INTRODUCTION

The 2010/2011 Milton Keynes Population Bulletin provides a comprehensive update of demographic information for Milton Keynes. It has been updated to incorporate all the revisions available from June 2010, when revisions to populations from 2002 to 2008 were published by ONS (the Office for National Statistics). These include revisions to the estimation of internal and international migration including the estimation of student moves.

The 2001 Census count for April 2001 in Milton Keynes was 207,057 people, but the 2001 mid-year estimate of the population of Milton Keynes borough was 212,710. Most of the difference in population was assumed to be in the city area, rather than the rural area. This had the effect of significantly altering the current and projected population of Milton Keynes Borough. The 2011 census is due to be carried out on 27th March. This will prove a very valuable means of validating the population count, particularly when looking at the geographical distribution.

Local data used to estimate the estate populations have been updated. These changes have affected both the expected numbers of households and the projected size of the population, and have made some substantial differences in some estates.

As a result of changes following the 2010 election, Regional Spatial Strategies have been abolished. This means that local councils are free to set their own housing targets. The Core Strategy setting targets for Milton Keynes was agreed in September. Revised housing targets resulting from this have been incorporated into this publication.

PAST POPULATION GROWTH

The Borough of Milton Keynes is one of the fastest growing districts in the country. Between 1991 and 2009, its population increased by 33%, whereas the population of England increased by only 8% (Sources: 1991 Census and 2009 Mid-Year Population Estimates). Going further back, since the designation of the new town in 1967, the Borough's population is now four times what it was and is currently estimated to be 240,990 (June 2010).

Graph 1: Milton Keynes past Population Growth

Most of this growth is focused in the new city, which continues to be amongst the fastest growing urban areas in the country. The city's population is now almost five times larger than in 1967 and is currently estimated to be 203,580 (June 2010). The main points to note are:-

- ✦ In 1967, when Milton Keynes New Town was designated, the area had a mainly rural population of around 40,000.
- ✦ Despite the fact that the development of Milton Keynes had only just started, the 1971 Census revealed a population of some 46,500 in the city. By the time of the 1981 Census, this had more than doubled to a population of 95,800
- ✦ The 1991 Census results showed that the population of Milton Keynes New City had continued to grow at a rate amongst the fastest of all the districts of England and Wales to 144,700 people.
- ✦ By 2001 the Milton Keynes City area had grown to 177,500 people.

Sources: 1971, 1981, 1991 and 2001 Censuses and output from the Milton Keynes Population Projection Model

Notes: * 1991 Census figures allow for the Census Validation Survey

** 2001 revised mid year estimate figures for the Borough have been split on the basis of dwellings to give an estimate of the city's population

Figures for non-census years in the Borough have been interpolated from published mid-year estimates.

HOUSEHOLD COMPOSITION

The 2001 Census gives information on household composition in Milton Keynes. In the new city, the number of families with two or more adults and dependent children decreased by about 5% compared with 1991, whereas single parent families showed an increase of 2.6%, so that it is now above the national average of 6.5%.

Single person households have risen between 1991 and 2001. They make up around 29% of all household types in the Borough. Of these, almost 10% contain a single elderly person.

