Foreword from Dr N. Hicks, Director of Public Health

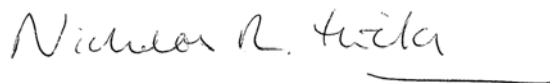

Neighbourhoods matter. They form the backdrop against which people live their lives and have a profound impact on their quality of life.

The Social Atlas brings together a wide range of social and economic indicators that provides a quantitative description of estates across Milton Keynes. Although not the whole picture, this is an up-to-date snap shot of how things are now in relation to education, income, community safety and health and disability. It helps everyone begin to understand the fabric of Milton Keynes and the issues faced by its varied communities.

I hope agencies such as the Council, NHS and Police, whose decisions make such a big difference to neighbourhoods, will use the Social Atlas to understand neighbourhoods and to help them involve residents as they plan services.

As well as being practical tool to help service planning, the Social Atlas is also an important document of record, which chronicles the social and economic changes of this exciting dynamic city.

In summary, the Social Atlas is an important publication that needs to be widely read and used by all those with an interest in understanding the circumstances of the communities in Milton Keynes. I commend it to you.

Dr Nicholas Hicks
Director of Public Health Milton Keynes
Primary Care Trust/Milton Keynes Council

Executive Summary

Milton Keynes as a whole is relatively affluent and most people enjoy a good quality of life but significant numbers of residents experience disadvantage in one or more categories. In the Social Atlas these are divided into indicators around income; children & education; older people; community factors and health & disability.

- **Income**

On average 186 out of 1,000 population in Milton Keynes get housing or council tax benefit, a means tested benefit. The highest rate is 552 out of 1,000 in Beanhill.

- **Children & Education**

There are seven indicators in this category covering a diverse range of topics affecting children. They include family referrals to Children's Social Care where the average across Milton Keynes is 18 per 1,000 population but the maximum is 133 out of 1,000 population in Oakhill. Numbers of children getting free school meals is a traditional indicator of disadvantage that shows a large variation across estates. The average is 11% of pupils with the highest, 50%, in Granby. Other indicators of disadvantage include 3 and 4 year olds who are not in funded nursery places, and children with statements of special educational needs.

As educational attainment has a strong association with future disadvantage, the remaining 3 indicators focus on this. To try to estimate the proportion of young people not going into higher education we look at the proportion of 18-24 year olds not getting student awards. The average across Milton Keynes is 86% but the highest, 100% can be found in Chicheley followed by 98% in Netherfield. The remaining indicators look at educational attainment in schools. Firstly, the proportion attaining below level 4 in Key Stage 2 English. Milton Keynes average is 244 per 1,000 pupils, with great variation across estates. The English average is 210 per 1,000 (test only). Secondly, the proportion gaining less than 5 GCSEs at grade A*-C. The Milton Keynes average is 499 per 1,000 pupils, the highest is 1,000 in 6 estates. The English average is 415 per 1,000 pupils.

- **Older People**

On average 82 out of 1,000 pensioners are clients of Older People's Services.

- **Community Factors**

Community factors include those affecting how people feel about their home environment. There are several different factors in this category including domestic fires; categories of recorded crime; tenure; neighbour complaints and a measure of community involvement.

Domestic fires have been found to correlate strongly with disadvantage. Looking over a rolling 5-year period, on average there were 10 fires per 1,000 dwellings in Milton Keynes from 2001 to 2006. The highest was 118 per 1,000 dwellings in Granby. Crime data has been included for violent crime, burglaries and criminal damage. The highest rates of both violent crime and criminal damage occur in Central Milton Keynes because of the high visitor population.

Considering neighbour complaints to Environmental Health: on average there were 16 complaints per 1,000 dwellings, the highest rate was in Central Milton Keynes with 50 complaints per 1,000.

- **Health & Disability**

There are 5 health and disability indicators listed in the grid profiles, although only 4 of these are used in the calculation of the overall rankings. Teenage conceptions: on average there were 55 conceptions per 1,000 girls aged 15 to 19. The numbers are small so the data is averaged over a 2-year time period. Disabled concessionary fares and clients of disabled services are included as pointers towards areas where the population has a greater need for support. Some of the variations in these factors are explained by the dominant style of dwelling in the estate, for example more bungalows.

The final 2 indicators focus on the crude rate of hospital admissions. The emergency admission rate was 105 per 1,000 population per year. Granby has the highest rate of 305 per 1,000. Non-emergency hospital admissions were included for information; this indicator was not included in the overall rankings.

How Estates Have Changed

The table below shows the 20 estates with the most difficulties (from a range of indicators) in Milton Keynes.

It is possible to make comparisons with some indicators in the previous document. These are:

- Housing/Council Tax Benefits
- Family Referrals
- Children with Special Educational Needs
- Teenage Conceptions
- No Student Awards
- Clients of Older People Services
- Domestic Fires
- Violent Crime, Burglary Dwelling, Criminal Damage
- Neighbour Complaints
- Adult Continuing Education
- Educational attainment indicators
- Disabled Clients of Neighbour Services

Table 1: 20 Estates with the Lowest Overall Ranks from Social Atlas 2007 data

Overall Rank 2006/7 (top 20 of 107)	Estates with Difficulties (Consistently ranked with more difficulties)	Change from previous position	Comment
1	Beanhill	1	Moved up 1 place
2	Netherfield	-1	Moved down 1 place
3	Granby	9	Moved up 9 places
4	Fishermead	4	Moved up 4 places
5	New Bradwell	5	Moved up 5 places
6	Fullers Slade	-2	Moved down 2 places
7	Coffee Hall	-2	Moved down 2 places
8	Conniburrow	3	Moved up 3 places
9	Water Eaton	-3	Moved down 3 places
10	Central Milton Keynes	-1	Moved down 1 places
11	Stacey Bushes	-8	Moved down 8 places
12	Hodge Lea	1	Moved up 1 place
13	Fenny Stratford	1	Moved up 1 place
14	Tinkers Bridge	-7	Moved down 7 places
15	Stantonbury	7	Moved up 7 places
16	Eaglestone	7	Moved up 7 places
16	Peartree Bridge	4	Moved up 4 places
18	Greenleys	-2	Moved down 2 places
19	Heelands	-2	Moved down 2 places
20	Springfield	-2	Moved down 2 places

There have been a number of changes compared with the ranking in the previous year. Beanhill is now ranked as the estate where residents have most difficulties, followed by Netherfield. Granby has moved up significantly, as have Stantonbury and Eaglestone. Stacey Bushes and Tinkers Bridge are the estates that have moved down the ranking most significantly.

It should be remembered that these are relative rankings within Milton Keynes. The number of people requiring a benefit or service may have decreased, but the ranking is determined by the relative position.

Introduction

The purpose of this series of documents is to enable people working towards Social Inclusion to identify:

- the most significant social inclusion issues
- geographic concentrations of need
- the relative severity of social exclusion compared with other areas and the national picture
- a snapshot position
- geographic areas and issues where development of services and initiatives might be focused
- measure change

and to prompt discussion on possible causes of inequality and suggestions for actions to achieve improvement.

The data used are primarily locally collected data, intended to highlight areas with a high need for public services. Earlier work included developing a framework to structure information gathering, along the lines of those used by the government in “Opportunity for All” and by bodies such as the Joseph Rowntree Trust. The framework has the following categories:

- income
- children
- young adults
- adults aged 25 to retirement
- older people
- community factors
- health and disability

The indicators included this year are directly comparable, with the only changes changes in:

- Nursery school uptake for its association with positive outcomes, by expanding the range of nursery providers included.

The ideals restricting choices for indicators are that:

- they should be capable of being collected at ward and/or below ward level
- they should be commonly available across all local authorities
- they should allow for national comparisons
- they should have an acknowledged relationship with disadvantage.

Useful developments since the first document have been:

1. The setting up of the Office for National Statistics website for the Neighbourhood Statistics Service. Extensive amounts of data, from the 2001 census and other administrative data sources, are available at local level at no cost. The site can be found at www.neighbourhood.statistics.gov.uk
2. The development and updating of the Index of Multiple Deprivation, a multi-dimensional indicator available to lower-super output area level, in 2000 and 2004. A further update is anticipated in autumn 2007.
3. The development of floor targets as measures of authority-wide moves to narrow the gap between deprived areas and the national average
4. The development of the Milton Keynes Observatory, a web-based data resource to share, map and visualise data. The web site can be found at: www.mkiobservatory.org.uk

Local Authority Level Data

Floor Targets 2007

Floor targets are indicators aimed at helping government and councils to narrow the gap between deprived areas and the national averages in terms of health, education, crime, employment and housing. They will also identify areas where progress is not being made. They will enable all those involved in neighbourhood renewal to identify priority areas monitor progress and compare themselves with others.

The table below outlines how Milton Keynes compares to the national and regional average. Data coloured in red indicates Milton Keynes data is worse than the national average.

Table 2: Floor Targets 2007, Milton Keynes, South East and England

Indicator	Milton Keynes	England	South East
Economic			
Overall employment rate 2007	81.6	74.6	78.6
Employment rate of lone parents 2004/5	65.7	50.2	56.6
Employment rate of ethnic minorities 2004/5	67.9	58.9	68.7
Employment rate of those aged 50 and over (to 69) 2004/5	63.8	54.6	59.4
Employment rate of those with the lowest qualifications 2004/5	57.4	50.1	55.7
Self Employment Rate 2003/4	11.1	12.4	13.6
Enterprise: VAT registrations per 10,000 adults 2004	50.6	38.2	42.1
Measure of productivity 2001/2	19,178	15,585	20,336
Crime			
Burglary: offences per 1,000 households 2005	10.9	13.8	9.9
Vehicle crime: offences per 1,000 population 2005	14.7	13.5	10.9
Robbery: offences per 1,000 population 2005	1.3	1.9	0.7
Overall crime rate (recorded crime BCS Comparator)	65.2	62.7	52.6
Education			
% of 16 year olds achieving 5+ GCSEs grades A*-C 2006	49.9	58.5	59.5
% of 11 year olds achieving Key Stage 2 Level 4 English 2006	76	79	80
% of 11 year olds achieving Key Stage 2 Level 4 Maths 2006	71	76	75
% of 14 year olds achieving Key Stage 3 Level 5 English 2006	72	73	75
% of 14 year olds achieving Key Stage 3 Level 5 Maths 2006	75	77	79
% of 14 year olds achieving Key Stage 3 Level 5 Science 2006	69	72	75
Health			
Male life expectancy at birth 2004	76.5	76.9	78.1
Female life expectancy at birth 2004	80.2	80.9	81.8
Mortality rate: circulatory diseases 2004	91.5	90.5	75.9
Mortality rate: cancer 2004	130.3	119	111.2
Mortality rate: suicide and undetermined injury 2002-4	5.2	8.5	8.2
Conception rate: under 18's per 1,000. 2004	43.6	42.4	34.1
Transport 2004			
Overall Road accident rate: all casualties (per 1,000 pop)	6.1	4.8	4.7
Road casualty rate: people killed and seriously injured (per 1,000 pop)	0.6	0.6	0.5
Road casualty rate: children killed and seriously injured (per 1,000 pop)	0.4	0.3	0.2
Environment			
% residents satisfied with local parks and open spaces 2003	84	72	76
Abandoned vehicles per 1,000 households 2005	7.6	6	5.8

For more information on floor targets, including other comparator geographies and time series analysis please visit www.neighbourhood.gov.uk

Summary of Indicator Trends

Indicator trend key:

- ✓ data shows improving trend since the 2001 Social Atlas (SA)/2006 data
- ✗ data shows worsening trend since the 2001 SA/2006 data
- data broadly constant (within 10%) since the 2001 SA/2006 data
- ⊖ only baseline data available or insufficient data available to determine a trend

	Trend Since	
	2001	2006
Income Indicators		
Housing/Council Tax Benefit claimants	■	■
Free School Meals Uptake	⊖	■
Children Indicators		
Family Referrals*	✓	✓
Children with Special Educational Needs	■	■
Young Adults Indicator		
18-24 year olds not receiving student awards	■	■
Older people Indicator		
Older People clients of Neighbourhood Services	✗	■
Community Indicators		
Violent Crime	✗	■
Burglary Dwelling	✓	■
Criminal Damage	✗	✗
Domestic Fires	✗	■
Neighbour Complaints	✓	✗
Health and Disability Indicators		
Disabled Concessionary Fares	✓	✓
Disabled Clients of Neighbourhood Services	✗	✗
Emergency Hospital Admissions	⊖	■

Table 3: Summary of Indicator Trends

Note: this definition assumes higher uptake of services is worse, in reality the converse could be true in that more eligible persons are being identified. All comparisons are between rates so are unaffected by population growth.

