FOREWORD: GEOFF SNELSON, DIRECTOR OF STRATEGY

Welcome to the 2013 edition of the Social Atlas

A recent analysis by the Centre for Cities shows that Milton Keynes continues to be one of the strongest performing urban economies in the UK. This success is due in part to a dynamism and ability to manage change that enable us to respond to the needs of investors and changing economic and social circumstances faster than older, more established cities.

This agility provides Milton Keynes with a competitive advantage but requires high quality and timely information to help all concerned understand the changing nature of our communities. This is especially true for those providing services to the public who need to assess the impacts of policies and make decisions about where to focus spending.

The Council believes that all those living in Milton Keynes should enjoy happy and fulfilled lives, and be safe from harm and neglect and achieve their full potential. The Social Atlas is a vital tool for all those working toward this aspiration as we seek to understand both opportunity and vulnerability and where we can most effectively act.

EXECUTIVE SUMMARY

Milton Keynes as a whole is relatively affluent and most people enjoy a good quality of life but significant numbers of residents experience disadvantage in one or more categories.

Income

- The rate of housing or council tax claimants grew to a high of 237.3 per 1,000 dwellings in 2010. Over the last three years the rate has decreased to 226.4 per 1,000. However this is still slightly higher than the 2009 rate of 222.4.
- The rate of housing or council tax claimants varies considerably within Milton Keynes. Beanhill has the highest rate with 617.6 per 1,000 dwellings.

Education

- The rate of children claiming free schools meals increased from 116.1 per 1,000 pupils in 2009 to 145.1 in 2012. However in 2013 the rate fell to 135.5. Beanhill had the highest rate of free school meals in Milton Keynes with a rate of 385.5.
- Educational attainment has increased both at Key Stage 2 and GCSE level over the last 5 years. The rate of pupils not attaining level 4 in key stage 2 English has reduced from 201.5 per 1,000 pupils in 2008 to 129.2 in 2012. There has been a large decrease in those not obtaining 5 GCSEs at grade A*-C including English and Maths. It has decreased from 578.9 per 1,000 pupils in 2008 to 414.8 in 2012.
- Educational attainment also varies within Milton Keynes with the lowest attainment seen in Beanhill and Eaglestone.

Community Factors

- Levels of Criminal Damage and Violent Crime have decreased considerably over the last year. Criminal damage experienced the largest decrease; it fell from 13.1 crimes per 1,000 population to 10.1.
- The highest rates for both violent crime and criminal damage occurred in Central Milton Keynes because of the high visitor numbers.
- Granby had the highest rate of neighbour complaints to environmental services with 171.1 complaints per 1,000 dwellings. The Milton Keynes average was 30.5.
- The rate of dwelling fires in Milton Keynes has been steadily declining. In 2002/8 there were 9.1 fires per 1,000 dwellings by 2007/12 this had declined to 7.5.

Health and Disability

- Disabled concessionary fares and clients of disabled services are included as a pointer towards areas where the population have greater need of support. Estates which have high levels in these indicators include Beanhill, Coffee Hall, Pennyland and Willen Park.

- The average life expectancy in Milton Keynes for 2007-2011 was 80.2 years, slightly higher than the previous year although this may be due to statistical fluctuations. The range between wards was almost 11 years. The ward with the highest life expectancy in this period is Middleton with a life expectancy at birth of 86.3 years. Woughton has the lowest life expectancy of 75.4 years, but this has risen since the previous calculations.

INTRODUCTION

The purpose of this series of documents is to enable people working towards social inclusion to identify:

- The most significant social inclusion issues
- Geographic concentrations of need
- The relative severity of social exclusion compared with other areas and the national picture
- A snapshot position
- Geographic areas and issues where development of services and initiatives might be focused
- To measure change

It also serves to prompt discussion on possible causes of inequality and suggestions for actions to achieve improvement.

The data used are primarily locally collected, intended to highlight areas with a high need for public services. The indicators included this year are directly comparable with previous years. Due to issues of data quality and availability this year data on adult continuing education users and student awards have been removed.

The ideals restricting choices for indicators are that:

- They should be capable of being collected at ward and/or below ward level
- They should be commonly available across all local authorities
- They should ideally allow for national comparisons
- They should have an acknowledged relationship with disadvantage.

Some data in the estate profile relates to small numbers, especially in the smaller estates, caution should therefore be applied when interpreting the profiles.

Useful developments since the first document have been:

1. The setting up of the Office for National Statistics website for the Neighbourhood Statistics Service. Extensive amounts of data, from the 2001 census and other administrative data sources, are available at local level at no cost. The site can be found at www.neighbourhood.statistics.gov.uk
2. The development and updating of the Index of Multiple Deprivation, a multi-dimensional indicator available to lower-super output area level, published in 2000, 2004, 2007 and 2010.
3. The development of the MKi Observatory, a web-based data resource to share, map and visualise data. The web site can be found at: www.mkiobservatory.org.uk

LOCAL AUTHORITY LEVEL DATA

The table below outlines how Milton Keynes compares to the national and regional average on a range of indicators.

Table 1: Summary Indicators, Milton Keynes, South East and England

Indicator	Milton Keynes	England	South East
Income			
% of working age population in employment 2012/13	74.1	71.1	74.4
% of working age population claiming out-of-work benefits 2013	9.7	10.9	7.8
Children and Education			
% of Children in 'Poverty' 2011	19.6	20.1	14.6
% of 16-18 year olds who are Not in Employment, Education and Training 2012	5.1	5.7	5.4
% of 16 yr olds achieving 5+ GCSEs grades A*-C inc English & Maths 2012/13	61.3	59.2	62.4
% of working age with no qualifications 2012	7.1	9.5	6.9
Older People			
% of state pensioners claiming pension credit 2012	20.9	21.3	15.8
Community Factors			
Burglary: offences per 1,000 households 2012/13	7.3	-	6.7
Robbery: offences per 1,000 population 2012/13	0.9	-	0.4
Violence against the person: per 1,000 population 2012/13	11.4	-	9.7
Overall crime rate 2012/13	76.6	-	55.3
% residents volunteering at least once a month 2008	22.8	23.2	24.8
Health and Disability			
Male life expectancy at birth 2010-12	78.7	79.2	80.3
Female life expectancy at birth 2010-12	82.5	83.0	83.8
Mortality rate: circulatory diseases 2010-12	141.9	144.2	132.2
Mortality rate: cancer 2010-12	175.1	166.6	157.2
Conception rate: under 18's per 1,000 2009-11	29.7	34.0	28.0
Demography 2012			
% Aged 0-4	8.0	6.3	6.3
% Aged 5-15	14.4	12.6	12.8
% Aged 16-24	10.0	11.7	11.1
% Aged 25-49	38.6	34.5	33.6
% Aged 50-69	21.3	23.1	23.8
% Aged 70+	7.7	11.7	12.4
% Non white British 2011	26.1	20.2	14.8
% Population change 2002-2012	17.3	7.7	8.4

SUMMARY OF INDICATOR TRENDS

Table 2: Summary of Indicator Trends

Indicator Key

-  Data shows improving trend since the 2008 and 2012 Social Atlas
-  Data shows worsening trend since the 2008 and 2012 Social Atlas
-  Data broadly constant (within 10%) since the 2008 and 2012 Social Atlas

	Trend Since	
	2008	2012
Income Indicators		
Housing/ Council Tax Benefit Claimants		
FSM		
Childrens Indicators		
Special Education Needs		
KS2		
GCSE		
Older People Indicator		
Older People Clients of Neighbourhood Services		
Community Indicators		
Fires		
Violent Crime		
Burglary		
Criminal Damage		
Neighbour Complaints		
Health and Disability Indicators		
Disabled Clients of Neighbourhood Services		
Emergency Hospital Admissions		

Note: this definition assumes higher uptake of services is worse, in reality the converse could be true in that more eligible persons are being identified. All comparisons are between rates so are unaffected by population growth.

THE DATA AT BOROUGH AND WARD LEVEL

Map 1: Milton Keynes Ward Boundaries

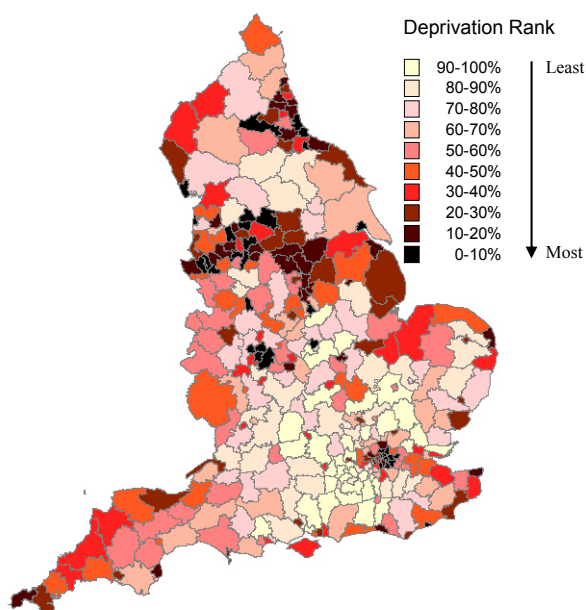

INDEX OF MULTIPLE DEPRIVATION 2010

What is it?