Graph 2: Household Composition 2001 MK City and Borough

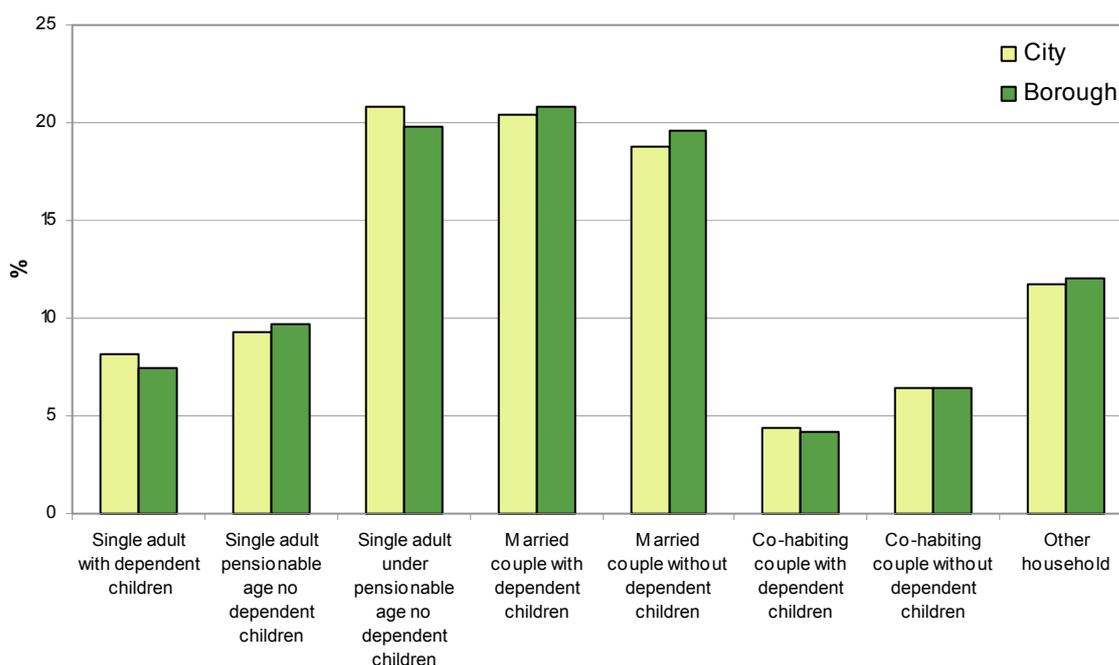

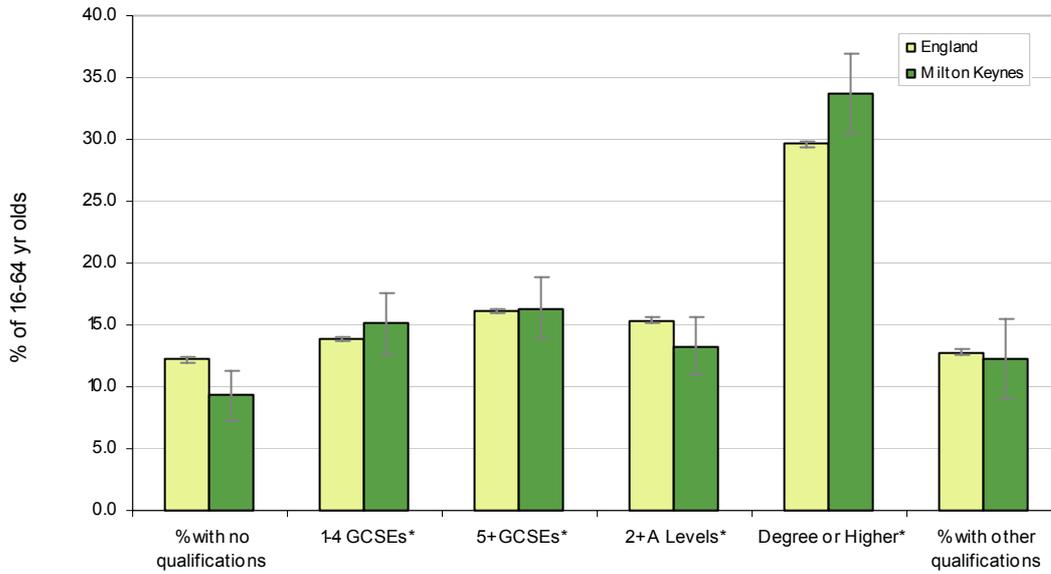

Table 2: Household Composition

| | City | | Borough | |
|--|--------|--------|---------|--------|

BLACK & MINORITY ETHNIC GROUPS

The Office for National Statistics has published experimental statistics on the ethnicity of the population for districts in 2007. The figures for Milton Keynes suggested that around 18.1% of the population are from a black and minority ethnic (BME) group. This compares to 9.4% in 2001 and to 16.4% in England in 2007.

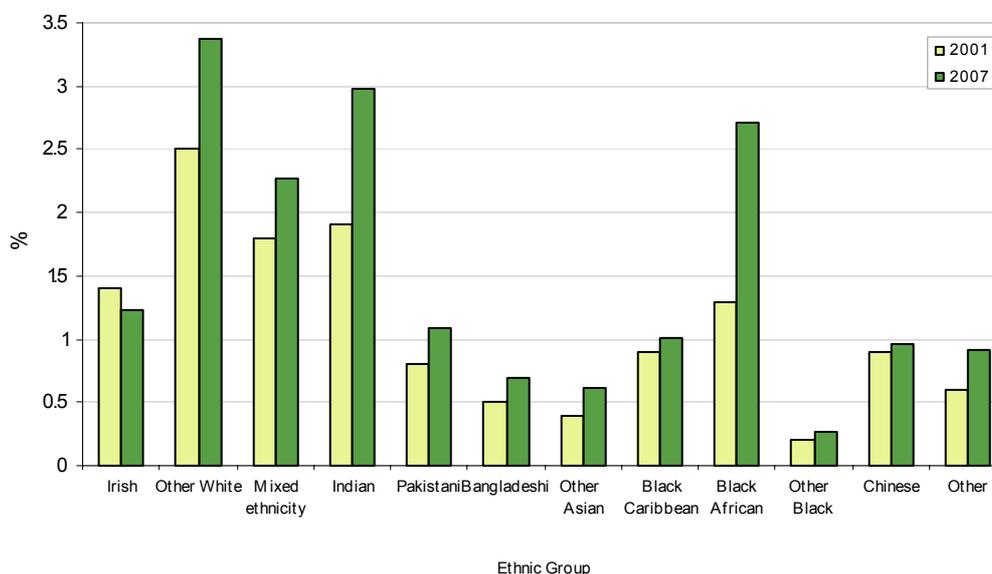

Table 4: Ethnic Composition Milton Keynes 2007

| | | MK % | England % |
|-------------------------------|-----------------|------------|------------|
| White | British | 81.9 | 83.6 |
| | Irish | 1.2 | 1.1 |
| | Other White | 3.4 | 3.5 |
| Mixed ethnicity | | 2.3 | 1.7 |
| Asian or Asian British | Indian | 3.0 | 2.6 |
| | Pakistani | 1.1 | 1.8 |
| | Bangladeshi | 0.7 | 0.7 |
| | Other Asian | 0.6 | 0.7 |
| Black or Black British | Black Caribbean | 1.0 | 1.2 |
| | Black African | 2.7 | 1.4 |
| | Other Black | 0.3 | 0.2 |
| Chinese or Other Ethnic Group | Chinese | 1.0 | 0.8 |
| | Other | 0.9 | 0.7 |
| Total | | 100 | 100 |

Asian groups are the largest minority ethnic group making up 5.4% of the total population. Over half of the Asian group are Indian who make up 3.0% of the total Milton Keynes population. Black or Black British ethnic groups account for 4.0% of Milton Keynes population. The Black African group accounts for 2.7% of the population in Milton Keynes which compares to the England figures of just 1.4%. The figures indicate that 2.3% of Milton Keynes' population classify themselves as mixed; this is relatively high compared to the England figure of 1.7%.

The graph below shows the changing proportion of black and minority ethnic groups in Milton Keynes between 2001 and 2007. It outlines that the proportion of Milton Keynes population made up of each black and minority ethnic group has increased except White Irish. Black African, Asian Indian and Other White have had the largest increase.

Graph 5: Ethnic Composition Milton Keynes 2001-2007

Pupil Ethnicity in Milton Keynes

Overall in Milton Keynes, Black and Minority Ethnic groups represent 31.0% of Pupils. This compares with the 2005 findings of 20.7%. According to the schools census data, there is a higher than average proportion of minority ethnic groups in nursery and reception years, accounting for 35.5% of all pupils. Of those of primary school age 33.2% come from minority ethnic groups and 26.7% of those of secondary school age come from minority ethnic groups.

Table 5: Ethnic Groups of Pupils

| Ethnic Group | 2010 | |
|---------------------|---------------|------------|
| | Pupils | % |
| White British | 26,109 | 66.3 |
| White Irish | 161 | 0.4 |
| White Other | 1,680 | 4.3 |
| Mixed | 2,134 | 5.4 |
| Indian | 979 | 2.5 |
| Pakistani | 1,044 | 2.6 |
| Bangladeshi | 587 | 1.5 |
| Any Other Asian | 854 | 2.2 |
| Black African | 3,089 | 7.8 |
| Black Caribbean | 353 | 0.9 |
| Black Other | 576 | 1.5 |
| Chinese | 276 | 0.7 |
| Any Other Group | 493 | 1.3 |
| Refuse/Unknown | 1,067 | 2.7 |
| Total Pupils | 39,402 | 100 |

In the sixth forms there are higher percentages (28.9%) of black and minority ethnic groups than in compulsory secondary education (26.7%).

The Black African Group is the largest minority ethnic group accounting for 7.8% of pupils. This is followed by the Mixed (5.4%) and White Other groups (4.3%).

Black Caribbean pupils form just 0.9% of the Milton Keynes pupil population. Black Other pupils now account for 1.5%.

Pakistani pupils now make up the largest population in the Asian ethnic group with 1,044 pupils forming 2.6% of the pupil population in Milton Keynes. Indians make up 2.5% of the pupil population and Bangladeshis 1.5%.

