	127	119	420	2,785	200	5	3,770
Percentage	3.0	0.8	3.4	3.2	11.1	73.9	5.3	0.1	100.0

Since the accession states joined the EU a total of 3,770 have registered under the scheme for a workplace address in Milton Keynes. This does not imply that there are over 3,000 residents from the accession states. The workers may not live in Milton Keynes. We have no information about how long the workers remained with the employer, or in the country.

It is evident that the flow of workers has reduced, with only 365 registering in the current year, continuing the downward trend. The vast majority of WRS migrants are from Poland - 67% in the 23 months to the end of March 2006 and almost 74% overall. However, in the most recent 12 month period, the numbers from Latvia and Lithuania have risen sharply. The most common job that migrants came to do in Milton Keynes is 'warehouse operative'; the occupation stated by 41% of WRS applicants. 18% stated 'process operative', and a further 7% 'packers' so factory work attracts two thirds of these migrants.

**Figure 3: Most stated occupations of WRS applicants in 2009/10**

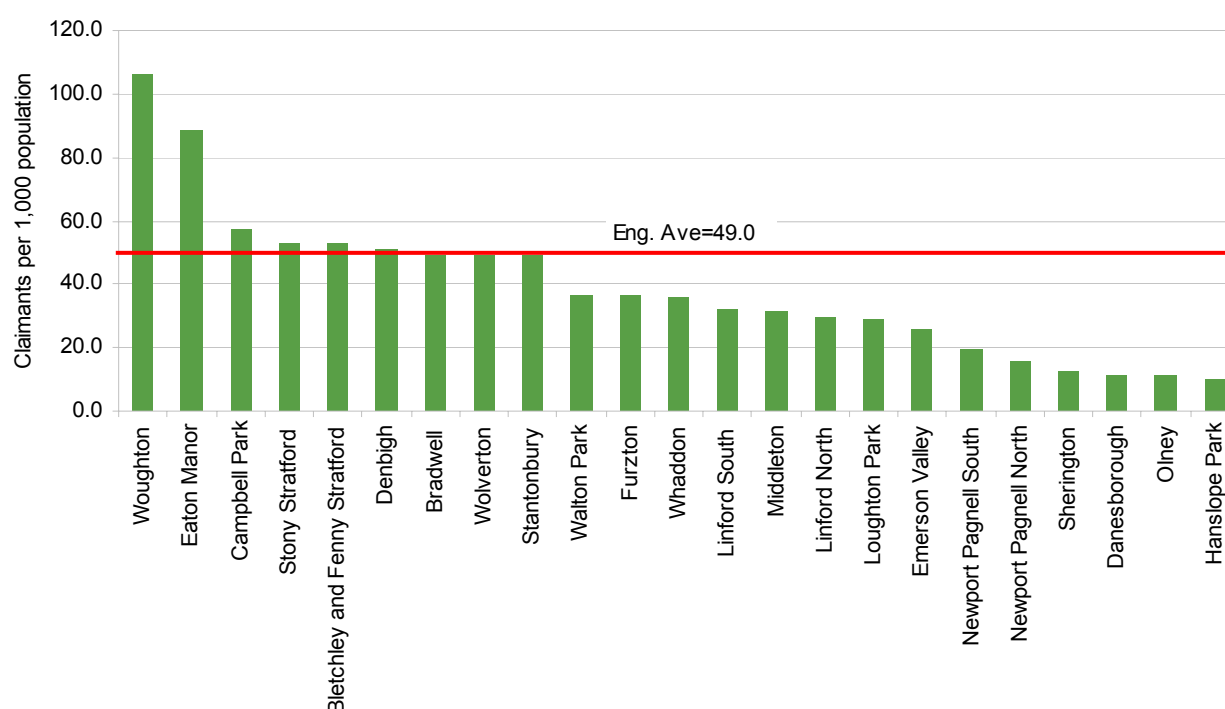

## INCOME

Overall in Milton Keynes a smaller proportion of the population claim income support than for England as a whole. Milton Keynes had a rate of 44.6 per 1,000 working age population compared to 49.0 per 1,000 in England.

There is significant variation in the rates of income support claimants between the wards in Milton Keynes. Woughton ward has more than double the national rate. Estates covered by this ward include Beanhill, Coffee Hall, Eaglestone, Leadenhall, Netherfield and Tinkers Bridge. Eaton Manor Ward is also significantly above national average rate of income support claimants.

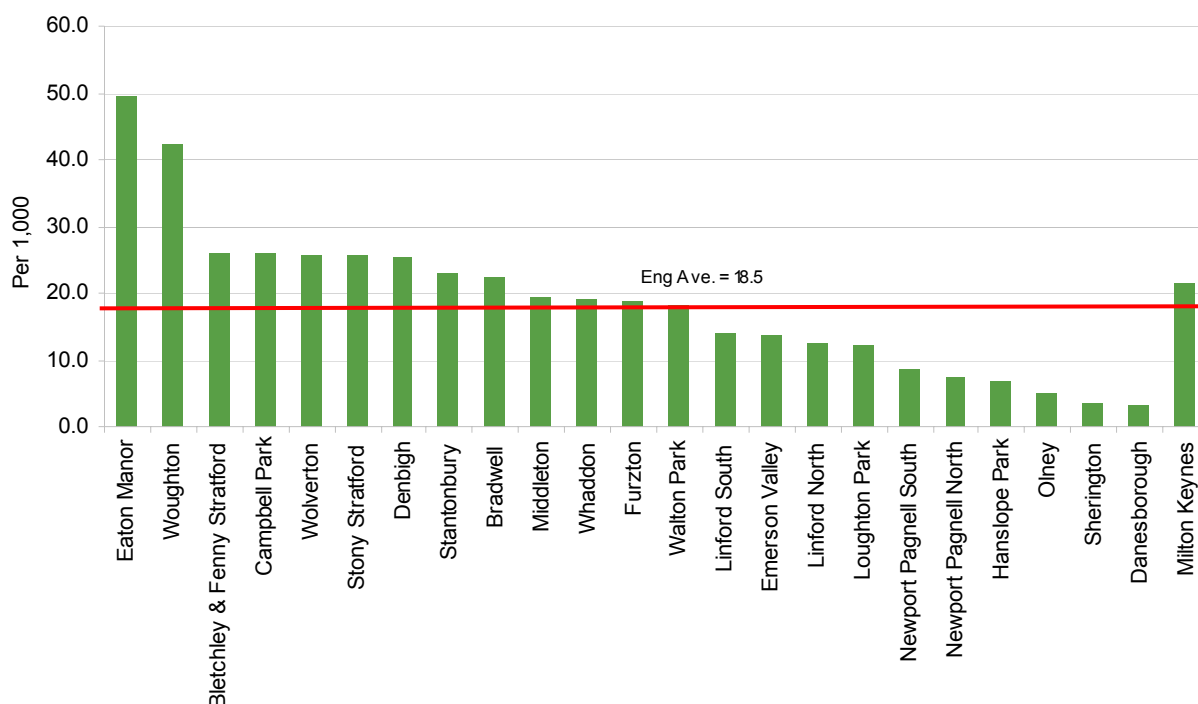

**Figure 4: Income Support Claimants for Milton Keynes Wards, August 2009**

## CHILDREN

In August 2009, 3,385 Lone Parent families claimed Income Support in Milton Keynes. This is a rate of 21.5 per 1,000 working age population and is slightly higher than that of England as a whole (18.5 per 1,000). There are 12 wards in Milton Keynes with a higher than the England average of lone parents claiming Income Support. Eaton Manor and Woughton Wards are more than twice the national average.