The Index of Multiple Deprivation 2010 (IMD 2010) is a national measure of deprivation. It is used to analyse patterns of deprivation, identify areas that would benefit from special initiatives or programmes and as a tool to determine eligibility for specific funding streams.

It combines a number of indicators, chosen to cover a range of economic, social and housing issues, into a single deprivation score for each small area in England. This allows each area to be ranked relative to one another according to their level of deprivation. Most of the indicators used in the IMD 2010 are from 2008 although some of the indicators come from the 2001 Census. As with the 2007 indices, IMD 2010 has been produced at Lower Super Output Area level (LSOA), of which there are 139 LSOAs in Milton Keynes.

Map 2: IMD 2010 Overall Deprivation Rank

Milton Keynes District

Map 2 shows the IMD 2010 mapped for the districts in England. The figures for Milton Keynes show that:

- Milton Keynes returned a score of 15.59 which is ranked 211th out of 326. With 1 being the most deprived. This compares to the 2007 rank of 212.
- Authorities ranked closely to Milton Keynes include Cheltenham (214); Chichester (213); Solihull (212); Braintree (210); East Devon (209).

Milton Keynes' Lower Super Output Area Analysis

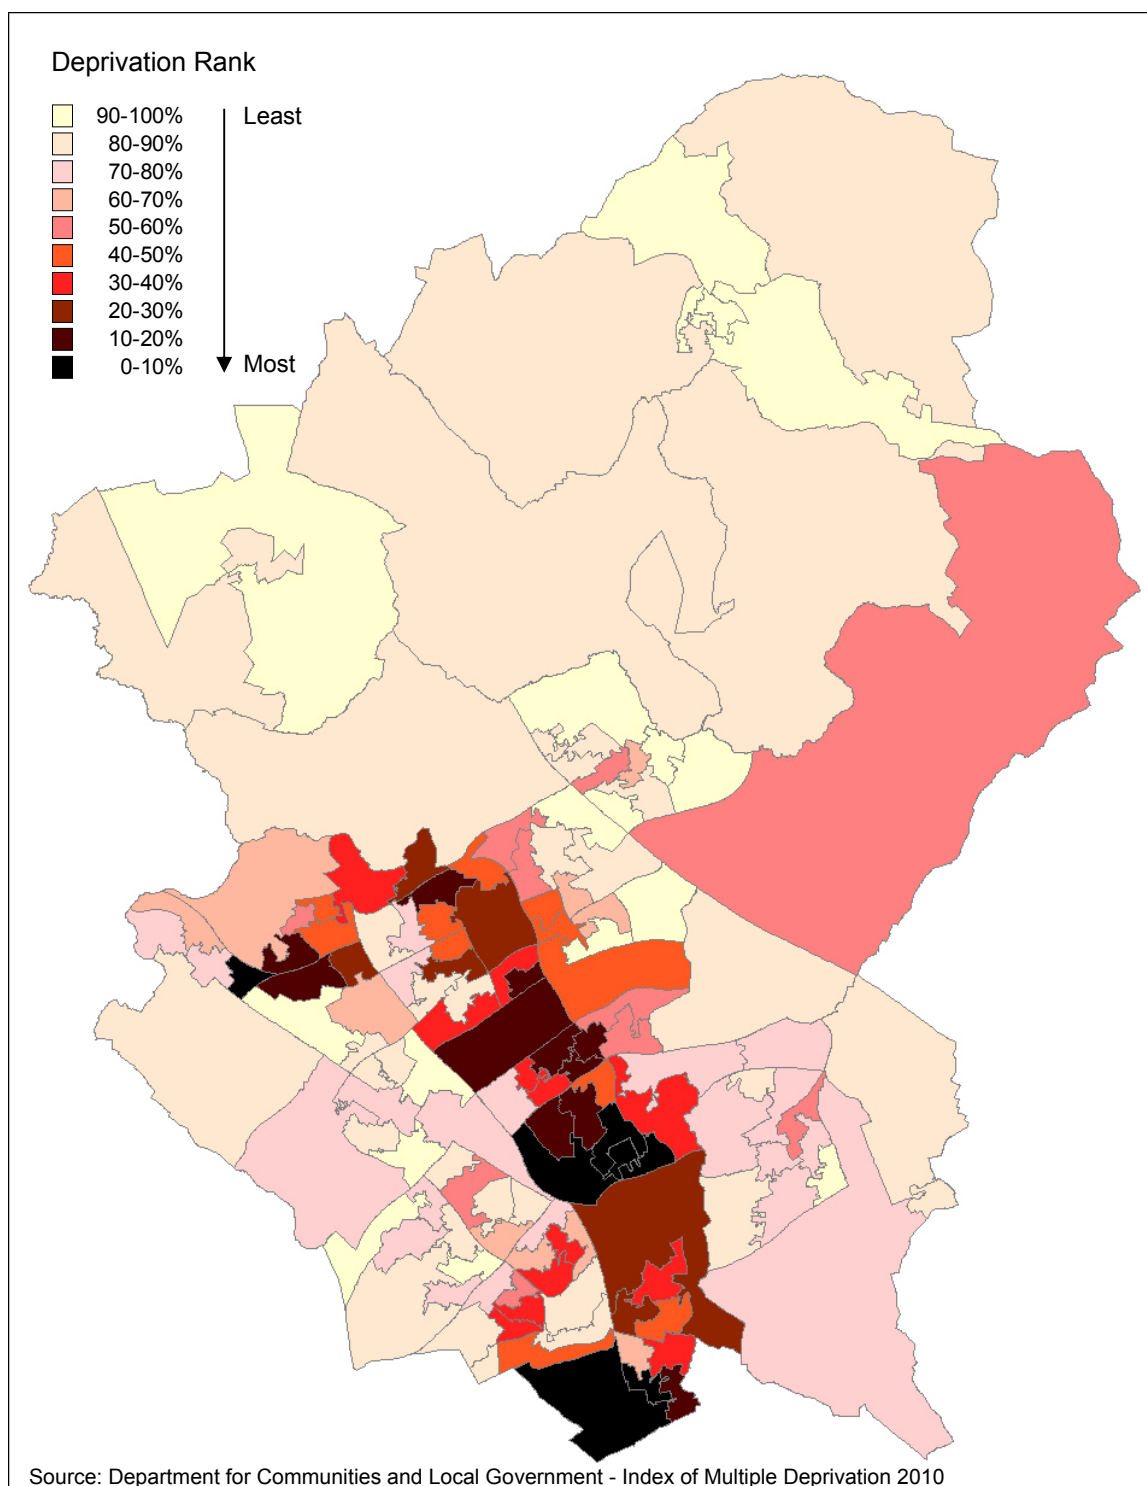

Table three shows the number of LSOAs in Milton Keynes within the most/least deprived 10%-30% LSOAs in England with a comparison to 2004 and 2007. The table shows that of the 139 LSOAs in Milton Keynes there are 7 which are within the 10% most deprived in England. This compares to 6 in 2007. Overall there are 24 LSOAs within the most deprived 30%, two more than the 2007 Index. There are 17 LSOAs within the least deprived 10% in England, three more than in 2007.

Table 3: LSOAs in MK within the 30% most & 30% least deprived.

	Number of LSOAs		
	2004	2007	2010
Within Most Deprived			
0-10%	5	6	7
10-20%	8	9	11
20-30%	9	7	6
Within Least Deprived			
0-10%	14	14	17
10-20%	26	35	34
20-30%	31	23	21