* Policy changes since the 2001 Social Atlas may have encouraged an increase in the number of Family Referrals.

The Data at Ward Level

Map 1: Milton Keynes Ward Boundaries

Ward Level Data

There are 23 wards in Milton Keynes, as can be seen in the map opposite. Many datasets are available nationally published at ward level. This often allows for national comparisons of data such as those listed below.

Income

- Income Support Claimants Aug-01 & Aug-06: Department for Work and Pensions
- Income Support is a means-tested benefit available to certain groups of people on low incomes.

Children

- Lone Parent Claimants of Income Support Aug-06: Department for Work and Pensions
- Language Needs Indication 2007: MKC Education Department

Young Adults

- Youth Unemployment April 2007: NOMIS
- Income Support August 2006: Department for Work and Pensions.
- Student Award Claimants Sept 2006: Buckinghamshire County Council

Older People

- Pensioner Credit Claimants Aug-06: Department for Work and Pensions
A new benefit for pensioners. Pension Credit has two elements: a 'top up' element to bring pensioners up to a guaranteed income level and a savings credit element which will reward those who have small levels of savings.

Community

- Neighbour Complaints: MKC 2006

Health and Disability

- Life Expectancy 2002-2006 Average: MKC 2007
- Disability Living Allowance Claimants Aug-06: Department for Work and Pensions
Disability Living Allowance (DLA) is a benefit for people Under 65 who have an illness or disability. It provides extra money for people who need help with personal care (the care component) and/or help with walking (the mobility component). It is not means-tested and can be claimed both when in work, or when claiming other benefits.
- Incapacity Benefit and Severe Disablement Allowance Aug-06: Department for Work and Pensions
Incapacity Benefit (IB) is a contributory benefit for people with illnesses or disabilities who are unable to work, and who have made sufficient National Insurance (NI) contributions.
- Health Deprivation and Disability Domain from IMD 2004: Office of the Deputy Prime Minister 2004

Index of Multiple Deprivation 2004

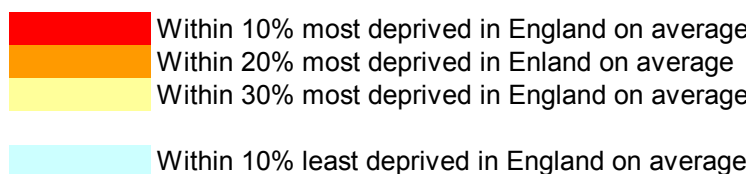

Figures from the 2004 Index of Multiple Deprivation indicate that Woughton Ward has more residents who are more likely to rely on benefits, expect much poorer health, have a lower standard of education and suffer from crime than the average person in England.

Eaton Manor also shows up in some of the indicators especially education, skills and training. Sherington also has issues regarding barriers to housing and services.

Note: an update of this index is expected in Autumn 2007

Table 3: Ward-level average percentile compared to England of Index of Multiple Deprivation 2004

Ward Name	Average IMD Percentile	Average Income Percentile	Average Employment Percentile	Average Health & Disability Percentile	Average Education, Skills & Training Percentile	Average Barriers to Housing & Services Percentile	Average Crime Percentile	Average Living Environment Percentile
Woughton	15.17	14.93	21.33	15.86	10.36	39.38	16.59	73.03
Eaton Manor	26.01	26.79	32.17	32.64	9.77	41.84	27.22	80.78
Campbell Park	36.83	33.83	45.01	40.44	39.40	34.63	25.27	80.31
Wolverton	47.06	40.39	50.55	45.48	32.05	55.07	31.37	52.15
Stantonbury	47.47	49.44	54.22	48.48	37.95	38.21	42.26	79.13
Bradwell	50.04	44.45	56.20	50.84	40.40	43.64	50.74	84.56
Denbigh	56.24	55.49	54.87	52.61	25.30	64.23	51.33	79.13
Bletchley and Fenny Stratford	57.23	52.78	54.82	52.46	35.89	55.01	56.64	71.58
Linford South	57.72	59.57	65.22	52.39	58.70	31.63	49.68	83.22
Furzton	58.57	60.42	75.02	58.77	59.98	29.03	62.92	93.33
Middleton	59.76	57.94	82.92	69.35	59.83	19.19	25.86	93.32
Walton Park	65.11	63.32	79.30	61.30	72.46	33.74	79.91	98.35
Linford North	66.49	61.93	68.70	59.27	64.75	44.94	69.13	91.75
Whaddon	66.77	60.12	74.21	61.04	40.76	46.18	62.95	87.73
Stony Stratford	67.89	63.54	68.85	61.69	56.87	53.97	54.43	79.18
Loughton Park	73.43	65.43	73.19	61.17	70.70	39.27	76.04	94.63
Emerson Valley	73.51	67.32	86.16	63.56	68.17	27.61	73.03	97.73
Newport Pagnell North	75.48	77.96	88.07	73.89	59.65	23.27	81.42	76.25
Sherington	79.45	77.52	89.68	80.82	81.85	7.95	84.35	58.28
Newport Pagnell South	81.45	80.08	87.80	77.22	68.23	56.30	77.60	77.62
Danesborough	87.29	79.60	88.77	74.17	82.79	37.09	68.03	70.38
Hanslope Park	87.78	86.21	86.31	80.81	71.65	36.80	75.58	82.00
Olney	95.31	87.82	95.49	88.80	87.57	41.57	89.49	74.18

Further data can be downloaded from the MKi Observatory. Further explanation of the data can found at www.communities.gov.uk/indices

Using nationally available data, the ward-level perspective can be seen in the following pages.

Unemployment

In April 2007 there were 3,160 people in Milton Keynes claiming Job Seekers Allowance. As a percentage of the working age population in Milton Keynes this is 2.2%.

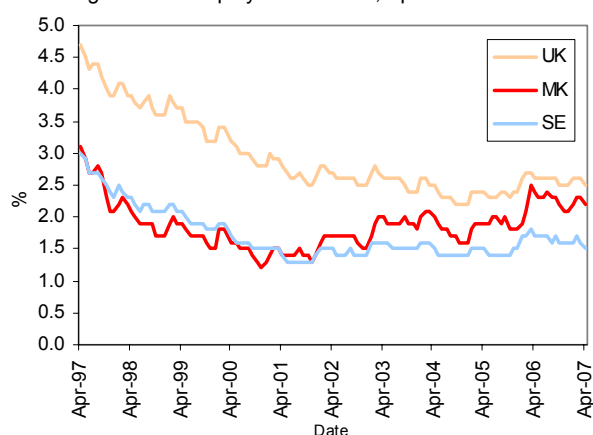

Table 4 to the right shows that Milton Keynes has a lower unemployment rate than other urban areas in the South Midlands. Milton Keynes also has a lower unemployment rate than the national average (2.5%). It has a higher unemployment rate than the South East Region (1.6%).

580 claimants in Milton Keynes had been claiming for more than one year in April 2007, accounting for 18.4% of total claimants. This compares to 15.3% in the South East region and 16.9% in the UK.

Table 4: Unemployment rates for selected areas, April 2007

Region	%
Milton Keynes	2.2
South East Region	1.6
United Kingdom	2.5
Bedford	2.4
Luton	3.2
Northampton	2.7
Wellingborough	2.6

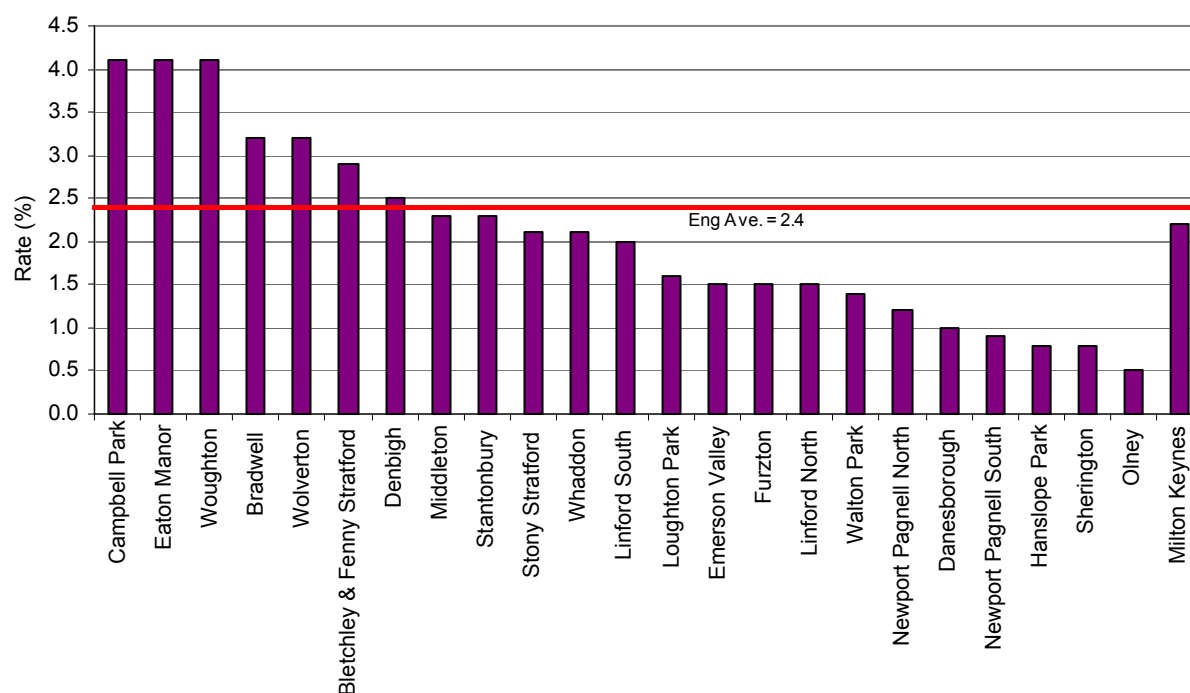

Figure 1: Unemployment Trends, April 1997 - 2007

There were 216 fewer claimants in Milton Keynes in April 2007 than there were in April 2006. This represents a decrease of 6.4%. However, Milton Keynes unemployment rate in April 2007 is higher than the April 2001 rate of 1.4%. Similar trends for unemployment in the South East and the UK as a whole is demonstrated in figure 1. There is a decline in unemployment until 2002 then a levelling off or gradual increase.

As noted above, Milton Keynes does have relatively low unemployment rates. However, there are wards within Milton Keynes which have significantly higher unemployment rates than the national average. The graph below outlines that there are 7 wards in MK with higher unemployment rates than the UK. Woughton (4.1%) Campbell Park (4.1%) and Eaton Manor (4.1%) have the highest unemployment rates in MK. These wards are within the 12% highest ranked wards in the UK. Olney Ward is within the 10% lowest unemployment for wards in the UK.