**Figure 5: Lone Parent Income Support Claimants for Milton Keynes Wards, August 2009**

## YOUNG ADULTS

Table 6 shows the number and percentage of 18-24 year olds claiming Job Seekers Allowance in April 2010 and 16-24 year olds claiming Income Support in August 2009. The cells marked in green mean they are higher than the England rate.

Campbell Park (13.7%) and Bletchley and Fenny Stratford (13.5%) have the highest % of 18-24 years claiming Job Seekers Allowance. This compares to 5.5% in England.

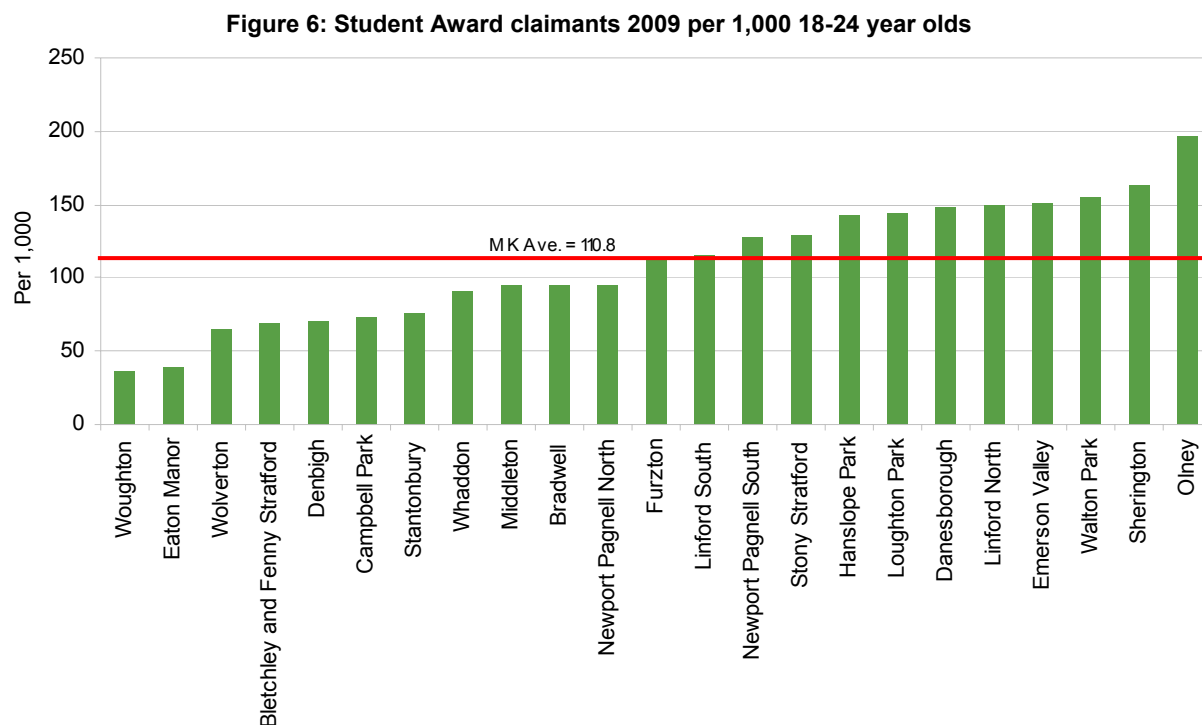

Bletchley & Fenny Stratford, and Eaton Manor Wards have double the England average (3.8%) of 16-24 year olds claiming Income Support.

Very low levels of young adults claim Job Seekers Allowance or Income Support in the rural areas of Milton Keynes.

**Table 6: Youth Unemployment and Income Support**

	Unemployment		Income Support	
	18-24	%	16-24	%
Bletchley & Fenny Stratford	155	13.5	115	8.1

<b>Milton Keynes</b>	<b>1830</b>	<b>7.0</b>	<b>1260</b>	<b>4.9</b>
<b>England</b>	<b>363,265</b>	<b>5.5</b>	<b>238,490</b>	<b>3.8</b>

Figure 6 shows the number of Student Award claimants per 1,000 18-24 years old for wards in Milton Keynes. A significant number of Milton Keynes wards fall beneath the MK average (110.8 per 1,000 18-24 year olds). Woughton and Eaton Manor Wards have particularly low proportions. Olney, Sherington and Walton Park wards have the highest proportions.

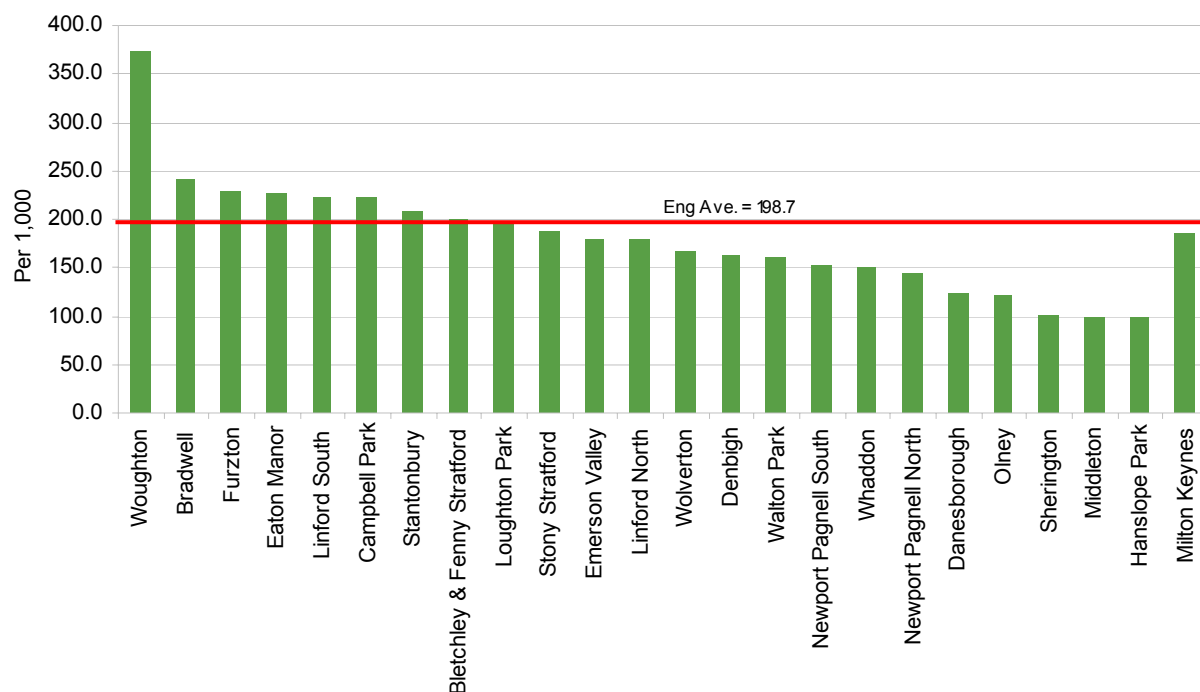

## OLDER PEOPLE

7,200 people aged 60 and over were in claiming Pension Credit in August 2009. This is 185.4 per 1,000 population age 60 and over, slightly lower than the England average of 198.7 per 1,000. 7 out of 23 wards in Milton Keynes are above the national average with Woughton (325.8 per 1,000) standing out as significantly higher than the other wards. Bradwell, Furzton, Eaton Manor, Linford South, Campbell Park and Stantonbury Wards also have a higher than average number claiming Pension Credit.