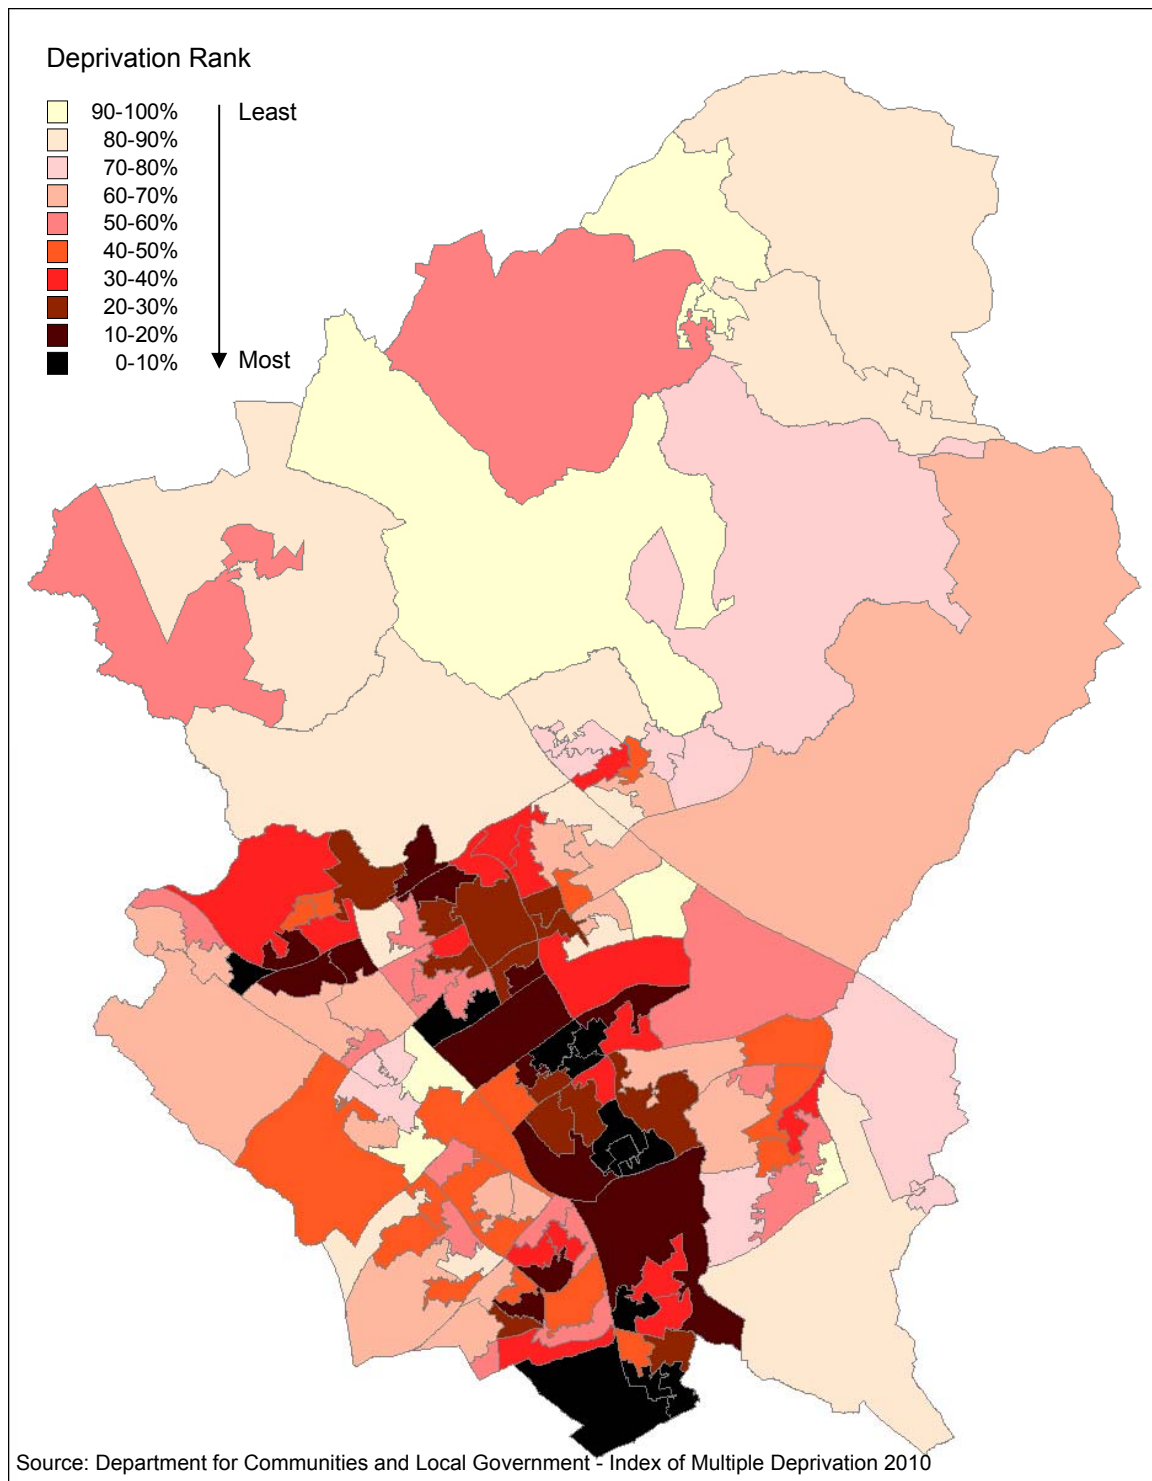

Map 3 overleaf shows the results for Milton Keynes Super Output Areas.

Map 3: IMD 2010 deciles in Milton Keynes compared to England

The map outlines that there are 7 LSOAs in MK which are within the most deprived 10% in England. These areas cover a large part of Woughton Ward and parts of Eaton Manor Ward and Fullers Slade. Overall there are 24 LSOAs within the most deprived 30%. There are 17 areas within the least deprived 10% these are in rural areas, Newport Pagnell and some areas in the city.

Map 4: IMD 2010 – Income Deprivation Affecting Children. Deciles in Milton Keynes compared to England

The map outlines that there are 12 LSOAs in MK ranked within the most deprived 10% in England for income deprivation affecting children. In addition there are 38 areas within the most deprived 30%. There are 7 areas within the least deprived 10% and a total of 31 in the least deprived 30%.

UNEMPLOYMENT

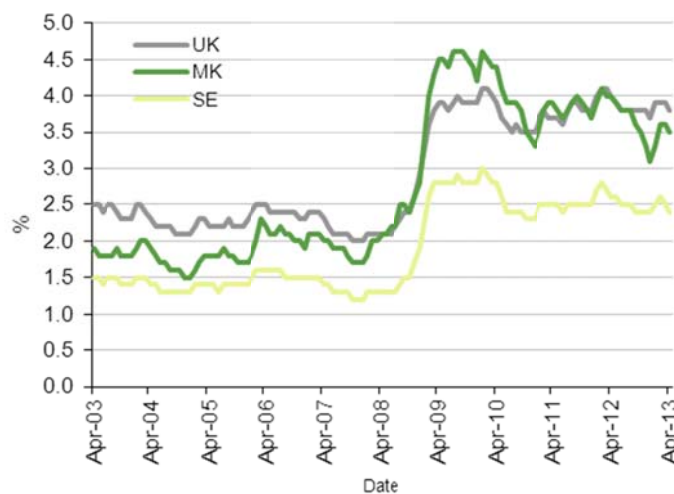

In April 2013 there were 5,844 people in Milton Keynes claiming Job Seekers Allowance. As a percentage of the working age population in Milton Keynes this is 3.5%. Milton Keynes had a lower unemployment rate to other urban areas in the South East Midlands. Milton Keynes also had a lower unemployment rate than the national average (3.8%), but had a higher rate compared with the South East Region (2.4%).

1,445 claimants in Milton Keynes had been claiming for more than one year in April 2013, accounting for 24.7% of total claimants. This compares to 28.0% in the UK.

Table 4: % of the working age population claiming unemployment benefits April 2013

Region	%
Milton Keynes	3.5
South East Region	2.4
UK	3.8
Bedford	4.2
Luton	4.4
Northampton	4.2
Wellingborough	4.8

Figure 1: % of the working age population claiming unemployment benefits April 2003 – April 2013

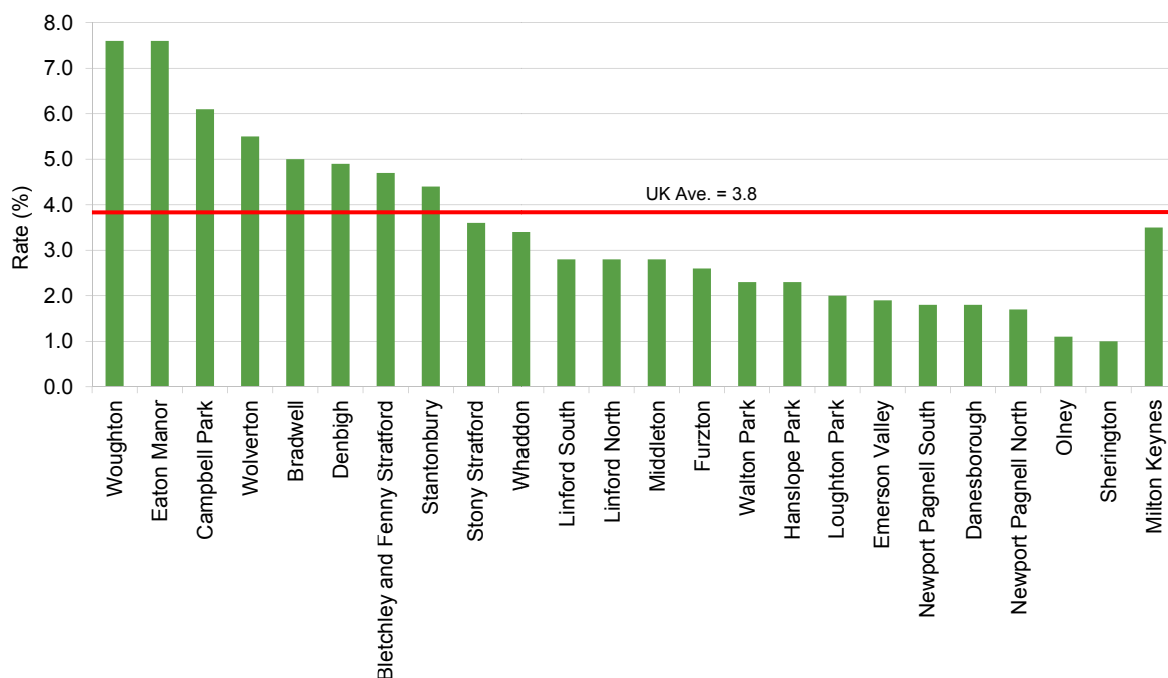

The number of claimants in Milton Keynes more than doubled (116%) between April 2008 and April 2009. Since then there had been a decrease and levelling off in the rates. The graph to the right shows the changing unemployment rate for Milton Keynes, the South East and the UK.