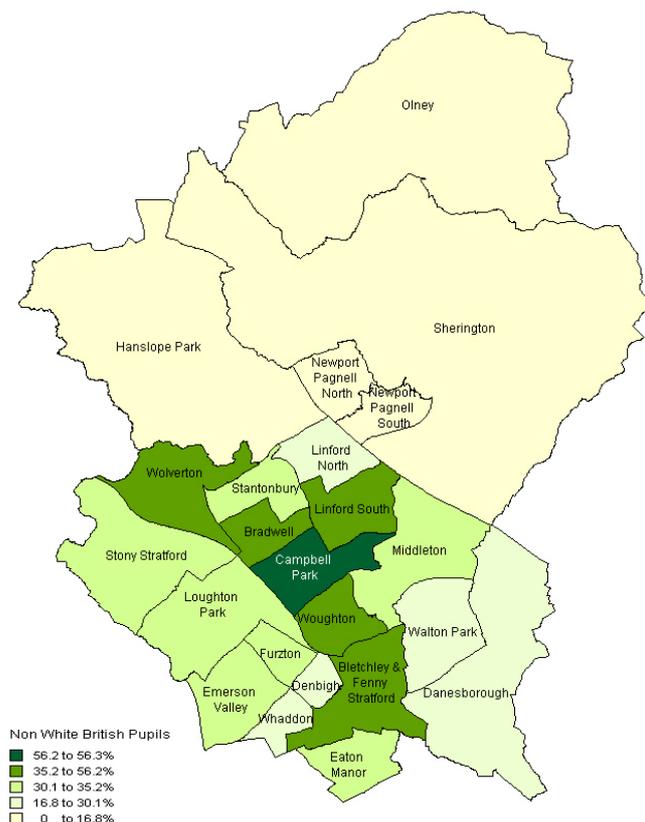

The map to the right shows that BME groups are concentrated within certain areas in Milton Keynes. The rural areas have a low proportion of BME groups whilst over half of pupils in Campbell Park Ward are from BME groups.

Some ethnic groups are less spread than others in Milton Keynes. Bangladeshi pupils are particularly concentrated within Bletchley and Fenny Stratford Ward (12.5% of pupils). Pakistani pupils are concentrated in Wolverton Ward (13.6% of pupils).

Black African pupils appear in high proportions in Campbell Park (18.7%) Woughton (17.3%) and Bradwell (12.9%) wards.

The Mixed, White Other & Black African groups are the most spread out in MK.

DRIVE TIMES FROM MILTON KEYNES

Map 2: Drive Times from MK

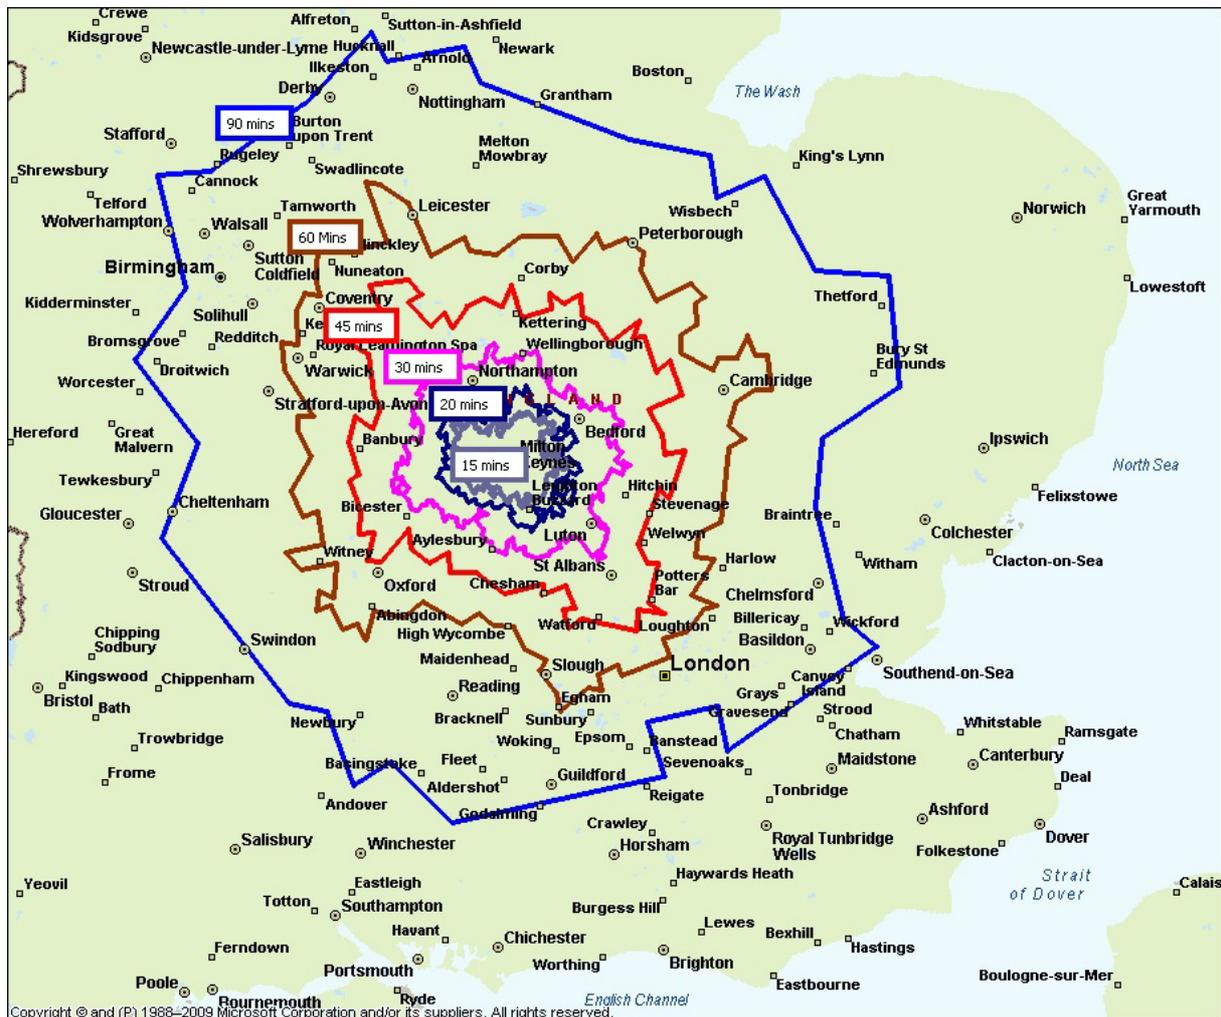

Table 7: Drive Times from Milton Keynes

| Drive Times | Population mid-2009 |
|-------------|---------------------|
| 15 minutes | 277,900 |
| 20 minutes | 491,803 |
| 30 minutes | 1,314,400 |
| 45 minutes | 2,699,900 |
| 60 minutes | 9,421,300 |
| 90 minutes | 22,345,500 |

These population figures are approximate because they use the Office for National Statistics mid-2009 population estimates for districts, and minimal account is taken of fractions of districts included in the drive time boundaries.