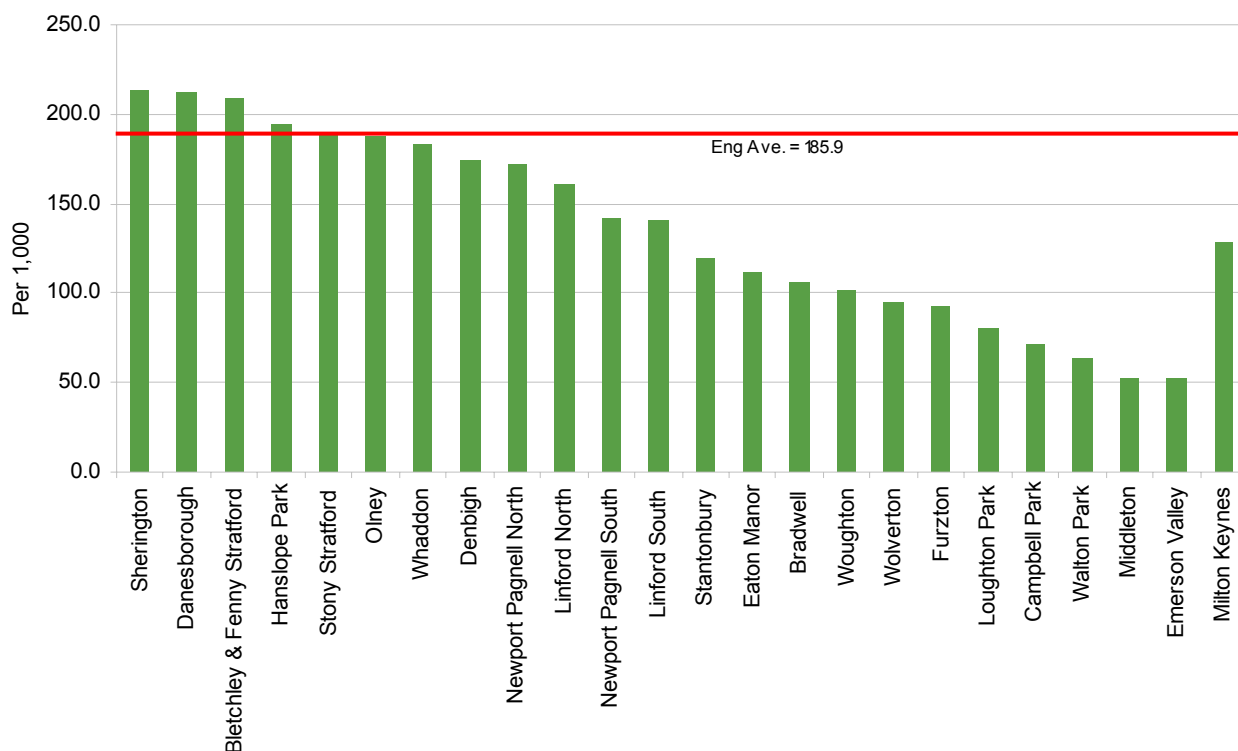

A total of 30,460 people in Milton Keynes claimed a state pension in August 2009. This is 128.7 per 1,000 population, significantly lower than the England average of 185.9 per 1,000, reflecting the young profile of Milton Keynes population.

**Figure 7: Pension Credit Claimants for Milton Keynes Wards, August 2009**

The graph below shows there are significant variations between the wards in Milton Keynes of the proportion of people claiming a state pension. Sherington, Danesborough and Bletchley and Fenny Stratford Wards are significantly above the England average. The wards with the lowest state pension claimants are Emerson Valley (52.3 per 1,000), Middleton (52.7) and Walton Park (63.4).

**Figure 8: State Pension Claimants for Milton Keynes Wards, August 2009**

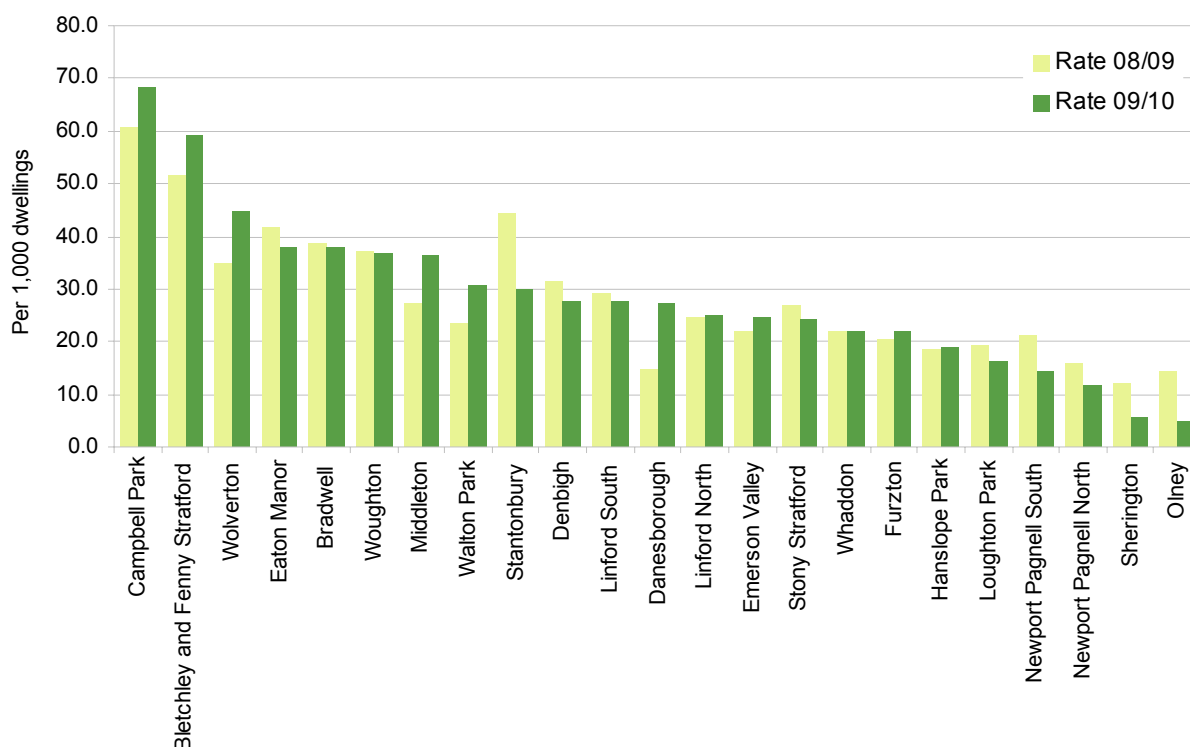

## NEIGHBOURHOOD COMPLAINTS AT WARD LEVEL

Neighbour complaints are an important tool for assessing the quality of life enjoyed in a neighbourhood. These are complaints by residents about their neighbours made to the Environmental Health service. Historically, the greatest numbers of complaints are about excessive and untimely noise. This year has seen complaints about various causes of noise including construction and street works. The rate of neighbour complaints per 1,000 dwellings has risen compared to the previous year, for the fourth year in succession. Some large differences are apparent when examined at ward level, although every ward with the exception of Danesborough has experienced an increase.