The graph below outlines that there were 8 wards in MK with higher unemployment rates than the UK. Woughton (7.6%) and Eaton Manor (7.6%) had the highest unemployment

rates in MK. These wards were within the 10% highest ranked wards in the UK. Rural wards tend to have lower unemployment rate than urban areas.

Figure 2: % of the working age population claiming unemployment benefits for Milton Keynes Wards, April 2013

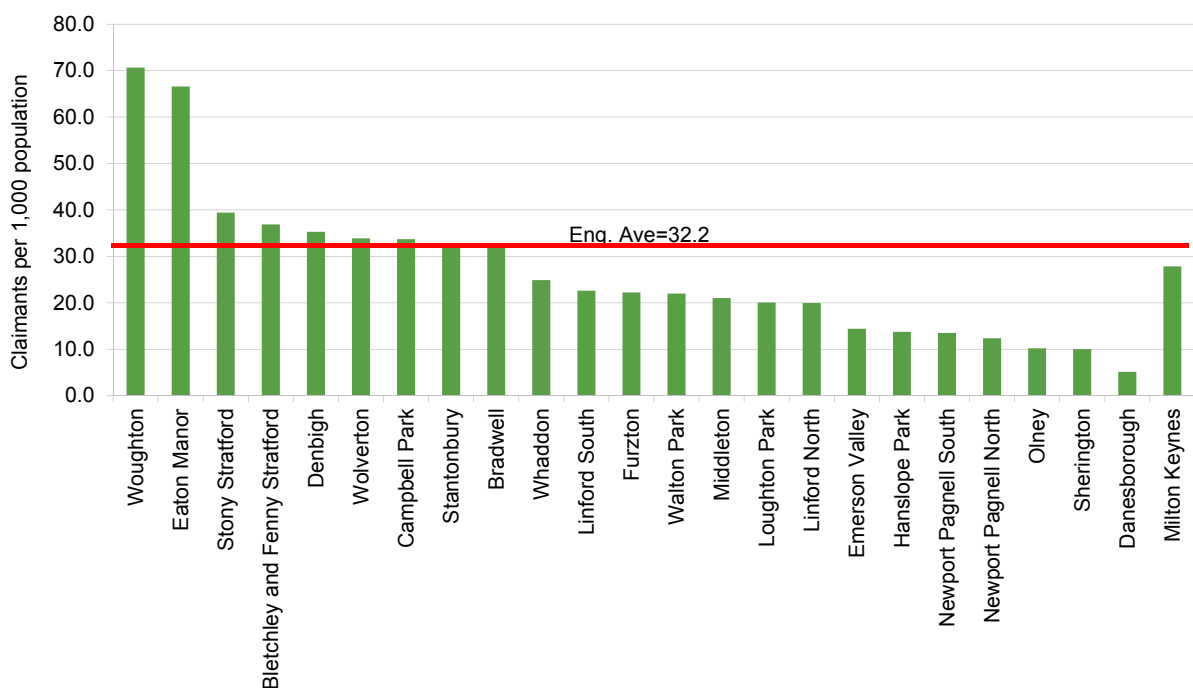

INCOME

A smaller proportion of the population claimed Income Support in Milton Keynes in August 2012 than in England as a whole. Milton Keynes had a rate of 27.8 per 1,000 working age population compared to 32.2 per 1,000 in England.

There is significant variation in the rates of Income Support claimants between the wards in Milton Keynes. Woughton (70.6 per 1,000) and Eaton Manor (66.6 per 1,000) wards had more than double the national rate. In total 8 wards in Milton Keynes are higher than the England average. Rural areas in Milton Keynes had the lowest income support claimant rates.

Figure 3: Income Support Claimants per 1,000 population, August 2012

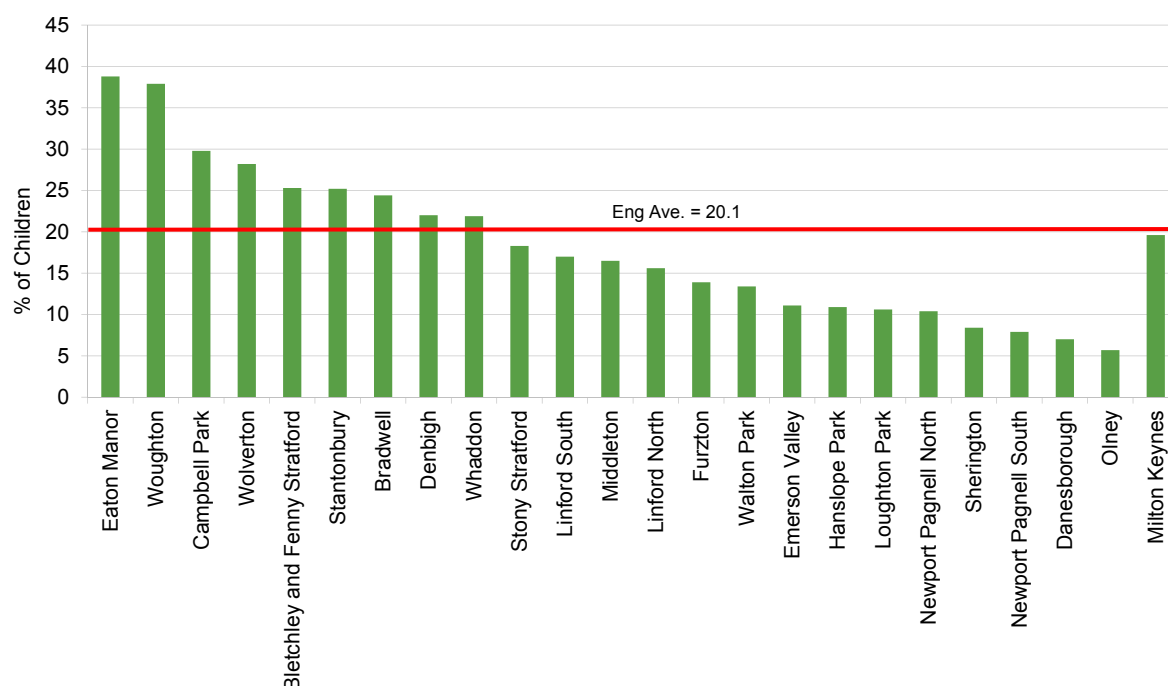

CHILDREN

HM Revenue and Custom's define a low income household as families in receipt of out-of-work benefits or in receipt of tax credits where their reported income is less than 60 per cent median income. Using this definition 12,275 children in Milton Keynes in 2011 were living in low income households, accounting for 19.6% of all children. This is slightly below the England 2011 figure and Milton Keynes 2010 figure both of 20.1%.

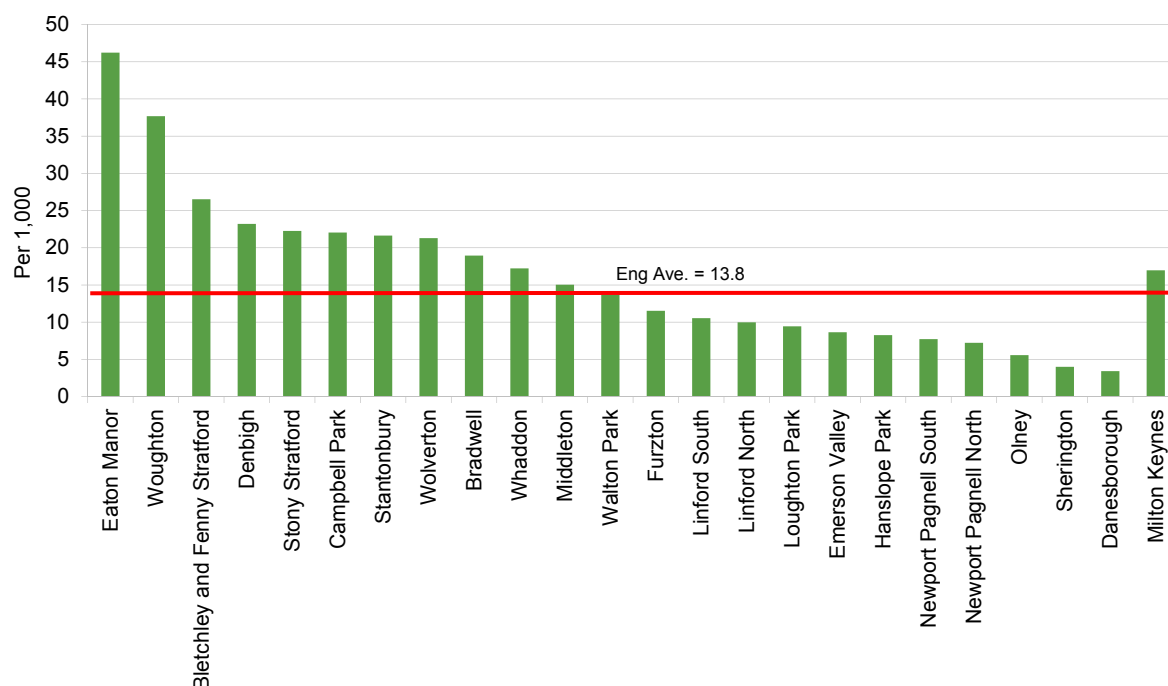

Figure 4 outlines the percentage of children in each ward who were in low income families. Eaton Manor and Woughton wards stand out as having significantly higher than average children in low income households. 1,085 children in Eaton Manor ward in 2011 lived in low income households accounting for 38.8% of all children in the ward. The second highest ward is Woughton with 37.9% of children living in low income households. In total 9 wards in Milton Keynes were higher than the England average.