Figure 2: Unemployment Rates for Milton Keynes Wards, April 2007

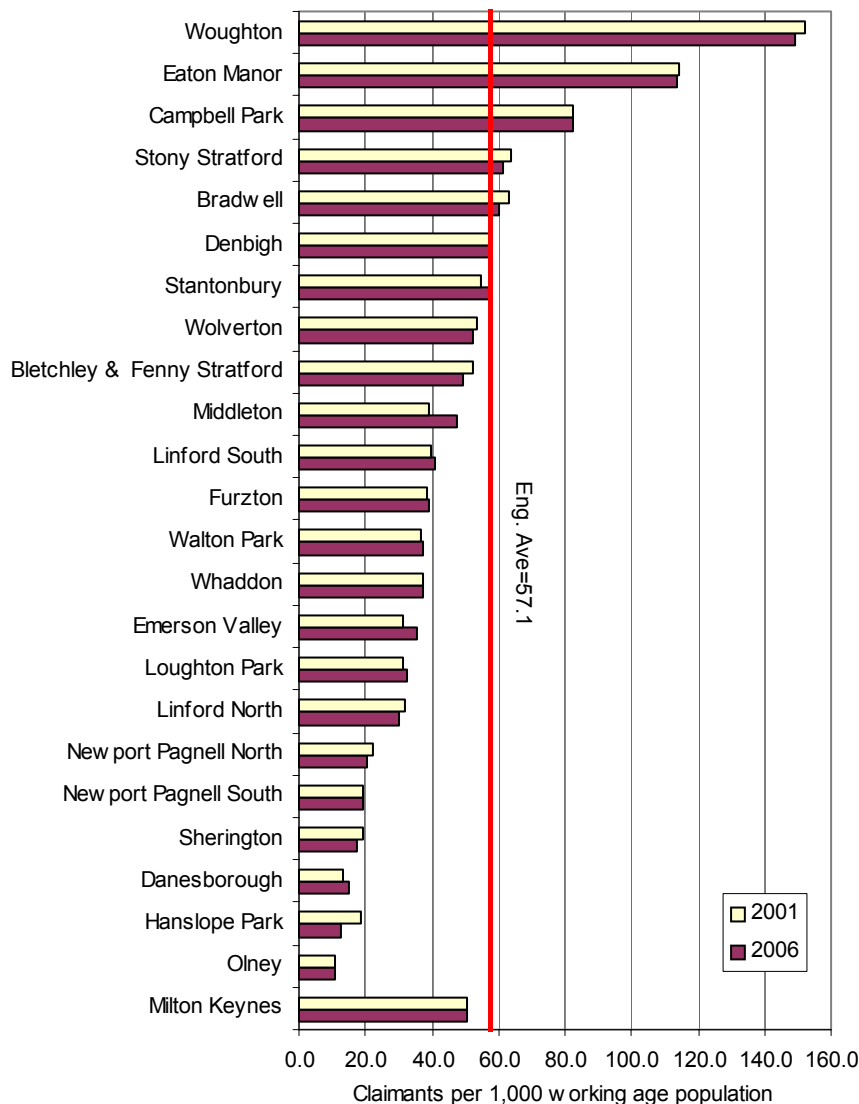

Income

Overall in Milton Keynes a smaller proportion of the population claim income support than for England as a whole. Milton Keynes had a rate of 50.3 per 1000 population compared to 57.1 per 1000 in England.

There is significant variation in the rates of income support claimants between the wards in Milton Keynes. Woughton ward still has over two and a half times the national rate for Income Support claimants per 1,000 population. Estates covered by this ward include Beanhill, Coffee Hall, Eaglestone, Leadenhall, Netherfield and Tinkers Bridge. Eaton Manor and Campbell Park Wards are also significantly above national average rate of income support claimants.

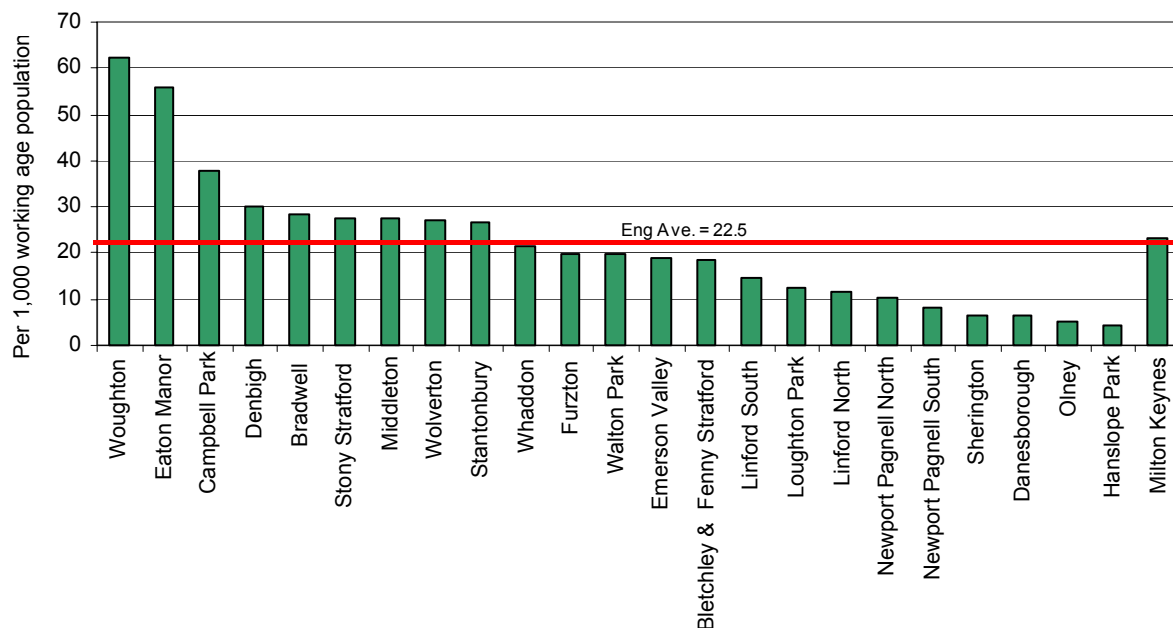

Figure 3: Income Support Claimants for Milton Keynes Wards, August 2001 - 2006

Children

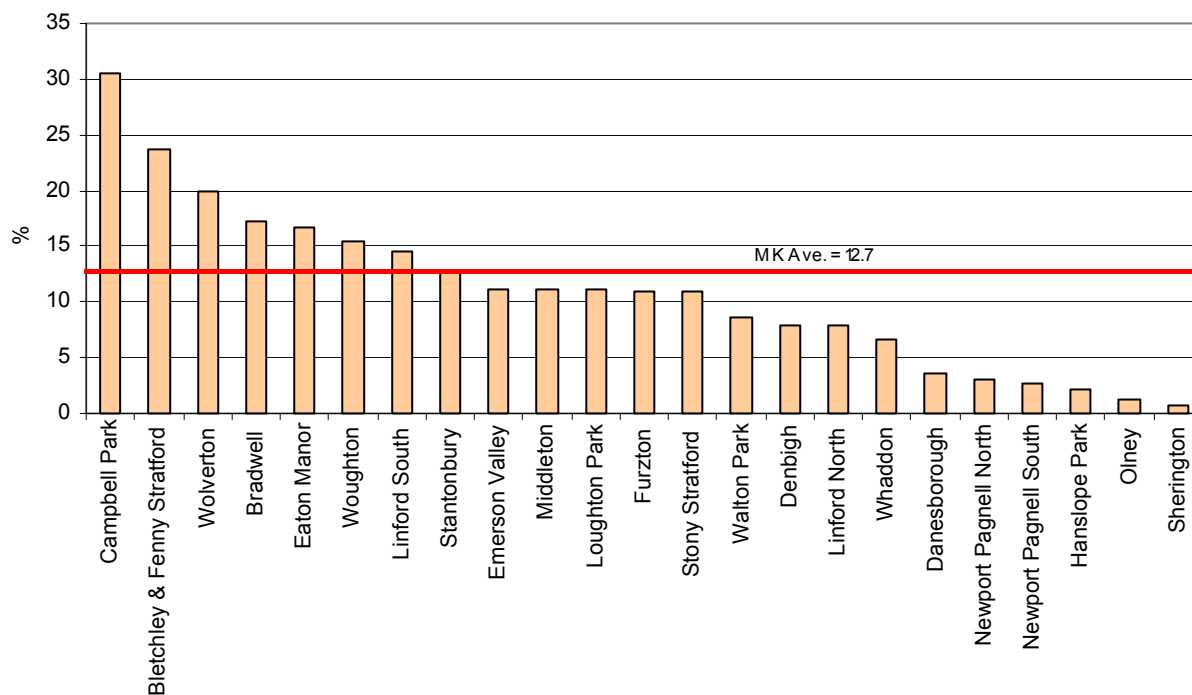

In August 2006, 3,280 Lone Parents families claimed Income Support in Milton Keynes. This is a rate of 23.4 per 1,000 and therefore is slightly higher than that of England as a whole (22.5 per 1,000). There are 9 wards in Milton Keynes which have a higher than the England average of lone parents claiming Income Support. Woughton Ward (62.3 per 1,000) is nearly three times the England average and Eaton Manor (55.8 per 1,000), and Campbell Park (37.7 per 1,000) are still exceptionally high.

Figure 4: Lone Parent Income Support Claimants for Milton Keynes Wards, August 2006

The 2001 Census included data on a 'language needs indicator'. This showed that Bletchley and Fenny Stratford Ward and Campbell Park Ward had the highest proportion of dependent children who live in a household where English may not be the first language. The 2007 Schools Census also collected data on the first language of pupils. Details of this data is shown below and reveals a similar picture.

Figure 5: Language Needs Indication 2007 from Schools Census

The graph above shows that 30% (660) of all pupils living in Campbell Park Ward may have a first language other than English. Bletchley and Fenny Stratford (23.8%) and Wolverton (19.9%) also stand out as having a large proportions of pupils whose first language may not be English. Rural areas on the other hand have very low numbers of pupils whose first language may not be English.

Young Adults

Table 5 shows the number and percentage of 16-24-year olds claiming Job Seekers Allowance in April 2007 and Income Support in August 2006.

The cells marked in orange mean they are higher than the England rate.

Eaton Manor (5.9%) and Campbell Park (5.8%) stand out as having the highest proportions of 16-24 years claiming Job Seekers Allowance. This compares to 4.0% in England.

Woughton (9.9%) and Eaton Manor (9.5%) have double the England average (4.1%) of 16-24 year olds claiming Income Support.

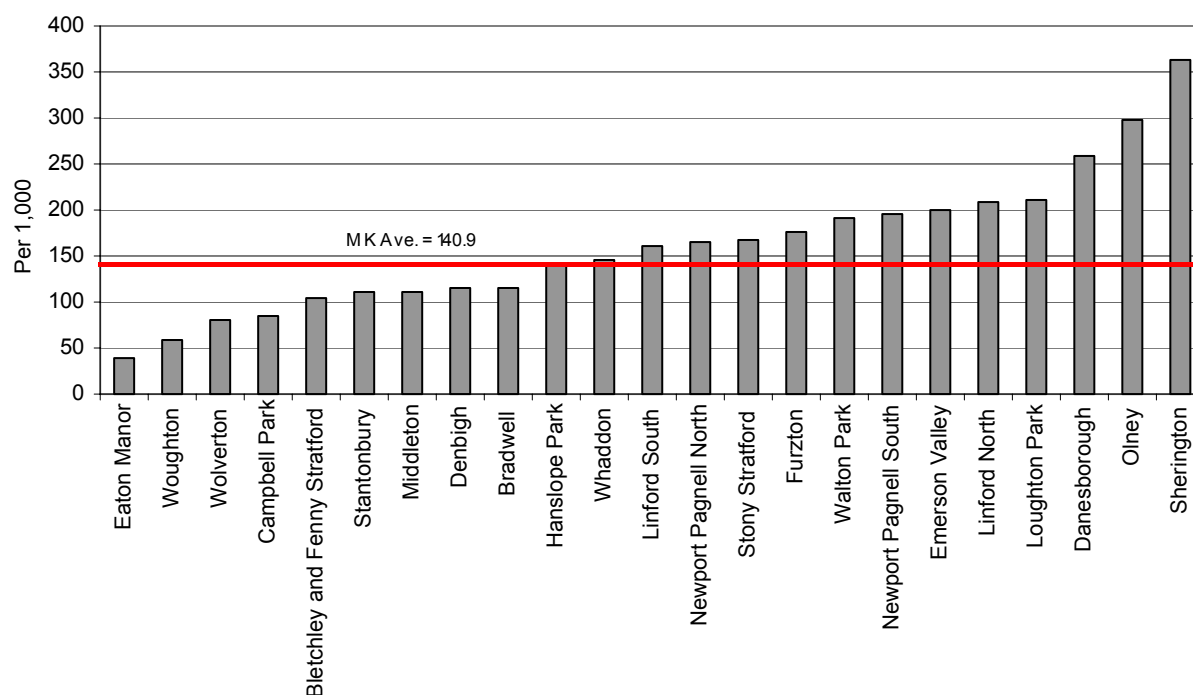

Very low levels of 16-24 years olds claiming Job Seekers Allowance or Income Support occur in the rural areas of Milton Keynes.