The rural areas show generally lower complaints about neighbours, after accounting for the number of dwellings, than the urban areas. Olney ward has the lowest number of complaints per 1,000 dwellings; nearby Sherington is also low and both areas have seen a substantial increase from the previous year. The lower level of complaints could be a result of the lower housing density in these areas. Campbell Park and Bletchley & Fenny Stratford are the wards with the highest rate of complaints. Campbell Park has shown a rise from the previous year, and has the highest rate of complaints in the borough.

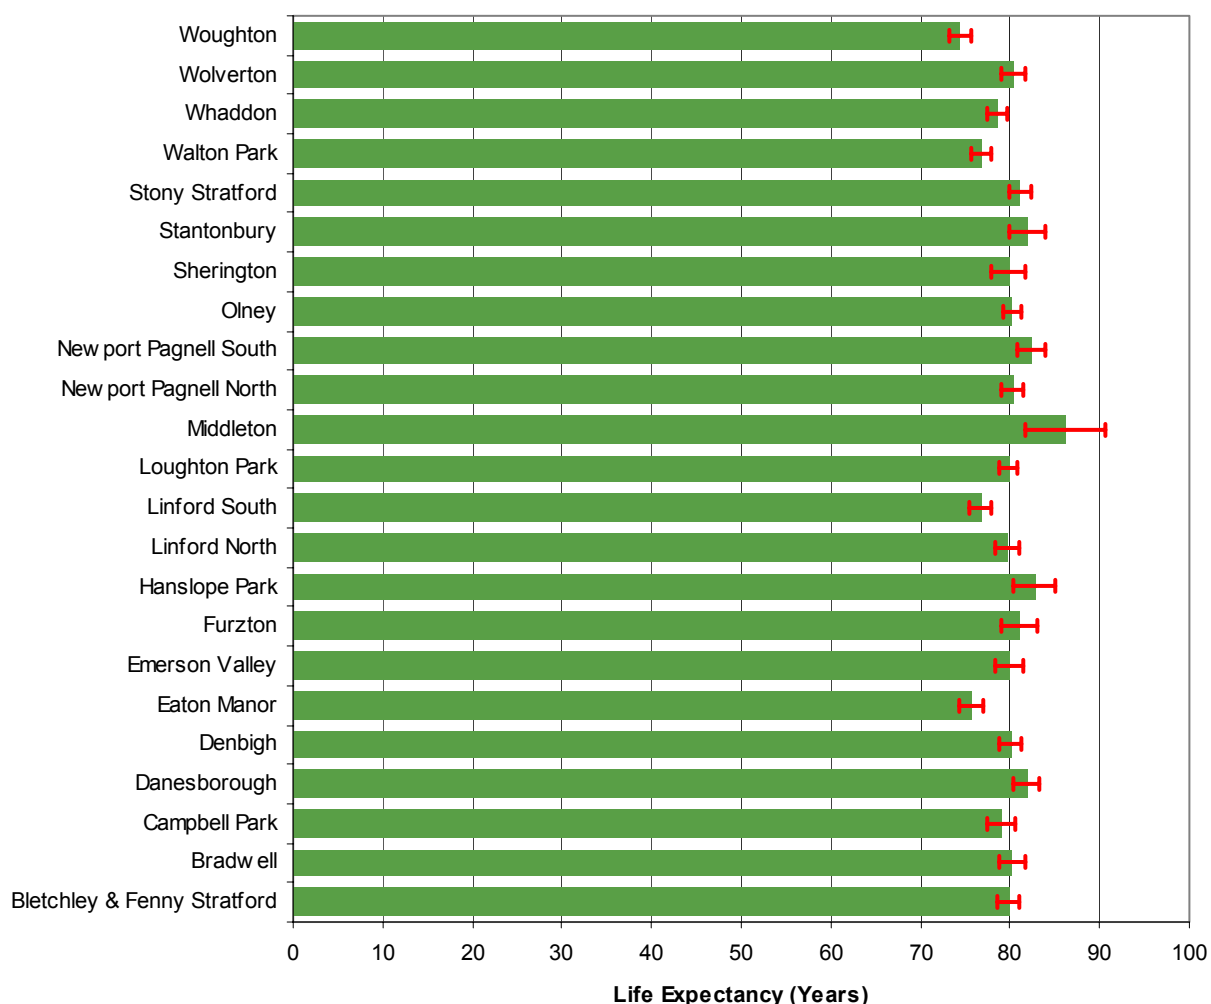

**Figure 9: Rate of Neighbour Complaints by Ward per 1,000 Dwellings 2008/9 to 2009/10**

## HEALTH AND DISABILITY

Life expectancy is a focus of national government targets to reduce inequalities in health outcomes. Life expectancy is linked to social circumstances, and despite improvements the gap is large, and in some areas is widening. Specifically by 2010, the target is to reduce the gap in life expectancy at birth, by area, by 10%. Life expectancy at birth does not reflect the life experience of any individual. Instead, it provides a summary of the mortality experience of the individuals living in a particular area, over a period of time. Gaps in life expectancy can be observed between local authority areas. For example, in 2006/2008 in England a difference of 10.7 years was observed between areas with the highest life expectancy at birth for boys, and areas with the lowest. The gap when Scotland is included is even higher, at 13.6 years. The gap for girls in England was 10.1 years. The gaps within these areas can be even wider. The current situation for Milton Keynes can be seen from the chart below.

**Figure 10: Persons' Life Expectancy at Birth by Ward, 2004 to 2008 Average**

The average life expectancy in Milton Keynes for 2004-2008 was 79.3 years, slightly higher than the previous year although this may be due to statistical fluctuations. The range was almost 12 years, a substantial increase based on a substantially higher life expectancy in one particular ward. This ward is Middleton with a life expectancy at birth of 86.2 years. Woughton has the lowest life expectancy of 74.4 years, but this has risen by around 1 year since the previous calculations.