Figure 4: % of Children Living in Low Income Families, August 2011

2,820 lone parent families claimed Income Support in Milton Keynes in August 2012. This is a rate of 17.0 per 1,000 working age population and is higher than that of England as a whole (13.8 per 1,000). 11 wards in Milton Keynes had a higher proportion of lone parents claiming Income Support than for England as a whole. Eaton Manor and Woughton wards had more than twice the national average.

Figure 5: Lone Parent Income Support Claimants per 1,000 population, August 2012

YOUNG ADULTS

Table 5 shows the number and percentage of 18-24 year olds claiming Job Seekers Allowance in April 2013 and 16-24 year olds claiming Income Support in August 2012. The cells marked in green are higher than the England rate.

Woughton (16.2%), Eaton Manor (13.1%) and Campbell Park (12.6%) had the highest % of 18-24 years olds claiming Job Seekers Allowance. This compares to 6.6% in England.

Woughton had the highest level of 16-24 year olds claiming income support in Milton Keynes. Its rate of 9.1% is almost three times higher than the England average.

Very low levels of young adults claimed Job Seekers Allowance or Income Support in the rural areas of Milton Keynes.

Table 5: Youth Unemployment and Income Support

	Unemployment		Income Support	
	18-24	%	16-24	%
Bletchley & Fenny Stratford	95	8.4	105	7.4
Bradwell	85	8.5	45	3.1
Campbell Park	145	12.6	80	4.6
Danesborough	5	1.6	0	0.0

Milton Keynes	1,265	6.8	1,060	4.2
England	327,115	6.6	192,890	3.1

OLDER PEOPLE

A total of 33,200 people in Milton Keynes claimed a State Pension in August 2012. This is 131.6 per 1,000 population, significantly lower than the England average of 185.9 per 1,000, reflecting the younger profile of Milton Keynes population.

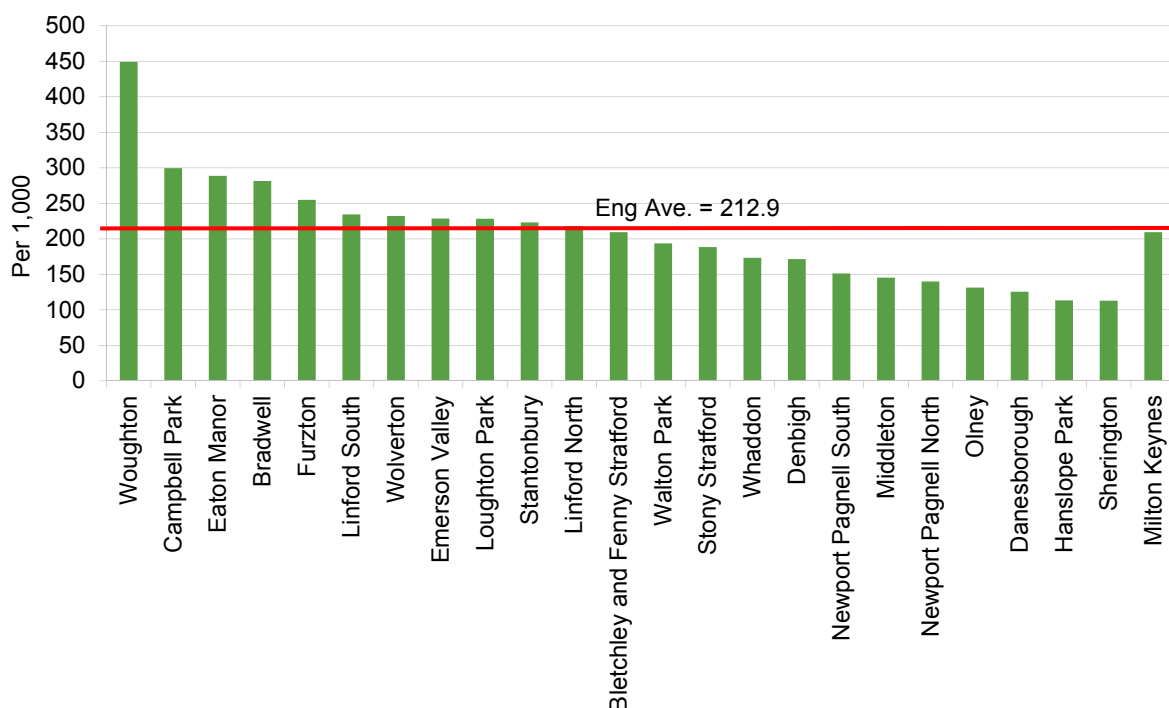

Figure 6 shows there are significant variations in the proportion of people claiming a State Pension between the wards in Milton Keynes. Sherington and Danesborough wards are significantly above the England average. The wards with the lowest State Pension claimants are Middleton (51.0) and Emerson Valley (58.6 per 1,000).

Figure 6: State Pension Claimants per 1,000 Population, August 2012

6,950 people aged 60 and over in Milton Keynes were claiming Pension Credit in August 2012. This is 209.3 per 1,000 population claiming a state pension, slightly lower than the England average of 212.9 per 1,000. 11 out of 23 wards in Milton Keynes are above the national average with Woughton (449 per 1,000) standing out as significantly higher than the other wards. Campbell Park, Eaton Manor, Bradwell, Furzton, Linford South, Wolverton, Emerson Valley, Loughton Park, Stantonbury and Linford North Wards also have a higher than average number claiming Pension Credit.

Figure 7: Pension Credit Claimants per 1,000 population aged 60+, August 2012

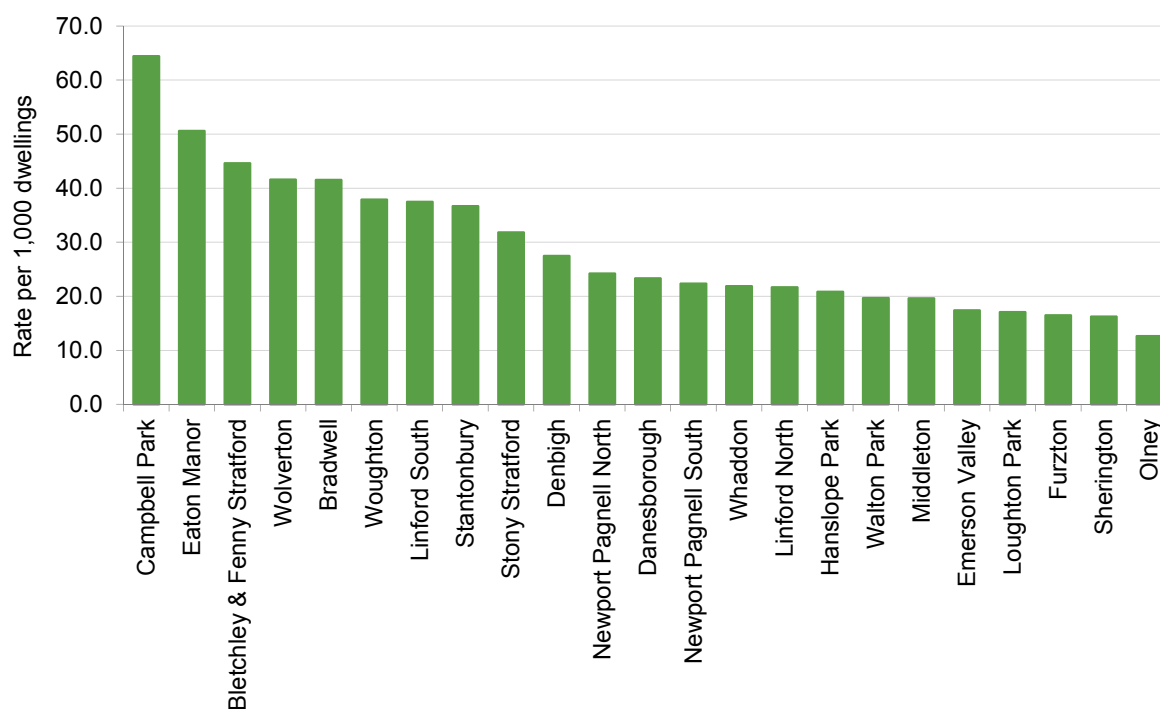

NEIGHBOURHOOD COMPLAINTS AT WARD LEVEL

Neighbour complaints are an important tool for assessing the quality of life enjoyed in a neighbourhood. These are complaints by residents about their neighbours made to the Environmental Health service. Historically, the greatest numbers of complaints are about excessive and untimely noise. This year has seen complaints about various causes of noise including construction and street works.

The rural areas show generally lower complaints about neighbours, after accounting for the number of dwellings, than the urban areas. Olney ward has the lowest number of complaints per 1,000 dwellings this year. The lower level of complaints could be a result of the lower housing density in these areas. Campbell Park has the highest rate of neighbour complaints with 64.4 per 1,000 dwellings compared with 30.5 for Milton Keynes as a whole.