PROJECTIONS TO 2018

These population projections are based on the new revised Core Strategy forecasts of housing completions in the Borough which were agreed by the council on 14th September 2010. This focuses on the period 2010-2026. It aims to give both realistic and deliverable targets for the borough over the next 5 years with achievable housing targets of between 1,500 and 2,000 per annum. This gives an average annual completion rate of 1,750 per annum. This is consistent with but slightly higher than the average level achieved in the last 5 years (1,660) in difficult market conditions, and also higher than the average achieved over the last 10 years (1,560) and 20 years (1,610).

Lower housing targets can be met largely from existing commitments, particularly in the short term (the next 5-6 years) – i.e. from sites that already have planning permission or are allocated in the Adopted Local Plan (2005). This means that the development rates for individual sites are more realistic and no longer need to be reduced to meet expected annual achievable dwelling numbers. At the moment these are the agreed population forecasts to 2019 for the expanded city and the East and West flanks, which include the eastern and western expansion areas.

East Flank: - Broughton & Atterbury, Middleton/Milton Keynes Village, Monkston, Monkston Park, Oakgrove, Eastern Expansion Area (Brooklands & Broughton Gate).

West Flank: - Crownhill, Emerson Valley, Furzton, Grange Farm, Kingsmead, Medbourne, Oakhill, Oxley Park, Shenley Brook End, Shenley Church End, Shenley Lodge, Tattenhoe, Tattenhoe Park, Westcroft, Western Expansion Area.

The population projections were produced by the Milton Keynes Population Model September 2010 using PopGroup and HouseGroup forecasting software. They are shown in detail on pages 22 to 27.

FUTURE POPULATION GROWTH

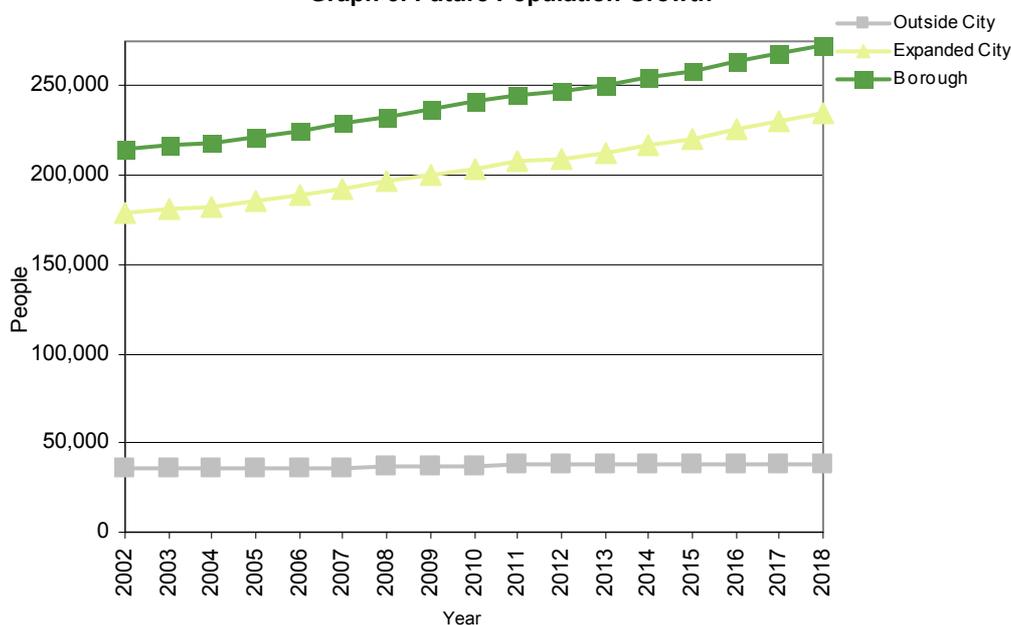

Despite the reduction in the number of dwellings to be built, Milton Keynes is still forecast to continue to grow into the future. This is a combination of natural growth, and in migration. Between 2009 and 2019, over 18,000 houses are anticipated to be built in the Borough, allowing for a projected growth in population of over 40,000 people. See page 21 for the anticipated phasing of this growth. Also, see pages 22-23 for estate/settlement projections, and pages 24 and 25 for the parish and ward figures.

- ✎ The population of the Borough of Milton Keynes is expected to increase by 36,080 people, to 272,740 by the year 2018, an increase of 15% from 2009.
- ✎ The majority of the growth will occur in the expanded city, which will reach a population of over 234,200 by 2018.

Table 8: Future Population Growth

| End of June | Milton Keynes | | Milton Keynes Borough | East Flank | West Flank |
|-------------|---------------|--------------|-----------------------|------------|------------|
| | Expanded City | Outside City | | | |
| 2001 | 177,450 | 35,260 | 212,710 | 3,180 | 23,940 |
| 2002 | 179,050 | 35,340 | 214,390 | 4,080 | 24,920 |

| 2010 | 203,580 | 37,410 | 240,990 | 10,970 | 35,840 |
| 2011 | 207,440 | 37,840 | 245,280 | 11,750 | 36,410 |
| 2012 | 209,220 | 37,880 | 247,100 | 12,550 | 36,780 |
| 2013 | 212,550 | 37,970 | 250,520 | 13,050 | 38,020 |
| 2014 | 216,330 | 38,080 | 254,410 | 13,980 | 39,870 |
| 2015 | 220,500 | 38,200 | 258,700 | 15,150 | 42,040 |
| 2016 | 225,440 | 38,300 | 263,740 | 16,460 | 44,220 |
| 2017 | 230,180 | 38,390 | 268,570 | 17,700 | 46,060 |
| 2018 | 234,210 | 38,530 | 272,740 | 18,750 | 47,840 |

Graph 6: Future Population Growth

COMPONENTS OF GROWTH

The two components of population growth are natural growth and net migration:

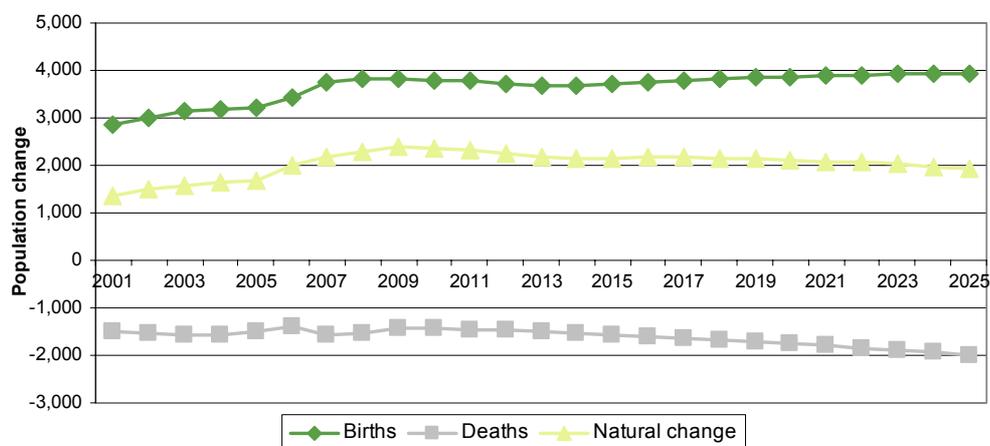

natural growth = total number of births less total number of deaths

net migration = total newcomers less total leavers

Natural Growth

The 2001 census population estimates for Milton Keynes Council area indicate that the growth seen between 1991 and 2001 was at least 28,800 people, a growth rate of 17%. Milton Keynes was the fastest growth area in the South East, and one of the fastest growing in England & Wales, a situation which is forecast to continue.