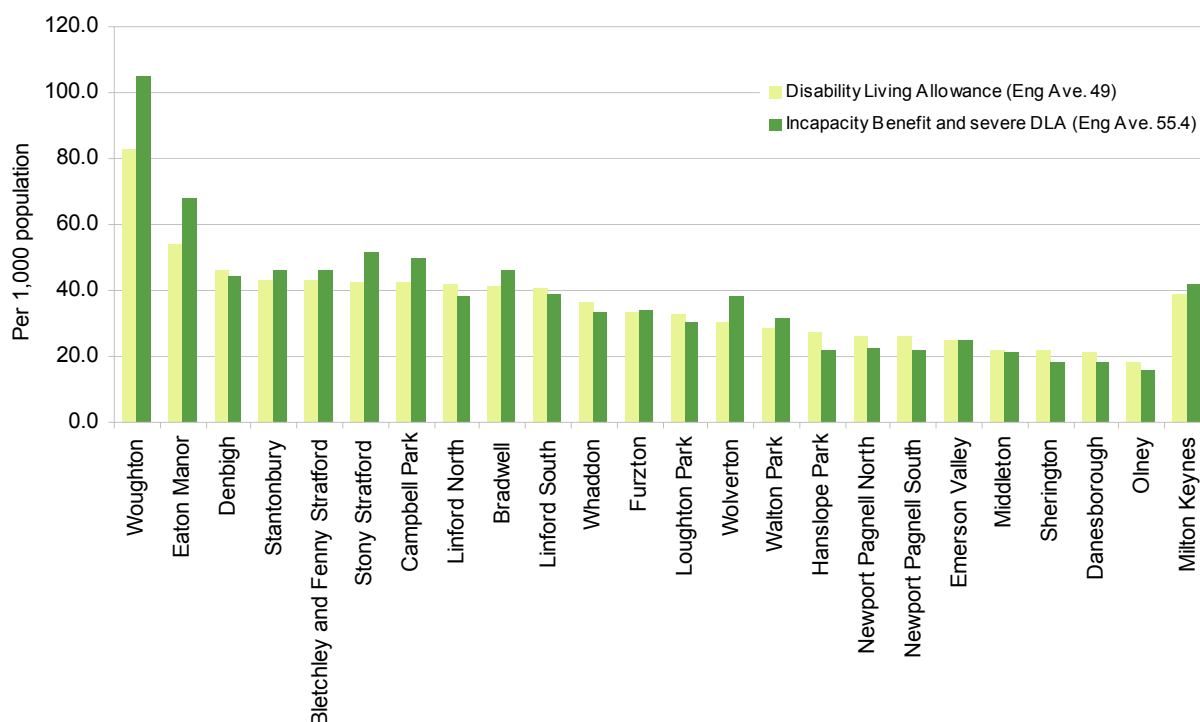

The life expectancy at birth was 77.3 years for males, range 9.9 years. This is higher than previously although the range has increased. This is equivalent to the 77.27 years average male life expectancy for the UK, but below that for England & Wales of 77.54 years. Middleton had the highest life expectancy for males of 81.9 years. Woughton has the lowest life expectancy for males of 72.1 years.

The life expectancy at birth for females in Milton Keynes has risen to 81.3 years, and the range has risen to 14.1 years. This is below the female life expectancy in England & Wales, 2005/2007 which was 81.74 years although these are not directly comparable because of the different time periods covered. Middleton had the highest life expectancy of 90.6 years with Hanslope Park second with 88.0 years. Woughton again had the lowest at 76.6 years, an increase from the previous figure. There is a reasonably high level of consistency over time between the rankings of life expectancy (the relative position of wards) for the calculations. There is some variation due to statistical uncertainty surrounding such small-area calculations which is to be expected.

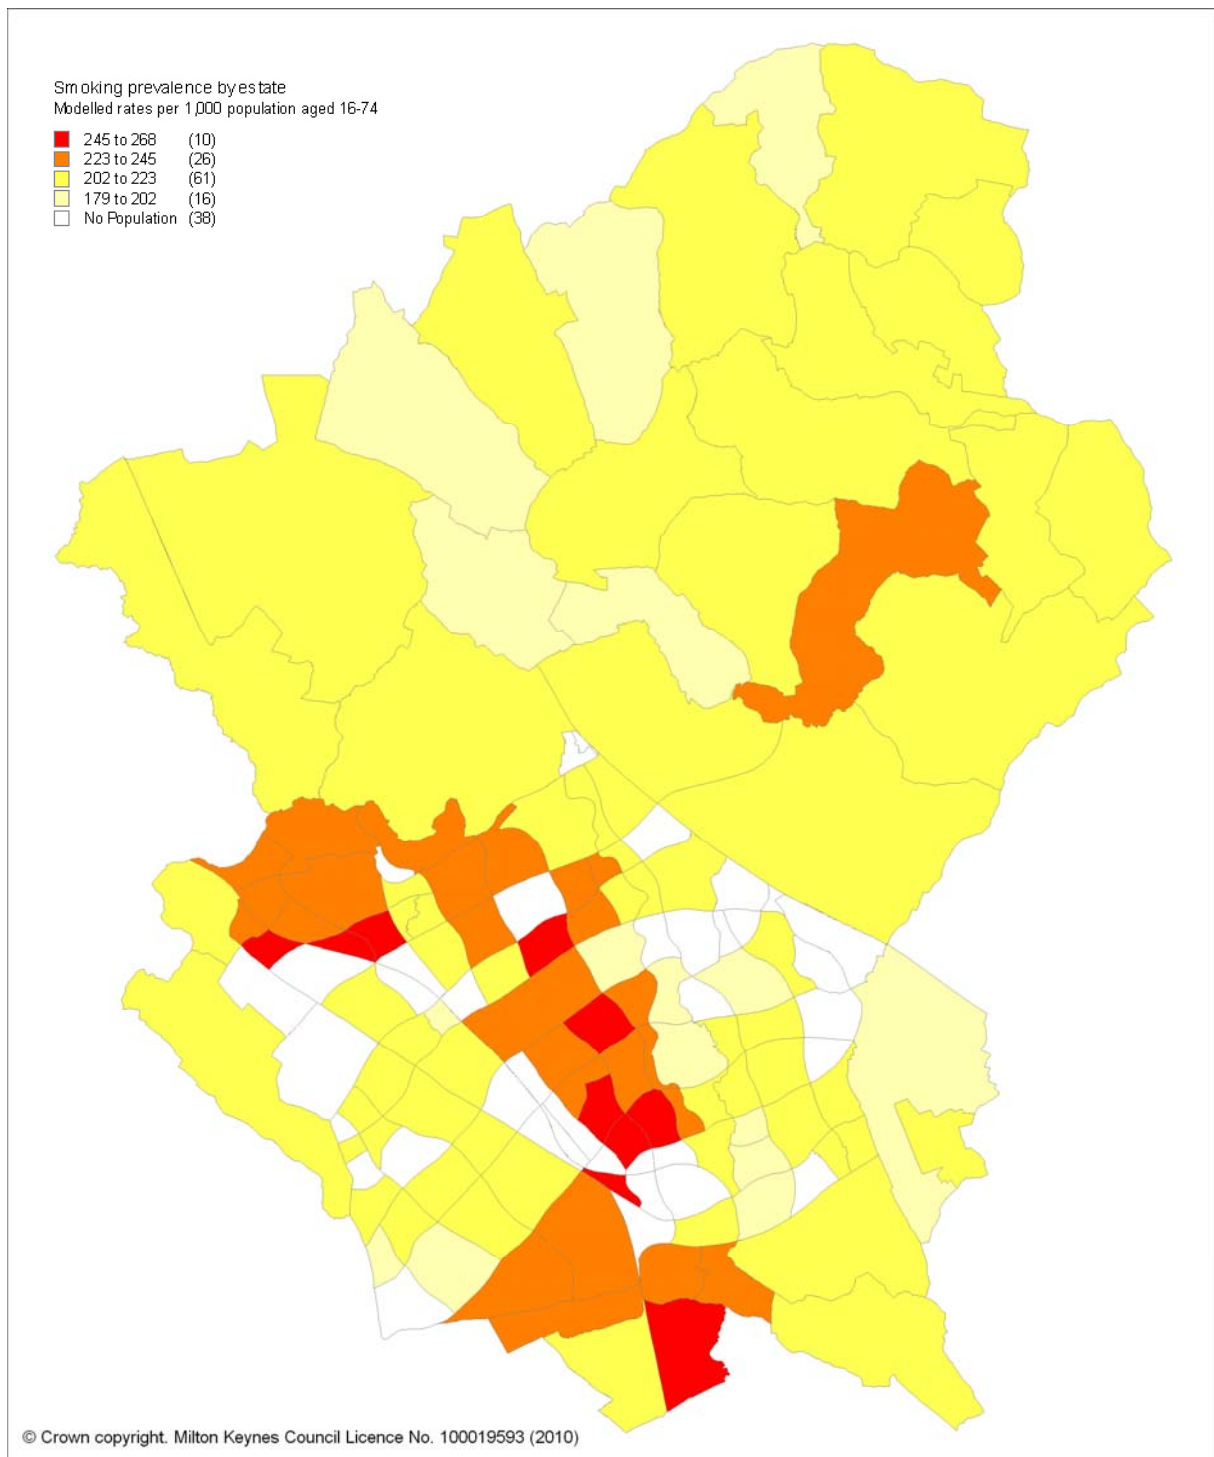

Nationally available disability benefits data provide us with results at ward level. Milton Keynes has a lower proportion of residents claiming Severe Disability Living Allowance, Incapacity Benefits and Disability Living Allowance than for England as a whole. Woughton ward is consistently higher than the national average for both disability benefits. It has almost twice the average Incapacity Benefit/Severe DLA rate. Eaton Manor Ward also has higher than the national average in both benefits.