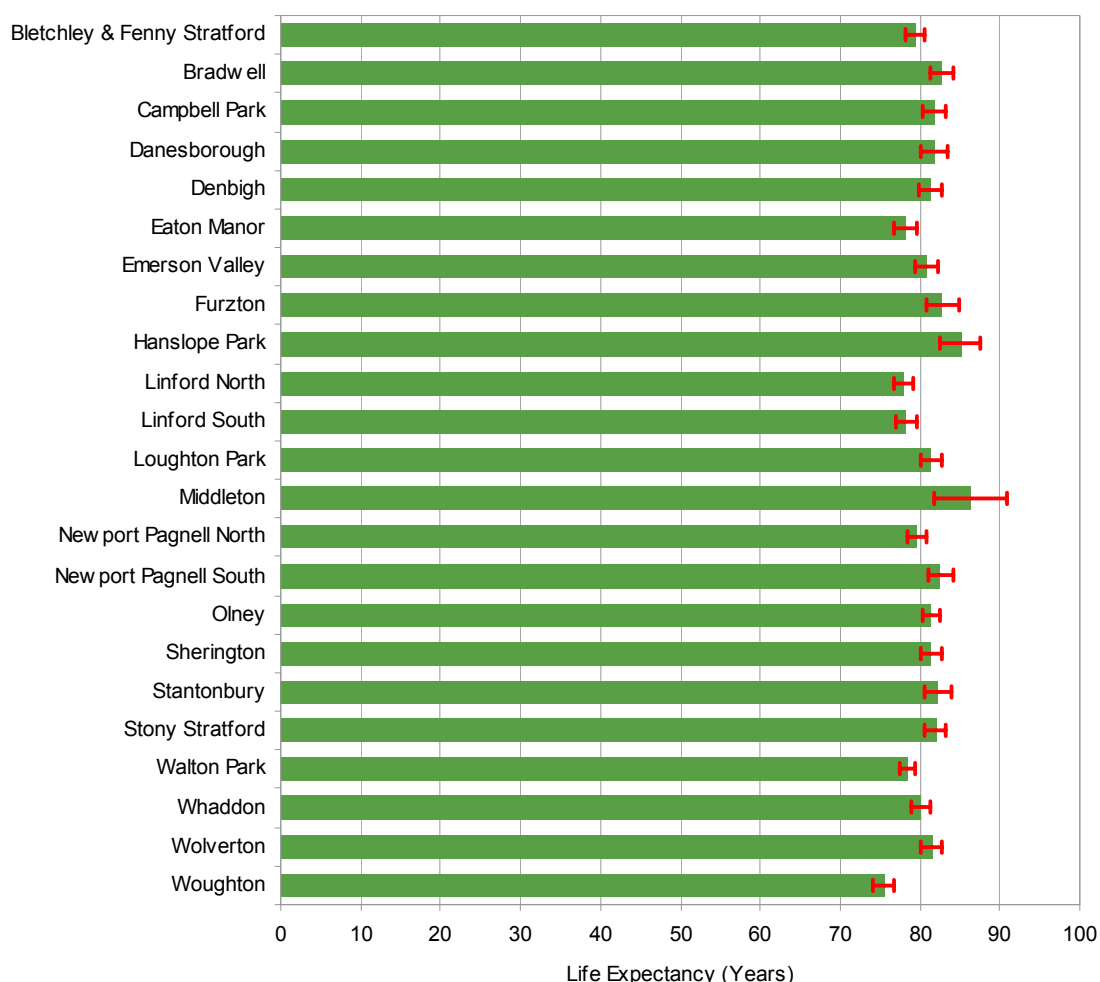

Figure 8: Rate of Neighbour Complaints by Ward per 1,000 Dwellings 2012/13

HEALTH AND DISABILITY

People in the UK are healthier and living longer than ever before. The major advances in life expectancy over the last century are due mainly to declines in both infant mortality and mortality at older ages, public health innovations such as improvements in water quality and sewerage, and mass immunisation programmes which have reduced infectious diseases (DH, 2010). Life expectancy is linked to social circumstances, and the gap in life expectancies is large, and in some areas is widening. Life expectancy at birth does not reflect the life experience of any individual. Instead, it provides a summary of the mortality experience of the individuals living in a particular area, over a period of time. Gaps in life expectancy can be observed between local authority areas. For example, in 2010/2012 in England a difference of 8.9 years was observed between areas with the highest life expectancy at birth for boys, and areas with the lowest. The gap for girls was 7.1 years. The gaps within these areas can be even wider. The current situation for Milton Keynes can be seen from figure 9.

Figure 9: Persons Life Expectancy at Birth by Ward, 2007 to 2011 Average

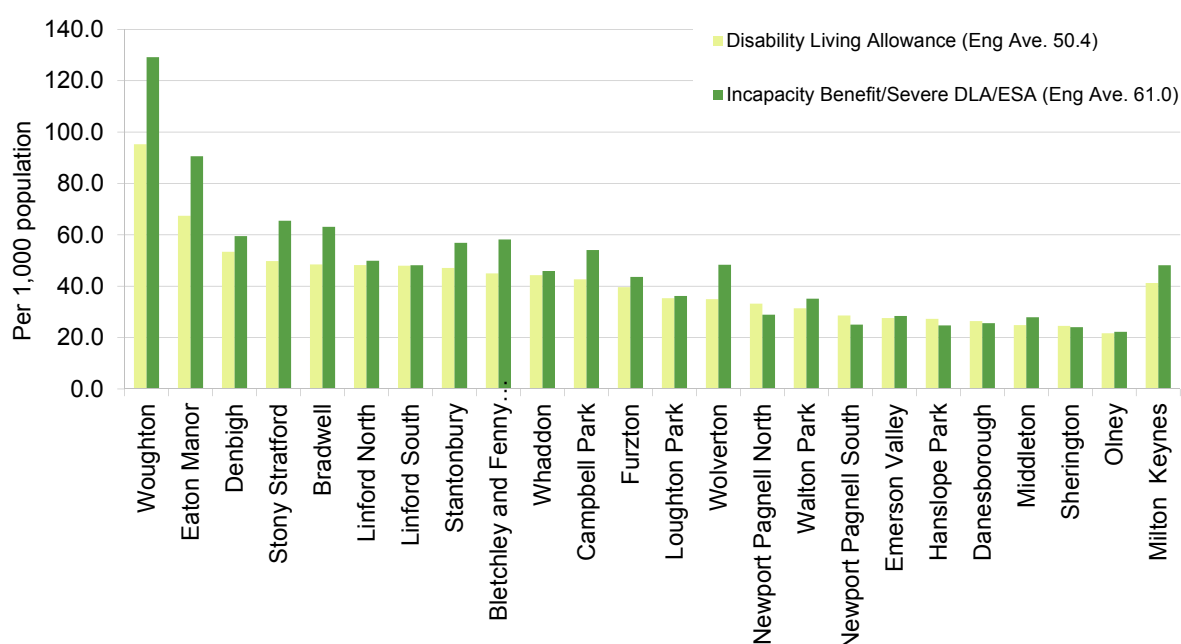

The average life expectancy in Milton Keynes for 2007-2011 was 80.2 years, slightly higher than the previous year although this may be due to statistical fluctuations. The range between wards was almost 11 years. The ward with the highest life expectancy in this period is Middleton with a life expectancy at birth of 86.3 years. Woughton has the lowest life expectancy of 75.4 years, but this has risen since the previous calculations.

The life expectancy at birth was 78.2 years for males, range 13 years. This is equivalent to the average male life expectancy for the UK, but slightly below that for England of 78.5 years. Middleton had the highest life expectancy for males of 85.5 years. Woughton has the lowest life expectancy for males of 72.6 years.

The life expectancy at birth for females in Milton Keynes has risen to 82.1 years, and the range has risen to 12.2 years. This is below the female life expectancy in England & Wales, 2008/2010 which was 82.5 years although these are not directly comparable because of the different time periods covered. Hanslope Park had the highest life expectancy of 90.4 years with Middleton second with 87.7 years. Woughton again had the lowest at 78.2 years, no change from the previous figure. There is a reasonably high level of consistency over time between the rankings of life expectancy (the relative position of wards) for the calculations. There is some variation due to statistical uncertainty surrounding such small-area calculations which is to be expected.