Table 5: Youth Unemployment and Income Support Claimant for Wards

	Unemployment		Income Support	
	16-24	Rate	16-24	Rate
Bletchley & Fenny Stratford	55	4.5	50	4.1
Bradwell	80	4.6	80	4.6
Campbell Park	100	5.8	135	7.8
Danesborough	10	2.3	5	1.2

Milton Keynes	855	3.3	1,145	4.5
England	235,240	4.0	244,860	4.1

Figure 6 shows the number of Student Award claimants per 1,000 18-24 years old for wards in Milton Keynes. A significant number of Milton Keynes wards fall beneath the MK average (140.9 per 1,000 18-24 year olds). Wards with particularly low proportions include Eaton Manor (39.2), Woughton (58.9), Wolverton (79.7) and Campbell Park (84.2). The rural wards of Sherington, Olney, and Danesborough have the highest proportions. Within the city Linford North and Loughton Park have the highest proportions.

Figure 6: Student Award Claimants 2007 per 1,000 18-24 year olds

Overseas Migrant Workers in Milton Keynes

From 1st May 2004, 8 Eastern European 'accession states' joined the EU. Many residents of these countries have moved to the UK to seek employment opportunities. A key source of information about the number of these workers moving to Milton Keynes is Worker Registration Scheme data.

Workers from the new member states who find employment in the UK are required to register with the Home Office under the Worker Registration Scheme as soon as they find work. They are then issued with a worker registration certificate, issued for a 12-month period. This proves that they can live and work in the UK while they are working in that job. If they change jobs before the 12 months they have to renew their registration. Once 12 months has been completed under the Worker Registration Scheme they can apply for an EEA Residence permit.

Table 6: Origin of Worker Registration Scheme applicants working in Milton Keynes

Milton Keynes initial applications	Country of origin								
	Czech Rep	Estonia	Hungary	Latvia	Lithuania	Poland	Slovakia	Slovenia	Total
May 04 - Mar 06	55	10	45	30	170	780	70	0	1,160
Percentage	4.7	0.9	3.9	2.6	14.7	67.2	6.0	0.0	100.0
Apr 06 - Mar 07	15	†	20	15	70	795	50	0	960
Percentage	1.6		2.1	1.6	7.3	82.8	5.2	0.0	100.0
May 04 - Mar 07	70	10	65	45	240	1,575	120	0	2,120
Percentage	3.3	0.5	3.1	2.1	11.3	74.3	5.7	0.0	100.0

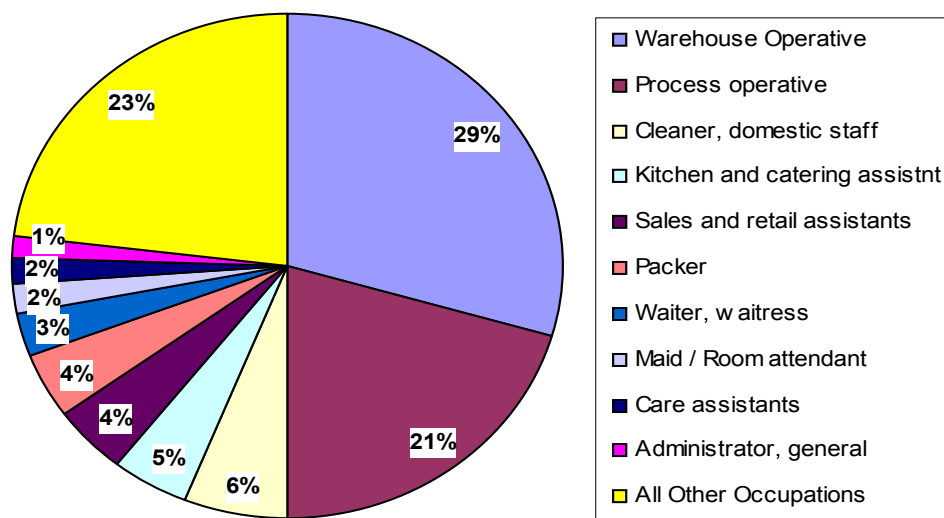

As the table above shows, since the accession states joined the EU a total of 2,120 have registered under the scheme for a workplace address in Milton Keynes.

This does not imply that there are over 2,000 residents from the accession states. The workers may not live in Milton Keynes, for example. We have no information about how long the workers remained with the employer, or in the country.

Of those who knew how long they intended to be in the UK, the majority planned to be here less than 3 months. Research* does indicate however that migrants frequently stay for a longer time period than they had originally intended.

The vast majority of WRS migrants are from Poland - 67% in the 23 months to the end of March 2006 and 83% from April 2006 to March 2007, almost 75% overall. The most common job that migrants came to do in Milton Keynes is 'warehouse operative'; the occupation stated by almost 30% of WRS applicants. A further 21% stated 'other process operative', so factory work attracts more than half of these migrants.

Figure 7: Most stated occupations of WRS applicants

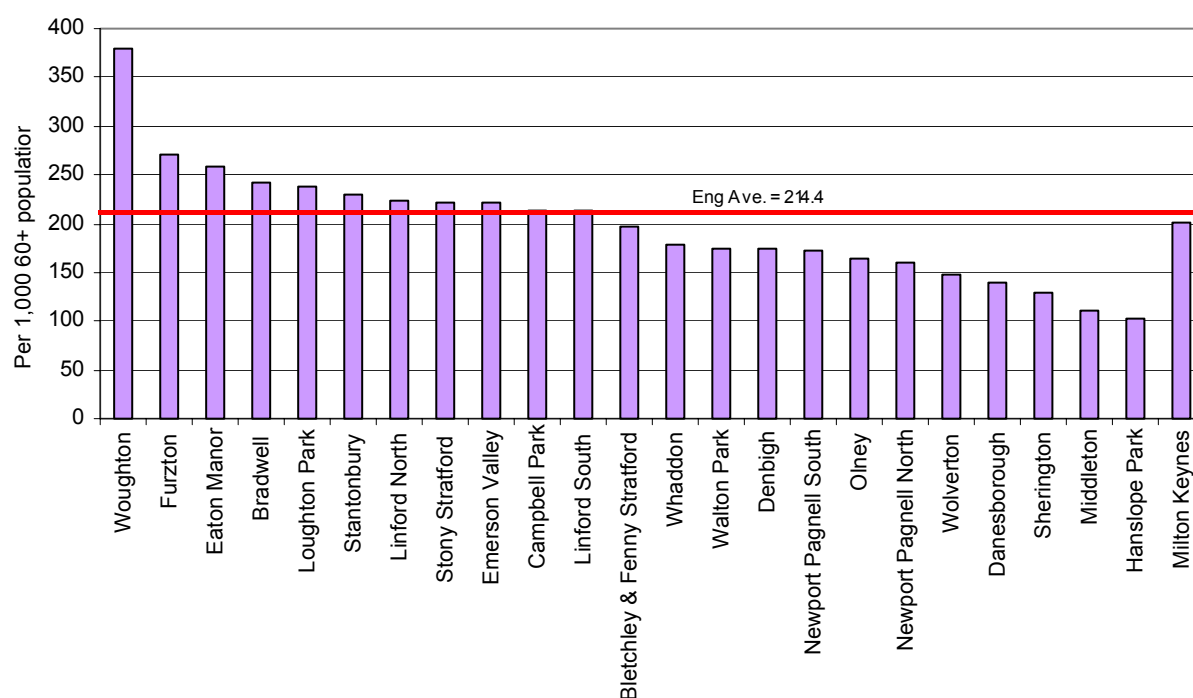

* 'Migrants' lives beyond the workplace: the experiences of Central and East Europeans in the UK' by Sarah Spencer, Martin Ruhs, Bridget Anderson and Ben Rogaly, published by the Joseph Rowntree Foundation, May 2007.

Older People

6,740 people aged 60 and over were in claiming Pension Credit in August 2006. This is 201.8 per 1,000 population age 60 and over, slightly lower than the England average of 214.4 per 1,000.

9 out of 23 wards in Milton Keynes are above the national average with Woughton (380 per 1,000) standing out as significantly higher than the other wards. Furzton and Eaton Manor Wards also have much higher than average numbers claiming Pension Credit.

Figure 8: Pension Credit Claimants for Milton Keynes Wards, August 2006

The **Older People** indicator we have locally, Clients of the Council's Older People Services data, highlight estates such as Westcroft, Hardmead, Lathbury, Westcroft and Great Linford.

Community Indicators

Some data sets are collected locally. These can then be presented at ward level, or at estate level as this is the commonly used geography in Milton Keynes. Estate-level information can help highlight small areas of disadvantage or need. However, it can also have the disadvantage of making a small 'blip' in the data seem more significant than it truly is when it may be just natural variation in the data. Neighbour complaints to Environmental Services are an example of a dataset which can be presented at ward level or at estate level. A ward-level analysis can be seen overleaf, with estate summaries in each estate profile, and also contributing to the overall Social Atlas score and rank.

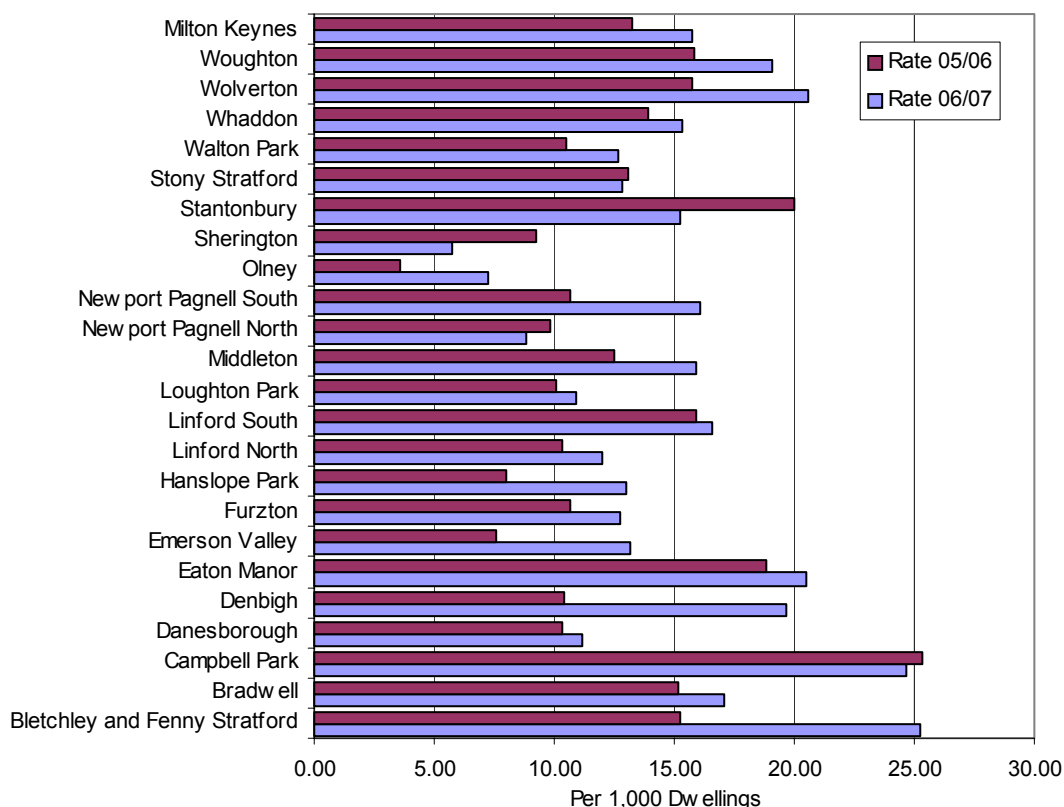

Other community indicators that can be seen at estate level include information on domestic fires and on crimes. These can be seen presented in the estates section of the publication, and in each estate profile. These also form part of the overall score.