**Figure 11: Disability Benefit Claimants for Milton Keynes Wards, August 2009**

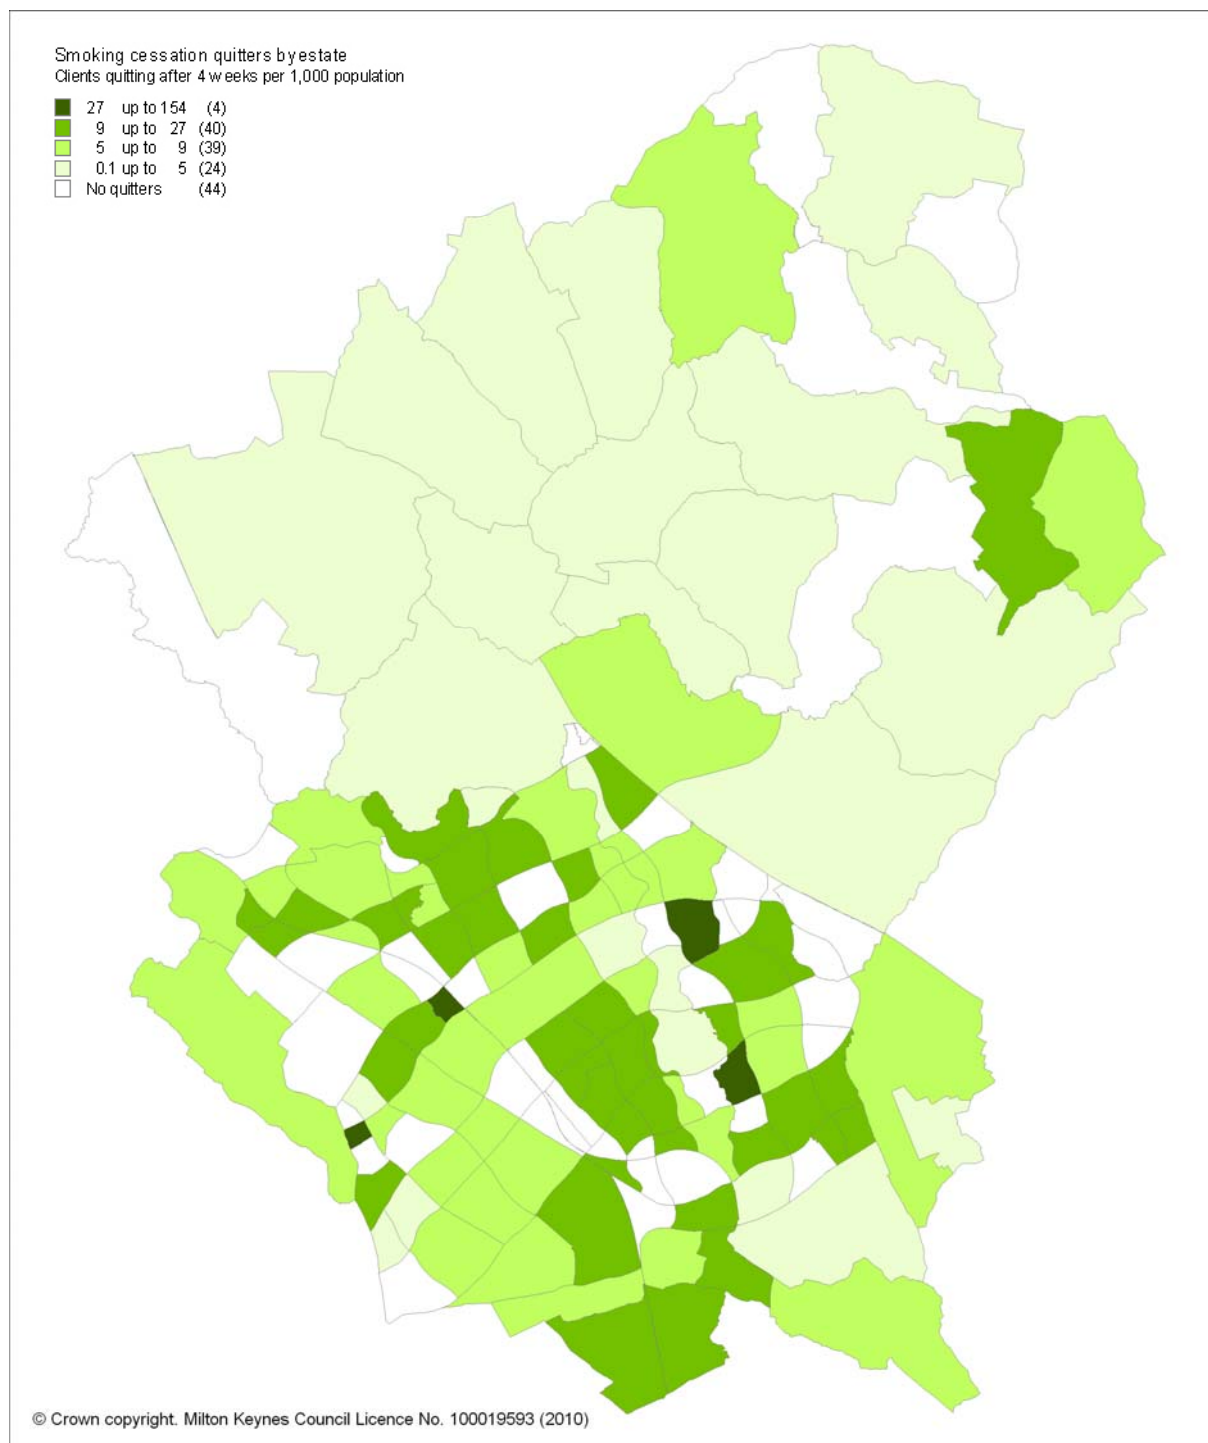

Indicators such as Disabled Concessionary Fares and Clients of Disabled Services at Milton Keynes Council are useful at looking at local health and disability. They have been useful in pointing out several areas of need, such as Beanhill, Coffee Hall, Pennyland, Stacey Bushes and Willen Park. These can be seen in the estate indicators section.