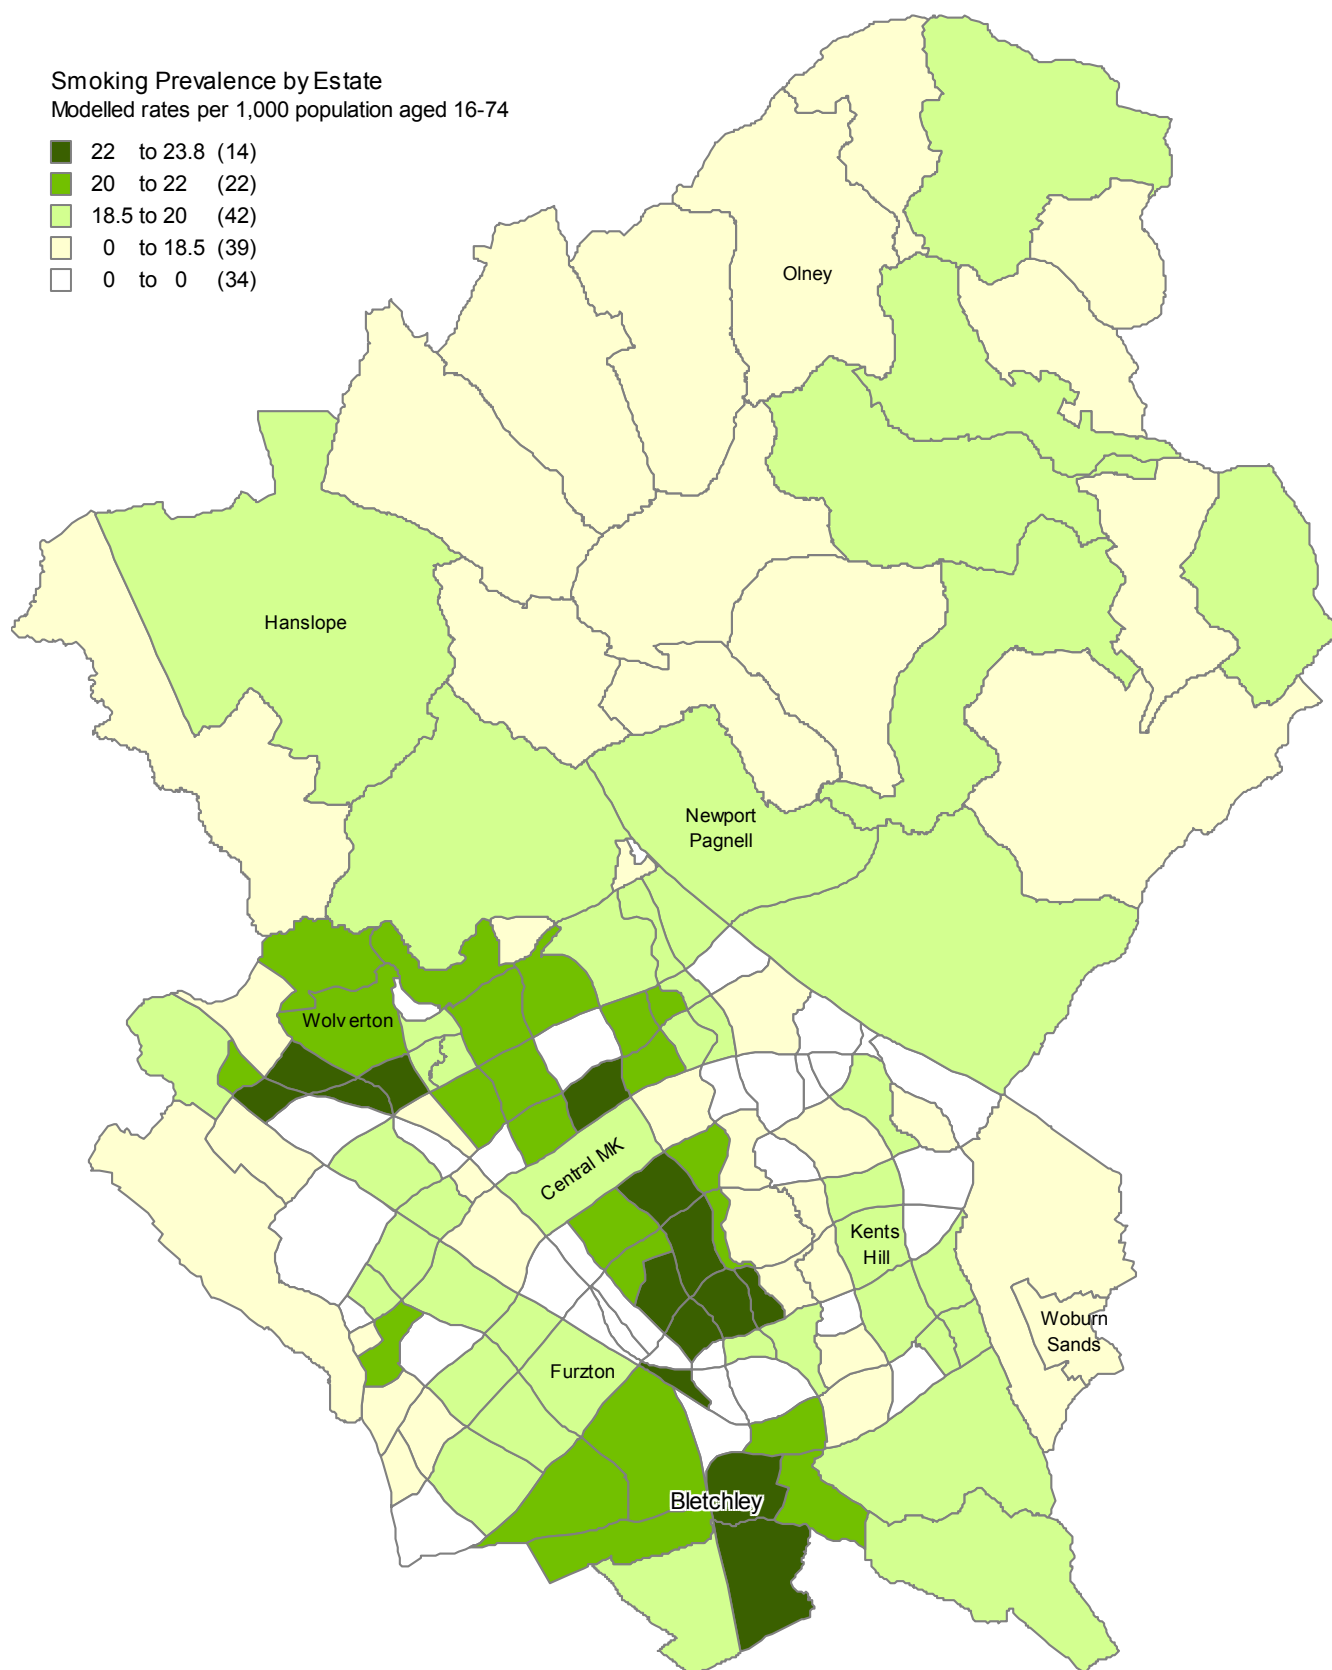

Nationally available disability benefits data provide us with results at ward level. Milton Keynes has a lower proportion of residents claiming Incapacity Benefit/Severe Disability Living Allowance/Employment Support Allowance and Disability Living Allowance than for England as a whole. Woughton ward is significantly higher than the national average for both disability benefits. Eaton Manor Ward also has higher than the national average in both benefits.

Figure 10: Disability Benefit Claimants per 1,000 population, August 2012

Indicators such as Disabled Concessionary Fares and Clients of Disabled Services at Milton Keynes Council are useful at looking at local health and disability. They have been useful in pointing out several areas of need, such as Beanhill, Coffee Hall, Pennyland, and Willen Park. These can be seen in the estate indicators section.