Neighbour Complaints at Ward Level

Neighbour complaints are an important tool for assessing the quality of life enjoyed in a neighbourhood. These are complaints by residents about their neighbours made to the Environmental Health service. Historically, the greatest numbers of complaints are about excessive and untimely noise. This year has seen complaints about various causes of noise including construction and street works. The rate of neighbour complaints per 1,000 dwellings has risen since the previous year. Some large differences are apparent when examined at ward level.

The rural areas show generally lower complaints about neighbours, after accounting for the number of dwellings, than the urban areas. Sherington ward has the lowest number of complaints per 1,000 dwellings; nearby Olney is also low but has seen an increase from the previous year. This could be a result of the lower housing density in these areas. Campbell Park and Eaton Manor are wards with consistently high rates of complaints. Wolverton and Bletchley & Fenny Stratford wards have also shown very large increases this year, as has Woughton. Stantonbury ward has seen a large reduction in the number of complaints this year, following a large increase the previous year.

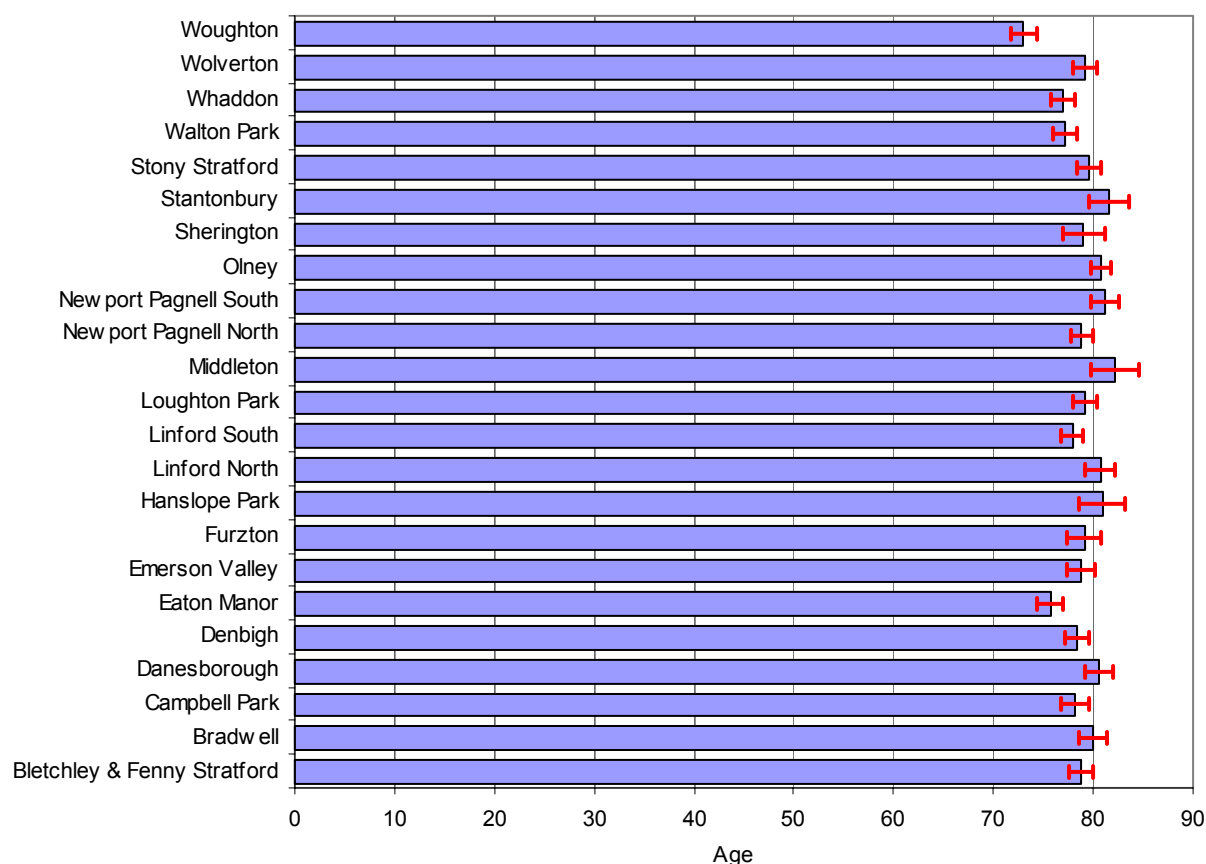

Figure 9: Rate of Neighbour Complaints by Ward per 1,000 Dwellings 2005/6 to 2006/7

Health and Disability

Life expectancy is a focus of national government targets to reduce inequalities in health outcomes. Life expectancy is linked to social circumstances, and despite improvements the gap is large, and in some areas is widening. Specifically by 2010, the target is to reduce the gap in life expectancy at birth, by area, by 10%. Life expectancy at birth does not reflect the life experience of any individual. Instead, it provides a summary of the mortality experience of the individuals living in a particular area, over a period of time. Gaps in life expectancy can be observed between local authority areas. For example, in 2003/2005 in England & Wales a difference of 9.7 years was observed between areas with the highest life expectancy at birth for boys, and areas with the lowest. The gap for girls was 8.1 years. The gaps within these areas can be even wider. The current situation for Milton Keynes can be seen from the chart below.

Figure 10: Persons' Life Expectancy at Birth by Ward, 2002 to 2006 Average

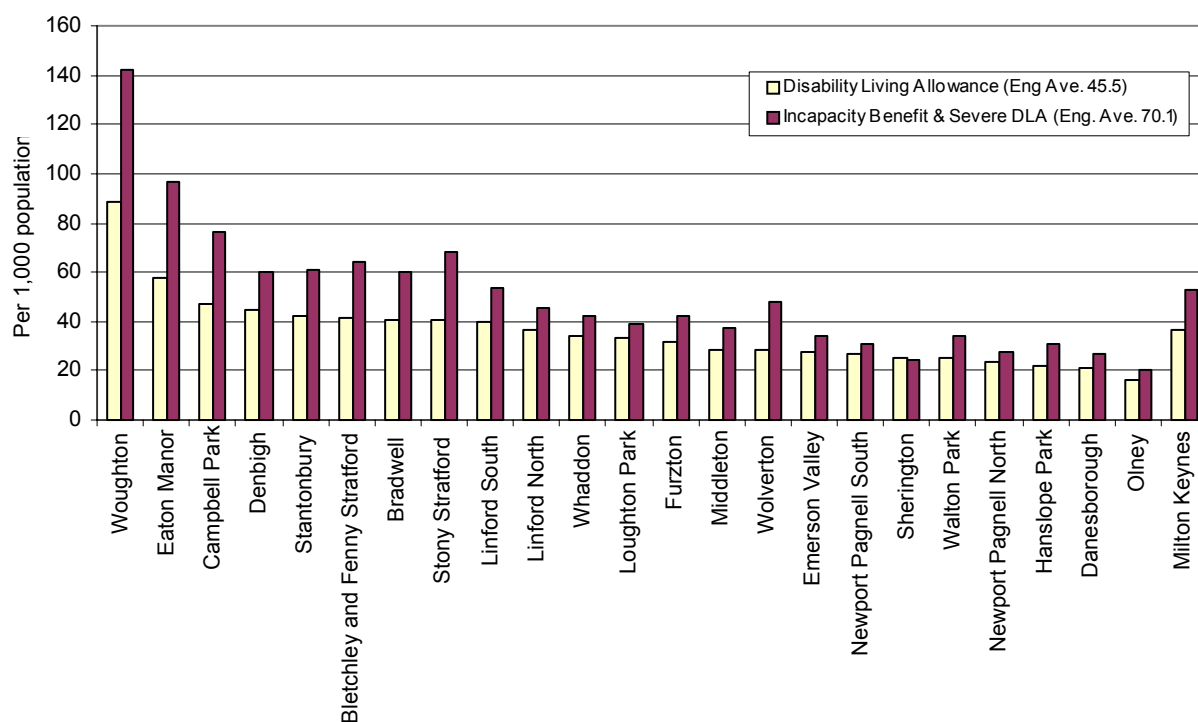

The average life expectancy in Milton Keynes for 2002-2006 was 78.6 years, slightly higher than the previous year although this may be due to statistical fluctuations. The range was 9.2 years, slightly less than the previous set of calculations. Middleton has the highest life expectancy for persons for the third year in succession with a life expectancy at birth of 82.2 years. Woughton has the lowest life expectancy of 73.0 years, but this has risen.

The life expectancy at birth was 76.7 years for males, range 9.4 years. This is higher than previously with a lower range and is equivalent to the 76.8 years average male life expectancy for England & Wales. Middleton had the highest life expectancy for males for the third year of 80.7 years. Woughton has the lowest life expectancy for males of 71.3 years.

The life expectancy at birth for females in Milton Keynes has risen slightly to 80.4 years, and the range has fallen to 9.0 years. This is significantly below the female life expectancy in England & Wales, 2003/2005 which was 81.1 years although these are not directly comparable because of the different time periods covered. Middleton had the highest life expectancy of 83.7 years with Hanslope Park second with 83.5 years. Woughton again had the lowest at 74.6 years, a one-year increase from the previous figure. There is a reasonably high level of consistency between the rankings of life expectancy (the relative position of wards) for the calculations. There is some variation due to statistical uncertainty surrounding such small-area calculations which is to be expected.

Nationally available disability benefits data provide us with results at ward level. Milton Keynes has a lower proportion of residents claiming Severe Disability Living Allowance, Incapacity Benefits and Disability Living Allowance than for England as a whole. Woughton ward is consistently higher than the national average for both disability benefits. It has over twice the average Incapacity Benefit/Severe DLA rate and almost double the average for Disability Living Allowance. Eaton Manor Ward and Campbell Park Ward also have higher than the national average in both benefits.