**Map 5: Smoking Prevalence estimates by Estate per 1,000 population aged 16-74\***

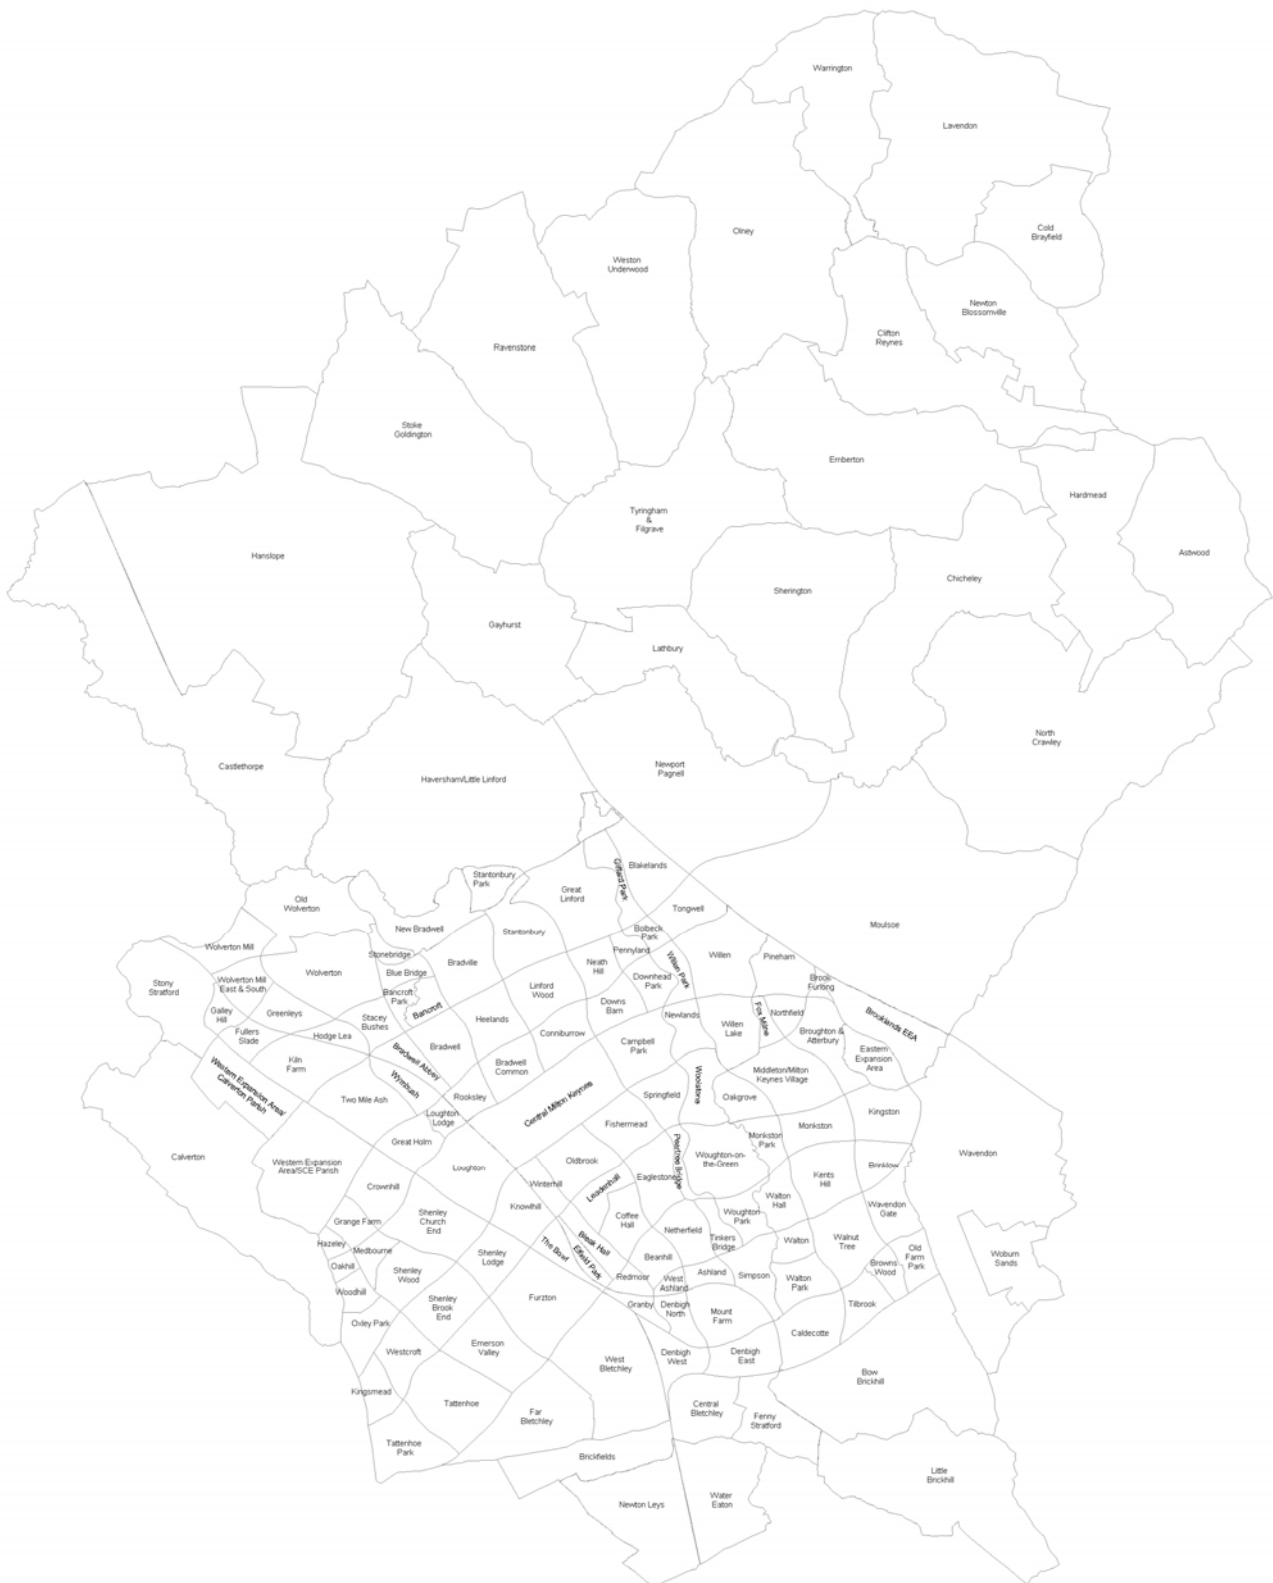

\*Derived from national data: smoking prevalence estimates were calculated based on General Household Survey 2006 national smoking rates by gender and socio-economic class. These were applied to 2001 census estate level estimates of the socio-economic structure of the population to get an estimate of the numbers of smokers by estate. This was then calculated as a proportion of the total estate population aged 16-74. The proportion of the population in different socio-economic groups is assumed not to have altered significantly since 2001.

**Map 6: Average annual Smoking Cessation successful 4-week quitters, 2007-2009 by Estate per 1,000 population aged 16-74**

## THE DATA AT ESTATE LEVEL

### Map 7: Estate and Settlement Boundaries

© Crown copyright. Milton Keynes Council Licence No. 100019593 (2010)

## DEFINITIONS AND METHODS

Describing the data used in the estate profiles and the source of the data.

### INCOME

#### **Housing/Council Tax Benefit June 2010**

Postcoded information on claimants was aggregated to estates/settlements and expressed per 1,000 dwellings. Estates and settlements are then ranked according to this figure. Milton Keynes average = 237.3 per 1,000 dwellings claim benefit.