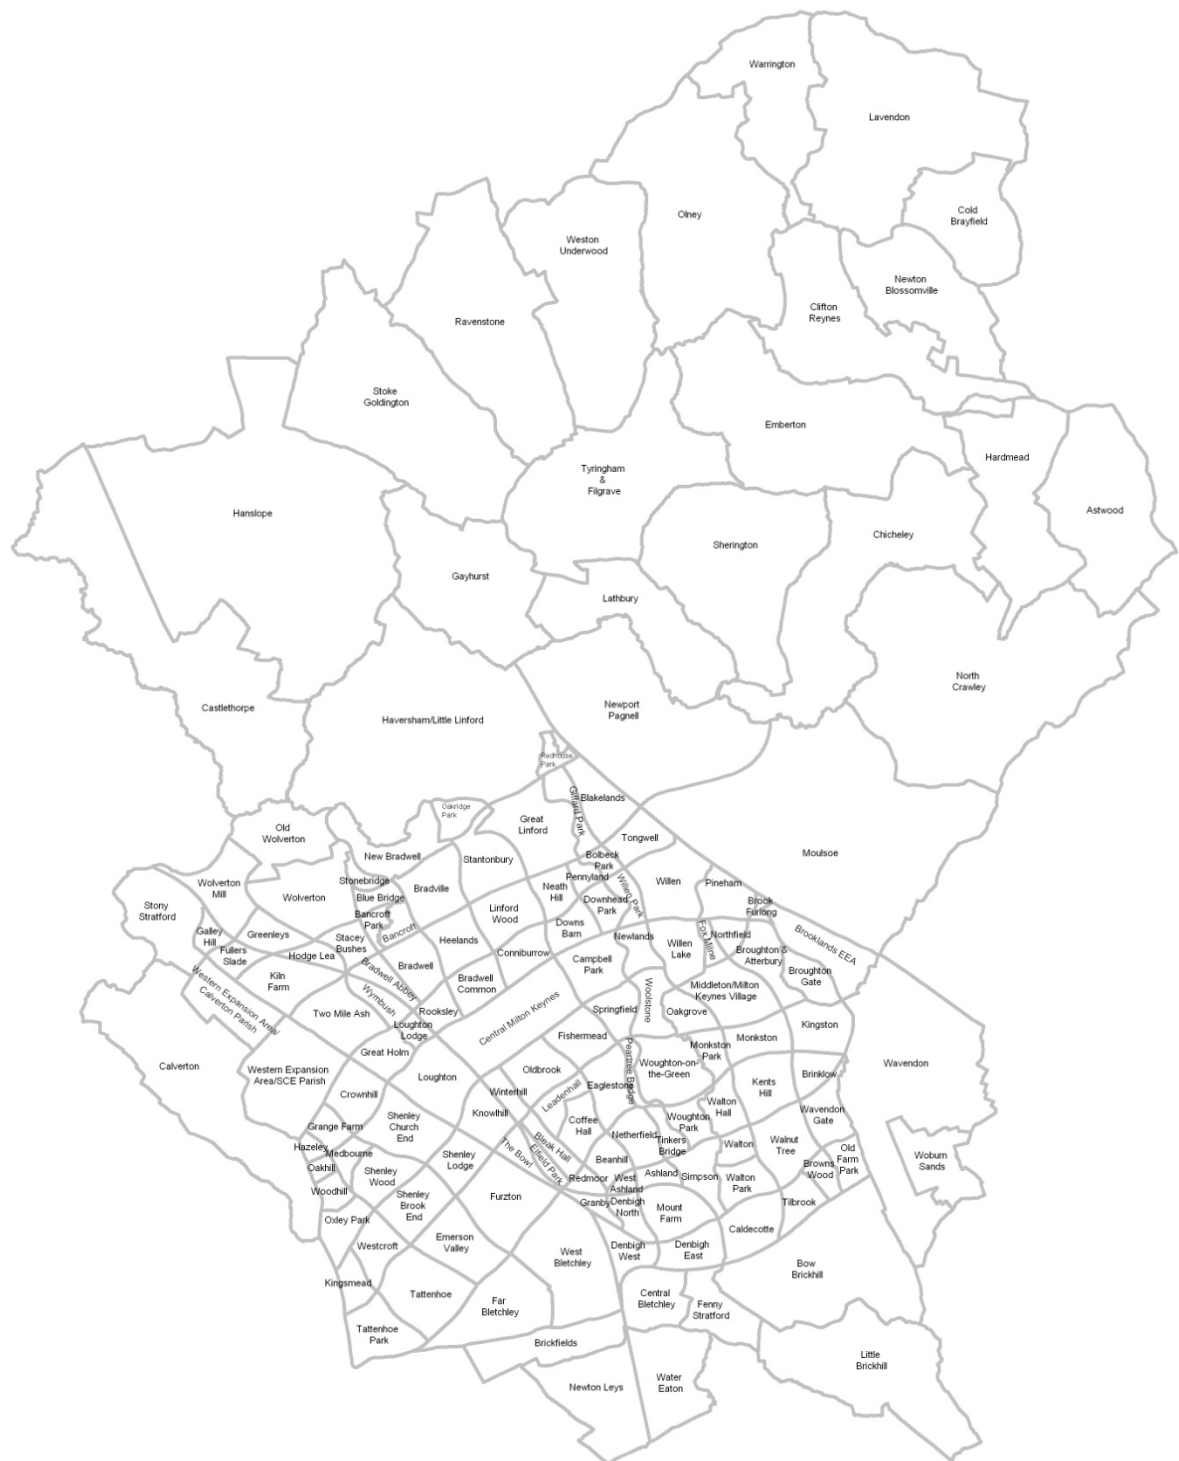

Map 5: Smoking Prevalence estimates by Estate per 1,000 population aged 16-74*

*Derived from national data: smoking prevalence estimates were calculated based on General Household Survey 2011 national smoking rates by gender and socio-economic class. These were applied to 2011 Census estate level estimates of the socio-economic structure of the population to get an estimate of the numbers of smokers by estate. This was then calculated as a proportion of the total estate population aged 16-74.

THE DATA AT ESTATE LEVEL

Map 7: Estate and Settlement Boundaries

© Crown copyright. Milton Keynes Council Licence No. 100019593 (2012).

DEFINITIONS AND METHODS

Describing the data used in the estate profiles and the source of the data.

INCOME

Housing/Council Tax Benefit Claimants July 2013

Postcoded information on claimants was aggregated to estates/settlements and expressed per 1,000 dwellings. Estates and settlements are then ranked according to this figure. Milton Keynes average = 226.4 per 1,000 dwellings.

CHILDREN

Family Referrals April 2012 - March 2013

Counts of families referred to Social Services by estate expressed per 1,000 dwellings. Milton Keynes average = 24.5 per 1,000 dwellings.

Children with Special Educational Needs (4 to 18 year olds) January 2013

Postcoded data on children statemented with special educational needs is aggregated and expressed per 1,000 pupils. Estates and settlements are then ranked according to this figure. Milton Keynes average = 29.7 per 1,000 pupils.

Free School Meals July 2013

Postcoded information was aggregated to estates and settlements and expressed per 1,000 pupils. Estates and settlements are then ranked according to this figure. Milton Keynes average = 135.5 per 1,000 pupils.

Educational Attainment 2012

The proportion of eligible pupils attaining BELOW Key Stage 2 level 4+ in English expressed per 1,000. Milton Keynes average: 129.2 per 1,000 pupils.

The proportion of eligible pupils gaining LESS THAN 5 GCSEs at grade A*-C INCLUDING Mathematics and English expressed per 1,000. Milton Keynes average: 414.8 per 1,000 pupils.

OLDER PEOPLE

Older People Clients of Neighbourhood Services April 2012 - March 2013

Postcoded data on clients is aggregated and expressed per 1,000 pensioners. Estates and settlements are then ranked according to this figure. Milton Keynes average = 70.3 per 1,000 pensioners.

COMMUNITY FACTORS

Domestic Fires Data April 2008 to March 2013

Bucks Fire and Rescue Services postcoded data on domestic fires is aggregated to estates and settlements and expressed per 1,000 households. Milton Keynes average = 7.5 per 1,000 households over 5 years.

Violent Crime April 2012 - March 2013

Recorded Violent Crime at estate and settlement level is expressed per 1,000 total population. Milton Keynes average = 14.7 per 1,000 people.

Burglary (Dwellings) April 2012 - March 2013

Recorded Burglary from dwellings at estate and settlement level is expressed per 1,000 dwellings. Milton Keynes average = 7.2 per 1,000 dwellings.

Criminal Damage April 2012 - March 2013

Recorded Criminal Damage is expressed per 1,000 population at estate and settlement level. Milton Keynes average = 10.1 per 1,000 people.

Social Rented Housing March 2013

MKC Council and Registered Social Landlord rented stock at estate and settlement is expressed per 1,000 dwellings. Milton Keynes average = 188.2 per 1,000 dwellings

Neighbour Complaints April 2012 - March 2013

Milton Keynes Council Environmental Health postcoded data on domestic nuisance complaints is aggregated to estate and settlement and expressed per 1,000 dwellings. Milton Keynes average = 30.5 per 1,000 dwellings.

HEALTH AND DISABILITY

Teenage Conceptions (Under 20 year olds) January 2011 - December 2012 annualised.

Births and terminations data for teenage girls aged under 20 are aggregated to estate and settlement and expressed as an annual average per 1,000 15 to 19 year old girls. Estates and settlements are then ranked according to this figure. Milton Keynes average = 47.1 per 1,000 15 to 19 year old girls. Concerns over data volatility mean that extreme caution should be used in the use of this indicator.

Disabled Concessionary Fares August 2013

Postcoded data is aggregated to estate and settlement and expressed per 1,000 population. Milton Keynes average = 12.6 per 1,000 people.

Disabled Clients of Neighbourhood Services April 2012 - March 2013

Postcoded data from Neighbourhood Services on teams for Learning disability, Physical disability, Mental Health, Duty Team, Joint Elderly and Mental Health, and the Hospital is aggregated to estate and settlement and expressed per 1,000 population. Milton Keynes average = 6.2 per 1,000 people aged 18-64.

Emergency Admissions April 2011 - March 2013

The number of Emergency Admissions into hospital are expressed per year per 1,000 population. Milton Keynes average = 89.8 per 1,000 people.

Non Emergency Admissions April 2011 - March 2013

The number of Non Emergency Admissions into hospital are expressed per year per 1,000 population. Milton Keynes average = 104.2 per 1,000 people.

A&E Attendances April 2011 - March 2013

The number attendances at the accident and emergency (A&E) are expressed per year per 1,000 population. Milton Keynes average = 229.8 per 1,000 people.

Population Denominators - Population figures used in this publication are estimates from the 2013/14 Population Bulletin. Age specific populations are estimates based on postcoded figures from Buckinghamshire Health Authority Patient Registration data from the January 2013 patient register, these figures were then adjusted to match the 2013/14 Population Bulletin figures.

ESTATE PROFILES

The information contained in this atlas is derived from the work done for Milton Keynes Council's Social Inclusion and Health Inequalities Programme. The profiles at estate and settlement level were prepared to highlight the extent of social exclusion in Milton Keynes and its concentration in particular areas, with a view to targeting areas to improve local services and community networks. The intention is to continue to develop using these indicators, so that the effects of any actions tackling the many aspects of social exclusion can be monitored.

The profiles also contain summary demographic information about the estate population, and key results from the 2011 census.

Rank of population weighted average IMD deprivation score at estate level: 1 is the most deprived 110 the least.

Overall rank from the Social Atlas: 1 has the most issues and 115 the least

It's position out of 115 estates for that indicator.

1=worst off

This shading indicates a value higher than 50% above the MK average

N/A = It was not ranked for that indicator as it was not applicable

This shading indicates a value between the average and 50% above.

How the value compares with the MK average

If less than 100 it is less than average so it's a 'good' thing.

If more than 100 it is more than average.

e.g. 216.5 means more than twice the average.

S = Suppressed due to issues of confidentiality

Actual value for the particular indicator