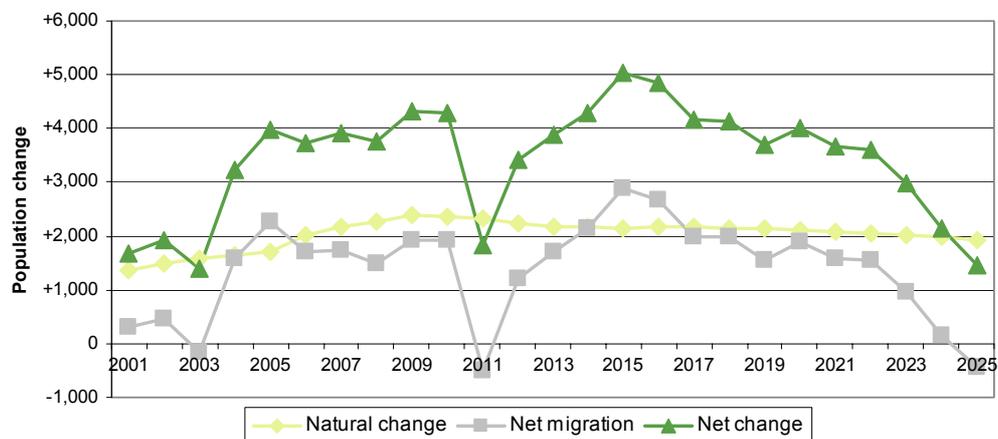

Graph 7: Natural Growth

Net Migration

According to the population estimates, the growth of Milton Keynes is due to the number of newcomers to the Borough generally being greater than the number of leavers, resulting in net in-migration. This is combined with high natural growth. Net migration is set to dip as the house building programme responds to the economic situation. It is forecast to recover by 2012, strengthen to 2016 and then maintain a steady rate before reducing from 2020. The reduced house building targets mean the number of net migrants is never expected to reach 3,000.

Graph 8: Net Migration

POPULATION GROWTH TO 2026

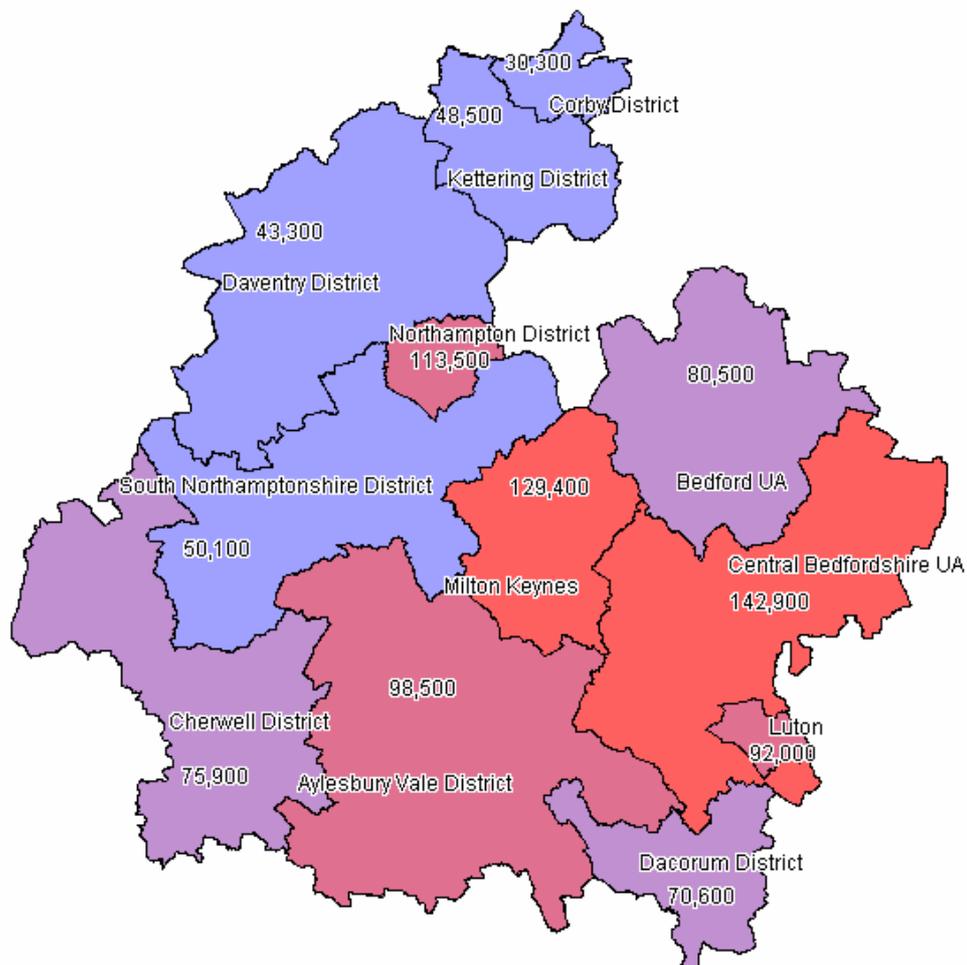

These projections illustrate the aging that will be expected to occur in the population between 2001 and 2026. This will occur independently of the growth. In-migrants, who have a younger age profile, help to offset the impact of the natural population aging. However, even with in-migrants, the population is expected to change such that almost 25% of the population will be aged 60 plus by 2026. This compares to around 14% in 2001.