### CHILDREN

#### **Family Referrals April 2009 - March 2010**

Counts of families referred to Social Services by estate expressed per 1,000 dwellings. Milton Keynes average = 27.5 per 1,000 dwellings.

Note: this data has been derived from a new system, so may not be directly comparable with pre 2008 data

#### **Nursery Place Non-uptake 2010**

Count of 3 and 4 year olds not attending a nursery or play school. Milton Keynes average = 282.2 per 1,000 3 and 4 year olds.

Nursery school information comes from summer 2009 nurseries and the 2010 school census.

#### **Children with Special Educational Needs (4 to 18 year olds) March 2010**

Postcoded data on children statemented with special educational needs is aggregated and expressed per 1,000 pupils. Estates and settlements are then ranked according to this figure. Milton Keynes average = 35.5 per 1,000 pupils.

#### **Free School Meals March 2010**

Postcoded information was aggregated to estates and settlements and expressed per 1,000 pupils. Estates and settlements are then ranked according to this figure. Milton Keynes average = 125.4 per 1,000 pupils.

#### **Educational attainment 2009**

The proportion of eligible pupils attaining BELOW Key Stage 2 level 4+ in English expressed per 1,000. Milton Keynes average: 212.3 per 1,000 pupils.

The proportion of eligible pupils gaining LESS THAN 5 GCSEs at grade A\*-C INCLUDING Mathematics and English expressed per 1,000. Milton Keynes average: 521.5 per 1,000 pupils.

### YOUNG ADULTS

#### **18-24 year olds Not Receiving Student Awards September 2009**

Postcoded information is aggregated and expressed per 1,000 18 to 24 year olds. Milton Keynes average = 891.0 per 1,000 18 to 24 year olds.

Note: this data has been derived from a new system, so may not be directly comparable with previous data

## OLDER PEOPLE

### **Older People Clients of Neighbourhood Services April 2009 - March 2010**

Postcoded data on clients is aggregated and expressed per 1,000 pensioners. Estates and settlements are then ranked according to this figure. Milton Keynes average = 73.4 per 1,000 pensioners.

## COMMUNITY FACTORS

### **Domestic Fires Data April 2004 to March 2009**

Bucks Fire and Rescue Services postcoded data on domestic fires is aggregated to estates and settlements and expressed per 1,000 households. Milton Keynes average = 8.3 per 1,000 households over 5 years.

### **Violent Crime April 2009 - March 2010**

Recorded Violent crime at estate and settlement level is expressed per 1,000 total population. Milton Keynes average = 25.6 per 1,000 people.

### **Burglary (Dwellings) April 2009 - March 2010**

Recorded Burglary from dwellings at estate and settlement level is expressed per 1,000 dwellings. Milton Keynes average = 12.0 per 1,000 dwellings.

### **Criminal Damage April 2009 - March 2010**

Recorded Criminal Damage is expressed per 1,000 population at estate and settlement level. Milton Keynes average = 16.7 per 1,000 people.

### **Social Rented Housing March 2010**

MKC Council and Registered Social Landlord rented stock at estate and settlement is expressed per 1,000 dwellings. Milton Keynes average = 190.7 per 1,000 dwellings

### **Neighbour Complaints April 2009 - March 2010**

Milton Keynes Council Environmental Health postcoded data on domestic nuisance complaints is aggregated to estate and settlement and expressed per 1,000 dwellings. Milton Keynes average = 34.3 per 1,000 dwellings.

### **Adult Continuing Education April 2009 - March 2010**

Postcodes of clients enrolled in Adult Continuing Education courses were aggregated to estate and settlement level and expressed per 1,000 population not enrolled on ACE. Milton Keynes average = 979.1 per 1,000 people.

## HEALTH AND DISABILITY

### **Teenage Conceptions (Under 20 year olds) January 2008 - December 2009 annualised.**

Births and terminations data for teenage girls aged under 20 are aggregated to estate and settlement and expressed as an annual average per 1,000 15 to 19 year old girls.

Estates and settlements are then ranked according to this figure. Milton Keynes average = 61.9 per 1,000 15 to 19 year old girls. Concerns over data volatility mean that extreme caution should be used in the use of this indicator.

#### **Disabled Concessionary Fares August 2010**

Postcoded data is aggregated to estate and settlement and expressed per 1,000 population. Milton Keynes average = 11.7 per 1,000 people.

#### **Disabled Clients of Neighbourhood Services April 2009 - March 2010**

Postcoded data from Neighbourhood Services on teams for Learning disability, Physical disability, Mental Health, Duty Team, Joint Elderly and Mental Health, and the Hospital is aggregated to estate and settlement and expressed per 1,000 population. Milton Keynes average = 8.9 per 1,000 people aged 18-64.

#### **Emergency Admissions April 2008 - March 2010**

The number of Emergency Admissions into hospital are expressed per year per 1,000 population. Milton Keynes average = 101.3 per 1,000 people.

#### **Non Emergency Admissions April 2008 - March 2010**

The number of Non Emergency Admissions into hospital are expressed per year per 1,000 population. Milton Keynes average = 124.9 per 1,000 people.

#### **A&E Attendances April 2008 - March 2010**

The number attendances at the accident and emergency (A&E) are expressed per year per 1,000 population. Milton Keynes average = 235.4 per 1,000 people.

Population Denominators - Population figures used in this publication are estimates from the 2009/10 Population Bulletin. Age specific populations are estimates based on postcoded figures from Buckinghamshire Health Authority Patient Registration data from the July 2009 patient register, these figures were then adjusted to match the 2009/10 Population Bulletin figures.

# ESTATE PROFILES

The information contained in this atlas is derived from the work done for Milton Keynes Council's Social Inclusion and Health Inequalities Programme. The profiles at estate and settlement level were prepared to highlight the extent of social exclusion in Milton Keynes and its concentration in particular areas, with a view to targeting areas to improve local services and community networks. The intention is to continue to develop using these indicators, so that the effects of any actions tackling the many aspects of social exclusion can be monitored.

The profiles also contain summary demographic information about the estate population, and key results from the 2001 census.

Rank of population weighted average  
IMD deprivation score at estate level:  
1 is the most deprived 108 the least.

Overall rank from the  
Social Atlas: 1 has the  
most issues and 109 the  
least

Its position  
out of 109  
estates for  
that  
indicator.

1=worst off

This shading  
indicates a  
value higher  
than 50%  
above the  
MK average

This shading  
indicates a  
value  
between the  
average and  
50% above.

How the value  
compares with  
the MK  
average

If more than  
100 it is more  
than average.

e.g. 172.1  
means above  
the average.

If less than  
100 it is less  
than average  
so it's a 'good'  
thing.

S = Suppressed  
due to issues of  
confidentiality

N/A = It was not  
ranked for that  
indicator as it was  
not applicable

Actual value for  
the particular  
indicator

# SUMMARY OF INDICATORS FOR ESTATE & SETTLEMENTS

Ranks of estates are shown for each indicator

1 = Most 'difficulties'  
108 = Least 'difficulties'  
N/A = Data not available  
OR Very small numbers

Ranks of estates are shown  
for each indicator

1 = Most 'difficulties'  
108 = Least 'difficulties'  
N/A = Data not available  
OR Very small numbers

Top Twenty estates with  
difficulties are shaded
