Census Atlas: Health and Carers

Introduction

This document provides a set of thematic maps on the **health and carers** data by estate and settlement in Milton Keynes from 2011 Census data.

You can download the tables of data used in the maps via the MKi Observatory using the link below:

- Health and Carers – Estates and Settlements

Methodology

These maps were created by the Research and Intelligence team at Milton Keynes Council based on 2011 Census data published by the Office for National Statistics.

The 2011 Census data was not released at estate level. The Research and Intelligence team at Milton Keynes Council therefore added together Output Area (the smallest census geography) data to provide an estimate at estate level. As Output Areas (OAs) boundaries and estate boundaries do not always match, the data for OAs is weighted to estates. The data in the maps should therefore be seen as estimates based on 2011 Census data rather than actual figures. Full information on the methodology used to estimates the data at estate level can be viewed here:
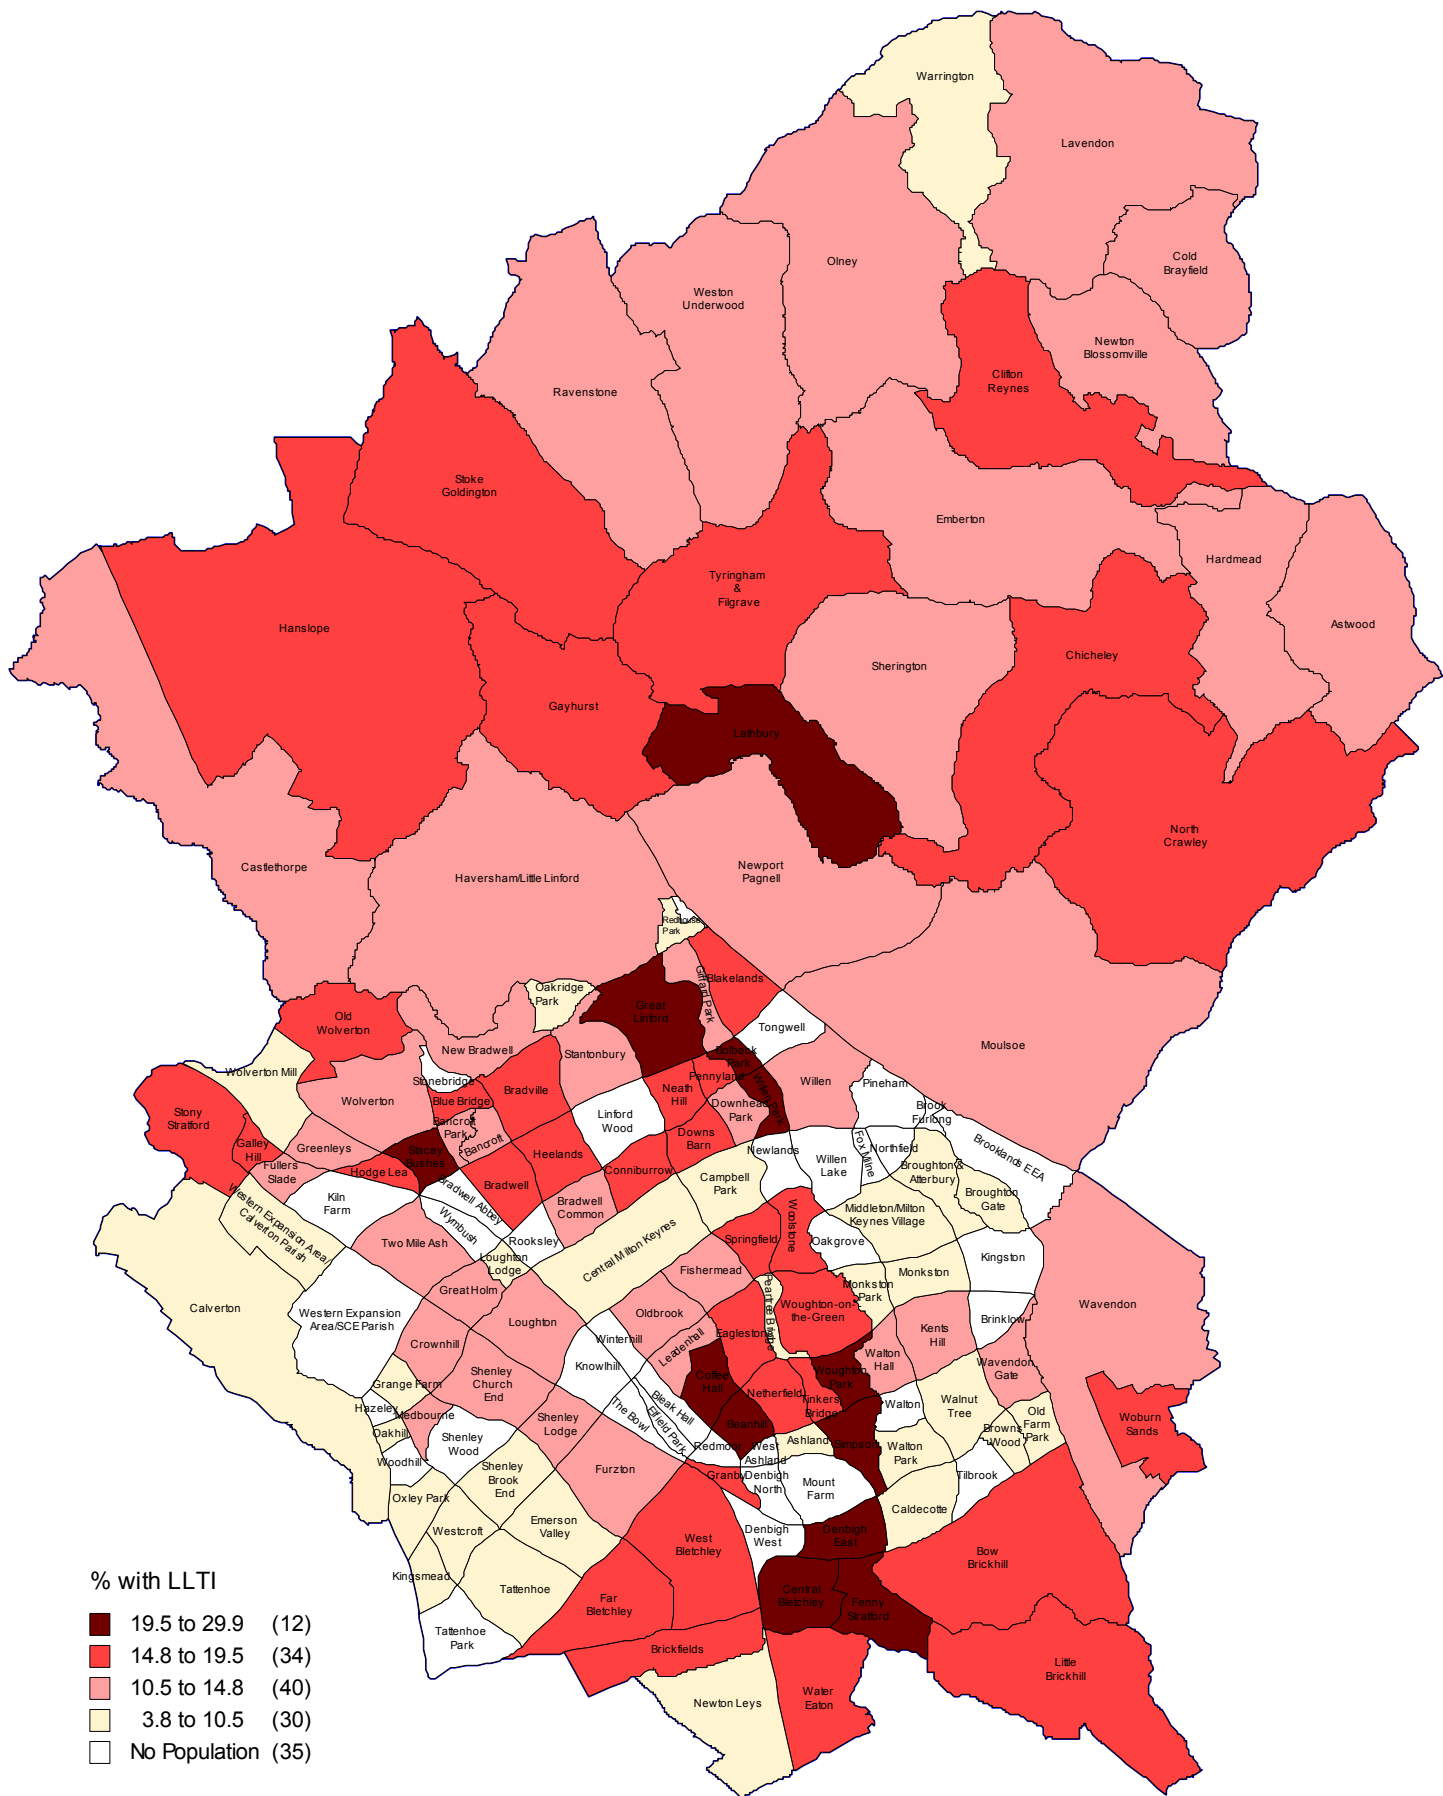