Table 9: Population Growth by Age – Milton Keynes

| Age Group | Year | | | | | |
|--------------|----------------|----------------|----------------|----------------|----------------|----------------|
| | 2001 | 2006 | 2011 | 2016 | 2021 | 2026 |
| 0-4 | 14,350 | 15,700 | 19,070 | 19,160 | 19,600 | 19,680 |
| 5-16 | 36,630 | 35,680 | 37,350 | 42,470 | 47,420 | 48,460 |
| 17-24 | 21,650 | 22,260 | 22,040 | 22,570 | 22,610 | 25,710 |
| 25-34 | 35,380 | 34,010 | 35,550 | 35,520 | 35,920 | 35,150 |
| 35-59 | 75,670 | 83,660 | 88,840 | 92,820 | 97,900 | 97,650 |
| 60+ | 29,030 | 33,600 | 42,430 | 51,190 | 61,150 | 71,780 |
| Total | 212,710 | 224,920 | 245,280 | 263,730 | 284,590 | 298,430 |

ECONOMICALLY ACTIVE POPULATION IN THE SEMLEP AREA

Map 3: Economically active population in the South East Midlands Local Enterprise Partnership Area

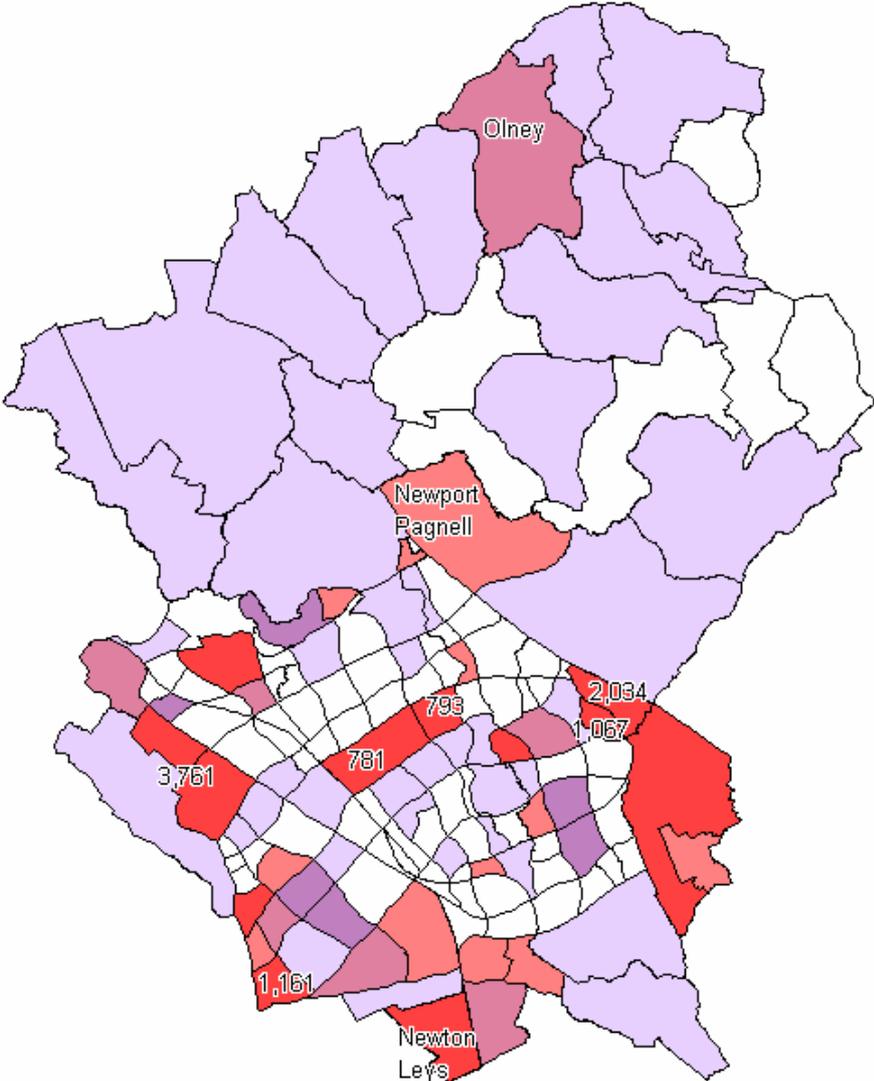

The map opposite shows the geography of the South East Midlands Local Enterprise Partnership, and the estimated economically active population in each authority, as assessed by the Annual Population Survey data July 2009 – June 2010. Milton Keynes and Central Bedfordshire have the highest numbers of economically active residents.

HOUSING GROWTH IN MILTON KEYNES

The map below shows the areas in the city where dwellings are planned to 2019. Planned expansion will occur in the city area, which will form a focus. Other key growth areas are the Western and Eastern Expansion areas. Expansion has begun in the Eastern expansion area (Brooklands and Broughton Gate) in 2008/09 and other areas to the east of Milton Keynes including Monkston Park and Middleton/Milton Keynes Village. Work is likely to start in the Western Expansion Area in 2013/13.

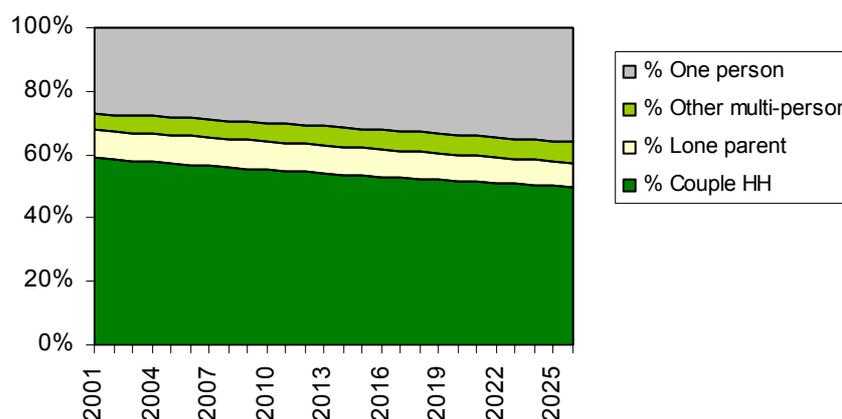

Development is also going ahead in Bletchley, particularly in the Newton Leys development. In the rest of the borough the main settlements of Newport Pagnell and Olney will also see some growth over the same period.

Map 4: Dwellings forecast to 2019

HOUSEHOLDS AND HOUSEHOLD SIZE

Graph 9: Difference in Projected Household Types Over Time

Nationally, average household size has fallen from **3.1** persons in 1961 to around **2.4** persons in 2004 for Great Britain. The decline since the 1970s can be largely attributed to an increase in the number of single person households, itself a result of divorce/separation, the greater economic independence of people enabling them to live alone, as well as an increase in the elderly population and a nationally declining birth rate. However, in spite of the growth of single person households most people in Great Britain live in a family household. In 2004 eight out of ten people lived in a family household, compared to nine out of ten in 1961.

The reduction in household size is set to continue, both nationally and in Milton Keynes. It is notable that the number of single-person households has risen dramatically, accounting for much of the fall in average size. In 1991 only 24% of households in Milton Keynes comprised a single person. By 2001 27% of households were single-person, which accounts for two thirds of the growth in households nationally. Updated forecasts predict that by 2026 over 36% of all households in Milton Keynes will contain a single person. This is more marked in the rural area, where almost 38% of households are expected to be single person. Using these forecasts, the average household size in Milton Keynes is expected to fall to just 2.2 by 2026. This can be understood by looking at the change in household types which has been projected to continue into the future. However changes in the type of property types built, or if a campus university is situated in Milton Keynes, may alter the projected household types.