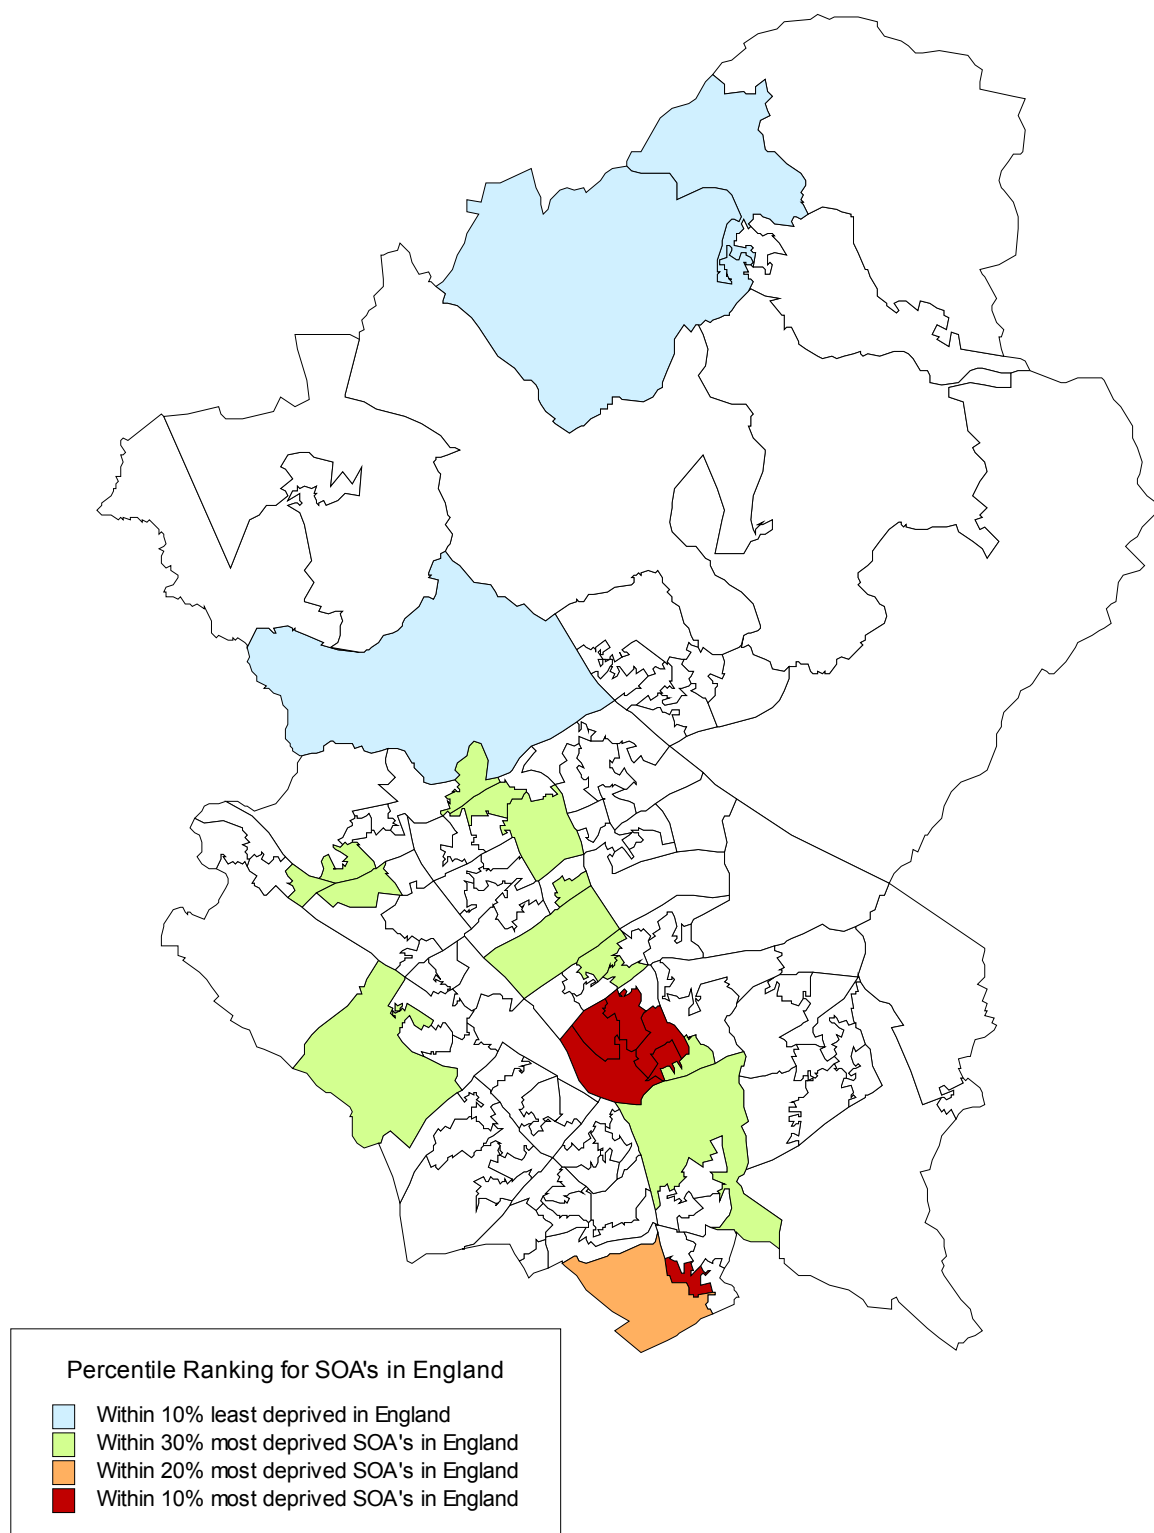

Figure 11: Disability Benefit Claimants for Milton Keynes Wards, August 2006

Local **Health and Disability** indicators such as Disabled Concessionary Fares and Clients of Disabled Services at Milton Keynes Council are useful at looking at health and disability. They have been useful in pointing out several areas of need, such as Beanhill, Coffee Hall, Granby, Willen Park and Stacey Bushes. These can be seen in the estate indicators section.

As the table 3 on page 12 shows, the Index of Multiple Deprivation 2004 outlined deprivation levels relating to Health and Disability. This is at Super Output Area level which is a sub-division of the ward boundaries effective in 2004. The map opposite shows the rank of Milton Keynes's Super Output Areas (SOAs) compared to other SOA's in England. It clearly shows areas in Woughton ward and an area in Eaton Manor Ward as having the most deprivation relating to health and disability in Milton Keynes.