http://www.mkiobservatory.org.uk/document.aspx?id=10215&siteID=1026

Further Information

Further information, data and analysis on the 2011 Census can be viewed on the MKi Observatory via the link below:

Map 1: % Day-to-Day Activities are Limited

% with LLTI

|		
■	19.5 to 29.9	(12)
■	14.8 to 19.5	(34)
■	10.5 to 14.8	(40)
■	3.8 to 10.5	(30)
□	No Population	(35)

Beanhill had the highest percentage (29.9%) of people who reported they had a limiting long term illness. It is closely followed by Coffee Hall (28.1%) and Willen Park (including the retirement village) (28.0%). Areas with the lowest proportion of limiting long term illness tend to be newly developed areas such as Oakridge Park (3.8%) and Oakhill (3.9%).

Map 2: % With Good or Very Good Health

% with Good or Very Good Health

- 89.4 to 94.8 (28)
- 85 to 89.4 (38)
- 80.3 to 85 (34)
- 67.8 to 80.3 (16)
- No Population (35)

The estates with the highest percentage of residents that stated they had good or very good health includes Kingsmead (94.8%), Monkston Park (94.5%), Oxley Park (94.5%) and Oakridge Park (94.5%). The lowest percentages occurred in Coffee Hall (71.2%) and Beanhill (67.9%).

% with Bad or Very Bad Health

■	5.6 to 13.9	(19)
■	3.1 to 5.6	(56)
■	2.3 to 3.1	(23)
■	0 to 2.3	(18)
□	No population	(35)

Beanhill (13.8%) and Coffee Hall (11.8%) had the highest proportion of residents reporting bad or very bad health. Other areas of Woughton Ward, Bletchley, Willen Park, Stacey Bushes and Lathbury also have high proportions.

Map 4: % Who Provide Unpaid Care

% Providing Unpaid Care

- ■ 11.4 to 21.1 (21)
- ■ 9 to 11.4 (37)
- ■ 6.6 to 9 (35)
- ■ 2.9 to 6.6 (23)
- □ No Population (35)

Gayhurst (21.1%) and Ravenstone (17.7%) have the highest proportion of residents providing unpaid care each week. Oakridge Park (3.0%) and Newton Leys (3.6%) have the lowest percentage providing unpaid care.