Growth in Households

Households are derived from dwellings by taking into account household types, vacancy and sharing rates. The number of households in the borough is estimated at 98,590 in 2009 and this is expected to increase by almost 12,000 households, or 12% by 2019. This is a result of a number of factors. These include continued population increase from a net inward migration and high natural growth plus household factors such as a slight reduction in average household size and a reduction in the number of vacant properties.

Table 10: Growth in Households

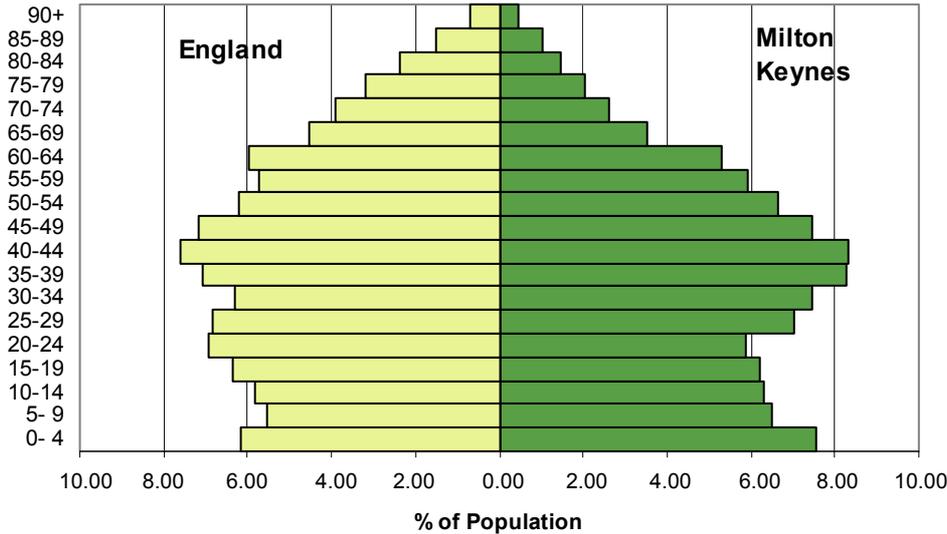

| Household Types | 2009 | 2010 | 2011 | 2012 | 2013 | 2014 | 2015 | 2016 | 2017 | 2018 | 2019 |
|-----------------|--------|--------|---------|---------|---------|---------|---------|---------|---------|---------|---------|
| Rural | 16,500 | 16,630 | 16,780 | 16,930 | 17,060 | 17,180 | 17,300 | 17,430 | 17,570 | 17,680 | 17,790 |
| Urban | 82,090 | 83,180 | 84,320 | 85,400 | 86,430 | 87,480 | 88,510 | 89,600 | 90,670 | 91,690 | 92,710 |
| All Households | 98,590 | 99,805 | 101,100 | 102,330 | 103,480 | 104,660 | 105,810 | 107,040 | 108,240 | 109,370 | 110,500 |

AGE STRUCTURE

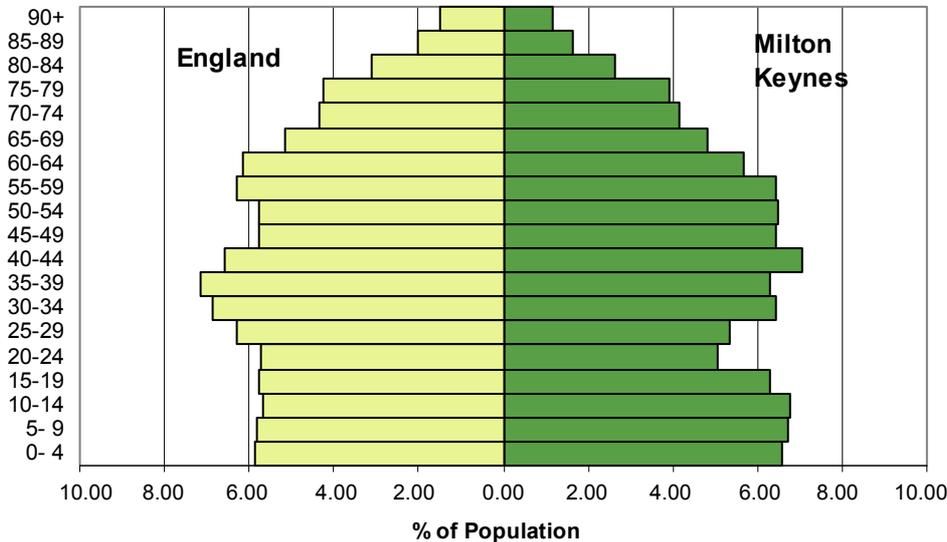

The charts below show the age structure of the population of Milton Keynes Borough in 2009 and 2026 compared with England. The borough's population age profile is younger than that for England as a whole, with half of the borough's population aged 36 years or younger (the median age). Nationally, the median age is 38. The 30-44 year olds in Milton Keynes are the largest proportion of the population. 40-44 year olds are the largest 5-year age group.

By 2026, the borough's population will have changed. The median age will be around 40 years because of migration and births to current residents. The age profile will still be different to that for England, although it will also have a median age of about 40 years. The 40-44 age will still be the single largest age band in the Borough although 35-39 is the largest band nationally. This age band is the only one which will have decreased in number in the Borough. The number of 50-54 year olds will have seen a large increase in the Borough, and the number of over 60 year olds will experience a very large jump. The proportion of the population in all age groups older than 55-59 will have risen as the population profile becomes more similar to that seen nationally.

Graph 10: 2009 Age structure

Graph 11: 2026 Age structure

AGE GROUPS IN THE BOROUGH

The graph below illustrates the changes expected up to 2026 for specific age groups in Milton Keynes Borough. Changes compared with national trends are highlighted below.

Early Years – 0 to 4 years old

The Borough’s number of children in their early years is expected to increase from 17,900 in 2009 to 19,700 in the year 2026, an increase of 10%. The national 2008-based projections show a 7% increase between 2009 and 2026 for the 0 to 4 year olds.

School Age Population

There will be a 26% increase in the number of children aged 5 to 16 in the Borough between 2009 and 2019, and a 33% increase between 2009 and 2026. In contrast, the figures for England show a 8% increase to 2019, and 13% growth to 2026.

Young Adults – 17 to 24 years old

The young adults in the Borough are expected to increase in number from 22,500 in 2009 to 25,700 in 2026, an increase of 14%. The most substantial growth in this age group occurs after 2021. Between 2009 and 2026 national projections anticipate this age group decreasing by 4.6%.