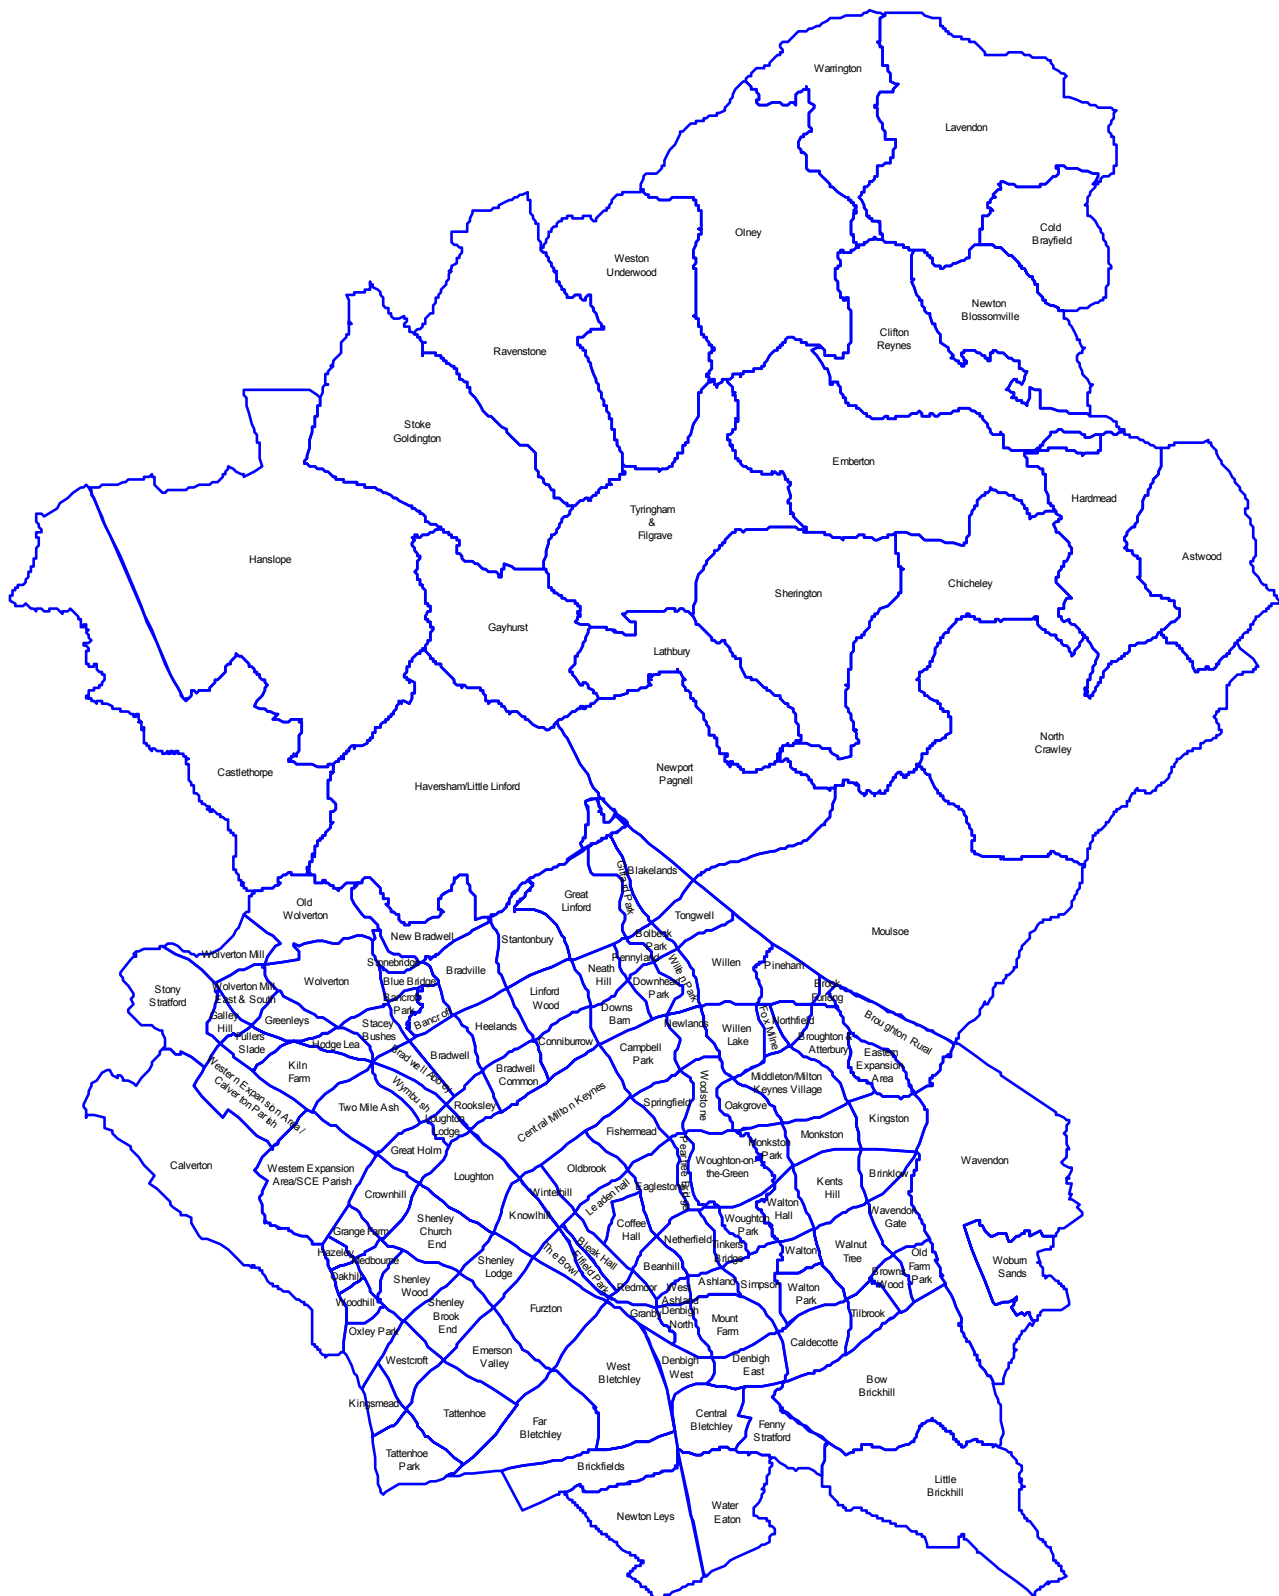

Map 2: Health Deprivation and Disability Domain from IMD 2004

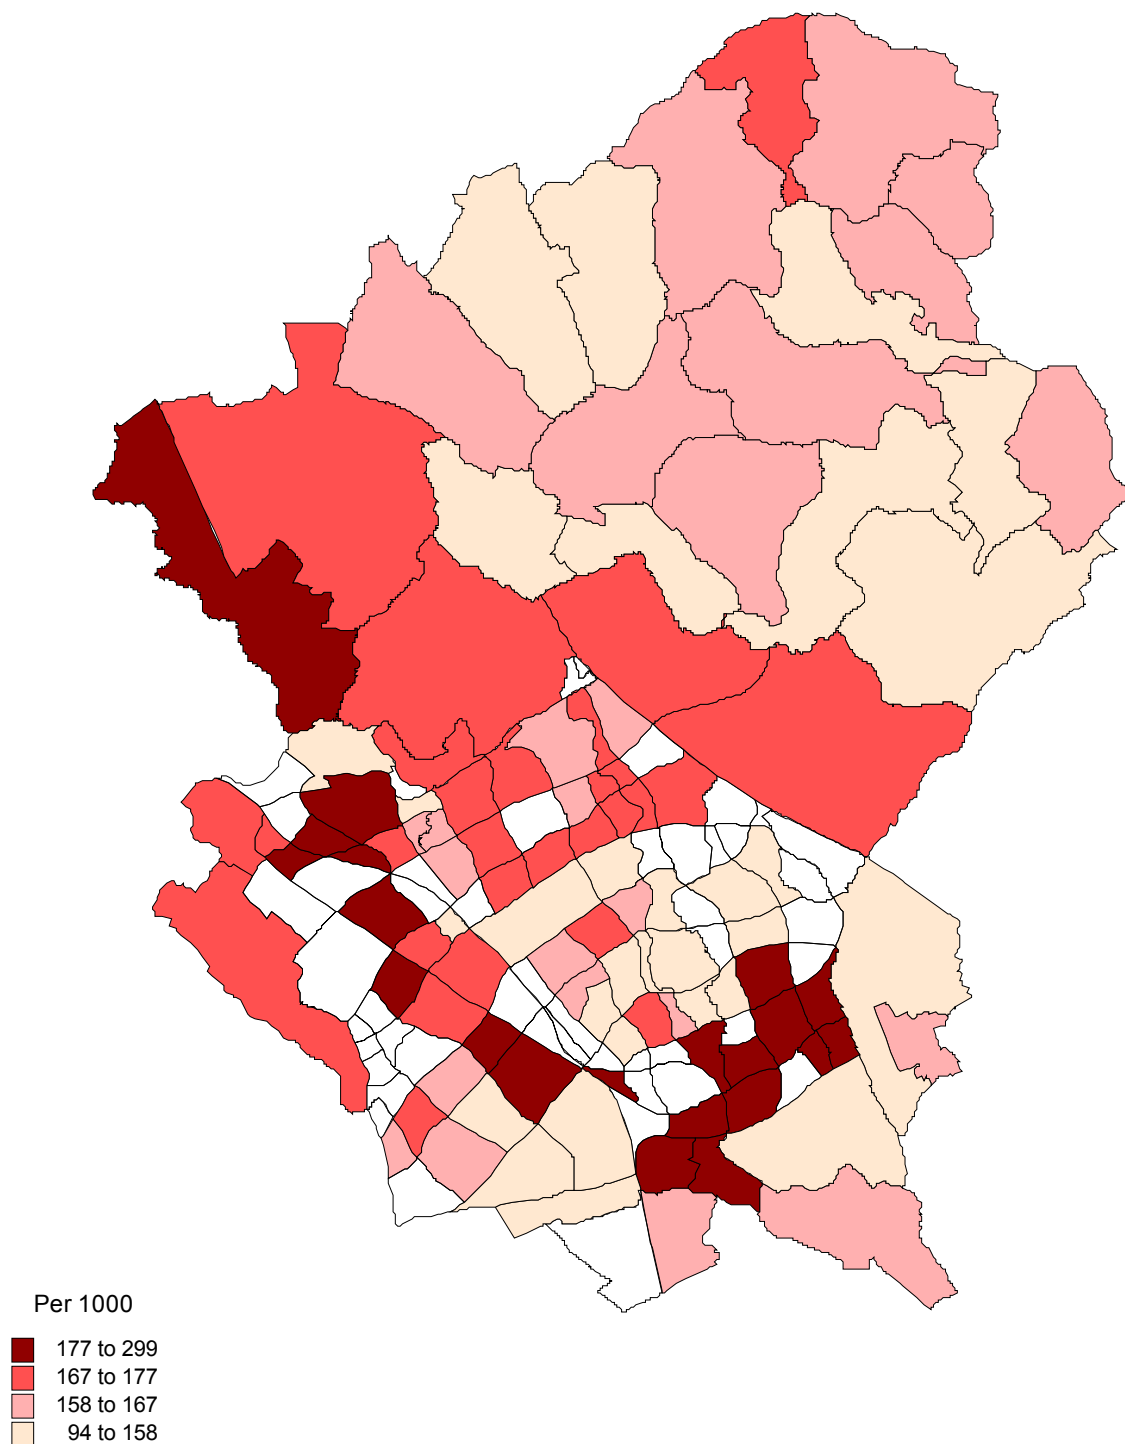

This domain from the Index of Multiple Deprivation identifies small geographic units called Super Output Areas (SOAs) with relatively high rates of people who die prematurely or whose quality of life is impaired by poor health or who are disabled, across the whole population. The indicator is made up of:

1. Years of Potential Life Lost (1997-2001)
2. Comparative Illness and Disability Ratio (2001)
3. Measures of emergency admissions to hospital (1999-2002)
4. Adults under 60 suffering from mood or anxiety disorders (1997-2002)

The Data at Estate Level

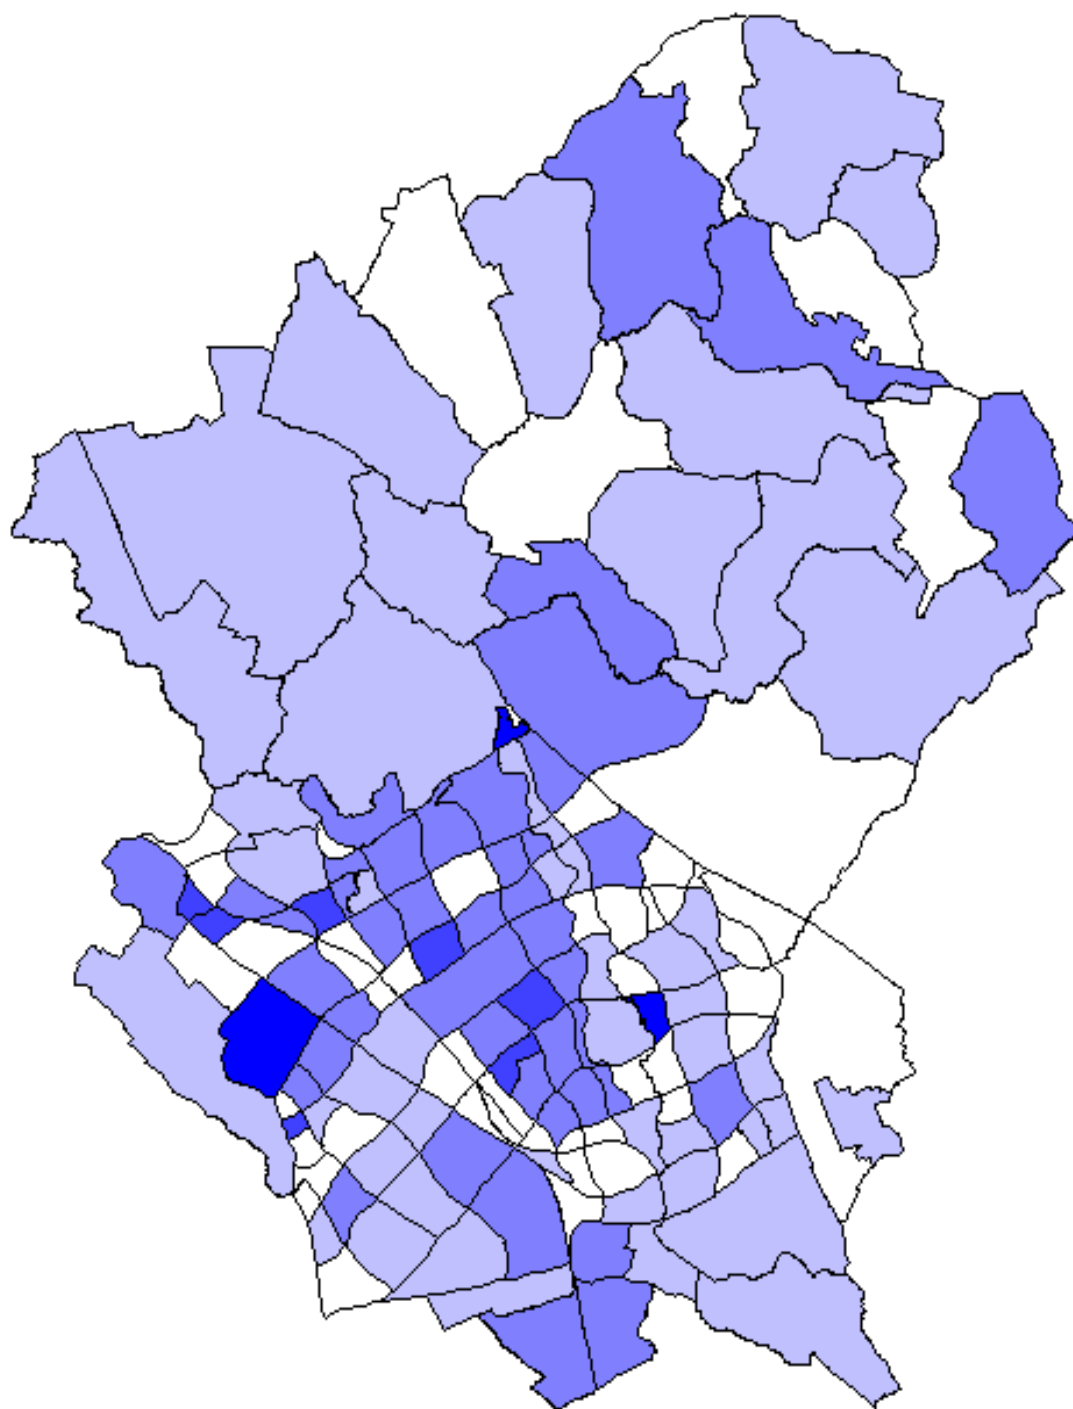

Map 3: Smoking Prevalence estimates by Estate per 1,000 15 plus Population*

* Derived from ward data: ward smokers estimates were calculated based on General Household Survey 2001 national smoking rates in different socio economic classes in Milton Keynes as measured in census 2001. From these ward estimates the population of the estate as proportion of the ward population was used to calculate the estimated numbers of smokers per estate.

Map 4: Smoking Cessation Clients 2004/06 by Estate per 1,000 15 plus Population

Smoking cessation clients by estate
Per 1,000 GP-registered population aged 15 plus

Definitions and Methods

Describing the source of the data used in the estate profiles and how this has been expressed.

Income

Housing/Council Tax Benefit March 2007

Postcoded information on claimants was aggregated to estates/settlements and expressed per 1,000 dwellings. Estates and settlements are then ranked according to this figure. Milton Keynes Average = 186.2 per 1,000 dwellings claim benefit.

Children

Family Referrals April 2006 - March 2007

Counts of families referred to Social Services by estate have been made, and expressed per 1,000 dwellings. Milton Keynes Average = 17.7 per 1,000 dwellings.

Nursery Place Non-uptake 2006

Count of 3 and 4 year olds not attending a nursery or play school. Milton Keynes average = 369.4 per 1,000 3 and 4 year olds.

Children with Special Educational Needs (4 to 18 year olds) March 2007

Postcoded data on children statemented with special educational needs is aggregated and expressed per 1,000 pupils. Estates and settlements are then ranked according to this figure. Milton Keynes Average = 33.2 per 1,000 pupils.

Free School Meals March 2007

Postcoded information was aggregated to estates and settlements and expressed per 1,000 pupils. Estates and settlements are then ranked according to this figure. Milton Keynes Average = 111.2 per 1,000 pupils.

Educational attainment 2006

The proportion of eligible pupils attaining BELOW Key Stage 2 level 4+ in English expressed per 1,000. Milton Keynes average: 244.2 per 1,000 pupils.

The proportion of eligible pupils gaining LESS THAN 5 GCSEs at grade A*-C expressed per 1,000. Milton Keynes average: 499.4 per 1,000 pupils.

Young Adults

18-24 year olds Not Receiving Student Awards September 2006

Postcoded information is aggregated and expressed per 1,000 18 to 24 year olds. Milton Keynes Average = 859.1 per 1,000 18 to 24 year olds.