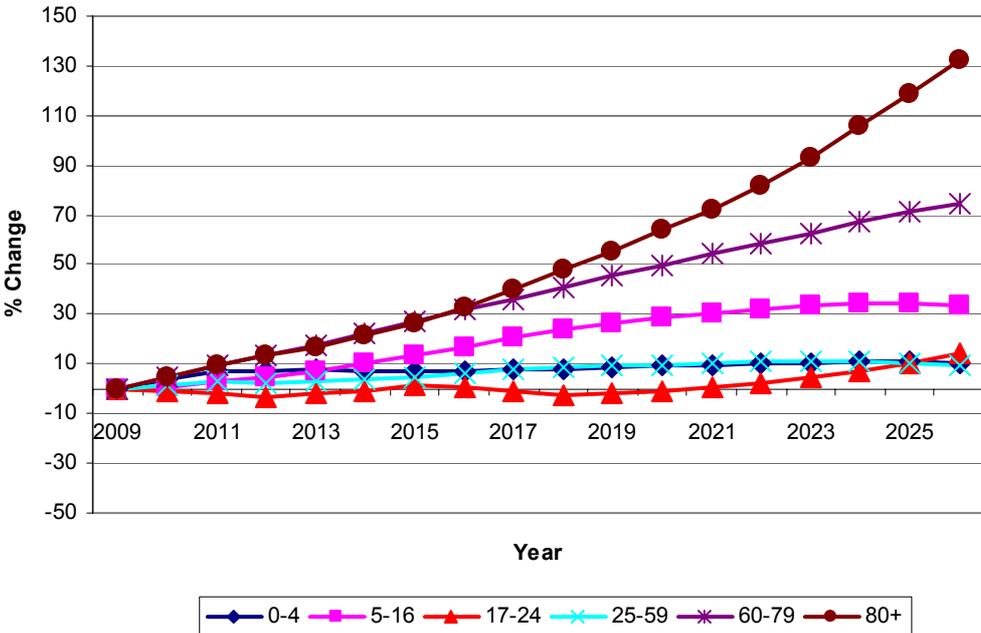

Adults – 25 to 59 years old

The number of people aged 25 to 59 in the Borough is expected to increase over the period 2009 to 2026 from 121,100 to 132,800, a rise of 10%. For England, an increase of 7% is expected over the same period. In Milton Keynes, the percentage growth seen in the 25-34 age group is 2%, and the 35-59 group is 13%. In England, growth of 13% is forecast in the 25-34 group, and 5% in the 35-59 age group.

Older People – Aged 60 and over

In 2009 there were 38,800 people aged 60 and over in the Borough, and this number is expected to increase by 85% to over 71,800 by 2026. The corresponding percentage increase nationally is 34%. In Milton Keynes the older age group, aged 60 to 80, is forecast to grow by 75% in this period. However, the 80+ age group is forecast to increase by over 130%, from 7,000 population to over 16,100.

Graph 12: Percentage change in age groups since 2009 in Milton Keynes

FUTURE HOUSING GROWTH

Table 11: Future Housing Growth in Milton Keynes 2001-2018

| April | Milton Keynes Expanded City | Outside City | Keynes Borough |
|-------|-----------------------------|--------------|----------------|
| 2001 | 72,440 | 14,760 | 87,200 |
| 2002 | 73,870 | 14,800 | 88,670 |
| 2003 | 74,950 | 14,840 | 89,800 |
| 2004 | 76,030 | 14,950 | 90,980 |
| 2005 | 77,260 | 15,080 | 92,340 |
| 2006 | 78,940 | 15,210 | 94,140 |
| 2007 | 80,420 | 15,380 | 95,800 |
| 2008 | 82,490 | 15,620 | 98,110 |
| 2009 | 84,160 | 15,790 | 99,950 |
| 2010 | 85,550 | 15,810 | 101,360 |
| 2011 | 86,380 | 16,110 | 102,490 |
| 2012 | 87,850 | 16,330 | 104,190 |
| 2013 | 89,560 | 16,560 | 106,120 |
| 2014 | 91,430 | 16,710 | 108,140 |
| 2015 | 93,740 | 16,780 | 110,510 |
| 2016 | 95,960 | 16,790 | 112,760 |
| 2017 | 97,700 | 16,960 | 114,650 |
| 2018 | 99,300 | 17,260 | 116,560 |

Table 12: Future Housing Growth in Milton Keynes 2011-2026

| Future Growth | Total | Annual Average |
|----------------|--------|----------------|
| Growth 2011-16 | 10,270 | 2,050 |
| Growth 2016-21 | 9,140 | 1,830 |
| Growth 2021-26 | 6,240 | 1,250 |
| Total 2011-26 | 25,650 | 1,710 |

Please note: Figures are rounded so may not sum exactly.

Housing figures to 2018 are based on agreed forecasts of housing completions. These are as seen on the Revised Core Strategy, published in October 2010. This took the view that the Core Strategy should be 'refreshed' to take into account the revocation of the South East Plan targets. This included the removal of regional housing targets which, in the light of current conditions, were regarded as unachievable by 2026.

In the short term, this focused on putting forward a realistic and deliverable scenario for the development of the Borough over the next 5 - 6 years. The figures to 2026 reflect 'realistic' housing completion rates of averaging 1,750 per year. This is consistent with but slightly higher than the average achieved in the past.

POPULATION GROWTH BY ESTATE & SETTLEMENT

| Settlement | Population at end June | | | | | | | | | | |

| Woughton | 11,650 | 11,900 | 11,950 | 11,800 | 11,750 | 11,700 | 11,600 | 11,550 | 11,500 | 11,450 | 11,400 |
| Milton Keynes | 236,650 | 241,000 | 245,300 | 247,100 | 250,550 | 254,400 | 258,700 | 263,750 | 268,550 | 272,750 | 276,900 |

Official estimates of the total borough population from 2002 were revised in summer of 2010. Parish, ward and estate population estimates are carried out using a different methodology, and therefore may not match perfectly. Ward populations are projected using a full demographic projection including details of the age and gender structure of the population. Estate populations are estimated using dwelling and other local data, constrained to match the total. Parish populations are aggregates of estate populations.

Broughton & Milton Keynes parish will exhibit high growth in population because of the Eastern expansion area. Shenley Church End parish will also show strong population growth, partially because of the Western Expansion Area, which will also influence the growth of Calverton parish. Shenley Brook End parish is also projected to have high growth rate due to the development of Tattenhoe Park estate.

For the wards, Loughton Park ward is currently the largest in terms of population, and is projected to grow by 4,100 people between 2010 and 2019. Middleton Ward is projected to almost double in size to 22,300 people by 2019 to become the largest ward. The growth of the western expansion area means that Stony Stratford Ward is also projected to have a high growth rate.

Note: Future dwelling forecasts are uncertain and are subject to annual review. As a result there are significant differences which may alter again in the future as dwelling completion forecasts are altered.