Older People

Older People Clients of Neighbourhood Services April 2006 - March 2007

Postcoded data on clients is aggregated and expressed per 1,000 pensioners. Estates and settlements are then ranked according to this figure. Milton Keynes Average = 81.6 per 1,000 pensioners.

Community Factors

Domestic Fires Data April 2001 to March 2006

Bucks Fire and Rescue Services postcoded data on domestic fires is aggregated to estates and settlements and expressed per 1,000 households. Milton Keynes Average = 10.3 per 1,000 households over 5 years.

Violent Crime April 2006 - March 2007

Recorded Violent crime at estate and settlement level is expressed per 1,000 total population. Milton Keynes Average = 29.7 per 1,000 people.

Burglary (Dwellings) April 2006 - March 2007

Recorded Burglary of dwellings at estate and settlement level is expressed per 1,000 dwellings. Milton Keynes Average = 11.7 per 1,000 dwellings.

Criminal Damage April 2006 - March 2007

Recorded Criminal Damage is expressed per 1,000 population at estate and settlement level. Milton Keynes Average = 26.2 per 1,000 people.

Social Rented Housing March 2007

MKC Council and Registered Social Landlord rented stock at estate and settlement is expressed per 1,000 dwellings. Milton Keynes Average = 195.3 per 1,000 dwellings

Neighbour Complaints April 2006 - March 2007

Milton Keynes Council Environmental Health postcoded data on domestic nuisance complaints is aggregated to estate and settlement and expressed per 1,000 dwellings. Milton Keynes Average = 15.8 per 1,000 dwellings.

Adult Continuing Education April 2006 - March 2007

Postcodes of clients enrolled in Adult Continuing Education courses were aggregated to estate and settlement level and expressed per 1,000 population not enrolled on ACE. Milton Keynes Average = 970.0 per 1,000 people.

Health and Disability

Teenage Conceptions (Under 20 year olds) January 2005 - December 2006 annualised.

Births and terminations data to teenage girls aged under 20 are aggregated to estate and settlement and expressed as an annual average per 1,000 15 to 19 year old girls. Estates and settlements are then ranked according to this figure. Milton Keynes Average = 54.5 per 1,000 15 to 19 year old girls. Concerns over data volatility mean that extreme caution should be used in the use of this indicator.

Disabled Concessionary Fares March 2007

Postcoded data is aggregated to estate and settlement and expressed per 1,000 population. Milton Keynes Average = 6.65 per 1,000 people.

Health and Disability

Disabled Clients of Neighbourhood Services April 2006 - March 2007

Postcoded data from Neighbourhood Services on teams for Learning disability, Physical disability, Mental Health, Duty Team, Joint Elderly and Mental Health, and the Hospital is aggregated to estate and settlement and expressed per 1,000 population. Milton Keynes Average = 9.3 per 1,000 people aged 18-64.

Emergency Admissions April 2005 - March 2007

The number of Emergency Admissions into hospital are expressed per year per 1,000 population. Milton Keynes Average = 105.1 per 1,000 people.

Non Emergency Admissions April 2005 - March 2007

The number of Non Emergency Admissions into hospital are expressed per year per 1,000 population. Milton Keynes Average = 97.6 per 1,000 people.

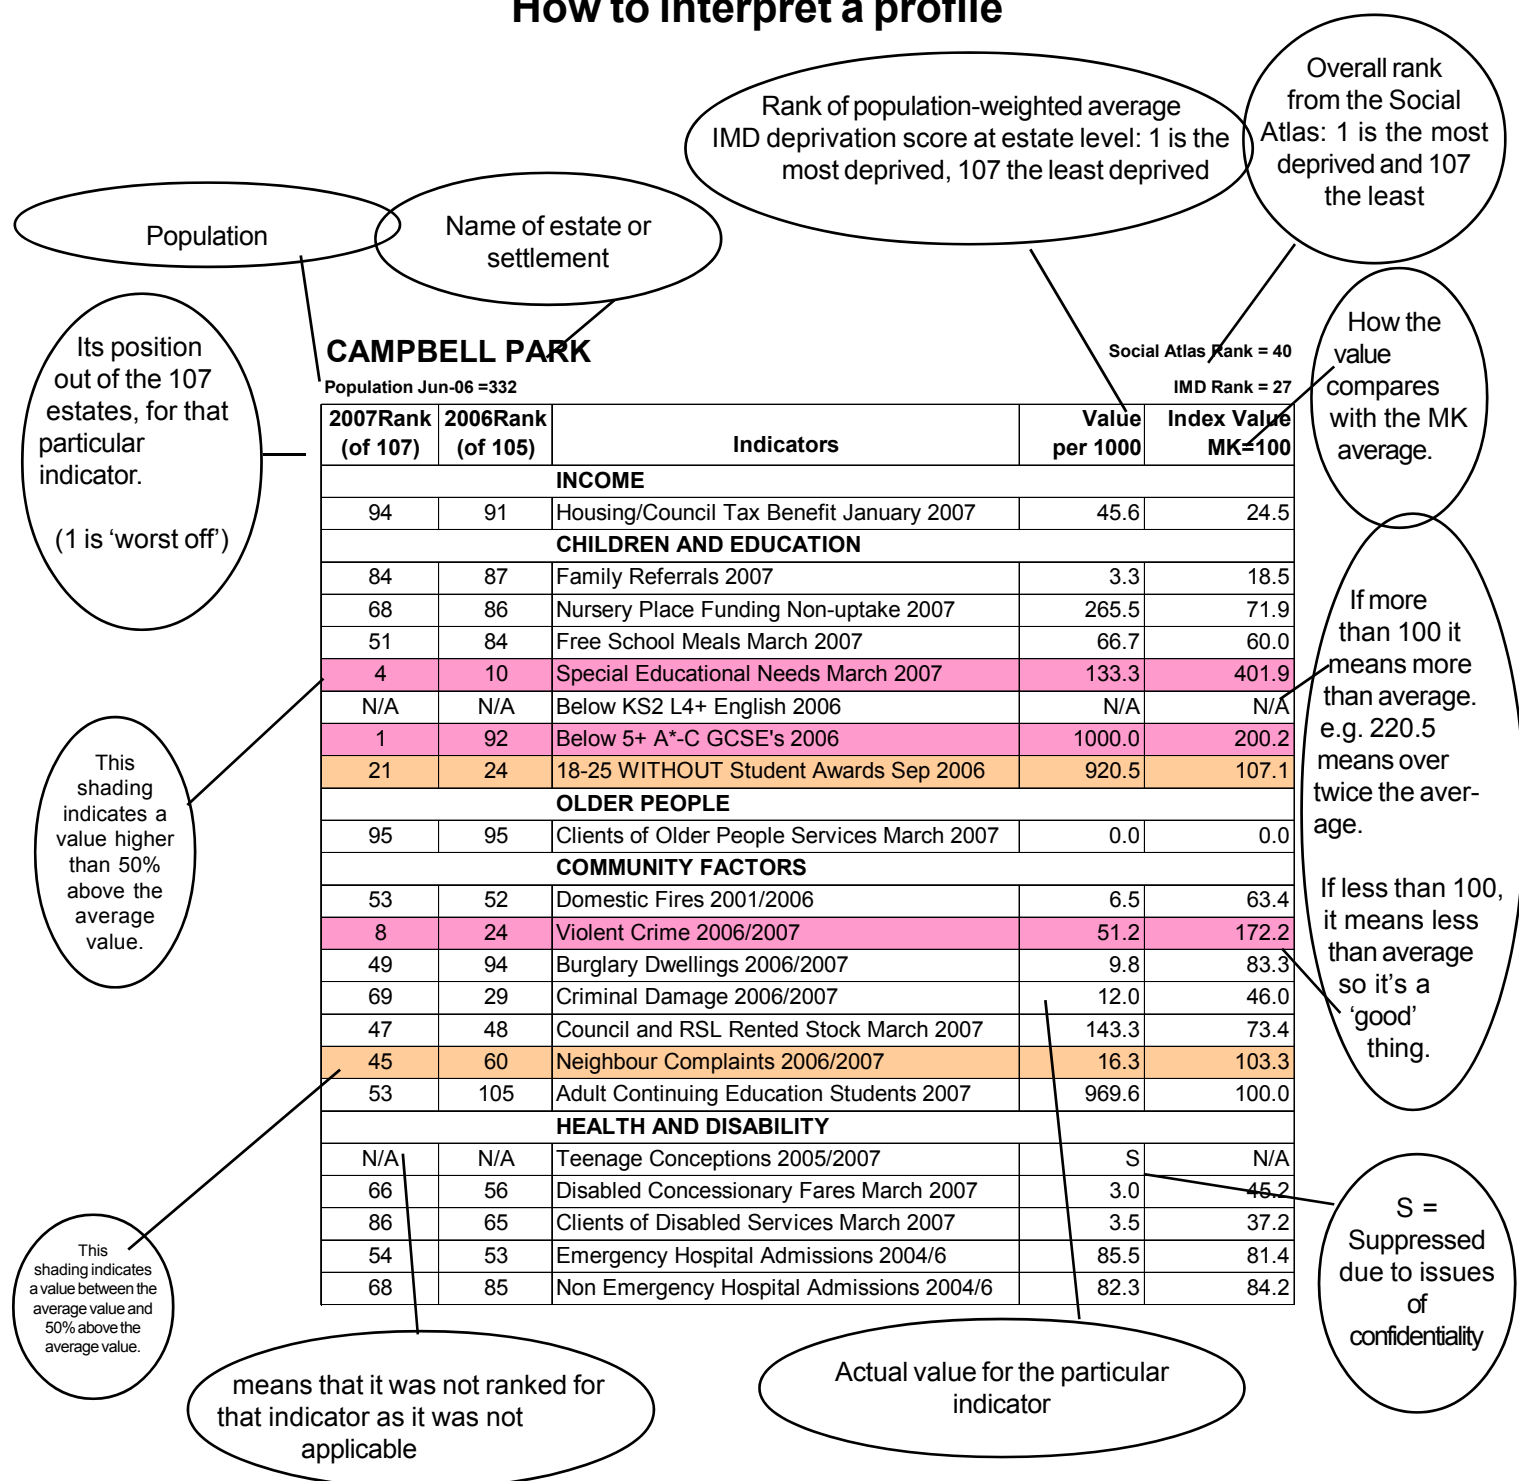

Population Denominators - Population figures used in this publication are estimates from the 2006/7 Population Bulletin. Age specific populations are estimates based on postcoded figures from Bucks Health Authority Patient Registration data from the July 2006 patient register, these figures were then adjusted to match the 2006/7 Population Bulletin figures.

Estate Profiles

The information contained in this atlas is derived from the work done for Milton Keynes Council's Social Inclusion and Health Inequalities Programme. The profiles at estate and settlement level were prepared to highlight the extent of social exclusion in Milton Keynes and its concentration in particular areas, with a view to targeting areas to improve local services and community networks. The intention is to continue to develop using these indicators, so that the effects of any actions tackling the many aspects of social exclusion can be monitored.

For more information contact Dr Nicholas Hicks at the PCT or Kathryn Eames at the council.

How to interpret a profile

Summary of Indicators for Estates and Settlements

Ranks of estates are shown for each indicator

1 = Most 'difficulties'

107 = Least 'difficulties'

N/A = Data not available

OR Very small numbers

Social Atlas for Milton Keynes 2006/2007

Ranks of estates are shown for each indicator

1 = Most 'difficulties'
107 = Least 'difficulties'
N/A = Data not available
OR Very small numbers

Top Twenty estates with difficulties are shaded

	Housing/Council Tax Benefit	Family Referrals	Free School Meals	Special Educational Needs	Teenage Conceptions	Not Students aged 18-24	Older People Services	Domestic Fires	Neighbour Complaints	Council & RSL Rent	Violent Crime	Burglary Dwelling	Criminal Damage	Disabled Concessionary Fares	Disabled Clients	ACE	Emergency Admissions	Pupils not getting 5+ A*-C GCSEs	Pupils not getting KS2 L4+ English	Nursery Uptake
